Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by amending Section 36 thereof, relating to the Fire Department and Sections 35.5 and 35.5½ thereof, both relating to the Police Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held on November 5, 1946, a proposal to amend the Charter of said City and County by amending Section 36 thereof, relating to the Fire Department and Sections 35.5 and 35.5½ thereof, both relating to the Police Department, so that the same shall read as follows:

FIRE DEPARTMENT

Section 36. The fire department shall be under the management of a fire commission, consisting of three members, who shall be appointed by the mayor and each of whom shall receive an annual compensation of twelve hundred dollars (\$1,200). The term of each commissioner shall be four years, commencing at

The commissioners shall have power, upon recommendation of the chief [engineer] of department, to send fire boats, apparatus and men outside the City and County of San Francisco for fire-fighting purposes.

Positions of officers and employees of the fire department legally authorized shall continue, and the incumbents therein legally appointed thereto shall continue as the officers and employees of the department under the conditions governing their respective appointments, and except as in this charter otherwise provided.

The uniformed force of the fire department shall be divided into two platoons, the officers and members assigned to which shall alternate on the tours of duty at intervals of not more than one week. No officer or member, including pilots, marine engineers and firemen of fire boats, shall be required to work more than one hundred and thirty (130) hours in any fifteen day period, nor shall any officer or member be required to [remain on duty for] work more than fourteen consecutive hours except in case of a conflagration requiring the services of more than one-half of the force of the department. Each officer and each member shall be entitled to at least one (1) day off duty during each week.

On the recommendation of the chief [engineer] of department, the commission may reward any member of the department for heroic or meritorious conduct, the form or amount of said award to be discretionary with the fire commission, but not to exceed one month's salary in any one instance.

The chief [engineer] of department, or in his absence any assistant chief [engineer] of department, or in their absence any battalion chief in charge, may, during a conflagration, cause to be cut down or otherwise removed any buildings or structures for the purpose of checking the progress of such conflagration.

In determining years of service necessary for a driver, stoker, tillerman, truckman and hoseman to receive the annual compensation sum of [**\$2,800, \$2,900, and \$3,000,**] *\$3,240, \$3,360, and \$3,480, respectively*, as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed.

The absence of any officer or member of the fire department on military leave of absence, as defined by section 153 of this charter, shall be reckoned a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

[Upon the increased compensation in this section provided becoming effective, section 36.2 shall stand repealed.]

The salary increases herein provided for the respective ranks of the fire department shall be effective and shall accrue on the first day of January, **[1946]** *1947*, notwithstanding any contrary provision of the charter, but the payment thereof may be deferred by the board of supervisors until the beginning of the fiscal year immediately following ratification of this section by the legislature of the State of California.

POLICE DEPARTMENT

Section 35.5. The police force of the city and county shall not exceed one police officer for each five hundred inhabitants thereof. [The minimum annual compensation for police officers, women protective officers, and police patrol drivers, now members of the department or who shall be appointed from eligible lists established prior to January 11, 1943, shall be \$2,800, and further adjustments shall be in accordance with the preceding paragraph.]

In determining years of service necessary for a police officer, woman protective officer and police patrol driver to receive the annual compensations **[sum of \$2,800, \$2,900 and \$3,000, respectively,**] as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed.

The absence of any police officer, woman protective officer, or police patrol driver on military leave, as defined by section 153 of this charter, shall be reckoned

a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

The salary increases herein provided for the respective ranks of the police department shall be effective and shall accrue on the 1st day of January [1946] 1947, notwithstanding any contrary provision of the charter, but the payment thereof may be deferred by the board of supervisors until the beginning of the fiscal year immediately following ratification of this section by the legislature of the State of California.

Section 35.5½ (a) The word "member" or "members" as used in this section shall mean the members of the several ranks in the police department set forth in section 35.5 of this charter.

(b) The basic week of service for each member shall be [forty-eight (48)] forty-four (44) hours and the annual compensation set forth in section 35.5 of this charter shall be based upon said basic week of service.

(c) Each member shall be entitled to *at least* one (1) day off during each week, except as hereinafter provided.

(4) Whenever in the judgment of the police commission public interest requires the services of any member to serve in excess of the basic week of service during any week, the said police commission may authorize the chief of police to permit said service, and said member shall be compensated therefor or shall receive equivalent time credited to him in lieu thereof in accordance with this subsection. For service performed in excess of the basic week, members shall be compensated on the basis of straight time in accordance with the ratio which said excess service bears to the basic week of service and the annual compensation provided therefor in section 35.5, or in lieu thereof equivalent time off duty with pay.

(e) Nothing contained in this section shall be deemed to interfere with a vacation, as provided for in section 151 of this charter, or the normal day off per week; provided, however, that when in the judgment of the police commission public necessity requires the services of any member to serve on his vacation, or part thereof, or normal day off, the said commission may authorize the chief of police to permit said member to serve during said vacation, or part thereof, or normal day off, and he shall receive additional compensation for the period so served. Said additional compensation shall be computed on the basis of straight time in accordance with the ratio which said extra service performed bears to the basic week of service and the annual compensations provided therefor in section 35.5.

(f) The police commission is hereby authorized to require a member or members to work more than [forty-eight (48)] forty-four (44) hours per week in any week when public necessity requires such services, and the member or members

so serving more than **[forty-eight (48)]** *forty-four (44)* hours shall be granted added compensation or time off with pay for said extra service performed.

(g) Nothing in this section shall abridge or limit in any way the provisions of Section 301, Part I, of the San Francisco Municipal Code, approving rule 32 of the civil service commission, insofar as sick leaves and disability leaves for members are concerned.

(h) Whenever in the judgment of the police commission the efficient performance of police duty requires that one or more members of the police department should report for roll call, orders, and assignments, prior to going on duty, the said commission may designate a period not to exceed fifteen (15) minutes in any one day for said reporting, and the said periods of fifteen (15) minutes need not be compensated for in money or in time off with pay.

(i) Notwithstanding the provisions of any of the foregoing subsections, the police commission is empowered to designate certain legal holidays as additional days off with pay for members of the police department and members required to perform police service in said department on said days shall be compensated on the basis of straight time as herein computed or shall be granted equivalent time off duty with pay in the judgment of said commission.

[(j) This section shall become effective on the 1st day of July, 1944, provided the same is ratified prior to said date by the Legislature of the State of California. If not ratified prior to said date, this section shall become effective on the 1st day of the month immediately following the date of ratification.]

Discussion.

Supervisor Gallagher explained the changes therein. In the new proposed amendment, the hours per week for the police are increased from 40 to 44. The hours for the members of the Fire Department are increased from 56 hours per week to 61.7 hours. The number of members of the Police Department has been restored to present charter provision—one member for each 500 inhabitants.

Supervisor Colman objected to voting for the submission of the proposed amendment until he had heard from the two commissions affected. He believed consideration should be postponed for one week for that purpose. No harm could come from such delay.

Supervisor Gallagher reported that he understood the Police Commission would not support the amendment. The Fire Commission was split. One member was supporting the amendment and another member was not. The third member was new on the Commission and did not want to take part either way because he did not yet know enough about the functioning of the department. During the hearing in the Board, minor amendments were made in accord with the wishes of the Police Commission, the Fire Commission and the members of the departments. It is up to the Board to order this amendment submitted. It is in conformity with the Los Angeles and the Oakland provisions. It will be the people, of course, who will decide the ultimate disposition of the amendment.

Supervisor Colman again urged a week's delay. No harm will come from such postponement. He did not desire to vote against submission to the voters, but if compelled to vote at the present time, thus

being denied the opportunity of having the guidance of the commissions, which run the Police and the Fire departments, and the opportunity of discussing the matter with the Mayor, he would have to vote against submission. Thereupon, he moved for a week's time in order to find out the views of the Mayor, and the commissions running the two departments. Motion seconded by Supervisor Mancuso.

Lieutenant James Quigley, on being granted the privilege of the floor, reported that the Police Committee had met with the Police Commissioners earlier in the day, and gave the Commissioners a copy of the proposed amendment. The hours and wages set up in the proposed amendment are exactly the same or less than the hours and wages in Los Angeles at the present time. The Commission gave permission to present the matter to the Board. The Commission has no objection to putting the amendment on the ballot. Endorsement comes after a matter is on the ballot. The president of the Fire Commission has stated that he is giving the amendment most serious consideration in view of the fact that it will give parity with Los Angeles. The Mayor, in his statement, said he had endorsed the carmen's amendment because it was on parity with Los Angeles. He can't well oppose this amendment, because it too gives parity with Los Angeles. The men have gone as far as they will. There is nothing else to be taken away, as far as the Police Committee is concerned. The amendment should be put on the ballot and should be given a number, in order that the members of the departments can conduct their campaigns.

Mr. Robert Callaghan also urged submission. There have been seventeen meetings to discuss this amendment during the past two weeks. The Municipal Conference Committee has never granted the courtesy of a hearing. He urged a favorable vote on submission, without further delay.

Supervisor Christopher announced that ordinarily he would vote for a delay. However, he could not so do in this instance.

Supervisor Colman again urged postponement. He desired to hear from the heads of the two departments most directly concerned, and also from the Mayor.

Thereupon, the roll was called and the motion for a week's continuance *lost* by the following vote:

Ayes: Supervisors Colman, Mancuso—2.

Noes: Supervisors Christopher, Gallagher, Lewis, MacPhee, McMurray, Mead, Meyer, Sullivan—8.

Absent: Supervisor Brown—1.

Thereupon, Supervisor Gallagher moved that the amendment be ordered submitted. Motion seconded by Supervisor Christopher.

Supervisor Colman announced his intention to vote "No" on submission of the amendment, on the grounds that he was not familiar with the amendment; that he had been denied the right of knowing the opinions of the two commissions directly concerned. The Chairman of the Finance Committee has made a statement calling attention to the \$5.55 tax rate. If all the amendments on the ballot carry it would cost ten million dollars, more or less, or \$1.20 in the tax rate, which would bring the tax rate to \$6.75. These matters should be studied, and studied carefully. The commissions might have suggestions which would be constructive that the Board might be glad to take, and which the firemen and policemen might be glad to take. He believed it was his duty, because of the meager information he had, to wait and know what he was doing. He regretted it very much, but he would have to vote "No" unless a postponement were granted.

Supervisor Mancuso stated that he would vote for submission because he felt that should be done. However, he believed the Board had made a mistake in not granting the request for a week's postponement.

Following suggestion that the amended charter amendment was a new matter and could not be ordered submitted on the day of its introduction, without reference to committee, except by unanimous consent of the Board, Supervisor Gallagher moved suspension of the rules, as provided for in Rule 67 of the Rules of Order of the Board of Supervisors of the City and County of San Francisco.

The Chair ruled that section did not apply to the present case.

Supervisor Colman requested the Chair to check on Rule 16, which provides that "No proposal shall be considered or adopted by the Board on the day of its introduction or presentation, and without reference to committee, except by unanimous consent of the Supervisors present."

The Chair ruled that a charter amendment was a proposal.

Supervisor Gallagher announced that he would appeal from the decision of the Chair. The charter amendment was not legislation. The Board was not enacting anything, but merely submitting it to the people of San Francisco for their action.

Supervisor Christopher referred to Rule 19, entitled "Right of Board to Amend Proposed Legislation," and pointed out that the subject matter was not new, but had been before the Board previously.

Supervisor Gallagher contended that the charter amendment he was proposing was the same as that previously presented and considered by the Board, with the exception of hours.

Thereupon, the Chair stated that Supervisor Gallagher was correct, and that Rule 19 covered the matter. He suggested that Supervisor Gallagher withdraw his motion.

Supervisor Gallagher, with the consent of his second, withdrew his motion.

Mr. Peddicord, having been requested to advise the Board, stated that if the Board should amend Rule 16, which was substantially taken from the Charter, Section 13, it would be in a position to act. In Section 13 of the Charter, in the phrase beginning "No other resolution," the court has ruled that the word "resolution" should be read "ordinance." Accordingly, by suspension of Rule 16, the Board could act.

Thereupon, Supervisor Gallagher moved that Rule 16 be suspended.

Thereupon, the Chair, Supervisor Lewis, announced that he had no objection to suspension of Rule 16. However, he would vote "No" on submission.

Supervisor MacPhee stated that he was concerned with the question of legality of the Board's procedure. He had originally intended to propose to have a meeting on Friday for the purpose of having the Board sit as a Committee of the Whole to consider a charter amendment for the City Planning Commission. That was discussed in Judiciary Committee meeting during the previous week.

Thereupon, Supervisor Gallagher withdrew his motion for suspension of Rule 16.

Supervisor MacPhee then moved that the matter under consideration be postponed until Friday, September 20, 1946, at 2:00 p. m., at which time the Board of Supervisors would hold a special meeting to consider the matter.

Supervisor Gallagher moved that when the Board finishes its day's business, it adjourn to reconvene on Friday, September 20, 1946, at 2:00 p. m.

No action.

Supervisor MacPhee moved the proposed charter amendment be referred to Judiciary Committee.

No objection, and so ordered.

Supervisor Gallagher resumed the chair.

**Construction, Reconstruction, and Repair of Public Buildings,
Streets, Utilities or Other Public Works or Improvements.**

Supervisor Mead presented proposed charter amendment relating to contracts for construction, reconstruction and repair of public buildings, streets, utilities or other public works or improvement.

Referred to Judiciary Committee.

Action Rescinded.

Supervisor MacPhee announced that it would be necessary to rescind action heretofore taken on September 10, 1946, whereby amendment to Section 151.3 of the Charter, Basis of Standardization of Compensations of Certain Employees (Carmen) was ordered submitted to the voters, and he would so move. Motion seconded by Supervisor Mancuso and *carried* by the following vote:

Ayes: Supervisors Christopher, Lewis, MacPhee, Mancuso, McMurray, Meyer, Sullivan—7.

Absent: Supervisors Brown, Colman, Gallagher, Mead—4.

Substitute Proposed Amendment Presented.

Thereupon, Supervisor MacPhee presented substitute for the amendment to Section 151.3 of the Charter, on which the previous action had been rescinded, and moved approval thereof. Motion seconded by Supervisor Mancuso.

Amendment approved by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer Sullivan—10.

Absent: Supervisor Brown—1.

The Chair then ruled that the amendment was *referred to Judiciary Committee.*

**BASIS OF STANDARDIZATION OF COMPENSATIONS OF
CERTAIN EMPLOYEES**

Supervisor MacPhee presented:

CHARTER AMENDMENT No.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending section 151.3 relating to the basis of standardization of compensations of certain employees.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by amending section 151.3 thereof relating

to the basis of standardization of compensations of certain employees, which shall read as follows:

NOTE—*Italics* indicates amendments; **blackface** in brackets [] indicates deletions.

BASIS OF STANDARDIZATION OF COMPENSATIONS OF CERTAIN EMPLOYEES

Section 151.3. Notwithstanding any of the provisions of section 151 or any other provisions of this charter, whenever any groups or crafts establish a rate of pay for such groups or crafts through collective bargaining agreements with employers employing such groups or crafts, and such rate is recognized and paid throughout the industry and the establishments employing such groups or crafts in San Francisco, and the civil service commission shall certify that such rate is generally prevailing for such groups or crafts in private employment in San Francisco pursuant to collective bargaining agreements, the board of supervisors shall have the power and it shall be its duty to fix such rate of pay as the compensations for such groups or crafts engaged in the city and county service. [The rate of pay so fixed by the board of supervisors shall be effective at the beginning of the next succeeding fiscal year providing the civil service commission has so certified such rate of pay to the board of supervisors on or prior to the first day of April preceding.] *The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided, that the civil service commission shall review all such agreements as of July 1st of each year and certify to the board of supervisors on or before the second Monday of July any modifications in rates of pay established thereunder for such crafts or groups as herein provided. Should the budget estimates for the several departments be filed with the controller or transmitted to the mayor before [said] any such report of said civil service commission is received by the board of supervisors, the head of each department affected by [said] such report may amend its budget estimate to comply with the provisions of [said] such report. No report made by the civil service commission as in this section provided, subsequent to the first day of April of any fiscal year or any action of the board of supervisors based on such report, shall be effective until the beginning of the second succeeding fiscal year.]

Notwithstanding the provisions of section 151 or any other provisions of this charter the wages of platform employees and bus operators of the municipal railway shall be determined and fixed, annually, as follows:

(B) *The board of supervisors shall thereupon fix wage schedules for platform employees and bus operators of the municipal railway which shall be the*

average of the two highest wage schedules so certified by the civil service commission; provided, if the average of the two highest wage schedules shall be less than the rates of pay fixed for such service in the salary standardization ordinance adopted by the board of supervisors on March 18, 1946, the board of supervisors shall fix wage schedules for such service which shall be the same as the rates fixed for such service in the said ordinance;

(C) When, in addition to their usual duties, such employees are assigned duties of instructors of platform employees or bus operators they shall receive twenty (20c) cents per hour above the rates of pay fixed for platform employees and bus operators as herein provided;

(D) The rates of pay so fixed for platform employees and bus operators as herein provided shall be effective from July 1st of the fiscal year in which such rates of pay are certified by the civil service commission;

(E) Platform employees and bus operators shall be paid one and one-half times the rate of pay fixed as herein provided for all work performed on six days specified as holidays by ordinance of the board of supervisors for such employees.

Within thirty days after the ratification of this amendment, the board of supervisors shall fix wage schedules for the fiscal year 1946-1947 for the crafts and groups subject to the provisions of this section and which wage schedules shall be effective commencing July 1, 1946.

Not later than the 25th day of July in each year the board of supervisors shall have power and it shall be its duty, subject to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

Notwithstanding any other provision of this charter, not later than thirty days after the effective date of this amendment, the board of supervisors shall have power and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1946-1947 to include the provisions necessary for paying from July 1, 1946, the rates of compensation fixed by the board of supervisors as in this section provided for the fiscal year 1946-1947 out of such funds as the controller certifies are available.

Referred to Judiciary Committee.

PROPOSED CHARTER AMENDMENT RELATING TO CONTRACTS FOR CONSTRUCTION, RECONSTRUCTION, REPAIR OR IMPROVEMENT OF PUBLIC STREETS

Supervisor Mead presented:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by adding thereto a new section to be known as Section 95.1 (Contracts for Street Work) relating to contracts for construction, reconstruction, repair or improvement of public streets.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco, at an election to be held therein on November 5, 1946, a proposal to amend the Charter of said City and County by adding Section 95.1 thereto, to read as follows:

CONTRACTS FOR STREET WORK

Section 95.1. Whenever the estimated expenditure therefor shall exceed five hundred (\$500.00) dollars including in each instance the cost of the necessary materials involved, the construction, reconstruction, repair or improvement of a public street or public streets, including sidewalks and curbs and including the installation, repair or replacement of utility facilities therein or thereunder, shall be done or accomplished by contract, except as otherwise provided in this section.

When an actual emergency exists and has been declared to exist by the board of supervisors, or by the mayor pursuant to the provisions of section twenty-five (25) of this charter, any public work or improvement, including the construction, reconstruction, repair or improvement of public streets, may be executed or accomplished in the most expeditious manner possible and without regard for the provisions of this section.

It shall constitute official misconduct, in any manner to split or divide or to permit to be split or divided the actual estimate for, or any unit of, public work or improvement, including any unit of street construction, street reconstruction, street repair or street improvement, into two or more units or parts when the effect of such action would result in circumvention of the contract requirements of this section. For the purposes of this section, "public work or improvement" shall be construed and held to mean the construction, reconstruction, repair or maintenance of anything excepting a structure, other than a structure in or under a public street.

For the purposes of this section, the terms "construction," and "reconstruction" shall contemplate, include and are hereby defined to mean every type and character of work in, under or upon any public street, including sidewalks and curbs, other than excavations and restorations for utility connections and for repairs to or renewals of such connections when such work does not constitute a portion of the construction or reconstruction of an entire block, ordinary patchwork as that term is commonly understood and applied in the construction industry, and planing, burning or resurfacing, or a combination of planing, burning and resurfacing in that manner and to that extent or degree which constitutes planing, burning and resurfacing as those functions are performed by the department of public works at the time this amendment is approved by the electorate.

Except as to work performed pursuant to the declaration of an emergency as provided in this section, every project involving the construction or reconstruction of a public street or public streets shall extend to and include the construction or reconstruction of a street area equivalent to at least one block, as such blocks are delineated upon the official maps of the city and county.

Immediately after the passage of the first annual appropriation ordinance subsequent to the ratification of this amendment and prior to June 15th of each succeeding year, the controller shall estimate and declare the total amount of money available from all sources for the construction, reconstruction

tion, repair or improvement of public streets during the ensuing fiscal year.

On or before July 15th of each year subsequent to the ratification of this amendment, the director of public works shall cause to be prepared a program containing every determinable and necessary item of street construction, street reconstruction, street repair or street improvement which can be accomplished with the amount of money declared by the controller to be available for these purposes, and on or before July 15th of each year the director of public works shall call for bids on a unit basis and let a single contract to the lowest reliable and responsible bidder for the performance during that fiscal year of all street work, exclusive of such units of street work of any kind or character as are estimated to cost in excess of five hundred (\$500.00) dollars and exclusive of emergency work.

The head of the department in charge of or responsible for the work for which such a contract is to be let, shall let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work or improvement contemplated. Each such advertisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications as provided by general law relative to such investigations authorized by departments of public works.

The department head shall have power to sign such contract for the estimated expenditures thereunder not in excess of two thousand dollars (\$2,000.00). Any such contract involving the expenditure of over two thousand dollars (\$2,000.00) shall require the joint approval of the department head and the chief administrative officer relative to departments under his jurisdiction, or the signature of the department head and the approval by resolution of the board or commission concerned for departments not under the chief administrative officer.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county departments may file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the department. Accurate unit costs shall be kept of all direct and indirect charges incurred by the department under any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work. In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

Referred to Judiciary Committee.

PROPOSED CHARTER AMENDMENT Section 171.1

Supervisor Gallagher presented:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by adding Section 171.1 thereto, relating to present and future members of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county, at an election to be held on the 5th day of November, 1946, a proposal to amend the Charter of said city and county, by adding thereto a new section to be designated Section 171.1, as follows:

Section 171.1. Members of the fire department, as defined in this section, who are members of the retirement system under section 165 or 171 of the charter on the effective date hereof, hereby designated as the first day of July, 1947, and persons who become members of said department after said effective date, shall be members of the retirement system on and after said date, subject to the following provisions of this section 171.1, in addition to the provisions contained in sections 158 to 161, both inclusive, of this charter notwithstanding the provisions of any other section of the charter. Members of the retirement system under section 169 of the charter shall be members under this section only with respect to subsection (D) and no other provisions of this section shall apply to them. Benefits provided under subsection (D) at the death of members under section 169 shall be in lieu of benefits provided in subsection (b) of section 169. Members of the said department who are members of the retirement system under section 165 of the charter on said effective date, however, shall have the option to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after the effective date hereof, of being members of the system under section 165 instead of section 171.1, the election under said option to be effective on said effective date. In like manner, members of the said department who are members of the retirement system under section 171 of the charter shall have the option, to be exercised in writing on a form furnished by the retirement system, and to be filed at the office of said system not later than ninety days after the effective date hereof, of being members of the system under section 171, instead of section 171.1, the election to be effective on said effective date, provided, that members who are absent by reason of service in the armed forces of the United States or by reason of any other service included in section 161 of the charter, on the effective dates of the amendment shall have the same option of electing to be members under section 165 or 171, as the case may be, instead of section 171.1, until ninety days after their return to service in the fire department. On and after said effective date, the persons who affirmatively exercise said option, shall continue to be members of the system under sections 165 or 171, respectively, and shall not be subject to any of the provisions of section 171.1.

(A) The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," "death allowance" or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the fire department.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the fire department he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the average monthly compensation earnable by a member during the three years immediately preceding his retirement, or death before retirement.

For the purpose of the retirement system and of this section, the terms "member of the fire department," "member of the department" or "member," shall mean any officer or employee of the fire department whose employment therein was or shall be subject to the charter provisions governing entrance requirements for members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on the effective date hereof, regardless of age, or employed after said date at an age not greater than thirty-five years in the fire department to perform the duties now performed under the titles of hydrant-gateman, marine engineer, marine fireman, and pilot, or now performed as members of the salvage corps. Any fire service performed by such a member of the fire department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco city and county employees' retirement system as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in section 159 of the charter.

"Charter" shall mean the charter of the city and county of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural, and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

(B) Any member of the fire department who completes at least twenty-five years of service in the aggregate, regardless of age, or at least twenty years of service in the aggregate, and attains the age of 55 years, said service to be computed under subsection (H) hereof, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the sentences next preceding, shall receive a retirement allowance equal to fifty per cent of the final compensation of said member, as defined in subsection (A) hereof, plus an allowance at the rate of $1\frac{2}{3}$ per cent of said final compensation, for each year of service rendered prior to attaining age 60 and after qualifying as to age and service for retirement, but the total allowance shall not exceed two-thirds of

said final compensation provided that a member who attains age 65 with less than twenty years of service, shall receive a retirement allowance at the rate of $2\frac{1}{2}$ per cent of said final compensation for each year of service with which he is credited. Before the first payment of a retirement allowance is made, a member retired under this subsection or subsection (C), may elect to receive the actuarial equivalent of his allowance, partly in an allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the Board of Supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

(C) Any member of the fire department, who becomes incapacitated for performance of his duty by reason of any bodily injury received in, or illness caused by the performance of his duty, shall be retired, and shall receive a retirement allowance. If at the time of retirement, he is qualified as to age and service for retirement under subsection (B), the allowance shall be equal to the retirement allowance which he would receive if retired under subsection (B). If retirement occurs prior to qualification for service retirement, the allowance shall be not less than 75% or more than 90% of the final compensation of said member, as defined in subsection (A) hereof, the exact percentage to depend on the degree of disability as determined by the retirement board, at the time of retirement, and from time to time thereafter, but for a member who is totally disabled for the performance of any duties in or out of the service of the city and county, the allowance shall be 90% of said final compensation. Said allowance as fixed by the retirement board shall continue until the date upon which said member would have qualified for service retirement, had he rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he rendered service as assumed.

Any member of the fire department who becomes incapacitated for performance of his duty, by reason of a cause not included under the provisions of the immediately preceding paragraph, and who shall have completed at least ten years of service in the aggregate, computed as provided in subsection (H) hereof, shall be retired upon an allowance of one and one-half per cent of the final compensation of said member, as defined in subsection (A) hereof, for each year of service, provided that said allowance shall not be less than twenty-five per cent of said final compensation. The question of retiring a member under this subsection may be brought before the retirement board on said board's own motion, by recommendation of the fire commission, or by said member or his guardian. If his disability, for which he is retired under this subsection, regardless of cause, shall cease, his retirement allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(D) If a member of the fire department shall die before or after retirement as a result of an injury received in, or illness caused by the performance of his duty, a monthly allowance shall be paid, beginning on the date next

following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he lived and rendered service as assumed. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this subsection to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

(E) That portion of any allowance payable because of the death or retirement of any member of said department which is provided by contributions of the city and county, shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits, other than medical benefits, payable to or on account of such person, under the workmen's compensation insurance and safety law of the State of California and because of the injury or illness resulting in said death or retirement.

(F) If a member of the fire department shall die, before retirement, from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under subsection (D) preceding, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, the sum of five hundred dollars shall be paid to his estate or designated beneficiary in the manner and subject to the conditions prescribed by the board of supervisors for the payment of a similar benefit upon the death of other retired members.

(G) Should any member of the department cease to be employed as such a member, through any cause other than death or retirement or transfer

to another office or department, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he shall again become a member of the department, he shall redeposit in the retirement fund, the amount refunded to him. Contributions, with interest, which are credited because of service rendered in any other office or department and which will not be counted under subsection (H), to any person who becomes a member of the retirement system under this section, shall be refunded to him forthwith. Should a member of the fire department become an employee of any other office or department, a portion of his contributions with credited interest equal to the contributions which would have accumulated to his credit if he had been employed in said other office or department at the rate of compensation received by him in the fire department, shall remain credited to his account, and he shall receive credit for service to the extent of said accumulated contributions, and the balance of his contributions with credited interest shall be refunded to him forthwith.

(H) The following time shall be included in the computation of the service to be credited to a member of the department for the purpose of determining whether such member qualifies for retirement:

(1) Time during and for which said member is entitled to receive compensation because of services as a member of the fire or police department;

(2) Time during which said member served prior to the effective date hereof, and received compensation in any other status requisite for membership in the retirement system, and solely for the purpose of determining qualification for retirement under subsection (C) for disability not resulting from injury received in, or illness caused by performance of duty, time during which said member served, after the effective date hereof, and received compensation in any other status requisite for membership in the retirement system;

(3) Time during which said member, while absent from a status included in paragraphs (1) or (2) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in section 161 of the charter, during any war in which the United States was or shall be engaged or during other national emergency.

(I) All payments provided under this section shall be made from funds derived from the following sources, plus interest earned on said funds;

(1) The rate of contribution of each member under this section shall be based on his age taken to the next lower complete quarter year, at the date he became a member under section 165 or 171, as a member of the fire department, as defined in this section, in the case of persons who are members under these sections, and his age taken to the next lower completed year, when he entered the fire department, or on his age at the date he becomes a member under this section, in the case of persons who become members on or after the effective date of this amendment. The age of entrance into the fire department shall be determined by deducting the member's service as a member of the fire and police departments, prior to the effective date hereof from his age on said date, taken to the next lower complete quarter

year. The normal rate of contribution of each such member, to be effective from the effective date of membership under this section, shall be such as, on the average for such member, will provide, assuming service without interruption, under subsection (B) of this section, one-third of that portion of the service retirement allowance to which he would be entitled, upon first qualifying as to age and service, for retirement under that subsection, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date.

(2) There shall be deducted from each salary payment made to a member under this section, a sum determined by applying the member's rate of contribution to such salary payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in subsection (F) and (G) of this section.

(3) Contributions based on time included in paragraphs (1), (2) and (3) of subsection (H), and deducted prior to the effective date hereof, from compensation of persons who become members under this section, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(4) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(5) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this subsection (I), to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), subsection (I), shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total salaries paid during said year, to persons who are members under this section. Said percentage shall be the ratio of the value at the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system as provided by the board of

supervisors, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contribution, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective member after the date stated in the sentence next preceding, to the value at said dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system.

(6) To promote the stability of the retirement system through a joint participation in the results of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

(J) Upon the completion of the years of service set forth in subsection (B) of this section as requisite to retirement, a member shall be entitled to retire at any time thereafter in accordance with the provisions of said subsection (B), and nothing shall deprive said member of said right.

(K) No person retired under this section, for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Should any such retired person, except persons retired because of disability incurred in the performance of duty, engage in a gainful occupation prior to attaining the age of sixty-two, the retirement board shall reduce that part of his monthly pension or retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed his compensation at the time of his retirement.

(L) Any section or part of any section in this charter, insofar as it should conflict with this section 171.1, or with any part thereof, shall be superseded by the contents of said section 171.1. In the event that any word, phrase, clause or subsection of this section shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

This amendment shall take effect on the first day of July, 1947.

In Memoriam—Peter R. Maloney.

Presented jointly by all members of the Board:

Proposal No. 6050, Resolution No. 5840 (Series of 1939), as follows:

Whereas, Almighty God has summoned to his eternal reward Peter R. Maloney, erstwhile member of the San Francisco Police Department and attache of the Mayor's office; and

Whereas, Peter R. Maloney, "Pete," as he was affectionately known to thousands throughout the world, was one of San Francisco's best known and best loved citizens, in his official capacities and as the guiding spirit in countless fraternal and humanitarian movements; and

Whereas, a complete recitation of "Pete" Maloney's charities and benevolences would be far too voluminous for this brief document and would merely serve to re-emphasize that which needs no repetition: that "Pete's" career of kindness and charity will never be for-

gotten by San Francisco and particularly by those who perpetuate the traditions which he was largely instrumental in establishing—the South of Market Street Boys' Association, Inc., the Sunrise Breakfast Club, Inc., the annual Mothers' Day breakfast at which residents of the Laguna Honda Home are guests, the annual Father's Day breakfast, and the San Francisco Shut-In Association, to mention but a few; and

Whereas, the legions from all walks of life who were privileged to know and love "Pete" Maloney during his lifetime are immeasurably saddened by his passing, and will ever cherish in their memories the remembrance of one whose selfless and heart-warming deeds will endure as an inspiration to those who come after him; now, therefore, be it

Resolved, That this Board of Supervisors, noting with profound regret and a keen sense of civic loss the passing of Peter R. Maloney, does adjourn its meeting this day out of respect to his beloved memory; and be it

Further Resolved, That the Clerk of the Board be and he is hereby directed to forward to Mrs. Catherine Maloney, the bereaved widow of Mr. Maloney, and to his grieving children, suitably engrossed copies of this resolution as an expression of the deep sympathy and heartfelt condolence felt by the members of the Board of Supervisors of the City and County of San Francisco at the passing of the late Peter R. Maloney.

The first such election shall be the primary election, and when a candidate for one of the above enumerated offices shall have been elected by a plurality of all the votes cast for said office, he shall be elected thereto; failure to get a plurality of the votes cast for any said office shall result in a run-off election between the two candidates with the highest numerical vote respectively; this shall be denominated the general election.

On the recommendation of the chief [engineer] of department, the commission may reward any member of the department for heroic or meritorious conduct, the form or amount of said award to be discretionary with the fire commission, but not to exceed one month's salary in any one instance.

The chief [engineer] of department, or in his absence any assistant chief [engineer] of department, or in their absence any battalion chief in charge, may, during a conflagration, cause to be cut down or otherwise removed any buildings or structures for the purpose of checking the progress of such conflagration.

The salary increases herein provided for the respective ranks of the fire department shall be effective and shall accrue on the first day of January, [1946] 1947, notwithstanding any contrary provision of the charter, but the payment thereof may be deferred by the board of supervisors until the beginning of the fiscal year immediately following ratification of this section by the legislature of the State of California.

In determining years of service necessary for a police officer, woman protective officer and police patrol driver to receive the annual compensations [sum of \$2,800, \$2,900 and \$3,000, respectively,] as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed.

Section 35.5½ (a) The word "member" or "members" as used in this section shall mean the members of the several ranks in the police department set forth in section 35.5 of this charter.

(c) Each member shall be entitled to *at least* one (1) day off during each week, except as hereinafter provided.

(d) Whenever in the judgment of the police commission public interest requires the services of any member to serve in excess of the basic week of service during any week, the said police commission may authorize the chief of police to permit said service, and said member shall be compensated therefor or shall receive equivalent time credited to him in lieu thereof in accordance with this subsection. For service performed in excess of the basic week, members shall be compensated on the basis of straight time in accordance with the ratio which said excess service bears to the basic week of service and the annual compensation provided therefor in section 35.5, or in lieu thereof equivalent time off duty with pay.

(e) Nothing contained in this section shall be deemed to interfere with a vacation, as provided for in section 151 of this charter, or the normal day off per week; provided, however, that when in the judgment of the police commission public necessity requires the services of any member to serve on his vacation, or part thereof, or normal day off, the said commission may authorize the chief of police to permit said member to serve during said vacation, or part thereof, or normal day off, and he shall receive additional compensation for the period so served. Said additional compensation shall be computed on the basis of straight time in accordance with the ratio which said extra service performed bears to the basic week of service and the annual compensations provided therefor in section 35.5.

(f) The police commission is hereby authorized to require a member or members to work more than **[forty-eight (48)]** *forty-four (44)* hours per week in any week when public necessity requires such services, and the member or members so serving more than **[forty-eight (48)]** *forty-four (44)* hours shall be granted added compensation or time off with pay for said extra service performed.

(g) Nothing in this section shall abridge or limit in any way the provisions of Section 301, Part I, of the San Francisco Municipal Code, approving rule 32 of the civil service commission, insofar as sick leaves and disability leaves for members are concerned.

(h) Whenever in the judgment of the police commission the efficient performance of police duty requires that one or more members of the police department should report for roll call, orders, and assignments, prior to going on duty, the said commission may designate a period not to exceed fifteen (15) minutes in any one day for said reporting, and the said periods of fifteen (15) minutes need not be compensated for in money or in time off with pay.

(i) Notwithstanding the provisions of any of the foregoing subsections, the police commission is empowered to designate certain legal holidays as additional days off with pay for members of the police department and members required to

perform police service in said department on said days shall be compensated on the basis of straight time as herein computed or shall be granted equivalent time off duty with pay in the judgment of said commission.

[(j) This section shall become effective on the 1st day of July, 1944, provided the same is ratified prior to said date by the Legislature of the State of California. If not ratified prior to said date, this section shall become effective on the 1st day of the month immediately following the date of ratification.]

Discussion.

Supervisor MacPhee explained the changes made in the foregoing amendment, wherein it differed from the amendment heretofore considered. The amendment represents a reduction of from 60 per cent to 70 per cent of the demands made in the original charter amendment as ordered submitted by the Board.

The total cost of the proposed amendment, Supervisor MacPhee reported, in reply to question by Supervisor Colman, was \$2,842,020.

Thereupon, Supervisor Colman announced that as he had received no comments on the foregoing charter amendment from the Police or the Fire Commissions, he felt that they had no objections to submitting it to the voters. The only way the members of the Police and the Fire departments have to obtain increases in pay is by going to the people. He would vote for submission.

Mr. Alfred Smith of the Bureau of Governmental Research stated that one item of cost had been left out. That was the increased cost of pensions involved in the increased number of men and also the increases in salaries of the present forces.

After further brief comment the roll was called and the foregoing amendment was *Ordered Submitted* by the following vote:

Supervisor MacPhee presented:

CHARTER AMENDMENT No. 1

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending section 151.3 relating to the basis of standardization of compensations of certain employees.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by amending section 151.3 thereof relating to the basis of standardization of compensations of certain employees, which shall read as follows:

NOTE—*Italics* indicates amendments; **blackface** in brackets [] indicates deletions.

BASIS OF STANDARDIZATION OF COMPENSATIONS OF CERTAIN EMPLOYEES

Section 151.3. Notwithstanding any of the provisions of section 151 or any other provisions of this charter, whenever any groups or crafts establish a rate

of pay for such groups or crafts through collective bargaining agreements with employers employing such groups or crafts, and such rate is recognized and paid throughout the industry and the establishments employing such groups or crafts in San Francisco, and the civil service commission shall certify that such rate is generally prevailing for such groups or crafts in private employment in San Francisco pursuant to collective bargaining agreements, the board of supervisors shall have the power and it shall be its duty to fix such rate of pay as the compensations for such groups and crafts engaged in the city and county service. [The rate of pay so fixed by the board of supervisors shall be effective at the beginning of the next succeeding fiscal year providing the civil service commission has so certified such rate of pay to the board of supervisors on or prior to the first day of April preceding.] *The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided, that the civil service commission shall review all such agreements as of July 1st of each year and certify to the board of supervisors on or before the second Monday of July any modifications in rates of pay established thereunder for such crafts or groups as herein provided. The board of supervisors shall thereupon revise the rates of pay for such crafts or groups accordingly and the said revised rates of pay so fixed shall be effective from July 1st of the fiscal year in which the said revisions are determined.*

Should the budget estimates for the several departments be filed with the controller or transmitted to the mayor before [said] any such report of said civil service commission is received by the board of supervisors, the head of each department affected by [said] such report may amend its budget estimate to comply with the provisions of [said] such report. [of said civil service commission so as to make the same effective as of the first day of July of the following fiscal year. No report made by the civil service commission as in this section provided, subsequent to the first day of April of any fiscal year or any action of the board of supervisors based on such report, shall be effective until the beginning of the second succeeding fiscal year.]

Notwithstanding the provisions of section 151 or any other provisions of this charter the wages of platform employees and bus operators of the municipal railway shall be determined and fixed, annually, as follows:

(A) *On or before the second Monday of July of each year the civil service commission shall certify to the board of supervisors the two highest wage schedules in effect on July 1st of that year for platform employees and bus operators of other street railway systems in the State of California;*

(B) *The board of supervisors shall thereupon fix wage schedules for platform employees and bus operators of the municipal railway which shall be the average of the two highest wage schedules so certified by the civil service commission; provided, if the average of the two highest wage schedules shall be less than the rates of pay fixed for such service in the salary standardization ordinance adopted by the board of supervisors on March 18, 1946, the board of supervisors shall fix wage schedules for such service which shall be the same as the rates fixed for such service in the said ordinance;*

(C) *When, in addition to their usual duties, such employees are assigned duties of instructors of platform employees or bus operators they shall receive*

twenty (20c) cents per hour above the rates of pay fixed for platform employees and bus operators as herein provided;

(D) The rates of pay so fixed for platform employees and bus operators as herein provided shall be effective from July 1st of the fiscal year in which such rates of pay are certified by the civil service commission;

(E) Platform employees and bus operators shall be paid one and one-half times the rate of pay fixed as herein provided for all work performed on six days specified as holidays by ordinance of the board of supervisors for such employees.

Within thirty days after the ratification of this amendment, the board of supervisors shall fix wage schedules for the fiscal year 1946-1947 for the crafts and groups subject to the provisions of this section and which wage schedules shall be effective commencing July 1, 1946.

Not later than the 25th day of July in each year the board of supervisors shall have power and it shall be its duty, subject to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

Notwithstanding any other provision of this charter, not later than thirty days after the effective date of this amendment, the board of supervisors shall have power and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1946-1947 to include the provisions necessary for paying from July 1, 1946, the rates of compensation fixed by the board of supervisors as in this section provided for the fiscal year 1946-1947 out of such funds as the controller certifies are available.

Ordered Submitted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, Sullivan—9.

Absent: Supervisor Mead—1.

The Controller, in reply to questioning by Supervisor Colman, stated that the cost of the foregoing charter amendment, if approved, would be approximately \$1,500,000.

Action Rescinded.

Subsequently during the proceedings, Supervisor Mead announced that had he been present he would have voted in favor of submission of the foregoing amendment, and he desired the record so to show.

Supervisor Colman, thereupon, moved that the action of the Board heretofore taken be rescinded in order to give Supervisor Mead the opportunity of voting.

No objection, and action rescinded by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, Sullivan—10.

Thereupon, Supervisor Colman, seconded by Supervisor Christopher, moved that the foregoing amendment be ordered submitted to the voters.

Motion carried, and amendment ordered submitted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, Sullivan—10.

Consideration Postponed.**PROPOSED CHARTER AMENDMENT Section 171.1**

Supervisor MacPhee presented:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by adding Section 171.1 thereto, relating to present and future members of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county, at an election to be held on the 5th day of November, 1946, a proposal to amend the Charter of said city and county, by adding thereto a new section to be designated Section 171.1, as follows:

Section 171.1. Members of the fire department, as defined in this section, who are members of the retirement system under section 165 or 171 of the charter on the effective date hereof, hereby designated as the first day of July, 1947, and persons who become members of said department after said effective date, shall be members of the retirement system on and after said date, subject to the following provisions of this section 171.1, in addition to the provisions contained in sections 158 to 161, both inclusive, of this charter notwithstanding the provisions of any other section of the charter. Members of the retirement system under section 169 of the charter shall be members under this section only with respect to subsection (D) and no other provisions of this section shall apply to them. Benefits provided under subsection (D) at the death of members under section 169 shall be in lieu of benefits provided in subsection (b) of section 169. Members of the said department who are members of the retirement system under section 165 of the charter on said effective date, however, shall have the option to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after the effective date hereof, of being members of the system under section 165 instead of section 171.1, the election under said option to be effective on said effective date. In like manner, members of the said department who are members of the retirement system under section 171 of the charter shall have the option, to be exercised in writing on a form furnished by the retirement system, and to be filed at the office of said system not later than ninety days after the effective date hereof, of being members of the system under section 171, instead of section 171.1, the election to be effective on said effective date, provided, that members who are absent by reason of service in the armed forces of the United States or by reason of any other service included in section 161 of the charter, on the effective dates of the amendment shall have the same option of electing to be members under section 165 or 171, as the case may be, instead of section 171.1, until ninety days after their return to service in the fire department. On and after said effective date, the persons who affirmatively exercise said option, shall continue to be members of the system under sections 165 or 171, respectively, and shall not be subject to any of the provisions of section 171.1.

(A) The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," "death allowance" or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement,

or upon the day following the date of death, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the fire department.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the fire department he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the average monthly compensation earnable by a member during the three years immediately preceding his retirement, or death before retirement.

For the purpose of the retirement system and of this section, the terms "member of the fire department," "member of the department" or "member," shall mean any officer or employee of the fire department whose employment therein was or shall be subject to the charter provisions governing entrance requirements for members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on the effective date hereof, regardless of age, or employed after said date at an age not greater than thirty-five years in the fire department to perform the duties now performed under the titles of hydrant-gateman, marine engineer, marine fireman, and pilot, or now performed as members of the salvage corps. Any fire service performed by such a member of the fire department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco city and county employees' retirement system as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in section 159 of the charter.

"Charter" shall mean the charter of the city and county of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural, and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

(B) Any member of the fire department who completes at least twenty-five years of service in the aggregate, regardless of age, or at least twenty years of service in the aggregate, and attains the age of 55 years, said service to be computed under subsection (H) hereof, may retire for service at his option. Members shall be retired on the first day of the month next follow-

ing the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the sentences next preceding, shall receive a retirement allowance equal to fifty per cent of the final compensation of said member, as defined in subsection (A) hereof, plus an allowance at the rate of $1\frac{2}{3}$ per cent of said final compensation, for each year of service rendered prior to attaining age 60 and after qualifying as to age and service for retirement, but the total allowance shall not exceed two-thirds of said final compensation provided that a member who attains age 65 with less than twenty years of service, shall receive a retirement allowance at the rate of $2\frac{1}{2}$ per cent of said final compensation for each year of service with which he is credited. Before the first payment of a retirement allowance is made, a member retired under this subsection or subsection (C), may elect to receive the actuarial equivalent of his allowance, partly in an allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the Board of Supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

(C) Any member of the fire department, who becomes incapacitated for performance of his duty by reason of any bodily injury received in, or illness caused by the performance of his duty, shall be retired, and shall receive a retirement allowance. If at the time of retirement, he is qualified as to age and service for retirement under subsection (B), the allowance shall be equal to the retirement allowance which he would receive if retired under subsection (B). If retirement occurs prior to qualification for service retirement, the allowance shall be not less than 75% or more than 90% of the final compensation of said member, as defined in subsection (A) hereof, the exact percentage to depend on the degree of disability as determined by the retirement board, at the time of retirement, and from time to time thereafter, but for a member who is totally disabled for the performance of any duties in or out of the service of the city and county, the allowance shall be 90% of said final compensation. Said allowance as fixed by the retirement board shall continue until the date upon which said member would have qualified for service retirement, had he rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he rendered service as assumed.

Any member of the fire department who becomes incapacitated for performance of his duty, by reason of a cause not included under the provisions of the immediately preceding paragraph, and who shall have completed at least ten years of service in the aggregate, computed as provided in subsection (H) hereof, shall be retired upon an allowance of one and one-half per cent of the final compensation of said member, as defined in subsection (A) hereof, for each year of service, provided that said allowance shall not be less than twenty-five per cent of said final compensation. The question of retiring a member under this subsection may be brought before the retirement board on said board's own motion, by recommendation of the fire commission, or by said member or his guardian. If his disability, for which he is retired under this subsection, regardless of cause, shall cease, his retirement allowance shall

cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(D) If a member of the fire department shall die before or after retirement as a result of an injury received in, or illness caused by the performance of his duty, a monthly allowance shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he lived and rendered service as assumed. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this subsection to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

(E) That portion of any allowance payable because of the death or retirement of any member of said department which is provided by contributions of the city and county, shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits, other than medical benefits, payable to or on account of such person, under the workmen's compensation insurance and safety law of the State of California and because of the injury or illness resulting in said death or retirement.

(F) If a member of the fire department shall die, before retirement, from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under subsection (D) preceding, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system: Upon the death of a member after retirement and regardless of the cause of death, the sum of five hundred dollars shall be paid to his estate or

designated beneficiary in the manner and subject to the conditions prescribed by the board of supervisors for the payment of a similar benefit upon the death of other retired members.

(G) Should any member of the department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he shall again become a member of the department, he shall redeposit in the retirement fund, the amount refunded to him. Contributions, with interest, which are credited because of service rendered in any other office or department and which will not be counted under subsection (H), to any person who becomes a member of the retirement system under this section, shall be refunded to him forthwith. Should a member of the fire department become an employee of any other office or department, a portion of his contributions with credited interest equal to the contributions which would have accumulated to his credit if he had been employed in said other office or department at the rate of compensation received by him in the fire department, shall remain credited to his account, and he shall receive credit for service to the extent of said accumulated contributions, and the balance of his contributions with credited interest shall be refunded to him forthwith.

(H) The following time shall be included in the computation of the service to be credited to a member of the department for the purpose of determining whether such member qualifies for retirement:

(1) Time during and for which said member is entitled to receive compensation because of services as a member of the fire or police department;

(2) Time during which said member served prior to the effective date hereof, and received compensation in any other status requisite for membership in the retirement system, and solely for the purpose of determining qualification for retirement under subsection (C) for disability not resulting from injury received in, or illness caused by performance of duty, time during which said member served, after the effective date hereof, and received compensation in any other status requisite for membership in the retirement system;

(3) Time during which said member, while absent from a status included in paragraphs (1) or (2) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in section 161 of the charter, during any war in which the United States was or shall be engaged or during other national emergency.

(I) All payments provided under this section shall be made from funds derived from the following sources, plus interest earned on said funds;

(1) The rate of contribution of each member under this section shall be based on his age taken to the next lower complete quarter year, at the date he became a member under section 165 or 171, as a member of the fire department, as defined in this section, in the case of persons who are members under these sections, and his age taken to the next lower completed year, when he entered the fire department, or on his age at the date he becomes a member under this section, in the case of persons who become members

on or after the effective date of this amendment. The age of entrance into the fire department shall be determined by deducting the member's service as a member of the fire and police departments, prior to the effective date hereof from his age on said date, taken to the next lower complete quarter year. The normal rate of contribution of each such member, to be effective from the effective date of membership under this section, shall be such as, on the average for such member, will provide, assuming service without interruption, under subsection (B) of this section, one-third of that portion of the service retirement allowance to which he would be entitled, upon first qualifying as to age and service, for retirement under that subsection, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date.

(2) There shall be deducted from each salary payment made to a member under this section, a sum determined by applying the member's rate of contribution to such salary payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in subsection (F) and (G) of this section.

(3) Contributions based on time included in paragraphs (1), (2) and (3) of subsection (H), and deducted prior to the effective date hereof, from compensation of persons who become members under this section, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(4) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(5) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this subsection (I), to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), subsection (I), shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total salaries paid during said year, to persons who are members under

this section. Said percentage shall be the ratio of the value at the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system as provided by the board of supervisors, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contribution, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective member after the date stated in the sentence next preceding, to the value at said dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system.

(6) To promote the stability of the retirement system through a joint participation in the results of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

(J) Upon the completion of the years of service set forth in subsection (B) of this section as requisite to retirement, a member shall be entitled to retire at any time thereafter in accordance with the provisions of said subsection (B), and nothing shall deprive said member of said right.

(K) No person retired under this section, for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Should any such retired person, except persons retired because of disability incurred in the performance of duty, engage in a gainful occupation prior to attaining the age of sixty-two, the retirement board shall reduce that part of his monthly pension or retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed his compensation at the time of his retirement.

(L) Any section or part of any section in this charter, insofar as it should conflict with this section 171.1, or with any part thereof, shall be superseded by the contents of said section 171.1. In the event that any word, phrase, clause or subsection of this section shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

This amendment shall take effect on the first day of July, 1947.

Consideration postponed until Monday, September 23, 1946.

Re-reference to Committee.

CHARTER AMENDMENT

RETIREMENT OF ELECTIVE OFFICERS

Supervisor MacPhee presented:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding thereto a new section to be known as section 158.1, relating to retirement of elective officers.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by adding thereto a new section to be known as section 158.1, Retirement of Elective Officers, which shall read as follows:

RETIREMENT OF ELECTIVE OFFICERS

Section 158.1. Notwithstanding the provisions of section 158 of this charter, elective officers, except members of boards and commissions, shall be members of the San Francisco city and county employee's retirement system and shall be subject to all of the conditions applying to other members thereof, except members of the fire and police departments, and except as herein otherwise provided. Elective officers in office on the effective date hereof and otherwise eligible to the provisions hereof shall have the option to become members of said retirement system to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after the effective date hereof. Each such present and future elective officer may retire at his option but only after having attained the age of seventy years and only after having occupied such an elective office or having been otherwise employed in a position subject to membership in the retirement system for at least twenty years immediately preceding retirement, and may retire by filing written application therefor with the retirement board, and the mayor shall thereupon appoint a qualified person for the unexpired term of office remaining at the time of any such retirement. Such elective officer shall thereafter receive a retirement allowance equal to one-half of the compensation received by him at the time of retirement. Contributions required to provide the portion of the benefits under this section not provided by the member's contribution shall be paid to the retirement system by the city and county.

Discussion.

Mr. Peddicord of the City Attorney's office, after explaining the reasons for the proposed amendment, and the provisions thereof, stated that only one officer would be eligible for retirement, under its provisions, at the present time. It would be nine years before another officer would be eligible for retirement, and sixteen years later before another officer would be so eligible. The cost of the amendment would be about \$5,000.

Supervisor Christopher called attention to the possibility of a young man in his early twenties being elected to office. He might serve the City and County for 45 years or so and then be defeated for office. Not having reached the age of 70, even though he had given a lifetime of service to the City and County, he could not enjoy a retirement allowance under the terms of the proposed charter amendment. That was not fair.

Mr. Alfred Smith pointed out that for the miscellaneous employees, a retired employee could receive a pension based upon the first \$500 of his monthly salary only. An employee receiving, for example, a salary of more than \$500 per month, could receive a pension based only on \$500 and not on his full salary.

Supervisor Mancuso agreed with the statement as expressed by Mr. Smith, and suggested that the matter should be returned to committee.

Thereupon, Supervisor Christopher moved re-reference to Judiciary Committee. Motion seconded by Supervisor Mancuso, and *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, Sullivan—9.

Absent: Supervisor Mead—1.

CHARTER AMENDMENT — CITY PLANNING

Supervisor MacPhee presented:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending sections 115, 116, 117 and 118 thereof, and by adding thereto new sections to be designated 116.1, 116.2, 117.1 and 117.2, relating to city planning.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by amending sections 115, 116, 117 and 118 thereof, and by adding thereto new sections to be designated 116.1, 116.2, 117.1 and 117.2, relating to city planning, which shall read as follows:

Section 115. There is hereby established a city planning department which shall consist of a planning commission, a director of planning and such employees as may be necessary to carry out the functions and duties of said department. The city planning commission shall consist of seven members, five of whom shall be appointed by the mayor. The chief administrative officer and the manager of utilities shall be members *ex officio*.

The terms of appointive members of the commission shall be four years, expiring one each at twelve o'clock noon on the 15th day of January in the years 1947, 1949 and 1950 and two at said time in the year 1948. Present appointees shall continue in office without change of incumbency for the existing terms thereof. The mayor shall fill all vacancies in office of appointive members of the commission occurring either during or at the expiration of terms.

Neither the foregoing provision for addition of members to the commission, nor the addition thereof, nor any change herein provided in the powers and duties of the commission shall be deemed to affect the continuity of the existence of the commission as such or the status of any matter pending before it. All recorded actions of the commission shall remain in force and effect unless and until changed by ordinance or by other legal means.

The members of the commission shall serve without compensation.

Section 116. The planning commission shall appoint a director of planning who shall hold office at its pleasure and who shall be a person of adequate technical training and administrative experience in city planning. The director of planning shall be the administrative head and appointing officer of the planning department. The position of director of planning shall not be subject to any provisions of this charter prescribing a residence

qualification for officers or appointees, provided, however, that during his incumbency the appointee to the position shall reside in the city and county. Subject to the provisions of section 86 of the charter, the commission may also contract with architects, city planners, engineers, or other consultants for such services as it may require.

It shall be the function and duty of the commission to adopt and maintain, including necessary changes therein, a comprehensive, long-term general plan for the improvement and future development of the city and county, to be known as the master plan.

The master plan adopted by the commission existing at the time of the passage of this amendment shall be the official master plan. Before the commission may adopt any substantial extension thereof or any substantial amendment or addition thereto, which in the judgment of the commission constitutes a major alteration in the plan, it shall hold at least one public hearing thereon, notice of the time and place of which shall be given by at least one publication in a newspaper of general circulation in the city and county at least ten (10) days before the day of hearing. Adoption of the master plan or portions thereof or amendments, extensions or additions thereto shall be by resolution of the commission. Such resolutions shall refer expressly to the reports, plans or description and other matter intended to form the whole or part of the plan, and the action taken shall be recorded on such documents and an attested copy thereof shall be certified to the mayor and board of supervisors.

The master plan, including maps, plans, charts, exhibits, and descriptive matter, shall constitute the recommendation of the commission for the development of areas within the city and county and of any land outside the boundaries thereof which in the opinion of the commission bears a relation thereto. The master plan shall show existing and proposed public ways, grounds and open spaces and the major buildings, structures and facilities constructed thereon or proposed, including among other things freeways, highways, streets, alleys, boulevards, parkways, waterways, airports and other public ways; parks, playgrounds, squares and sites for public buildings and structures; routes and rights of way for utilities and services, whether publicly or privately operated, for water, light, sanitation, transportation, communication, power and other purposes; standards for the subdivision of land; proposed sites and general plans for public housing and the rehabilitation and redevelopment of slums and blighted areas, and the removal, relocation, widening, narrowing, vacating or abandonment or extension of any of the foregoing ways, open spaces or buildings. The master plan shall also include a land use plan for the regulation of the uses of land and the height, area, bulk and uses of public and private buildings and structures.

In the preparation of such plans, the commission is authorized to make or cause to be made such investigations, studies, maps, charts, exhibits, and reports as may be required. It may make such reports and recommendations to the mayor, the board of supervisors, and other officers and agencies as it may deem necessary to secure understanding and the systematic execution of the master plan. The commission shall have the power to promote public interest in and understanding of the master plan and may publish and dis-

tribute copies of the plan or of any report and may employ such other means of publicity and education as it may deem to be in the public interest.

The commission shall act in an advisory capacity to the board of supervisors and other departments, commissions and agencies of the city and county in all matters affecting the physical improvement and future development of the city and county. All departments and officials of the city and county shall furnish to the city planning department such information as it may require for its work and the department shall furnish to all departments and officials such information as said departments and officials may require concerning them when in its judgment the furtherance of the master plan will result, the commission shall have the right to represent the city and county of San Francisco in conferences with State and Federal agencies on legislation for public improvements or other projects coming within the scope of or related to the master plan.

Section 116.1. The head of each department or agency of the city and county shall submit annually on or before the first day of February to the planning commission a detailed estimate of all capital projects, substantially affecting the master plan proposed for the ensuing fiscal year and of all such capital projects which he believes should be undertaken within the five succeeding years. Each year on or before the first day of March the planning commission shall prepare and submit to the mayor and board of supervisors a capital improvement program for the ensuing fiscal year, including in writing its disapproval of any capital projects, based on departmental estimates for capital projects, giving the recommendation of the commission for the advance planning, the acquisition of land, and the construction of capital improvement projects. The mayor shall note in the consolidated budget estimates which he submits to the board of supervisors the recommendations of the planning commission on each capital improvement item. Notwithstanding any other provisions of this charter, any such item disapproved by the planning commission within thirty days of the date of submission can be approved by the board of supervisors only by a two-thirds vote of all members thereof.

Section 116.2. No ordinance, order or resolution which substantially affects the master plan shall be adopted by the board of supervisors unless and until such ordinance, order or resolution shall have first been submitted to the city planning commission for a report and recommendation, nor shall any acts or orders of administrative departments or officials substantially affecting the master plan, the substance of which has not previously been before the commission for its report thereon, become legal and binding upon the city until it shall have been submitted to the city planning commission for its report and recommendation.

It shall be the duty of the planning commission to render its report and recommendations within sixty (60) days after the date of such referral unless a longer period be granted. Failure of the commission to act within the time limit set shall be deemed approval and the board of supervisors may then pass the ordinance, order, or resolution, and the administrative acts or orders may become legal and binding upon the city. When the planning commission recommends against an ordinance, resolution, act or order referred to it pursuant to this section, it shall not become legal or binding upon the

city unless the board of supervisors, by not less than two-thirds vote of all members, approves said ordinance, resolution, act or order. Notwithstanding any other provisions of this charter, the board of supervisors shall have jurisdiction of all such matters for the purposes hereof.

Section 117. Until such time as the board of supervisors shall enact a new comprehensive zoning ordinance based on a land use plan and defining and providing for variances, and until the effective date of such ordinance, this section of the charter shall continue in force, and until such time, sections 117.1 and 117.2 shall be inoperative. Upon the enactment and effective date of such an ordinance this section of the charter shall become inoperative for any purpose, and sections 117.1 and 117.2 shall become operative.

The city planning commission, from time to time, shall consider and hold hearings on proposed changes in the classification of the use to which property in the city and county may be put, and the establishment or changing of building set-back lines, in either case, on its own motion or on the application of an interested property owner.

The board of supervisors, by ordinance, shall establish procedure for action on such matters, which ordinance must provide, among other things, that the commission shall give notice of time, place and date of hearing by posting throughout the area and by publication not less than twenty days prior thereto; that the commission shall notify, in writing, not less than ten days prior to said hearing, applicants for proposed changes, and all persons whose names and addresses are shown on the assessment roll as owners of property within three hundred feet of all exterior boundaries of the area affected by the proposed changes of the time and the place of hearing, which names, addresses and other information shall be furnished by the applicant in the form required by the commission; that the commission, after hearing shall, by resolution, approve or disapprove the proposed change which, if approved, shall not become effective for thirty days; that appeal may be taken from the ruling of the commission by filing written protest with the board of supervisors, and if such protest is subscribed by the owners of twenty per cent of the property affected, the supervisors shall fix a time and a place for hearing such objections which shall be not less than ten nor more than thirty days after such filing, and must decide thereon within ten days of the start of such hearing; that the supervisors, by not less than two-thirds vote, may disapprove the action of the commission, provided, however, that any change in zoning, classification or building set-back lines made by the commission on its own motion shall require approval of the supervisors by a two-thirds vote; that in case of disapproval by the commission or by the supervisors on appeal of a proposed change, such proposed change may not be resubmitted to or reconsidered by the commission for at least one year.

No ordinance shall be considered by the supervisors, the purpose or intent of which is the classification, regulation or control of the height, area, bulk, location or use of any building or buildings, or premise or premises, and classifying any property into any district or zone for such purposes or establishing a set-back line or lines along any street or portion thereof in the city and county without being first submitted to the city planning commission for report and recommendation. If the commission disapprove any such ordinance, the supervisors may adopt the same only by an affirmative vote

of at least two-thirds of its entire membership. The failure of the commission to act within sixty days from and after the date of official submission of any proposed zoning, classification or set-back line by the board of supervisors shall be deemed to be an approval of such classification or proposed set-back line by the commission.

Section 117.1 There is hereby created the office of zoning administrator. Said zoning administrator shall be appointed by the city planning commission, subject to the civil service provisions of this charter. He shall have the following powers and duties, subject, however, to the supervision and direction of the city planning commission as to matters of policy:

(a) He shall have the control of and be responsible for the administration and enforcement of all zoning ordinances.

(b) He shall investigate all applications of property owners, including lessees, for changes to zoning ordinances and make his report thereon and his recommendation in respect thereto to the director of planning and to the city planning commission.

Upon the receipt of such report and recommendation the city planning commission shall consider such applications and may approve or deny the same. If approved, such applications, together with the approval of the commission, shall be presented to the board of supervisors, which may adopt the change in said ordinance by a majority vote. If any such application is denied by the city planning commission, its action thereon shall be final, except that applicant may appeal to the board of supervisors, which may then adopt such change in said ordinance only by a two-thirds vote of all members of the board of supervisors. The city planning commission shall act upon such applications within thirty (30) days from the date the same are filed and it shall not be necessary to hold more than one hearing upon any such application.

(c) Subject to such rules and regulations as the board of supervisors may by ordinance prescribe he shall investigate, hear and determine all applications for variances from the rules, regulations, restrictions and requirements of the zoning ordinances and shall have power to grant such variances as may be in harmony with the general purpose and intent of said ordinances and in accordance with the general and specific rules therein contained and subject to such conditions and safeguards as he may impose. He shall have authority to grant variances only when practical difficulties, unnecessary hardships or results inconsistent with the general purposes of the zoning regulations may result from the strict and literal interpretation and enforcement of the provisions thereof and before any variance may be granted, it shall appear and the zoning administrator shall specify in his findings the facts in each case which shall establish beyond a reasonable doubt:

(1) That there are exceptional or extraordinary circumstances or conditions applicable to the property involved or to the intended use of the property that do not apply generally to the property or class of uses in the same district or zone;

(2) That such variance is necessary for the preservation and enjoyment of a substantial property right of the petitioner, possessed by other property in the same zone and vicinity; and

(3) That the granting of such variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or district in which the property is located; and

(4) That the granting of such variance will not adversely affect the master plan.

(d) Not less than ten days prior to the hearing of any application for change in the classification of the use to which any property in the city and county may be put, the establishment or changing of building set-back lines or any variances referred to herein, the zoning administrator shall give notice in writing of the time and place of hearing to all applicants therefor and all persons whose names and addresses are shown on the assessment roll as owners of property within three hundred feet of all exterior boundaries of the area affected by the proposed change. The names, addresses and other information required therefor shall be furnished by the applicant in the form required by the zoning administrator.

The determination of the zoning administrator shall be final except that appeals therefrom may be taken, as hereinafter provided, to the board of zoning appeals, exclusively and notwithstanding any other provision of this charter, by any person aggrieved or by an officer, board, department or bureau of the city and county. Upon making a ruling or determination upon any matter under his jurisdiction, the zoning administrator shall forthwith furnish a copy thereof to the applicant, to the director of planning and to the city planning commission. No variance granted by the zoning administrator shall become effective until after an elapsed period of ten (10) days, during which time an appeal may be filed with the board of zoning appeals. An appeal stays all proceedings in furtherance of the action appealed from.

Section 117.2. There is hereby created a board of zoning appeals, consisting of three members, who shall be appointed by the mayor, one of whom shall be a member of the city planning commission. The terms of the members of said board shall expire respectively at twelve o'clock noon on the 15th day of January in the first, second, and third years subsequent to the formation of said board. Thereafter, the term of each member shall be three years. The mayor shall fill by appointment all vacancies on the board, whether occurring during or at the expiration of the term.

The members of said board shall receive such compensation as the board of supervisors may from time to time fix and determine, and they shall be exempt from the civil service provisions of this charter.

The board of zoning appeals shall have and exercise the following powers:

(a) To hear and determine appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by the zoning administrator in the enforcement of the provisions of any ordinance adopted by the board of supervisors creating zoning districts or regulating the use of property in the city and county.

(b) To hear and determine appeals from the rulings, decisions and determinations of the zoning administrator granting or denying applications for variances from any rule, regulation, restriction or requirement of the zoning ordinances, or any section thereof.

Upon the hearing of such appeals said board may affirm, change or modify the ruling, decision or determination appealed from, or, in lieu thereof, make such other additional determination as it shall deem proper in the premises, subject to the same limitations as are placed upon the zoning administrator by this charter.

The board of supervisors shall prescribe by ordinance rules and regulations providing for the time, manner, method and procedure for the taking and hearing of such appeals; provided, however, that the said board of zoning appeals may adopt such other and additional rules as it may deem necessary to carry out the rules and regulations prescribed by ordinance and which are not in conflict or inconsistent therewith. All said rules and regulations shall be kept posted in the office of the board and a copy thereof furnished to any applicant. At least two members shall sit at all hearings, and the concurring vote of at least two members shall be necessary in the determination of any appeal.

All matters of the type referred to in the sections hereof relating to the zoning administrator or the board of supervisors which may be pending on the effective date hereof before the city planning commission or the board of supervisors shall not be affected by any of the provisions hereof relating to the zoning administrator or the board of zoning appeals, and in regard to all such pending matters, the city planning commission and the board of supervisors shall continue until the final determination thereof before both the commission and the board to exercise the powers and duties provided by both the charter and ordinances immediately prior to the effective date hereof.

Section 118. All plats or replats of subdivisions of land laid out in building lots, and the project plans for public and private housing, slum clearance and the rehabilitation and redevelopment of blighted areas, including the streets, alleys or other lands intended to be dedicated to public use or for the use of lessees, purchasers or owners of lots fronting thereon or adjacent thereto, and located within the city and county limits, shall be submitted in tentative and in final form, to the city planning commission which shall report its recommendations thereon in writing to the agency responsible therefor, as provided by ordinance. The report to the board of supervisors on any final subdivision map, public or private housing or redevelopment project plan shall include a copy of the report and recommendations of the city planning commission.

Amendment.

Supervisor Lewis presented the following as an amendment to the second paragraph of Section 116.2. The amendment was merely for the purpose of clarification, and would, he understood, meet some of the objections to the charter amendment under consideration:

It shall be the duty of the planning commission to render its report and recommendations in writing to the controller and to the officer, board, department or commission within sixty (60) days after the date of such referral unless a longer period be granted. Failure of the commission to act within the time limit set shall be deemed approval, and the board of supervisors may then pass the ordinance, order or resolution originating within said board, and any acts or orders originating with any officer, department or commission shall become legal and binding upon failure of the commission to so act. When the planning commission recommends against an ordinance,

resolution, act or order referred to it pursuant to this section by either the board of supervisors, officers, departments or commissions, it shall not become legal or binding upon the city unless the board of supervisors, by not less than two-thirds vote of all members, approves said ordinance, resolution, act or order. Notwithstanding any other provisions of this charter, the board of supervisors shall have jurisdiction of all such matters for the purposes hereof, and thereafter it shall be the duty of the officer, department, or commission charged with the execution of the work to proceed with the execution thereof, in accordance with the finding and action of the board of supervisors.

Discussion.

In discussing the proposed amendment, Supervisor Lewis stated that an objection had been made by the Controller. The foregoing amendment, he believed, would take care of objections raised.

Supervisor Mancuso held that there was no objection to the amendment proposed by Supervisor Lewis. It was merely for clarification.

Privilege of the Floor.

On motion by Supervisor Colman, the privilege of the floor was granted to any citizen who desired to discuss the matter.

Mr. Alfred Smith, in commenting on the amendment, stated it appeared to him that the amendment would result in a major departure of policy. For example, a veto power was being placed over the right of the Public Utilities Commission to provide for extension of the Municipal Railway or the Water Department. The amendment seems a little drastic.

Supervisor Mancuso stated that Mr. Smith was not talking to the issue. If he desired to speak on the merits of the entire amendment that would come at another time.

Supervisor Lewis announced that his proposed amendment would not change the issues in any manner. It merely provided for clearer language.

Mr. Peddicord pointed out that the amendment proposed by Supervisor Lewis merely carried out in more specific language the general terms of the section and were an aid.

Supervisor Mancuso declared that he did not think the interested people had been notified of this particular amendment. He did not believe the interested parties realized the scope of this particular amendment. He believed it provided for a complete change in the structural government of the City and County. The West of Twin Peaks Central Council is opposed to submitting such amendment at this time without having gone into the matter thoroughly. Thereupon he moved re-reference to committee for further study and hearings over a period of time. He was making that motion as a substitute for the motion by Supervisor Lewis. Motion seconded by Supervisor Meyer.

Supervisor Lewis opposed the foregoing motion. Supervisor Mancuso was conspicuous by his absence from committee meetings, so perhaps he has not heard the matter before. Had he been present he would have learned that the Judiciary Committee had put in more time on this particular charter amendment than on any other it has had before it. The Committee has spent four and five hours at a time going over this particular amendment, and listening to the Junior Chamber of Commerce and the Planning Commission on it. It would appear that the only reason for reference to committee was to kill the amendment. If the Master Plan is going to work, someone has to have power. He urged the Board to vote down the motion and to decide the merits of the amendment.

Supervisor MacPhee agreed that Supervisor Mancuso had the right to press his motion, but he questioned the propriety of so doing. Copies of the amendment have been given to the department heads. It is only fair that they be given the right to express their point of view. Other interested parties should have the privilege of being heard.

Supervisor Mancuso declared that his reason for the motion was to have an airing of the matter at one time. Under his motion there could be a complete hearing of both sides of the question. However, he did not think Supervisor Lewis was fair in his criticism. He had been unavoidably absent from only two meetings, at which the matter had been discussed.

Supervisor Colman suggested that the Board hear first from the proponents of the charter amendment and then from the opponents.

Thereupon, Supervisor Mancuso, with the consent of his second, withdrew his motion for re-reference to committee.

Mr. James Lash of the Junior Chamber of Commerce, outlined the reasons for the submission of the amendment, on which his group had been working for months. His group felt it to be especially urgent that the amendment be submitted to the voters at the November election. Something must be done to make San Francisco a better and more beautiful city. His committee believes this amendment will accomplish the ends on which everyone is agreed, and he urged the Board to approve the amendment for submission.

Mr. Steingart, representing San Francisco C.I.O., agreed that an amendment should be submitted to the voters. However, there were some matters the C.I.O. would like to have incorporated in the amendment before submission. Among other matters, the C.I.O. believed the City Planning Commission should have a full time chairman or executive director, at an adequate salary to attract some well known person. The C.I.O. was in favor of the amendment and would like to see it approved. That could be done with a few minor changes.

Mr. DeMazzio, representing the Real Estate Association of San Francisco, stated that his organization felt that the amendment was a very definite step forward. Something like it was needed. Unfortunately it has not been presented at the right time. Insufficient time has been given to examine the measure properly. The amendment needs unlimited serious study. The amendment is needed, but it should be given more study.

Mr. Henry King, Mr. Lewis, Mr. Robert Lilienthal, Mr. Pointer and Mr. Frederick Mann, all from the Chamber of Commerce, urged submission of the amendment.

Mrs. Horace Gray, representing the San Francisco Planning and Housing Association, and Mrs. Richard Kahn of San Francisco Center League of Women Voters, favored submission.

A speaker from the Commonwealth Club also favored submission of the amendment.

Mr. Moosier, representing the Council of Civic Clubs, stated that the Central Council was generally in favor of the amendment. However, the Council thinks it has not had time for proper consideration. As presented, the amendment is cumbersome and it is not clear.

Mr. Vining T. Fisher of the Down Town Association objected to placing the amendment on the ballot at this time. The amendment contains too much administration material for charter provision. It will eliminate largely the functions of the Director of Public Works and the Manager of Utilities. He urged postponement and further study of the measure before ordering it submitted to the voters.

Mr. Milton W. Morris of the Association of Home Builders of San Francisco believed that submission at this time was premature. Cor-

rections should be made to the amendment. The amendment gives too much power to the City Planning Commission. It should be sent back to committee for further study.

Mr. John Craig, representing the West of Twin Peaks Central Council, stated that the council, generally speaking, thinks the amendment is a step in the right direction, but urged further study.

Mr. H. C. Vensano opposed submission. The amendment would take away many of the functions of the Department of Public Works.

Mr. Hague, manager of the Associated General Contractors, held that not enough study had been given to the amendment. Further time should be given to it.

Mr. Kent, Acting Director of Planning for the City Planning Commission, presented a letter prepared by Mr. Michel Weill, President of the City Planning Commission, stating the Commission's position on the amendment. The Commission favored the amendment granting greater power in its specific work on planning. However, the Commission desires more time to review, discuss and decide on every point in the amendment. It was opposed to submission at the present time.

Mr. Alfred Smith held that the amendment would make a great change in the structure of city government, and he could not commit his group either way on the amendment. The charter should contain broad general principles rather than so much procedure.

In Hands of the Board.

Thereupon, the matter was taken into the hands of the Board.

Supervisor Lewis, in discussing the proposed charter amendment, stated that either the City and County wants a master plan or it doesn't want a master plan. No department or commission at the present time pays any attention to the master plan. Each department is jealous of its own department, and doesn't want to be interfered with. This amendment gives the right to legislate by a two-thirds vote, something the Board has a right to do.

In answer to suggestion that the necessary vote by the Supervisors should be a "majority vote" instead of a "two-thirds vote," Supervisor Lewis stated that he was willing to have the "two-thirds vote" provision remain in the amendment.

Supervisor McMurray believed the amendment to be useless. The Planning Commission has demonstrated many times, he stated, that it can get four votes of the Board of Supervisors. Matters should be decided by majority vote.

Supervisor Mead stated that he thought Supervisor McMurray was mistaken; the City Planning Commission has been overridden as many times, if not more, as it has been successful.

Supervisor Mancuso renewed his motion for re-reference to committee. There were many mistakes in the proposed amendment, he stated, which should be corrected. The amendment should have further study. Motion seconded by Supervisor Meyer.

However, at the request of Supervisor Mead, Supervisor Mancuso withdrew his motion temporarily.

Supervisor Mead called attention to the first sentence in Section 117.2, for which he desired an explanation.

Supervisor MacPhee explained the situation. The zoning administrator makes a decision and if a citizen is not satisfied with the decision he may go to the zoning board of appeals.

After further brief discussion on the composition of the board of zoning appeals, and the functions of that board, Supervisor Mancuso renewed his motion for re-reference to committee. Motion again seconded by Supervisor Meyer.

Supervisor MacPhee reported that the Judiciary Committee had considered the matter for some six weeks. Re-reference to committee would mean that the matter could not be submitted to the people at the election in November. It might be two years before the matter could again be presented to the people. The City and County has waited too long now for this matter. Supervisor MacPhee stated that he did not know Mr. Fisher's authority or Mr. Vensano's authority for stating that the amendment would practically eliminate the Department of Public Works.

Mr. Peddicord, in answer to questioning by Supervisor Mancuso, stated that with regard to all acts whether in the nature of orders or contracts of the Department of Public Works, the Public Utilities Commission, Recreation, Parks and various departments, affecting the master plan, it would be necessary for such things to be presented to the City Planning Commission. The commission would not be a recommendatory body in that regard; it would be an administrative body. The Planning Commission would require a much greater personnel than it now has.

Supervisor MacPhee held that the amendment had not been hastily drawn. It is the recommendation of the San Francisco Center, League of Women Voters. He had never seen them endorse matters without sufficient study and consideration. The C.I.O. recommends the measure. The San Francisco Planning and Housing Association asks approval. Action should be taken to present the amendment to the voters. It is about time to have some agency designated to channel ideas for the betterment of San Francisco. There should be correlation of ideas. It will be two years before this matter can be presented to the voters again. If the matter is not ordered submitted to the voters at the present session, Supervisor MacPhee declared, he would attempt to have further consideration postponed until the Monday meeting of the Board.

Supervisor Colman moved further consideration be postponed until Monday, September 23, 1946. Motion seconded by Supervisor Mead, who held that any attempt to refer the matter back to committee was an attempt to kill it.

Supervisor Mancuso denied that there was any attempt on his part to kill the amendment. He was also opposed to the motion to postpone further consideration until Monday, September 23, 1946. The Planning Commission wants further time to study the measure. The endorsement of the San Francisco Planning and Housing Association was contingent on the Board's providing in the budget for a greatly increased staff of the City Planning Commission. That contingency should be carefully considered.

Thereupon, the roll was called and Supervisor Colman's motion to postpone was defeated by the following vote:

Ayes: Supervisors Christopher, Colman, Lewis, MacPhee, Mead—5.

Noes: Supervisors Gallagher, Mancuso, McMurray, Meyer, Sullivan—5.

Supervisor Colman stated that he believed enough thought and support had been given the amendment to warrant its submission. Even the opponents recognize enough merits in the amendment to warrant its submission, in his opinion. Any defects can be taken care of by further amendments and clarification. It means a delay of a couple of years if it is not sent to the voters in November. He would vote for submission to the people.

Thereupon, the roll was again called and Supervisor Mancuso's motion for re-reference to committee and the motion lost by the following vote:

Ayes: Supervisors Gallagher, Mancuso, McMurray, Meyer, Sullivan—5.

Noes: Supervisors Christopher, Colman, Lewis, MacPhee, Mead—5.

The Controller, in reply to questioning by Supervisor Mancuso, stated that he had studied the amendment. His interest was entirely as to the financial aspects of the amendment. The amendment would be very difficult of administration in its proposed form, he felt. He believed that certain of the financial aspects should be clarified.

Supervisor Colman announced that he heard that the Mayor was to name someone to fill the vacancy on the Board created by Mr. Brown's resignation. The announcement would be made on Monday, he understood. For that reason he would renew his motion for postponement of further consideration until Monday, September 23, 1946. Motion seconded by Supervisor Lewis.

Supervisor MacPhee, speaking in favor of the motion to postpone, stated that the Controller desired to submit amendments. If the matter is to be submitted, the Board should first hear from the City Planning Engineer, who is at the present time in Los Angeles. That would be another reason for postponement until Monday.

The Controller stated he would try to have his desired amendments ready for presentation on Monday.

Thereupon, the roll was called and further consideration was postponed until Monday, September 23, 1946, by the following vote:

Ayes: Supervisors Christopher, Colman, Lewis, MacPhee, Mead, Sullivan—6.

Noes: Supervisors Gallagher, Mancuso, McMurray, Meyer—4.

Motion for Recess.

Supervisor Mead moved that the Board continue its discussion until 6:00 p. m., and at that time it recess until 8:00 p. m.

Supervisor MacPhee suggested that the Board reconvene on Monday, September 23, 1946, at 10:00 a. m., instead of returning for an evening session.

Supervisor Gallagher announced that he could not be present on Monday before 2:00 p. m.

Thereupon, Supervisor Mead renewed his motion which had not yet been seconded. Motion seconded by Supervisor Sullivan.

Supervisor Mancuso announced that he had no objection to reconvening for an evening session. However, he could not be present.

Supervisor MacPhee announced that he, too, could not be present.

Thereupon, the roll was called and the motion to recess at the hour of 6:00 p. m. and to reconvene at 8:00 p. m., was carried by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, Sullivan—10.

Supervisor Colman stated that Monday was not the last day for the Board to act on submission of proposed charter amendments. The Board could recess until Tuesday.

The Clerk pointed out to the Board the necessity of action not later than on Monday. It would be practically impossible to prepare copies of amendments for publication, and there could be no guarantee of correct publication if the Board prolonged its considerations after Monday.

After considerable further discussion as to the Board's possible action with respect to charter amendments and calendar matters on Monday, September 23, 1946, the hour of 6:00 p. m. having arrived, the Chair declared that pursuant to motion, the Board was recessed to reconvene at 8:00 p. m., at which time Supervisors Colman, Mancuso and MacPhee would be excused from attendance.

FRIDAY, SEPTEMBER 20, 1946—8:00 P. M.

The Board of Supervisors reconvened in special session to continue consideration of proposed charter amendments.

CONTRACTS—PUBLIC WORKS AND PURCHASING CONTRACTS

Supervisor Lewis presented and explained the following:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending section 95 thereof, "Public Works and Purchasing Contracts".

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco, at an election to be held on November 5, 1946, a proposal to amend the charter of said city and county by amending section 95 thereof so that the same shall read as follows:

CONTRACTS—PUBLIC WORKS AND PURCHASING CONTRACTS

Section 95. The construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements, and the purchasing of supplies, materials and equipment, when the expenditure involved in each case shall exceed the sum of [one] two thousand dollars [(\$1,000)], (\$2,000) shall be done by contract, except as otherwise provided by this charter. It shall constitute official misconduct to split or divide any public work or improvement or purchase into two or more units for the purpose of evading the contract provisions of this section. In an emergency, provided an actual emergency be declared by the board of supervisors to exist, and when authorized by resolution of said board, any public work or improvement may be executed in the most expeditious manner.

Any public work or improvement estimated to cost less than [one] two thousand dollars [(\$1,000)] (\$2,000) may be performed under contract or written order or by the employment of the necessary labor and purchase of the necessary materials and supplies directly by the city and county. Any public work or improvement executed by the city, other than routine repair work, shall be authorized by the chief administrative officer or by the heads of departments not under the chief administrative officer, only after detailed estimates have been prepared and submitted by the head of the department concerned. There shall be separate accounting for each work or improvement so executed, which accounting shall include all direct, indirect and supervisory elements of cost chargeable to such work or improvement, and each cost accounting shall be reported to the chief administrative officer, or to the mayor when such work shall have been performed by departments not under the chief administrative officer. All such accounts shall be reported to the controller. Any public work or improvement costing less than [one] two thousand dollars [(\$1,000)] (\$2,000) and not performed by the use of city and county labor, materials, and supplies shall, if not performed under contract, be covered by written order or agreement which shall be based on not less than three bids, notice of which shall be given by three days' posting. Records of such bids shall be kept by the department.

When the expenditure for any public work or improvement shall exceed the sum of [one] two thousand dollars [(\$1,000)] (\$2,000), the same shall be done by contract, except as otherwise provided in this charter. The head of the department in charge of or responsible for the work for which a contract is to be let, or the purchaser of supplies in the case of purchases of materials, supplies and equipment, shall let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work, improvement or purchase contemplated. Each such adver-

tisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications, as provided by general law relative to such investigations authorized by departments of public works.

The purchaser of supplies with the approval of the chief administrative officer, or the department head concerned with the approval of the board or commission to which he is responsible, may reject any and all bids and readvertise for bids.

The department head or the purchaser of supplies, as the case may be, shall have power to sign such contract for the estimated expenditures thereunder not in excess of [two] *three* thousand dollars [(\$2,000)] (\$3,000). Any contract involving the expenditure of over [two] *three* thousand dollars [(\$2,000)] (\$3,000), if for the purchase of materials, supplies or equipment, shall require the joint approval of the purchaser of supplies and the chief administrative officer. If such contract is for any public work or improvement, it shall require the joint approval of the department head and the chief administrative officer relative to departments under his jurisdiction, or the signature of the department head and the approval by resolution of the board or commission concerned for departments not under the chief administrative officer.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county departments may file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the department. Accurate unit costs shall be kept of all direct and indirect charges incurred by the department under any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work.

In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

Discussion.

Supervisor Lewis, in discussing the foregoing proposed amendment, stated that the Chief Administrative Officer desired the \$1,000 limitation to be increased to \$2,000. Today, with inflation, \$2,000 is the same as \$1,000 was at the time the charter was approved. However, there is opposition to the amendment. He understood the Building Trades and the contractors were on record as opposed to the change. Additional amendment was presented in committee, but the committee felt the arguments by the Chief Administrative Officer were reasonable and so recommended. The contractors have offered an amendment prepared by their attorneys. The Chairman of the Judiciary Committee and Supervisor Mancuso ruled that the alternate amendment offered by the contractors should remain in committee because it had not been considered. He, Supervisor Lewis, had asked permission to bring in the contractors' amendment as a minority report, without recommendation, but the rest of the committee refused to permit it to be brought to the Board in that way. The City Attorney advised that the amendment could be brought to the Board by any member of the committee.

Mr. Johnson, representing the Associated General Contractors, stated that the views expressed by the contractors also expressed the views of a great many people, including those who are in the construction trades unions in San Francisco. Both employers and organ-

ized labor, as a matter of principle, are opposed to any extension of construction work by governmental bodies, whether municipal, state or federal. Of course, the groups opposed to the increase from \$1,000 to \$2,000 recognize that there must be certain work done by the City and County of San Francisco. It was his personal views, however, that the majority of the membership of the Associated General Contractors, and probably of the labor groups, recognize there must be certain maintenance, repairs and emergency work that the governmental bodies must do. That is the reason why a certain amount of work can be done without contract. The present charter states that work costing less than \$1,000 can be so done. Everything else must be done after calling for and accepting bids. The practice has developed, Mr. Johnson declared, in splitting many projects into separate items so that work can be done without calling for bids. The practice is not peculiar to San Francisco alone. The contractors desire time for thorough consideration of the proposed amendment and an opportunity to place into the measure amendments to protect them against splitting and dividing projects. For that reason they are opposed to the measure. However, if the measure is to be approved he would like to have approved a counter measure. If the Board is going to double the exemption from \$1,000 to \$2,000, there should also be submitted an amendment the other way. Should there be a sharp decline, and the construction industry should face a depression, should the \$2,000 exemption be maintained? The contractors propose a provision that the amount of exemption shall be set as the Board of Supervisors may, from time to time, by ordinance, shall establish, but not to exceed a certain amount. That is the only method by which the "ups" and "downs" may be recognized.

There should be definition of terms in this measure. Nothing in the present measure defines the terms. Words are changed from repair to alteration. The issue should not be decided in a hasty manner. The contractors are opposed to this amendment. If their amendment is bad it is because they have presented it as a counter irritant to the other measure. His personal opinion, continued Mr. Johnson, was that this was no time to consider either measure. The charter should be left as it is. Both matters should be tabled.

Mr. Vensano, speaking for various departments, the Department of Public Works, Public Utilities Commission, Parks, Recreation, etc., stated that the measure applies to all construction and maintenance within the City and County. The \$1,000 limitation was put in the Charter in 1932, and was carried over from the previous Charter. No one knows how far back the limitation goes. With this provision of the Charter, the Department of Public Works cannot service one block of streets, yet newspapers and others are after the department continually for repairs. It is very difficult to live up to the present limitation imposed by the Charter. The department can spend \$100,000 in patching up open streets, but it cannot resurface one complete block.

Supervisor Mead stated that Mr. Johnson was not at the meeting of the Building Trades Council, held the previous evening, but he discussed the matter exactly as it was discussed there. The Building Trades Council represents men on both sides of the picture. It is rather difficult to discuss the matter without touching briefly on the proposal by the contractors which has to do with decreasing the limitation to \$500. In one way, men employed by the City and County would be injured; in the other way private employment would be injured. Supervisor Mead disagreed with Mr. Vensano, when he stated that he would completely renew the surface of a street instead of patching it. That would be money thrown away, he felt. Whichever proposal is submitted to the people, someone is going to get hurt. He suggested the matter remain in status quo. It should be voted down and the contractors should withdraw their amendment.

Supervisor Meyer stated that the Department of Public Works was now limited to \$1,000 expenditure on any one street in any one year. A limit of \$2,000 would not hurt the contractors at all.

Supervisor Christopher agreed that labor costs and cost of materials have both gone up. He thought, however, that the purchase of supplies should not be increased. He would go along to increase the limitation on repair work, but not on the amount of money to be spent by the Purchaser of Supplies. That amount, if possible, should be reduced to \$500.

Supervisor Christopher moved that the amendment be approved, with the exception that the purchaser of supplies remain at the present figure and the Clerk be instructed to re-write the amendment for consideration on Monday, September 23, 1946. Motion seconded by Supervisor McMurray.

Supervisor Lewis called attention to the fact that all purchases have to be by bid. He did not think anything would be accomplished by such amendment.

The Chair pointed out that there was a \$25 limitation on purchases without calling for bids.

After further brief discussion, the roll was called and the motion by Supervisor Christopher was *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, McMurray, Sullivan—4.

Noes: Supervisors Lewis, Mead, Meyer—3.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Mr. Johnson suggested that if possible a compromise be reached in respect to the amount of limitation to be submitted to the voters. He thought the amount of limitation be increased to \$1,500 instead of \$2,000. He would like to hear someone make a motion to that effect.

Supervisor Christopher stated that he would be glad to make such a motion, and he would so do. Motion seconded by Supervisor McMurray.

Thereupon, the roll was called and the motion to make the limitation read \$1,500 instead of \$2,000, was *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Sullivan—5.

Noes: Supervisors Mead, Meyer—2.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Supervisor Meyer then proposed the following amendment to be inserted in Section 95, as the second paragraph thereof, and moved approval:

“Notwithstanding any other provision in this section or this charter contained, upon the approval of the chief administrative officer declaring the work to be emergency in character, there may be expended by the Department of Public Works the sum not to exceed five hundred dollars (\$500) for new construction of any type in or upon unimproved or unaccepted streets.”

Motion seconded by Supervisor Sullivan.

Motion *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Refused Submission.

Thereupon, the roll was again called, and the foregoing proposed charter amendment, as amended, was *refused submission* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Sullivan—5.

Noes: Supervisors Mead, Meyer—2.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Numbering of Charter Amendments.

On motion by Supervisor Sullivan, amendment to Section 153 of the Charter, Leaves of Absence, was designated as Charter Amendment No. 6 by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

On motion by Supervisor Christopher, seconded by Supervisor McMurray, amendment adding Section 168.3 to the Charter, Pension Provisions, Dependents of Members of Fire and Police Departments Killed in Line of Duty, was designated as Charter Amendment No. 7 by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

On motion by Supervisor Sullivan, seconded by Supervisor McMurray, amendment to Section 10 of the Charter, Number, Compensation and Meetings of Supervisors (Salaries of Supervisors to be fixed by general law), was designated as Charter Amendment No. 9 by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Meyer, Sullivan—6.

No: Supervisor Mead—1.

Absent Supervisors Colman, MacPhee, Mancuso—3.

During the discussion of the designation of number for the foregoing mentioned charter amendment, Supervisor Mead reiterated statement previously made by him that he thought a mistake was being made in ordering two amendments to provide for fixing salaries of supervisors to be submitted to the voters.

Supervisor McMurray, seconded by Supervisor Christopher, moved that amendment to Section 134 of the Charter, Board of Education, be designated as Charter Amendment No. 10.

Motion carried by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Supervisor Mead, seconded by Supervisor Lewis, moved that amendment to Section 38.1 of the Charter, Salvage Corps, be designated as Charter Amendment No. 7.

Motion carried by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Supervisor Mead, seconded by Supervisor Lewis, moved that amendment to Section 151.1 of the Charter, Officers Subject to Salary Standardization, be designated as Charter Amendment No. 8.

Motion carried by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Supervisor Mead moved that amendment to Section 69 of the Charter, Budget Estimates, and Section 72 of the Charter, Adoption

of the Budget and the Appropriation Ordinance, be designated as Charter Amendment No. 11.

Motion *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, Sullivan—7.

Absent: Supervisors Colman, MacPhee, Mancuso—3.

Official Welcome of Fashion Editors.

Supervisor Lewis called attention to official welcome of ninety fashion editors who will arrive in San Francisco at the Third and Townsend Street Station on Monday, September 23, 1946, at 9:00 a. m., and he invited the participation of all members of the Board in such welcome.

RECESS.

At the suggestion of Supervisor Gallagher, and on motion by Supervisor Sullivan, seconded by Supervisor McMurray, the Board, at the hour of 10:30 p. m., recessed its special meeting to reconvene on Monday, September 23, 1946, at 12 o'clock noon, to resume consideration of charter amendments.

MONDAY, SEPTEMBER 23, 1946—12:00 NOON.

In Board of Supervisors, Monday, September 23, 1946, 12:00 Noon.
The Board of Supervisors met in recessed special meeting.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Colman, Gallagher, Lewis, MacPhee, Mancuso, Mead, Meyer, Sullivan—8.

Absent: Supervisors Christopher, McMurray—2.

Quorum present.

President Dan Gallagher presiding.

Supervisors Christopher and McMurray were noted present at 12:00 p. m.

Consideration of Charter Amendments Resumed.

The Board of Supervisors, sitting in recessed special meeting, resumed consideration of proposed charter amendments.

Charter Amendment No. 9—Supervisors' Compensation.

Supervisor Colman moved that the Board rescind its action previously taken, whereby Charter Amendment No. 9, providing for fixing of Supervisors' compensation by the State Legislature, was ordered submitted, be rescinded. Motion seconded by Supervisor MacPhee.

After brief explanation as to his reason for the foregoing motion, Supervisor Colman, seconded by Supervisor Mancuso, moved that action on the motion be temporarily postponed.

No objection, and so ordered.

Rescinding of Action Proposed.

Subsequently during the proceedings, Supervisor Colman, seconded by Supervisor MacPhee, again moved that the Board rescind its action whereby, on September 3, 1946, it had ordered submitted to the voters, Charter Amendment No. 9, to provide that compensation of members of the Board of Supervisors be fixed by general law.

Supervisor Colman in support of his motion to rescind action, stated that the Board had already ordered submitted one amendment asking the people to increase their wages. He did not think it wise to submit two amendments on the same matter. The people themselves should be the best judges of what they desire to pay their Supervisors.

Supervisor Lewis held that both amendments should be submitted.

Supervisor Mancuso, in support of Charter Amendment No. 9, which he had presented, stated that there was a movement throughout the entire State that the salaries of County Supervisors be set by the State Legislature. It was only by the State Legislature last year that Supervisors throughout the State were enabled to get some increase in salary. Both amendments should be submitted.

Thereupon, the roll was called and the motion to rescind action failed by the following vote:

Ayes: Supervisors Christopher, Colman, MacPhee, Mead, J. Joseph Sullivan—5.

Noes: Supervisors Gallagher, Lewis, Mancuso, McMurray, Meyer, John J. Sullivan—6.

Numbering of Charter Amendment.

Supervisor Mead, seconded by Supervisor Sullivan, moved that proposed amendment to Section 24 of the Charter, Permits and Licenses, be designated as Charter Amendment No. 5.

Motion carried by the following vote:

Ayes: Supervisors Colman, Gallagher, Lewis, MacPhee, Mancuso, Mead, Meyer, Sullivan—8.

Absent: Supervisors Christopher, McMurray—2.

Discussion.

Mr. Robert Callaghan, representing the members of the Fire Department, reported that the representatives of the Fire and Police departments had attempted to consolidate amendments affecting both those departments. The proposed consolidation would include the Salvage Corps. He would like to have the Fire and Police Department amendments considered at one time.

Supervisor Colman presided during the discussion on Fire and Police Department amendments, at the request of President Gallagher, who desired to participate more actively in discussion on said amendments.

Supervisor Gallagher expressed opposition to and rescinding of action whereby Charter Amendment affecting the Salvage Corps had previously been ordered submitted. He believed that the status of the Salvage Corps, as regards any charter amendment, should remain as at present.

Thereupon, Supervisor Gallagher resumed his position as President and Chairman.

Lieutenant Quigley, of the Police Department, reported that the members of the Police and Fire departments' committee had agreed that having nine amendments on the ballot would most likely kill nearly, if not all amendments. The committee realizes the need for increased salaries for policemen and firemen. The members of both departments, under the proposed charter amendment, will get an increase of 15 per cent in salary, so no one will be hurt along those lines. Provision is made for widows of members of the departments killed in line of duty. In the interest of harmony, the committee has asked the various groups to go along with two amendments. All groups, Lieutenant Quigley thought, would support the first amendment. He urged the members of the Board to consider all amendments for the Police and Fire departments together.

Mr. John, representing San Francisco Labor Council, stated that the Labor Council was in complete accord with the contention made by the firemen. The Council believes there is better opportunity for success if only two amendments are on the ballot. However, it believes that Charter Amendment No. 4, already ordered submitted, should go on the ballot. Amendment covering pensions of widows of men killed in line of duty was a good amendment, and should be submitted.

Thereupon, Supervisor Colman stated that in order to have something before the Board for consideration, and after listening to the discussion, he would move, as suggested by Mr. Gallagher, that the Board introduce only two amendments, and that the Board does not consider any other amendments.

Thereupon, Supervisor Colman moved that the Board rescind its action whereby it had ordered submitted charter amendment affecting the Salvage Corps.

Motion failed for want of a second.

Mr. Ivan Flamm, representing the Retirement League of San Francisco, stated that association had endorsed the proposals made by the Fire and Police department representatives to keep the number of amendments to a minimum. The Retirement League represents 15,000 employees. The League realizes that too many amendments affecting City employees will adversely affect every employee. The Salvage Corps will benefit by Charter Amendment No. 3, because they come under the proposed liberalization plan, and will not be losing too much. They can come in with their proposal at a later date.

Supervisor Gallagher stated he thought members of the Salvage Corps should have the same rights and privileges as other members of the Fire Department, and that there should be three matters on the ballot. Thereupon, he ruled further discussion out of order.

Thereupon, Supervisor Colman presented the following proposed charter amendment, and, in order to bring the matter before the Board, moved submission thereof:

PROPOSED CHARTER AMENDMENT No. 7

PENSION PROVISIONS—DEPENDENTS OF MEMBERS OF FIRE AND POLICE DEPARTMENTS KILLED IN LINE OF DUTY

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the charter of said city and county by adding Section 168.3 thereto, relating to the members of the Fire and Police Departments, the Salvage Corps and pilots, marine engineers and marine firemen of fireboats, and Section 38.2, relating to membership in the salvage corps of persons absent in military service.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county, at an election to be held therein on the 5th day of November, 1946, a proposal to amend the charter of said city and county by adding thereto new sections to be designated as Section 168.3 and 38.2, as follows:

PENSION PROVISIONS—DEPENDENTS OF MEMBERS OF FIRE AND POLICE DEPARTMENTS KILLED IN LINE OF DUTY

SEC. 168.3. If a member of the fire or police departments, as defined in the charter for the purposes of the retirement system, or a member of the salvage corps in the fire department, or any person employed by the city and county to perform duties now performed under the titles of pilot of fireboats, marine engineer of fireboats, or marine firemen of fireboats, all of whom are hereafter designated as members, shall die before or after retirement as a result of an injury received in, or illness caused by the performance of his duty, a monthly allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowances shall not be less than one-half of the average monthly compensation earnable by said member during the three years immediately preceding death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If death occurs prior to qualification for service

retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than one-half of such average monthly compensation. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this sub-section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

Benefits provided under this section shall be in lieu of all benefits payable under other sections of the charter upon death of such member resulting from an injury received in, or illness caused by the performance of duty, except the five hundred dollar benefit payable upon death after retirement.

Contributions to provide the allowance under this section shall be made to the San Francisco City and County Employees' Retirement System by the city and county. The amount of the contribution shall be determined and payment to the system shall be made in the same manner as contributions are determined and paid which are required for other benefits provided under the retirement system for the respective groups of members who are included under this section.

Notwithstanding any other provisions of this charter, any member of the salvage corps in the fire department, or any person employed by the city and county to perform duties now performed under the titles of pilot of fire boats, marine engineer of fire boats, or marine firemen of fire boats, who becomes incapacitated for performance of his duty by reason of any bodily injury received in or illness caused by the performance of his duty, shall receive the same benefits as members of the fire department who are members of the retirement system under section 171 of the charter.

SALVAGE CORPS—MILITARY LEAVE PROVISIONS

SEC. 38.2. Notwithstanding any other provisions of this charter, any person employed on July 1, 1943, in the uniformed force of said Underwriters Fire Patrol of San Francisco who was absent from his duties therein on account of military service and who had been so employed by said Underwriters Fire Patrol of San Francisco for a period of six (6) months next before July 1, 1943, is deemed a member of said salvage corps on July 1, 1943, on military leave from his position therein and is deemed appointed thereto on July 1, 1943, pursuant to the civil service provisions of the charter and entitled from said date to all of the benefits of such employment.

Discussion.

Lieutenant Quigley stated that it was his understanding that if the foregoing proposed amendment were ordered submitted, that all other amendments affecting the Police and Fire departments, except Charter Amendment No. 4, would be off the ballot.

Supervisor Gallagher moved that Section 38.2, the last paragraph of the proposed charter amendment, be deleted, inasmuch as the Board has already ordered submitted an amendment to take care of the Salvage Corps. Motion seconded by Supervisor Lewis.

Supervisor Mancuso announced that he would vote against the motion, and he would ask the other members of the Board so to vote. The Judiciary Committee, he stated, had been working for some time on these amendments. The members of the Fire Prevention Bureau should receive consideration.

Lieutenant Quigley, in answer to remarks by Supervisor McMurray, stated if Section 38.2, amendment for the Salvage Corps, were kept on the ballot, the amendment for Retired Police Corporals should also be on the ballot.

Thereupon, Supervisor Mancuso moved that further consideration of all proposed amendments affecting the Police and Fire departments be postponed until the Board has an opportunity of passing upon other charter amendments that have been presented. Motion seconded by Supervisor McMurray.

Supervisor Gallagher opposed the motion. Many of the members of the Fire Department have to fly to Long Beach during the afternoon, he stated. It would be an injustice to them to do that.

Thereupon, the roll was called and the motion for postponement by Supervisor Mancuso *failed to carry* by the following vote:

Ayes: Supervisors Mancuso, McMurray—2.

Noes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mead, Meyer, Sullivan—8.

Supervisor Lewis speaking in favor of motion by Supervisor Gallagher, to delete Section 38.2 from the amendment under consideration, stated that the two Sections of the amendment were really two different matters, and he believed it would be a mistake to have them in one charter amendment.

Mr. Callaghan objected to the motion. If the motion were carried it would kill the intention of the entire matter.

Supervisor Colman agreed with Mr. Callaghan. He was opposed to the deletion, and would vote "No" on the motion.

After further brief discussion, the roll was called and the motion by Supervisor Gallagher *lost* by the following vote:

Ayes: Supervisors Gallagher, Lewis, Mancuso, McMurray, Meyer—5.

Noes: Supervisors Christopher, Colman, MacPhee, Mead, Sullivan—5.

Thereupon, Supervisor MacPhee suggested an additional amendment to the proposed charter amendment, to provide for retired police corporals.

Mr. Quigley again informed the Board that in order to make a compromise with the various groups, it was necessary to make some sacrifices. There was no question of opposition to any of the groups.

Lieutenant Quigley stated that in the interest of harmony, the retired corporals were eliminated.

Mr. James Farrel, representing retired corporals, announced that his group was willing to go along in the charter amendment as proposed.

Supervisor MacPhee moved that Section 161.1, which had heretofore been included in proposed charter amendment, be included in

the proper place in charter amendment proposed by Supervisor Colman. Motion seconded by Supervisor Mancuso.

Motion *failed* by the following vote:

Ayes: Supervisors Gallagher, Lewis, Mancuso, McMurray—4.

Noes: Supervisors Christopher, Colman, Gallagher, McMurray, Mead Sullivan—6.

Ordered Submitted.

The roll was then called and motion to submit, by Supervisor Colman, was *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, Sullivan—10.

Supervisor Colman moved the Board rescind its previous action, whereby proposed amendment to Section 38.1, Salvage Corps, had been ordered submitted to the voters. Motion seconded by Supervisor MacPhee.

Supervisor Gallagher was opposed to the motion. Such action, he declared, would imperil the rights of the members of the Salvage Corps to retirements. It was not fair to members of the Salvage Corps, since they were taken into the Fire Department, not to receive the same retirement benefits as the members of that Department.

Thereupon, the roll was called and the motion *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, MacPhee, Mead, Meyer, Sullivan—6.

Noes: Supervisors Gallagher, Lewis, Mancuso, McMurray—4.

Before the result of the foregoing vote had been announced, Supervisor Gallagher changed his vote from "No" to "Aye" and moved for reconsideration at a later time during the day. Motion seconded by Supervisor Lewis.

The vote then stood:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, Mead, Meyer, Sullivan—7.

Noes: Supervisors Lewis, Mancuso, McMurray—3.

Subsequently during the day's proceedings, Supervisor Gallagher announced that he would not press his motion for reconsideration, and he then moved that the Board adjourn. Motion seconded by Supervisor Christopher.

Motion *failed* by the following vote:

Ayes: Supervisors Christopher, Gallagher—2.

Noes: Supervisors Colman, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Thereupon, Supervisor Gallagher presented, as a substitute for motion made previously during the proceedings, that all personnel serving in the uniformed forces of the Fire Department who serve in the Fire Prevention Bureau shall receive \$25 per month more salary than those of the same ranks while serving in the Fire Department, the following, to be known as Section 36.2 of the Charter:

Section 36.2. Notwithstanding any other provision of this charter, all personnel of the police and fire departments assigned to the following special services:

Fire Department—Fire Prevention and Investigation Bureau; Auto Detail; Drill Tower Detail; Water Front Fire Marshal Operators.

Police Department—Motorcycle Officers; Radio Car Officers; Radio Technicians; Bureau of Special Service; Accident Prevention Bureau; Desk Clerks; City Prison Officers; shall be paid \$25.00 per month in addition to the compen-

sation attached to their respective ranks while so serving, provided that the compensation of any such position in special service is not subject to the salary standardization provisions of this charter.

This proposed charter amendment, Supervisor Gallagher pointed out, speaks for itself. If one group detailed to special service is to be taken care of, personnel of all departments detailed to special service should be taken care of, and accordingly he would move submission. Motion seconded by Supervisor Mead.

The roll was called and the foregoing proposed amendment was *Refused Submission* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Mead—3.

Noes: Supervisors Colman, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Thereupon, the roll was called on charter amendment submitted by Supervisor Mancuso, and amendment was *Ordered Submitted* by the following vote:

Ayes: Supervisors Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan—7.

Noes: Supervisors Christopher, Colman, Gallagher, John J. Sullivan—4.

Salvage Corps.

Supervisor Gallagher announced that he believed the men of the Salvage Corps should be on a separate amendment. They are entitled to be part of the retirement system. It was not fair that they were not taken in as members of the Fire Department and given an opportunity of coming into the retirement system as such.

Supervisor Mead agreed, but two wrongs did not make a right, he held. Supervisor Gallagher's proposal brings up the question of cluttering up the ballot, which might defeat everything the Board has already done. There are three amendments affecting members of the Fire and the Police departments already ordered submitted. There should be no more.

Supervisor Colman declared that the Board was doing everything in its power to sabotage all the amendments. In his opinion, those who say they never want to vote against an increase in salary are doing exactly that. The cost of charter amendments already ordered submitted is approximately \$10,000,000. The Board is not acting wisely in submitting any more amendments. He would vote against this proposal by Supervisor Gallagher, and against all other amendments.

Thereupon, the roll was called and the amendment proposed by Supervisor Gallagher was *Refused Submission* by the following vote:

Ayes: Supervisors Christopher, Gallagher, McMurray—3.

Noes: Supervisors Colman, Lewis, MacPhee, Mancuso, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Numbering of Charter Amendment.

Supervisor Colman, seconded by Supervisor Mead, moved that proposed charter amendment providing for pension provisions for dependents of members of the Fire and Police departments killed in line of duty, and for military leave provisions for members of the Salvage Corps, be designated as Charter Amendment No. 7.

No objection, and motion carried.

Re-reference to Committee.

Supervisor Colman then moved re-reference to committee of Charter Amendment, Section 168.2, Continuance of Retirement Allowances to Widows of Policemen. Motion seconded by Supervisor McMurray.

No objection, and motion carried.

CHARTER AMENDMENT**DIVISION OF FIRE PREVENTION AND INVESTIGATION**

Supervisor Mancuso presented the following:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending section 38 thereof, relating to fire prevention and investigation.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by amending section 38 thereof relating to fire prevention and investigation, so that the same shall read as follows:

Section 38. The division of fire prevention and investigation is hereby established in the fire department, under the jurisdiction of the fire commission. The division shall consist of such personnel as may be necessary for the proper operation of the same, and shall have such organization, powers and duties as are provided herein and by ordinance not in conflict herewith. The division of fire prevention and investigation shall consist of the bureau of fire prevention and public safety and the bureau of fire investigation. The chief of the division of fire prevention and investigation shall be in charge of such division under the jurisdiction aforesaid. The fire commission shall detail to the bureau of fire prevention and public safety from the uniformed force of the department an officer to have charge of said bureau and such personnel for service above the rank of inspector as it may deem necessary. The supervising inspector, bureau of fire investigation, shall be in charge of the bureau of fire investigation.

In addition to the chief of the division of fire prevention and investigation and the supervising inspector of the bureau of fire investigation, whose positions in the division are subject to civil service regulation and to salary standardization, officers of the fire department sufficient for the performance of the functions of the division shall be detailed at all times for service herein above the rank of inspector. While so serving such officers shall each receive as compensation for such service a sum of \$25.00 per month in addition to the compensation attached to their respective ranks.

Other service in the division shall be performed by members of the uniformed force of the fire department having the rank of inspector, which position is hereby created.

The position of inspector shall be included in the classified civil service of the city and county and all occupants thereof shall be subject to the civil service provisions of this charter, provided that the probationary period for the rank of inspector shall be one year, and further provided that all members of the uniformed force other than officers who are actually employed as such inspectors on the effective date of this amendment and who have been regularly detailed thereto for a period of three years prior thereto, shall be continued in their respective positions as such inspectors without serving a probationary period and otherwise as if appointed thereto after examination and certification from a civil service list of eligibles, and thereafter shall be governed by, and be subject to, the civil service provisions of this char-

ter. Members of the uniformed force of the fire department for a period of three years or more shall be eligible to participate in examinations for the rank of inspector. For all purposes of promotional examinations and promotion the rank of inspector shall be equal to those of chief's operator, hose-man and truckman in the fire department.

The annual compensation for persons serving as inspectors shall be, during their probationary period as such, that attached at the time earned to the rank held on appointment thereto. The annual compensation for persons permanently appointed to the rank of inspector shall be \$300.00 per year less than that of lieutenant of the fire department. The salary herein provided for the rank of inspector shall be effective and shall accrue on the 1st day of January, 1947, notwithstanding any contrary provision of this charter, but the payment of any portion thereof not theretofore budgeted and appropriated may be deferred by the board of supervisors until the beginning of the fiscal year immediately following ratification of this section by the legislature of the State of California. All officers and members of the division shall retain all pension and retirement rights provided by charter and ordinance.

The bureau of fire prevention and public safety shall inspect all structures and premises to determine whether or not compliance is being had with statutes and ordinances relative to fire prevention, fire protection and fire-spread control, and the protection of persons and property from fire. It shall enforce said statutes and ordinances and shall report violations to departments having jurisdiction.

Such bureau shall examine the application, plans and specifications for the erection, and for alterations and repairs of any structure or premises subject to the statutes and ordinances referred to in this section. The bureau shall by written report, filed with the superintendent of building inspection, approve such plans and specifications, or report to said superintendent the particulars wherein noncompliance exists, and upon modification of the application, plans and specifications to comply therewith, the bureau shall inform said superintendent of its approval. No permit for alteration or repair or for erection shall be issued unless said approval is given.

The fire commission, relative to permits subject to issuance or revocation by the chief engineer of the fire department, shall, by regulation, prescribe such duties of the bureau of fire prevention as it shall deem appropriate. Any structure or premises wherein there exists any violation of statutes and ordinances referred to in this section, or which is maintained or used in such manner as to endanger persons or property by hazard of fire, explosion or panic and any structure or premises hereafter constructed, altered or repaired in violation of said statutes and ordinances is hereby declared to be a public nuisance, and it shall be the duty of the bureau to prosecute abatement proceedings.

An appeal and advisory board is hereby created, consisting of the chief engineer of the fire department, who shall be the chairman, the chief of division of fire prevention and investigation, and the heads of the bureau of building inspection and the department of electricity, and a lay member to be appointed by the mayor for a four-year term. Said board shall serve without compensation.

An appeal may be taken from any act, determination or order of the bureau, performed under this section, by filling a written appeal with the appeal and advisory board.

Pending action on such appeal any construction, alteration or repair, embraced therein, may proceed if a building permit therefor has been issued, but no such permit may be issued while action on an appeal is pending. No certificate of completion or occupancy shall be issued by any officer or employee until said appeal has been determined. The advisory and appeal board may affirm, reverse or modify the act and determination of the bureau. If the appeal is determined adversely to the appellant, said structure or premises shall be made to comply with such decision. It shall require four votes of the board to reverse or modify the act, order or determination of the bureau.

The bureau of fire investigation shall have the power to investigate the cause, origin and circumstances of every fire or explosion occurring in the city and county of San Francisco for the purpose of ascertaining whether the fire or explosion was of accidental or criminal origin. Said bureau shall keep a record of all fires, including important facts, statistics and circumstances relating to the cause thereof. The bureau of fire investigation shall have the power to enter in or upon and examine any structure or premises wherein or whereon an attempt has been made to set a fire or cause an explosion, or a fire or explosion has occurred. The bureau shall report promptly to the district attorney all cases in which it concludes that a fire or explosion has been caused with criminal intent.

Officers of the division of fire prevention and investigation and inspectors of the bureau of fire investigation shall have the powers and exercise the functions of a police officer to enforce compliance with the provisions of this section.

Discussion.

Mr. Sullivan, President of the Board of Fire Commissioners, stated that the Board of Fire Commissioners objected to Civil Service status of members of the Fire Prevention Bureau. Such status would interfere with the administration of the department. The amendment would create dissension in the department. He was opposed to submission.

Supervisor Mancuso announced that the Scannell Club group definitely insisted that the personnel of the Fire Prevention Bureau be under civil service. The members of that Bureau also want civil service status. This amendment simply provides that the Division of Fire Prevention and Investigation shall be under the Fire Commission and that the Chief of the division shall be confined to his division.

Mr. Alfred Smith stated that he had not had an opportunity to consider the amendment proposed by Supervisor Mancuso. However, he agreed with the remarks of President Sullivan.

Mr. Frank Kelley, Chief of the Division of Fire Prevention and Investigation, stated that he had seen the proposed amendment only about five minutes previously. He was opposed to the taking of his position out of the uniformed ranks of the Fire Department. It was not fair or right. The amendment should be left as originally written, or there should be no amendment at all.

Mr. Charles Rockwell, representing Personnel in the Fire Prevention Bureau, urged submission of amendment proposed by Supervisor Mancuso.

Supervisor McMurray urged submission of the amendment.

Supervisor MacPhee reported on the Judiciary Committee's consideration of the amendment. The committee has felt for a long time, he stated, that consideration should be given this division in the matter of increased compensation.

Mr. Callaghan declared that the subject matter was strictly controversial in the Fire Department. If it gets on the ballot there will be other groups trying to get on the ballot, also. The Fire and Police Committee objects to its submission at this time.

After further brief argument by Supervisor Mancuso, the roll was called and the amendment as proposed by Supervisor Mancuso was *Ordered Submitted* by the following vote:

Ayes: Supervisors Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer—6.

Noes: Supervisors Christopher, Colman, Gallagher, J. Joseph Sullivan, John J. Sullivan—5.

Action Rescinded.

Subsequently during the proceedings, Supervisor Colman, seconded by Supervisor Christopher, moved that the Board rescind its action whereby it had ordered submitted to the voters, the foregoing charter amendment.

Supervisor Colman stated his reason for moving to rescind, saying that he did not believe all the members of the Board had heard the arguments presented and so did not understand exactly what was taking place.

Supervisor Mancuso opposed the motion to rescind, and urged the members to vote "No" on the motion.

Supervisor Mead announced that he would vote for the motion to rescind. He did not hear the arguments by the heads of the department.

Thereupon, the roll was called and the motion to rescind action was *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Mead, J. Joseph Sullivan, John J. Sullivan—6.

Noes: Supervisors Lewis, MacPhee, Mancuso, McMurray, Meyer—5.

President Sullivan, of the Board of Fire Commissioners, stated that said Board had opposed the amendment for the simple reason that it provided for civil service status for the inspectors in the department. He urged that the matter be not submitted.

Supervisor McMurray moved that reference to civil service be deleted from the amendment.

Motion *failed* for want of a second.

Chief Kerns of the Fire Department also opposed submission of the amendment.

Mr. Callaghan also opposed the submission of the amendment. His opposition was not based on the merits of the amendment, however, but he did not want to see too many matters on the ballot for the Fire and the Police departments.

Refused Submission.

Thereupon, the roll was called and the foregoing proposed amendment was *Refused Submission* by the following vote:

Ayes: Supervisors Lewis, MacPhee, Mancuso, McMurray, Meyer—5.

Noes: Supervisors Christopher, Colman, Gallagher, Mead, J. Joseph Sullivan, John J. Sullivan—6.

City Planning Commission Withdrawn.

Supervisor MacPhee moved the privilege of the floor for Mr. Lash, of the Junior Chamber of Commerce.

Mr. Lash reported at some length on the efforts of his associates in connection with City Planning Commission charter amendments

which they had proposed. He expressed appreciation for the courtesies and the hearing by the City Planning Committee. After much thought, and with some regret, he and his associates had decided, in order further to explain the City Planning Commission amendment to additional groups, and to better prepare the amendment to present to the Board of Supervisors for unanimous submission to the voters, to request that further consideration be postponed and that they be given permission to withdraw the amendment. It was their intention at a later date, and as early as possible, again to present their amendment.

Supervisor MacPhee announced that, in view of the statement by Mr. Lash, he would move that the amendment be re-referred to Judiciary Committee.

Supervisor Colman announced that he was prepared to state that he thought there was sufficient merit in the City Planning Commission amendment to warrant its submission to the voters. He complimented the members of the Junior Chamber of Commerce for their leadership and their fine example.

Supervisor Mead declared that Supervisor Colman had expressed the opinion of every member of the Board.

Supervisor Lewis announced that he was opposed to re-reference to committee. It seemed evident to him that pressure had come in from some place. The amendment should be sent to the people, and it should be voted on, because it was a good amendment, and he urged the advocates of the measure to stick with it.

Supervisor McMurray agreed with Supervisor Colman that the young men of the Junior Chamber of Commerce were deserving of much commendation.

Supervisor Meyer announced that he would go along with the group from the Junior Chamber of Commerce.

Supervisor MacPhee stated that he believed the provisions of the amendment were generally acceptable. However, there seemed to be a desire for opportunity for further study by various groups. Those groups are not necessarily opposed to the measure. He did not believe the proponents of the proposed charter amendment had made any hasty decision not to press their amendment, but gave their decision very careful thought. If the amendment is returned to committee, it will not die there.

Thereupon, the roll was called and the motion to re-refer to Judiciary Committee was *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Noes: Supervisors Lewis, Mead—2.

Adjournment of Special Meeting.

During the consideration of the foregoing matter, at the hour of 2:00 p. m., the Board of Supervisors adjourned its recessed special session and reconvened in regular meeting.

Announcement of Appointment of J. Joseph Sullivan as Supervisor.

His Honor, the Mayor, presented to the Board, Honorable J. Joseph Sullivan, and announced his appointment as Supervisor to fill the vacancy caused by the resignation of Supervisor Brown.

Committee Assignments for Supervisor J. Joseph Sullivan.

The President, after greeting the newly appointed Supervisor and presenting him to his colleagues on the Board of Supervisors, announced that he would appoint him to the same committee assignments which had been held by Mr. Brown.

APPROVAL OF JOURNAL.

The Journal of Proceedings of the meeting of August 12, 1946, was considered read and approved.

Ordered Submitted.

CHARTER AMENDMENT No. 13

SUBSTITUTE PROMOTIONAL EXAMINATIONS FOR EMPLOYEES RETURNING FROM SERVICE IN ARMED FORCES

The following proposed charter amendment was taken up:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding thereto a new section to be known as section 146.2, relating to substitute promotional examinations for employees returning from military leaves of absence for service in the armed forces of the United States, and rights arising therefrom.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by adding thereto a new section to be known as section 146.2, so that the same shall read as follows:

SUBSTITUTE PROMOTIONAL EXAMINATIONS FOR EMPLOYEES RETURNING FROM SERVICE IN ARMED FORCES

SEC. 146.2. Employees under permanent civil service appointment who, because of absence on duly authorized military leave for service in the armed forces of the United States, did not participate in a promotional examination held between September 16, 1940 and the effective date of this amendment, in which examination the employee was otherwise eligible to compete, and which examination is hereinafter referred to as the original promotional examination, shall after abridgment of military leave, have the right to participate in a similar promotional examination, subject to the provisions of this section. The provisions of this section shall not apply to employees whose military leave extends beyond six months after the effective date of this amendment.

In order to qualify for participation in a similar promotional examination under the provisions of this section, such employee who desires to participate therein must make application in writing to the Civil Service Commission within thirty days after the abridgment of his military leave, or within thirty days after the effective date of this amendment, whichever is later. Failure to file such written request to participate in a similar promotional examination as herein provided shall be deemed a waiver of all rights of the employee to participate in such similar promotional examination.

The Civil Service Commission shall arrange to hold such similar promotional examination within a reasonable time after all such employees eligible to request participation in any such similar promotional examination under the provisions of this section have indicated their desire to so participate, or have waived their right to participate, as herein provided.

The Civil Service Commission shall be the sole judge of the adequacy of such similar promotional examination. If the employee obtains in the similar promotional examination a score rating equal to or more than the minimum passing mark established by the Civil Service Commission for inclusion on the list of eligibles resulting from the original promotional examination, his name shall thereupon be entered on the eligible list resulting from the original promotional examination in

accordance with the relative excellence obtained by all the qualified participants in the original and similar promotional examinations. Such employees shall be eligible for appointment from such list of eligibles in accordance with civil service rules to any vacancy thereafter occurring, and subject to satisfactory completion of a probationary period as provided in section 148 of this charter for a period of four years after the proclamation of peace or the termination of the emergency, and before eligibles procuring standing through examinations held subsequent to the original promotional examination.

If it is determined by the Civil Service Commission that the name of such person would have been reached for permanent appointment from the list of eligibles established as a result of the original promotional examination during his term of military service had the name of such person appeared thereon, then such employee, upon appointment to a permanent position as herein provided, shall be granted seniority in such appointment from the date his name would have been reached had his name appeared thereon, but such seniority shall be used only for the purpose of determining salary increments and calculating city and county service credits in other promotional examinations held subsequent to the similar promotional examination herein authorized. For all other purposes, seniority of service shall date from the date of appointment as a result of qualifying in the similar promotional examination as herein authorized.

Such employees who qualify for appointment as a result of a similar promotional examination as herein provided, and who are appointed to permanent positions, as herein provided, shall be permitted to participate in other promotional examinations for which they are otherwise eligible, while serving under probationary appointment in the position to which appointed as a result of the similar promotional examination, provided that certification from lists of eligibles established from such other examinations shall not be made until the employee has satisfactorily completed the aforesaid probationary appointment.

The Civil Service Commission shall adopt rules to govern the administration of similar promotional examinations herein authorized, and appointments and other matters resulting therefrom.

Discussion.

Supervisor Christopher announced that he was in favor of the foregoing proposed amendment, but he feared that if there were two amendments on the ballot, of equal importance and dealing with the same subject, the voters might become confused and so injustice would be done to both measures.

Supervisor MacPhee reported that the Judiciary Committee had given the subject matter considerable thought and had heard a great deal of discussion. The C.I.O. was adamant that the "veterans only" be put on the ballot. The Committee felt that both matters should go on the ballot and the decision of the people would be final. The Committee believes that no harm can be done by submission of both amendments.

Supervisor Christopher then stated that the explanation by Supervisor MacPhee was satisfactory to him, and he would go along with the veterans.

Mr. Peddicord stated that there was some thought expressed of appointing a committee to go to the State Legislature, in case one measure received a very much larger vote than the other, which would be regarded as the will of the people, to ask the Legislature to ratify only that amendment which received such larger vote. However, if both amendments were approved by the people, and ratified

by the Legislature, the result would merely be that all employees returning from military leave of absence, whether their service was in the armed forces or in the maritime service, would be entitled to take the promotional examinations they had missed because of such service. There would be no conflict between the two measures.

Supervisor Colman believed one amendment was sufficient. He could not go along with a second amendment. He would vote against submission of the amendment to add Section 146.2 to the Charter.

Supervisor Mancuso, seconded by Supervisor John J. Sullivan, moved that the word "employees" be substituted for the word "eligibles" in the foregoing amendment.

No objection, and motion carried.

Supervisor Mancuso, seconded by Supervisor Meyer, moved that the foregoing amendment, as amended and reading as above, be ordered submitted.

Motion *carried* and proposed charter amendment, adding a new section to the Charter to be known as Section 146.2, providing for substitute promotional examinations for employees returning from service in armed forces, was *Ordered Submitted* by the following vote:

Ayes: Supervisors Christopher, Gallagher, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

CHARTER AMENDMENT No. 15

RETIREMENT OF ELECTIVE OFFICERS

The following proposed charter amendment was taken up:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding thereto a new section to be known as section 158.1, relating to retirement of elective officers.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by adding thereto a new section to be known as section 158.1, Retirement of Elective Officers, which shall read as follows:

RETIREMENT OF ELECTIVE OFFICERS

SEC. 158.1. Notwithstanding the provisions of section 158 of this charter, elective officers, except members of the board of supervisors and of boards and commissions, shall be members of the San Francisco city and county employee's retirement system and shall be subject to all of the conditions applying to other members thereof, except members of the fire and police departments, and except as herein otherwise provided. In the determination of contributions and benefits of any officer becoming a member of the retirement system by virtue of the provisions hereof, that part of the salary of such officer which exceeds one thousand (\$1,000) dollars per month shall be excluded. Elective officers in office on the effective date hereof and otherwise eligible to the provisions hereof shall have the option to become members of said retirement system to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not

later than ninety days after the effective date hereof. Each such present and future elective officer may retire at his option but only after having attained the age of seventy years and only after having occupied such an elective office or having been otherwise employed in a position subject to membership in the retirement system for at least twenty years immediately preceding retirement, and may retire by filing written application therefor with the retirement board, and the mayor shall thereupon appoint a qualified person for the unexpired term of office remaining at the time of any such retirement. Such elective officer shall thereafter receive a retirement allowance equal to one-half of the compensation received by him at the time of retirement, provided that such allowance shall not exceed five hundred (\$500) dollars per month. Contributions required to provide the portion of the benefits under this section not provided by the member's contribution shall be paid to the retirement system by the city and county.

Discussion.

Supervisor Mancuso explained the foregoing proposed charter amendment. The amendment, at present, he stated, would affect only the City Attorney. The question brought up by Mr. Smith as to the amount of pension to be granted, was considered. It was felt that a pension of one-half pay, based on a maximum of \$500 per month, or \$250 per month, would be no incentive for an official receiving \$1,000 or more per month to retire from service. For that reason, the Judiciary Committee has recommended that the amount of pension be based on an amount of salary not to exceed \$1,000 per month, making the maximum pension to be allowed under the proposed amendment to be \$500.

Supervisor Christopher again brought up the possible case of an official entering the City's service at a very early age, possibly in his early twenties, serving for forty or forty-five years, and being retired by the voters just before reaching the age of seventy years. He would be denied all pension rights under the terms of the proposed amendment. That would not be fair.

Mr. Smith again advanced the same objections as he had previously voiced. City employees' pensions are based on a maximum salary of \$500 per month. The City and County will some day be confronted with the situation whereby the employees of the City and County will request their pensions be based on the same maximum salary as that proposed for officials.

Thereupon, Supervisor Mancuso, seconded by Supervisor Meyer, moved submission of the foregoing proposed charter amendment.

Motion carried and amendment was *Ordered Submitted* by the following vote:

Ayes: Supervisors MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—6.

Noes: Supervisors Christopher, Colman, Gallagher—3.

Absent: Supervisors Lewis, Mead—2.

Charter Amendment—Division of Fire Prevention.

Supervisor Mancuso called attention to proposed charter amendment affecting the Division of Fire Prevention, which had heretofore been ordered submitted, and on which action ordering the submission had subsequently been rescinded, and on which by a still later vote, submission was refused. He proposed an additional amendment to Section 38 of the Charter, by deleting the second sentence thereof, as the Charter reads at present, and to insert in lieu thereof, the following:

The commission shall detail to said bureau from the uniformed force of the department an officer to have charge

of said bureau and such other personnel as it may deem necessary who while serving therein, shall be paid, in addition to their salary or salaries for their respective ranks in the fire department, \$25. more per month, provided that such additional compensation shall not be paid to any person whose salary is subject to the salary standardization provisions of this charter.

Thereupon, Supervisor Mancuso moved that the Board rescind its action previously taken, whereby it had refused to submit to the voters, an amendment to Section 38 of the Charter, for the purpose of amending said Section 38, as herein stated. Motion seconded by Supervisor McMurray.

The amendment, Supervisor Mancuso explained, would provide an additional \$25 above the salary paid for like rank in the Fire Department. He did not believe the people would object to that increase, nor, did he think, would the David Scannell Club.

Mr. Callaghan announced that the Fire and Police Committee would object to any amendment affecting the Fire and Police Departments other than the two amendments which have already been ordered submitted.

Fire Commissioner Sullivan announced that he had not even seen the proposed charter amendment.

Lieutenant Quigley wanted to make the position of the Fire and Police Committee very clear. The Committee recognized merit in the request of the men in the Fire Prevention Bureau, but there were other groups, with meritorious requests who, for the greater good of the greater number, were not pressing for submission of their amendments. The veteran police officers, for instance, have had their amendments in for four years. All members of the Police and Fire Departments will get a 15 per cent increase in salary and a reduction of the number of hours of work, if their amendment is approved. The men in the Fire Prevention Bureau will benefit by that amendment. The Deputy Chief of Police wants the motorcycle men to get an increase of \$30. They are entitled to that increase. The Accident Prevention Bureau wants \$30 increase in salary. They are foregoing it at this time the same as are the others, for the purpose of having the wage amendment on the ballot. The Committee feels that if anything more goes on the ballot, everything will be lost.

President Sullivan, of the Board of Fire Commissioners, stated that the Commission had discussed the question of a \$25 increase for men in the Bureau of Fire Prevention. The consensus was that the Fire Commission would not oppose an increase. However, that was not to be construed as approval of the amendment as submitted.

Thereupon, Supervisor Christopher, seconded by Supervisor McMurray, moved that further consideration be temporarily postponed.

Motion carried by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Mead—1.

Subsequently during the proceedings, Supervisor Mancuso requested a vote on the amendment to Section 38 of the Charter.

Supervisor Mead, in discussing the motion, declared that he was being put in a position where he could not vote against increases in salary. He did not want to see the firemen hurt; there was only one way to stop that, and that was by refraining from cluttering up the ballot. However, he would not go on record as voting against an increase in salary.

Supervisor Gallagher reminded the Board that it had already refused to submit a number of amendments. If this matter was going

to be pressed, he would press the Salvage Corps amendment also. However, it was not fair to the police and firemen to clutter up the ballot with too many amendments. If this matter is approved for submission, though, the Fire and Police Departments will ask for submission of other amendments now before the Board. This amendment should be turned down, or its should be sent back to committee for further study.

Thereupon, Supervisor Gallagher moved that Supervisor Mancuso's amendment be referred to Judiciary Committee. Motion seconded by Supervisor Colman.

Supervisor Mead stated that he thought the proposed increases should have been included in the original charter amendment.

Thereupon, the roll was called and the motion to refer to committee failed by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, John J. Sullivan—4.

Noes: Supervisors Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan—7.

Whereupon, Supervisor Gallagher moved that all special services of the Police and Fire departments be granted \$25 per month increase. Motion seconded by Supervisor Mead.

Supervisor Mancuso raised a point of order, stating that there was a motion already before the house, his motion, and that Supervisor Gallagher's motion, therefore, was out of order.

Supervisor Gallagher answered, saying that his motion was a substitute for Supervisor Mancuso's motion.

Mr. Peddicord, in reply to questioning by Supervisor MacPhee, stated that the motion by Supervisor Gallagher was not in proper form for inclusion in Section 38 of the Charter.

Mr. Harry Alberts, of the Civil Service Commission, stated that there would have to be specific definitions as to what was to be included. There must be a definition as to special services.

Mr. Peddicord advised the Board that any proposal to grant an increase of \$25 per month above their respective ranks for all special services should be made part of another charter amendment, and not a part of Section 38. It could be in an appropriate place in Sections 35, 35.5 or 35.5½, for instance.

Substitute Promotional Examinations for Returned Veterans.

Supervisor MacPhee explained to the Board that there were two amendments on this subject, to provide that persons returned from military leave of absence shall have the right to take promotional examinations they were entitled to take while they were in the service. One amendment would give that right to all those employees who were on military leave of absence, as set forth in the Charter; the other would grant that right only to those who were in the armed forces. The Civil Service Commission recommends that promotional examinations be allowed to those employees who were in the armed forces or in the maritime service. That is, those who were on military leave as defined in the Charter.

Mr. Sawyer, of the C.I.O., recommended submission of both amendments. The amendment with the greater number of votes should be considered as approved. The one with the fewer number of votes should be inoperative.

Thereupon, further consideration was postponed temporarily.

Subsequently during the day's proceedings, the Board again took up the charter amendments above mentioned.

Supervisor Colman held if both amendments should be approved by the people, they should both be effective. That would be the edict of the people.

Supervisor Mancuso reported that the City Attorney's office had stated that both amendments could be submitted, and that the Board of Supervisors could request the State Legislature to ratify that amendment receiving the greater number of votes.

Mr. Harry Albert, representing the Civil Service Commission, stated that the amendment providing for Section 146.1 was worked out after much argument and discussion between the employee groups and the Civil Service Commission. This was presented officially to the Judiciary Committee with the approval of the Civil Service Commission and the employee groups. It provides that all City employees who were on military leave and missed promotional examinations while on such leave, shall have the right to take such examinations when they return to the City's service. The Charter provides that City employees in time of war shall be granted military leaves for service in the armed forces and also for those in the maritime service. The Commission feels that all employees returning from military leave should have the same rights. The veteran groups feel that military leave should be defined, and those who went into the armed forces should have the right to take promotional examinations they missed while away, while those who went into the maritime service should be denied that right.

Mr. Walker Peddicord, of the City Attorney's office, referred to remarks previously made by Supervisor Mancuso, stated that the question asked was if both amendments should be presented to the people, making distinction between veterans who had served in the armed forces and those who were on military leave and had served as provided in Section 163 of the Charter, if both amendments were adopted by the people, would be the result. If both amendments were adopted there would be no conflict. The result would be that the one which included both would be effective. No harm could come if both amendments were ratified.

Supervisor Christopher moved that the word "employees" be substituted for the word "Eligibles" in the amendment providing for Section 146.1 of the Charter.

No objection, and amendment approved.

Thereupon, Supervisor Christopher, seconded by Supervisor Colman, moved that charter amendment to provide for substitute promotional examinations for persons returning from service in the armed forces or the maritime service, and reading as follows, be ordered submitted:

CHARTER AMENDMENT No.

SUBSTITUTE PROMOTIONAL EXAMINATIONS FOR PERSONS RETURNING FROM SERVICE IN ARMED FORCES OR MARITIME SERVICE

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding thereto a new section to be known as section 146.1, relating to substitute promotional examinations for employees returning from military leaves of absence and rights arising therefrom.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by adding thereto a new section to be known as section 146.1, so that the same shall read as follows:

SUBSTITUTE PROMOTIONAL EXAMINATIONS FOR PERSONS RETURNING FROM SERVICE IN ARMED FORCES OR MARITIME SERVICE

SEC. 146.1. Employees under permanent civil service appointment who, because of absence on duly authorized military leave, did not participate in a promotional examination held between September 16, 1940 and the effective date of this amendment, in which examination the employee was otherwise eligible to compete, and which examination is hereinafter referred to as the original promotional examination, shall after abridgment of military leave, have the right to participate in a similar promotional examination, subject to the provisions of this section. The provisions of this section shall not apply to employees whose military leave extends beyond six months after the effective date of this amendment.

In order to qualify for participation in a similar promotional examination under the provisions of this section, such employee who desires to participate therein must make application in writing to the Civil Service Commission within thirty days after the abridgment of his military leave, or within thirty days after the effective date of this amendment, whichever is later. Failure to file such written request to participate in a similar promotional examination as herein provided shall be deemed a waiver of all rights of the employee to participate in such similar promotional examination.

The Civil Service Commission shall arrange to hold such similar promotional examination within a reasonable time after all such employees eligible to request participation in any such similar promotional examination under the provisions of this section have indicated their desire to so participate, or have waived their right to participate, as herein provided.

The Civil Service Commission shall be the sole judge of the adequacy of such similar promotional examination. If the employee obtains in the similar promotional examination a score rating equal to or more than the minimum passing mark established by the Civil Service Commission for inclusion on the list of eligibles resulting from the original promotional examination, his name shall thereupon be entered on the eligible list resulting from the original promotional examination in accordance with the relative excellence obtained by all the qualified participants in the original and similar promotional examinations. Such employees shall be eligible for appointment from such list of eligibles in accordance with civil service rules to any vacancy thereafter occurring, and subject to satisfactory completion of a probationary period as provided in section 148 of this charter for a period of four years after the proclamation of peace or the termination of the emergency, and before eligibles procuring standing through examinations held subsequent to the original promotional examination.

If it is determined by the Civil Service Commission that the name of such person would have been reached for permanent appointment from the list of eligibles established as a result of the original promotional examination during his term of military service had the name of such person appeared thereon, then such employee, upon appointment to a permanent position as herein provided, shall be granted seniority in such appointment from the date his name would have been reached had his name appeared thereon, but such seniority shall be used only for the purpose of determining salary increments and calculating city and county service credits in other promotional examinations held subsequent to the similar

promotional examination herein authorized. For all other purposes, seniority of service shall date from the date of appointment as a result of qualifying in the similar promotional examination as herein authorized.

Such employees who qualify for appointment as a result of a similar promotional examination as herein provided, and who are appointed to permanent positions, as herein provided, shall be permitted to participate in other promotional examinations for which they are otherwise eligible, while serving under probationary appointment in the position to which appointed as a result of the similar promotional examination, provided that certification from lists of eligibles established from such other examinations shall not be made until the employee has satisfactorily completed the aforesaid probationary appointment.

The Civil Service Commission shall adopt rules to govern the administration of similar promotional examinations herein authorized, and appointments and other matters resulting therefrom.

Final Passage.

The following recommendation of Judiciary Committee, heretofore Passed for Second Reading, was taken up:

Granting to Sanitary Fill Company a Franchise for the Disposal of Garbage and Refuse and Providing the Details and Conditions Thereof.

Bill No. 4174, Ordinance No. 4040 (Series of 1939), as follows:

Granting to Sanitary Fill Company a franchise for the disposal of garbage and refuse and providing the details and conditions thereof.

Whereas, on March 20, 1946, the Board of Supervisors of the City and County of San Francisco adopted Resolution No. 5346 (Series of 1939) providing and calling for bids for garbage disposal, and said resolution was thereafter, on March 21, 1946, approved by Roger D. Lapham, Mayor of the City and County of San Francisco, and duly and regularly advertised according to law; and

Be it ordained by the People of the City and County of San Francisco as follows:

Whereas, on March 27, 1946, and April 3, 1946, the Clerk of the Board of Supervisors caused to be advertised according to law a Notice of Proposal for Bids for Garbage and Refuse Disposal Franchise, pursuant to the provisions of said resolution and Sections 4200 to 4204 of the Health and Safety Code of the State of California; and

Whereas, in response to said Notice of Proposal for Bids, bids were received by this Board of Supervisors on and before 3 p. m., April 29, 1946, the time fixed in said advertised notice for the filing of bids with the Clerk of the Board; and

Whereas, this Board did thereafter fully and completely examine into the merits of each bid so filed; and

Whereas, this Board did on May 27, 1946, adopt Resolution No. 5532 as follows:

"Resolved, That the bid of Sanitary Fill Company for garbage disposal received on April 29, 1946, be and is hereby accepted and the City Attorney is hereby authorized and requested to prepare all necessary procedural documents necessary to granting a garbage disposal franchise to Sanitary Fill Company therefor.";

and

Whereas, it appears to this Board that public interest will be subserved by granting of a franchise or privilege for the disposal of garbage and refuse collected in the City and County of San Francisco to Sanitary Fill Company.

Now, therefore, the People of the City and County of San Francisco do ordain as follows:

Section 1. Pursuant to the provisions of Sections 4200 to 4204 of the Health and Safety Code of the State of California, an exclusive franchise for the disposal of garbage and refuse collected in the City and County of San Francisco is hereby granted to the Sanitary Fill Company, a corporation, for the period of Twenty (20) years from and after the effective date of this franchise ordinance. Any time from and after Ten (10) years from the effective date of this franchise ordinance, either Sanitary Fill Company or the City and County of San Francisco may terminate such franchise by one year's written notice of termination delivered to the other party. Sanitary Fill Company is herein referred to as "Grantee."

Section 2. For the disposal of the garbage and refuse of the City and County of San Francisco delivered at the ramp at Sixth and Sixteenth Streets in the Southern Pacific Company's yard, San

Francisco, the Grantee shall charge the sum of \$1.10 per ton, or such sum as may be agreed upon by the Grantee and the licensed collectors of garbage and refuse. In the event the Grantee and the licensed collectors of garbage and refuse cannot agree upon such sum, then the Grantee shall charge such sum as may be fixed by this Board of Supervisors under and by virtue of the power conferred on it by the "Refuse Collection and Disposal Ordinance," adopted by the voters at the general election held on November 8, 1932. In the event the Southern Pacific Company cancels or withdraws permission for the use of the ramp at Sixth and Sixteenth Streets, San Francisco, or in the event the Southern Pacific Company fails to furnish or discontinues adequate railroad car service between the ramp at Sixth and Sixteenth Streets, San Francisco, and the garbage disposal site in the Bayshore Sanitary District, County of San Mateo, then the Grantee shall charge for the disposal of garbage and refuse delivered to the garbage disposal site in Bayshore Sanitary District, San Mateo County, the sum of \$0.90 Dollars per ton, or such sum as may be agreed upon between the Grantee and the licensed collectors of such garbage and refuse; or failing such agreement, then such sum as may be fixed by the Board of Supervisors under the power conferred by the "Refuse Collection and Disposal Ordinance."

Section 3. So long as the Southern Pacific Company allows the use of the ramp in its yard at Sixth and Sixteenth Streets, San Francisco, and so long as the Southern Pacific Company continues to furnish adequate railroad car service between the ramp and the garbage disposal site in the Bayshore Sanitary District, San Mateo County, the Grantee shall receive at the ramp for disposal all garbage and refuse lawfully collected in the City and County, and shall cause said garbage and refuse to be transported by railroad cars to the garbage disposal site in the Bayshore Sanitary District. No garbage or refuse shall be kept at the ramp for a longer period than twenty-four hours after receipt.

Section 4. Garbage and refuse shall be accepted as delivered by licensed garbage and refuse collectors and no segregation shall be required prior to delivery.

Section 5. So long as the Southern Pacific Company allows the use of the ramp in the yard at Sixth and Sixteenth Streets, San Francisco, and so long as the Southern Pacific Company continues to furnish adequate railroad car service between the ramp and the garbage disposal site in the Bayshore Sanitary District, the Grantee shall transport the garbage and refuse, when the cars are filled, over the line of the Southern Pacific Company to the garbage disposal site situate in the Bayshore Sanitary District in the County of San Mateo, and more particularly described as follows, to-wit: The tidelands of the Southern Pacific Company situated immediately south of and adjacent to the southerly boundary of the City and County of San Francisco and immediately easterly and adjacent to the main tracks of the right of way of the Southern Pacific Company, where said tracks traversed said County of San Mateo immediately upon leaving the City and County of San Francisco.

Section 6. The method of disposal to be employed is the Fill and Cover Method. In the event Southern Pacific Company refuses to allow the use of the ramp at its yard at Sixth and Sixteenth Streets, San Francisco, or fails or refuses to furnish adequate railroad car service between the ramp and the garbage disposal site in Bayshore Sanitary District, San Mateo County, Grantee shall then receive for disposal at the garbage disposal site in Bayshore Sanitary District, San Mateo County, all garbage and refuse lawfully collected in the City and County of San Francisco.

Section 7. Grantee shall deposit the garbage and refuse at the garbage disposal site and forthwith cover the same with earth, rock, sand and gravel, as provided in this ordinance

Section 8. In all matters and operations connected with this franchise, and the work to be done thereunder, the Grantee shall respect and strictly comply with the Charter and all ordinances of the City and County of San Francisco, all the laws of the United States and of the State of California, and all ordinances, rules or regulations of any municipal, sanitary or other public district or corporation, which are or shall be or become applicable to and control or limit in anyway the actions of those engaged hereunder in any way as principal or agent.

Section 9. Grantee shall handle such garbage and refuse so that no nuisance of any nature will result from the deposit of garbage on said tidelands, nor from the disposition of ashes, residue or reject materials which may accumulate at the place of final disposal.

Section 10. Grantee shall forthwith, upon the final passage of this ordinance, execute an agreement in writing by which Grantee shall agree to all of the terms and conditions of this ordinance, and shall forthwith file and maintain with this Board of Supervisors a surety company bond running to the City and County of San Francisco, to be approved by the Board of Supervisors, in the penal sum of \$50,000, said bond to be conditioned that Grantee shall faithfully fulfill the terms and conditions of its franchise, and shall well and truthfully observe, fulfill and perform each and every term and condition thereof, so that no nuisance of any nature will result from the deposit of garbage nor from the disposition of ashes, residue or reject materials which may accumulate at the place of final disposal, and that, in case of any breach of condition of such bond, damages shall be recoverable from the principal and sureties on said bond.

Section 11. A substitute bond, under the same terms and conditions, may be filed by the grantee from time to time provided it meets with the approval of the Board of Supervisors. In the event that the Board of Supervisors shall demand a change in the surety company furnishing the bonds, Grantee shall provide a surety company which shall be agreeable to the Board of Supervisors.

Section 12. The grantee, Sanitary Fill Company, shall fulfill sanitary fill requirements as follows:

(a) After delivery of garbage and refuse to the garbage disposal site in the Bayshore Sanitary District, whether by railroad cars of Southern Pacific Company or by trucks of licensed collectors, Sanitary Fill Company shall dispose of such garbage in accordance with sound engineering practice by placing, spreading and covering it with earth, rock or sand. The depth and shape of the garbage and refuse so placed and covered shall depend upon the elevation, grade and location of the particular part of the site being filled. At the end of each day all garbage and refuse so placed and spread shall be covered with earth, rock or sand to a depth which is in accordance with sound engineering practice and the prior experience of Grantee. Any departure from such procedure must be in accordance with sound engineering practice as determined by the City Engineer of San Francisco. A seal shall be made each day, and shall be maintained. If such seal is not maintained, the City Engineer may order additional work and materials to obtain such seal.

(b) No open fires shall be allowed to burn on the site, and a sufficient supply of water through adequate lines, hydrants, or other methods shall be provided to extinguish any fires which may occur in the garbage disposal site. Mud from the bay shall not be used for cover material unless it can be proved to the satisfaction of the health authorities that no nuisance shall be created.

(c) Pools of water containing large amounts of organic material which may putrefy or cause obnoxious conditions shall not be allowed to collect around the edge of the fill or elsewhere, and all water shall

be drained into regulated channels which shall discharge into adequate bodies of diluting water. Every reasonable effort shall be made to keep down the number of rodents. If visible signs of increased rate population are noticeable, the Director of Public Health of San Francisco may order that proper means shall be instituted at once to diminish such rat population.

(d) If it becomes necessary to dump garbage and refuse in water, then a suitable boom shall be placed adjacent to the outer face of the fill, of sufficient length and strength to provide against any floating material escaping into the bay.

(e) Railroad cars, after being unloaded, shall be swept clean inside, and, if necessary outside.

(f) The disposal site is to be under the constant inspection of the City Engineer or his authorized agents to the end that the requirements herein set forth shall faithfully be kept.

(g) A suitable trash burner shall be provided if it is desired to burn at the disposal site boxes, wood or other combustible materials which will not yield offensive odors.

(h) Operations at the disposal site shall be conducted in such a manner that there will be no rats, flies, larvae, noxious odors or nuisances resulting from the disposal of garbage or refuse.

Section 13. The City and County of San Francisco shall have the right at any time to make such inspections and tests as may be necessary to determine whether or not the Grantee is complying with its obligations under this ordinance

Section 14. The Grantee shall construct, maintain and operate all facilities used in the disposal process and shall make no charge or claim against the City and County of San Francisco for construction, maintenance, or operation of such facilities.

Section 15. Grantee shall pay to the City and County of San Francisco the sum of \$4,800 per annum to be applied on the salary of an inspector to be assigned to garbage disposal operations by the City and County.

Section 16. Grantee shall receive and dispose of all refuse collected by the Street Cleaning Division of the San Francisco Department of Public Works and of all sand collected in the City sewage treatment plants, when delivered at the receiving point, without charge or cost of any kind to the City and County of San Francisco.

Section 17. Grantee shall furnish to the Controller of the City and County of San Francisco a detailed statement of operations under oath at the end of each calendar year.

Section 18. As used in this ordinance, "garbage" and "refuse" means garbage and refuse as defined in the Refuse Collection and Disposal Ordinance adopted by the voters of the City and County of San Francisco at the general election held on November 8, 1932 and includes all waste and discarded materials from dwelling places, households, apartment houses, stores, office buildings and the like, including waste or discarded food, animal and vegetable matter, from all kitchens thereof, waste papers, cans, glass, ashes, boxes and cuttings from trees, lawns, and gardens. "Garbage" and "refuse" as used in this ordinance does not include the disposal of kitchen waste and other refuse having a commercial value which hotels and restaurants dispose of without utilizing the refuse collectors licensed by the Director of Public Health.

Appropriating the Sum of \$50,625 Out of the Emergency Reserve Fund to Provide Funds for the Compensation of 25 H2 Firemen at \$225-250 Per Month in the Fire Department, Which Positions are Created; an Emergency Ordinance.

Bill No. 4295, Ordinance No. 4042 (Series of 1939), as follows:

Appropriating the sum of \$50,625 out of the Emergency Reserve Fund to provide funds for the compensation of 25 H2 firemen at \$225-250 per month in the Fire Department, which positions are created: an emergency ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The sum of \$50,625 is hereby appropriated out of the Emergency Reserve Fund, to the credit of Appropriation No. 610.110.01, to provide funds for the compensation of 25 H2 Firemen at \$225-250 per month in the Fire Department, which positions are hereby created.

Section 2. This ordinance is passed as an emergency measure, and the Board of Supervisors does hereby declare by the vote by which this ordinance is passed that an actual emergency exists which necessitates these funds being provided from the Emergency Reserve Fund and this ordinance being made effective forthwith, the nature of the emergency being: The employment of this additional personnel is necessary to carry out nightly inspections of all night clubs and places of assemblage, as well as for more thorough inspections throughout the city, for the purpose of enforcing strict adherence to the Fire Code and statutes for the protection of persons and property from fire; to carry out a campaign of education through direct contact with owners, lessees, tenants of the property and business establishments for the elimination of conditions which are or may become fire hazards or dangerous.

San Francisco population has increased by approximately 200,000, causing an overcrowded housing condition. To take care of this increase in population, buildings which were erected many years ago for one-family purposes have been converted into multiple family dwellings. Old type residences consisting originally of two or three stories are now converted into housekeeping rooms, and buildings originally constructed as two or three flat dwellings are now converted into apartment houses or rooming houses. These occupancies now contain approximately four times the number of people formerly accommodated, thereby increasing the hazards.

Building construction and alterations have increased considerably and are still rising. Areas within the Sunset, Parkside, Merced, Lakeside, Potrero, Hunters Point and Bay View districts are being rapidly built upon. This large portion of San Francisco is being covered by two inspectors.

Discussion.

Supervisor Mancuso moved to amend the foregoing bill by reducing the amount of appropriation from \$50,625 to \$30,375, and by reducing the number of additional positions to be created from 25 to 15. He did not believe the original \$50,625 requested could possibly be spent, or that 25 additional men could be used. There is not the equipment or the facilities to equip and train 25 men. Fifteen men should be allowed now, and additional men can be provided for in the budget for next year, if they are necessary. Motion seconded by Supervisor Colman.

Fire Commissioner Sullivan questioned the source of Supervisor Mancuso's information. The Fire Commission has made investigations, and will not deviate from its request for 25 men. If the Board wants to reduce that number, and anything happens, the blame will rest on the Board.

Commissioner John Fixer also stressed the need for the 25 additional men. Chief Sullivan and Chief Kelley also informed the Board that the 25 additional men were needed.

Thereupon the roll was called and the motion by Supervisor Mancuso was *defeated* by the following vote:

Ayes: Supervisors Colman, MacPhee, Mancuso—3.

Noes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Whereupon, the roll was again called and the foregoing bill was *Finally Passed* by the following vote:

CHARTER AMENDMENT No.

CONTRACTS—PUBLIC WORKS AND PURCHASING CONTRACTS

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending section 95 thereof, "Public Works and Purchasing Contracts".

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco, at an election to be held on November 5, 1946, a proposal to amend the charter of said city and county by amending section 95 thereof so that the same shall read as follows:

CONTRACTS—PUBLIC WORKS AND PURCHASING CONTRACTS

Section 95. The construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements, and the purchasing of supplies, materials and equipment, when the expenditure involved in each case shall exceed the sum of **[one]** *two* thousand dollars **[(\$1,000)]**, *(\$2,000)* shall be done by contract, except as otherwise provided by this charter. It shall constitute official misconduct to split or divide any public work or improvement or purchase into two or more units for the purpose of evading the contract provisions of this section. In an emergency, provided an actual emergency be declared by the board of supervisors to exist, and when authorized by resolution of said board, any public work or improvement may be executed in the most expeditious manner.

Any public work or improvement estimated to cost less than **[one]** *two* thousand dollars **[(\$1,000)]**, *(\$2,000)* may be performed under contract or written order or by the employment of the necessary labor and purchase of the necessary materials and supplies directly by the city and county. Any public work or improvement executed by the city, other than routine repair work, shall be authorized by the chief administrative officer or by the heads of departments not under the chief administrative officer, only after detailed estimates have been prepared and submitted by the head of the department concerned. There shall be separate accounting for each work or improvement so executed, which accounting shall include all direct, indirect and

supervisory elements of cost chargeable to such work or improvement, and each cost accounting shall be reported to the chief administrative officer, or to the mayor when such work shall have been performed by departments not under the chief administrative officer. All such accounts shall be reported to the controller. Any public work or improvement costing less than [one] two thousand dollars [(\$1,000)] (\$2,000) and not performed by the use of city and county labor, materials, and supplies shall, if not performed under contract, be covered by written order or agreement which shall be based on not less than three bids, notice of which shall be given by three days' posting. Records of such bids shall be kept by the department.

When the expenditure for any public work or improvement shall exceed the sum of [one] two thousand dollars [(1,000)] (\$2,000), the same shall be done by contract, except as otherwise provided in this charter. The head of the department in charge of or responsible for the work for which a contract is to be let, or the purchaser of supplies in the case of purchases of materials, supplies and equipment, must let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work, improvement or purchase contemplated. Each such advertisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications, as provided by general law relative to such investigations authorized by departments of public works.

The purchaser of supplies with the approval of the chief administrative officer, or the department head concerned with the approval of the board or commission to which he is responsible, may reject any and all bids and readvertise for bids.

The department head or the purchaser of supplies, as the case may be, shall have power to sign such contract for the estimated expenditures thereunder not in excess of [two] three thousand dollars [(2,000)] (\$3,000). Any contract involving the expenditure of over [two] three thousand dollars [(\$2,000)] (\$3,000), if for the purchase of materials, supplies or equipment, shall require the joint approval of the purchaser of supplies and the chief administrative officer. If such contract is for any public work or improvement, it shall require the joint approval of the department head and the chief administrative officer relative to departments under his jurisdiction, or the signature of the department head and the approval by resolution of the board or commission concerned for departments not under the chief administrative officer.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county departments may file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the department. Accurate unit costs shall be kept of all direct and indirect charges incurred by the department under any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work.

In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

Discussion.

Supervisor MacPhee explained that the foregoing proposed charter amendment provides only that the minimum cost of work for which bids must be asked shall be \$2,000 instead of \$1,000 as is the present requirement. The Judiciary Committee recommends approval. The Associated General Contractors, though, has presented an amendment to Section 95.1. Both amendments should be considered at the same time, Supervisor MacPhee suggested.

Supervisor Christopher announced that since the meeting of Friday, September 20, he had found out that he was in error in regard to the Purchaser of Supplies. Thereupon, he moved to rescind action taken on September 20, 1946, on both motions which he had made at that meeting. Motion seconded by Supervisor Lewis.

Action *rescinded* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Supervisor Lewis announced that he was not offering the amendment to Section 95.1, requested by the Associated General Contractors, for approval. He was offering it without recommendation.

The Chief Administrative Officer reported that his prime purpose in asking amendment to Section 95 was to accommodate the value of a dollar. In 1932, the dollar was worth much more than it is at the present time. The Department of Public Works cannot now do the amount of work that the Charter framers contemplated. He urged the Board to submit the amendment to provide for an increase in the cost of work which might be done without calling for bids, from \$1,000 to \$2,000.

Mr. Schnurr, representing the C.I.O.; Mr. Edminister, representing laborers; Mr. Ward Dawson, representing the Civil Service Association; a representative of the Per Diem Men's Association; and Mr. J. S. Mazzie, all favored submission of proposed amendment to Section 95.

Supervisor Mead suggested that there should be a protective clause in the amendment, to provide for a reduction in the amount of \$2,000 should conditions change.

Supervisor Mead moved that the entire matter be tabled. Motion *failed* for want of a second.

Mr. H. C. Vensano, Director of Public Works, denied that jobs had been split up by his department, as charged by a speaker during previous discussion of the amendment. There has been a great deal of loose thinking in this entire matter, he declared. The contractors do not know what they are fighting for.

Mr. Johnson, representing the Associated General Contractors, in discussing the proposed amendment to Section 95 of the Charter, held that in times of depression nothing would cause more chaos in ranks of the building industry than the approval of this measure. This amendment proposes to take today's peak prices and to continue the \$2,000 permanently in the Charter. There is no method of bringing down this amount. The contractors' amendment provides that the Department of Public Works shall bid competitively. Private employers want the right to bid against the Department of Public Works. If an increase is going to be put permanently in the Charter, the Board should take some middle ground. The amount of \$1,500 would be acceptable. However, both amendments should be voted down, he believed.

Thereupon, Supervisor Mead moved to amend by changing the amount from \$2,000 to \$1,250. Motion *failed* for want of a second.

Mr. Coughlin, of the Associated General Contractors, suggested that

the amount be reduced to \$500, and that all work costing more than \$500 per unit be let on a competitive bid basis once each year.

Mr. Vensano objected to any such amendment. Such provision would practically abolish the Department of Public Works.

Supervisor Meyer moved as an amendment that there be added to the end of the first paragraph, the following sentence: "Notwithstanding any other provision in this section or this charter contained, upon the recommendation of the chief administrative officer declaring the work to be emergency in character, there may be expended by the department of public works the sum not to exceed five hundred dollars (\$500) for new construction of any type in or upon unimproved or unaccepted streets." Motion seconded by Supervisor McMurray.

The Chair announced that amendment had already been approved by the Board.

Supervisor Mead moved that all reference to \$2,000 be deleted from the proposed amendment and that the amount of \$1,500 be substituted therefor. Motion seconded by Supervisor Gallagher.

Motion *failed* by the following vote:

Ayes: Supervisors Gallagher, Mead—2.

Noes: Supervisors Christopher, Colman, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Supervisor Meyer announced that the Controller desired a change in language of the motion which he had made and which had been previously approved by the Board, by changing the words "upon recommendation of the Chief Administrative Officer," to "upon approval of the Chief Administrative Officer," and he would so move. Motion seconded by Supervisor Mancuso.

Motion *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor Mead—1.

Ordered Submitted.

The roll was again called and the proposed amendment to Section 95 of the Charter, as amended, was *Ordered Submitted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor Mead—1.

Action Rescinded.

Subsequently during the proceedings, Supervisor Christopher moved to rescind action taken in ordering the amendment submitted to the voters, in order that he might present an amendment thereto. Motion seconded by Supervisor MacPhee.

No objection, and action *rescinded*.

Amended.

Thereupon, Supervisor Christopher moved to amend by adding thereto the following paragraph:

If any provision of this section is in conflict with any provision of section 88 of the charter, the provision contained in section 88 shall govern and control.

Motion seconded by Supervisor Mancuso.

Motion *carried* and amendment *approved* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Absent: Supervisors Lewis, Mead—2.

Ordered Submitted.

The roll was again called and the proposed amendment to Section 95 of the Charter, as amended and reading as follows, was *Ordered Submitted* by the following vote:

PROPOSED CHARTER AMENDMENT RELATING TO CONTRACTS FOR CONSTRUCTION, RECONSTRUCTION, REPAIR OR IMPROVEMENT OF PUBLIC STREETS

The following proposed charter amendment was taken up:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by adding thereto a new section to be known as Section 95.1 (Contracts for Street Work) relating to contracts for construction, reconstruction, repair or improvement of public streets.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco, at an election to be held therein on November 5, 1946, a proposal to amend the Charter of said City and County by adding Section 95.1 thereto, to read as follows:

CONTRACTS FOR STREET WORK

Section 95.1. Whenever the estimated expenditure therefor shall exceed five hundred (\$500.00) dollars including in each instance the cost of the necessary materials involved, the construction, reconstruction, repair or improvement of a public street or public streets, including sidewalks and curbs and including the installation, repair or replacement of utility facilities therein or thereunder, shall be done or accomplished by contract, except as otherwise provided in this section.

When an actual emergency exists and has been declared to exist by the board of supervisors, or by the mayor pursuant to the provisions of section twenty-five (25) of this charter, any public work or improvement, including the construction, reconstruction, repair or improvement of public streets, may be executed or accomplished in the most expeditious manner possible and without regard for the provisions of this section.

It shall constitute official misconduct, in any manner to split or divide or to permit to be split or divided the actual estimate for, or any unit of, public work or improvement, including any unit of street construction, street reconstruction, street repair or street improvement, into two or more units or parts when the effect of such action would result in circumvention of the contract requirements of this section. For the purposes of this section, "public work or improvement" shall be construed and held to mean the construction, reconstruction, repair or maintenance of anything excepting a structure, other than a structure in or under a public street.

For the purposes of this section, the terms "construction," and "reconstruction" shall contemplate, include and are hereby defined to mean every type and character of work in, under or upon any public street, including sidewalks and curbs, other than excavations and restorations for utility connections and for repairs to or renewals of such connections when such work does not constitute a portion of the construction or reconstruction of an entire block, ordinary patchwork as that term is commonly understood

and applied in the construction industry, and planing, burning or resurfacing, or a combination of planing, burning and resurfacing in that manner and to that extent or degree which constitutes planing, burning and resurfacing as those functions are performed by the department of public works at the time this amendment is approved by the electorate.

Except as to work performed pursuant to the declaration of an emergency as provided in this section, every project involving the construction or reconstruction of a public street or public streets shall extend to and include the construction or reconstruction of a street area equivalent to at least one block, as such blocks are delineated upon the official maps of the city and county.

Immediately after the passage of the first annual appropriation ordinance subsequent to the ratification of this amendment and prior to June 15th of each succeeding year, the controller shall estimate and declare the total amount of money available from all sources for the construction, reconstruction, repair or improvement of public streets during the ensuing fiscal year.

On or before July 15th of each year subsequent to the ratification of this amendment, the director of public works shall cause to be prepared a program containing every determinable and necessary item of street construction, street reconstruction, street repair or street improvement which can be accomplished with the amount of money declared by the controller to be available for these purposes, and on or before July 15th of each year the director of public works shall call for bids on a unit basis and let a single contract to the lowest reliable and responsible bidder for the performance during that fiscal year of all street work, exclusive of such units of street work of any kind or character as are estimated to cost in excess of five hundred (\$500.00) dollars and exclusive of emergency work.

The head of the department in charge of or responsible for the work for which such a contract is to be let, shall let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work or improvement contemplated. Each such advertisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications as provided by general law relative to such investigations authorized by departments of public works.

The department head shall have power to sign such contract for the estimated expenditures thereunder not in excess of two thousand dollars (\$2,000.00). Any such contract involving the expenditure of over two thousand dollars (\$2,000.00) shall require the joint approval of the department head and the chief administrative officer relative to departments under his jurisdiction, or the signature of the department head and the approval by resolution of the board or commission concerned for departments not under the chief administrative officer.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county departments may file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the department. Accurate unit costs shall be kept of all direct and indirect charges incurred by the department under

any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work. In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

Discussion.

Mr. Coughlin, of the General Contractors Association, explained the purpose of the foregoing proposed amendment. It is proposed that bids must be called for for work to be done.

Mr. H. C. Vensano, Director of Public Works, objected to the amendment. It would reduce the amount of work to be done by the Department of Public Works to \$500, and if the contractors should bid low for one year, the City and County would lose its Department of Public Works.

The Chief Administrative Officer agreed with Mr. Vensano. He could visualize, he stated, that the first year the Director of Public Works asks for bids, the contractors can bid a ridiculously low figure that would wipe out the Bureau of Street Repair. It would not be good procedure.

Mr. Sawyer, of the C.I.O., held that the amendment was an attempt to do by indirection what is proposed by the amendment already ordered submitted.

Mr. Ivan Flamm expressed opposition to the amendment. It would practically abolish the Bureau of Street Repair. It would be doing away with the one organization that tends to keep down the cost of public improvements. It is entirely contrary to the previous charter amendment.

Mrs. Mollie Minrudi stated that the A.F.L. Council of Municipal Employees was opposed to the amendment.

Mr. Johnson, also representing the Associated General Contractors, explained in some detail the proposed amendment. Under this amendment there will be competitive bidding for all public work. Both amendments should be submitted to the people.

Thereupon, Supervisor Mancuso, seconded by Supervisor MacPhee, moved that the proposed amendment be tabled.

Motion *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

CHARTER AMENDMENT NO.

PROPOSED AMENDMENT TO SECTIONS 36, 35.5 AND 35.5½ OF THE CHARTER

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by amending Section 36 thereof, relating to the Fire Department and Sections 35.5 and 35.5½ thereof, both relating to the Police Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held on November 5, 1946, a proposal to amend the Charter of said City and County by amending Section 36 thereof, relating to the Fire Department and Sections 35.5 and 35.5½ thereof, both relating to the Police Department, so that the same shall read as follows:

FIRE DEPARTMENT

Section 36. The fire department shall be under the management of a fire commission, consisting of three members, who shall be appointed by the mayor and

each of whom shall receive an annual compensation of twelve hundred dollars (\$1,200). The term of each commissioner shall be four years, commencing at twelve o'clock noon on the 15th day of January in the years [1946, 1948, 1949] 1944, 1945, and 1946, respectively.

The fire commission shall appoint a chief [engineer] of department, a secretary and a department physician who shall hold office at its pleasure.

The fire commissioners shall be successors in office of the fire commissioners holding office in the city and county at the time this charter shall go into effect, and shall have all the powers and duties thereof, except as in this charter otherwise provided. The commissioners shall have power, upon recommendation of the chief [engineer] of department, to send fire boats, apparatus and men outside the City and County of San Francisco for fire-fighting purposes.

Positions of officers and employees of the fire department legally authorized shall continue, and the incumbents therein legally appointed thereto shall continue as the officers and employees of the department under the conditions governing their respective appointments, and except as in this charter otherwise provided.

The annual compensation for the several ranks in the fire department shall be as follows: chief [engineer] of department, [\$9,000;] \$10,380; first assistant and second assistant [chief engineers] chiefs of department, [\$6,000;] \$6,900; battalion chiefs, [\$5,100;] \$5,880; captains, [\$3,000;] \$4,500; lieutenants, [\$3,600;] \$4,140; engineers, [\$3,300;] \$3,840; chief's operators, [\$3,300;] \$3,840; drivers, stokers, tillermen, truckmen and hosemen, for first year of service, [\$2,700;] \$3,120; for second year of service, [\$2,800;] \$3,240; for third year of service, [\$2,900;] \$3,360; for fourth year of service and thereafter, [\$3,000;] \$3,480; pilots of fire boats and marine engineers of fire boats, [\$3,900;] \$4,500; firemen of fire boats, [\$3,060;] \$3,540.

Except as to members of marine crews of fire boats, each period of twenty-four hours shall be divided into two tours of duty, to-wit: from eight o'clock a. m. to six o'clock p. m., and from six o'clock p. m., to eight o'clock a. m. The uniformed force of the fire department shall be divided into two platoons, the officers and members assigned to which shall alternate on the tours of duty at intervals of not more than one week. No officer or member, including pilots, marine engineers and firemen of fire boats, shall be required to work more than one hundred and thirty (130) hours in any fifteen day period, nor shall any officer or member be required to [remain on duty for] work more than fourteen consecutive hours except in case of a conflagration requiring the services of more than one-half of the force of the department. Each officer and each member shall be entitled to at least one (1) day off duty during each week.

On the recommendation of the chief [engineer] of department, the commission may reward any member of the department for heroic or meritorious conduct, the form or amount of said award to be discretionary with the fire commission, but not to exceed one month's salary in any one instance.

The chief [engineer] of department, or in his absence any assistant chief [engineer] of department, or in their absence any battalion chief in charge, may, during a conflagration, cause to be cut down or otherwise removed any buildings or structures for the purpose of checking the progress of such conflagration.

In determining years of service necessary for a driver, stoker, tillerman, truckman and hoseman to receive the annual compensation sum of [\$2,800, \$2,900, and \$3,000,] \$3,240, \$3,360, and \$3,480, respectively, as provided for herein, service

rendered prior to the effective date of this amendment shall be given full credit and allowed.

The absence of any officer or member of the fire department on military leave of absence, as defined by section 153 of this charter, shall be reckoned a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

[Upon the increased compensation in this section provided becoming effective, section 36.2 shall stand repealed.]

The salary increases herein provided for the respective ranks of the fire department shall be effective and shall accrue on the first day of January, [1946] 1947, notwithstanding any contrary provision of the charter, but the payment thereof may be deferred by the board of supervisors until the beginning of the fiscal year immediately following ratification of this section by the legislature of the State of California.

POLICE DEPARTMENT

Section 35.5. The police force of the city and county shall not exceed one police officer for each five hundred inhabitants thereof. The annual compensations for the several ranks in the department shall be as follows: chief of police, [\$9,000;] \$10,380; deputy chief of police, [\$7,500;] \$8,640; captain of inspectors, [\$6,600;] \$7,620; supervising captain of districts and department secretary, [\$6,000;] \$6,900; captain of traffic, [\$5,400;] \$6,240; director of bureau of personnel and director of bureau of criminal information, [\$5,100;] \$5,880; captains and criminologist, [\$4,980;] \$5,760; lieutenants and director of bureau of special services, [\$3,900;] \$4,500; inspectors, [\$3,600;] \$4,140; sergeants, [\$3,480;] \$4,020; photographer, [\$3,300;] \$3,840; police surgeon, [\$3,000;] \$3,480; police officers, police patrol drivers and women protective officers, for first year of service, [\$2,700;] \$3,120; for second year of service, [\$2,800;] \$3,240; for third year of service, [\$2,900;] \$3,360; for fourth year of service and thereafter, [\$3,000;] \$3,480.

[The minimum annual compensation for police officers, women protective officers, and police patrol drivers, now members of the department or who shall be appointed from eligible lists established prior to January 11, 1943, shall be \$2,800, and further adjustments shall be in accordance with the preceding paragraph.]

In determining years of service necessary for a police officer, woman protective officer and police patrol driver to receive the annual compensations [sum of \$2,800, \$2,900 and \$3,000, respectively.] as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed.

The absence of any police officer, woman protective officer, or police patrol driver on military leave, as defined by section 153 of this charter, shall be reckoned a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

Any member assigned to two-wheel motorcycle traffic duty shall receive \$15 per month in addition to the compensation to which he would otherwise be entitled.

The salary increases herein provided for the respective ranks of the police department shall be effective and shall accrue on the 1st day of January [1946] 1947, notwithstanding any contrary provision of the charter, but the payment thereof

may be deferred by the board of supervisors until the beginning of the fiscal year immediately following ratification of this section by the legislature of the State of California.

Section 35.5½ (a) The word "member" or "members" as used in this section shall mean the members of the several ranks in the police department set forth in section 35.5 of this charter.

(b) The basic week of service for each member shall be [forty-eight (48)] *forty-four (44)* hours and the annual compensation set forth in section 35.5 of this charter shall be based upon said basic week of service.

(c) Each member shall be entitled to *at least* one (1) day off during each week, except as hereinafter provided.

(d) Whenever in the judgment of the police commission public interest requires the services of any member to serve in excess of the basic week of service during any week, the said police commission may authorize the chief of police to permit said service, and said member shall be compensated therefor or shall receive equivalent time credited to him in lieu thereof in accordance with this subsection. For service performed in excess of the basic week, members shall be compensated on the basis of straight time in accordance with the ratio which said excess service bears to the basic week of service and the annual compensation provided therefor in section 35.5, or in lieu thereof equivalent time off duty with pay.

(e) Nothing contained in this section shall be deemed to interfere with a vacation, as provided for in section 151 of this charter, or the normal day off per week; provided, however, that when in the judgment of the police commission public necessity requires the services of any member to serve on his vacation, or part thereof, or normal day off, the said commission may authorize the chief of police to permit said member to serve during said vacation, or part thereof, or normal day off, and he shall receive additional compensation for the period so served. Said additional compensation shall be computed on the basis of straight time in accordance with the ratio which said extra service performed bears to the basic week of service and the annual compensations provided therefor in section 35.5.

(f) The police commission is hereby authorized to require a member or members to work more than [forty-eight (48)] *forty-four (44)* hours per week in any week when public necessity requires such services, and the member or members so serving more than [forty-eight (48)] *forty-four (44)* hours shall be granted added compensation or time off with pay for said extra service performed.

(g) Nothing in this section shall abridge or limit in any way the provisions of Section 301, Part I, of the San Francisco Municipal Code, approving rule 32 of the civil service commission, insofar as sick leaves and disability leaves for members are concerned.

(h) Whenever in the judgment of the police commission the efficient performance of police duty requires that one or more members of the police department should report for roll call, orders, and assignments, prior to going on duty, the said commission may designate a period not to exceed fifteen (15) minutes in any one day for said reporting, and the said periods of fifteen (15) minutes need not be compensated for in money or in time off with pay.

(i) Notwithstanding the provisions of any of the foregoing subsections, the police commission is empowered to designate certain legal holidays as additional

days off with pay for members of the police department and members required to perform police service in said department on said days shall be compensated on the basis of straight time as herein computed or shall be granted equivalent time off duty with pay in the judgment of said commission.

[(j) This section shall become effective on the 1st day of July, 1944, provided the same is ratified prior to said date by the Legislature of the State of California. If not ratified prior to said date, this section shall become effective on the 1st day of the month immediately following the date of ratification.]

PROPOSED CHARTER AMENDMENT Section 171.1

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by adding Section 171.1 thereto, relating to present and future members of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county, at an election to be held on the 5th day of November, 1946, a proposal to amend the Charter of said city and county, by adding thereto a new section to be designated Section 171.1, as follows:

Section 171.1. Members of the fire department, as defined in this section, who are members of the retirement system under section 165 or 171 of the charter on the effective date hereof, hereby designated as the first day of July, 1947, and persons who become members of said department after said effective date, shall be members of the retirement system on and after said date, subject to the following provisions of this section 171.1, in addition to the provisions contained in sections 158 to 161, both inclusive, of this charter notwithstanding the provisions of any other section of the charter. Members of the retirement system under section 169 of the charter shall be members under this section only with respect to subsection (D) and no other provisions of this section shall apply to them. Benefits provided under subsection (D) at the death of members under section 169 shall be in lieu of benefits provided in subsection (b) of section 169. Members of the said department

who are members of the retirement system under section 165 of the charter on said effective date, however, shall have the option to be exercised in writing on a form furnished by the retirement system and to be filed at the office of said system not later than ninety days after the effective date hereof, of being members of the system under section 165 instead of section 171.1, the election under said option to be effective on said effective date. In like manner, members of the said department who are members of the retirement system under section 171 of the charter shall have the option, to be exercised in writing on a form furnished by the retirement system, and to be filed at the office of said system not later than ninety days after the effective date hereof, of being members of the system under section 171, instead of section 171.1, the election to be effective on said effective date, provided, that members who are absent by reason of service in the armed forces of the United States or by reason of any other service included in section 161 of the charter, on the effective dates of the amendment shall have the same option of electing to be members under section 165 or 171, as the case may be, instead of section 171.1, until ninety days after their return to service in the fire department. On and after said effective date, the persons who affirmatively exercise said option, shall continue to be members of the system under sections 165 or 171, respectively, and shall not be subject to any of the provisions of section 171.1.

(A) The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," "death allowance" or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the fire department.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the fire department he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the average monthly compensation earnable by a member during the three years immediately preceding his retirement, or death before retirement.

For the purpose of the retirement system and of this section, the terms "member of the fire department," "member of the department" or "member," shall mean any officer or employee of the fire department whose employment therein was or shall be subject to the charter provisions governing entrance requirements for members of the uniformed force of said department, and

said terms further shall mean, from the effective date of their employment in said department, persons employed on the effective date hereof, regardless of age, or employed after said date at an age not greater than thirty-five years in the fire department to perform the duties now performed under the titles of hydrant-gateman, marine engineer, marine fireman, and pilot, or now performed as members of the salvage corps. Any fire service performed by such a member of the fire department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco city and county employees' retirement system as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in section 159 of the charter.

"Charter" shall mean the charter of the city and county of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural, and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

(B) Any member of the fire department who completes at least twenty-five years of service in the aggregate, regardless of age, or at least twenty years of service in the aggregate, and attains the age of 55 years, said service to be computed under subsection (H) hereof, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the sentences next preceding, shall receive a retirement allowance equal to fifty per cent of the final compensation of said member, as defined in subsection (A) hereof, plus an allowance at the rate of $1\frac{2}{3}$ per cent of said final compensation, for each year of service rendered prior to attaining age 60 and after qualifying as to age and service for retirement, but the total allowance shall not exceed two-thirds of said final compensation provided that a member who attains age 65 with less than twenty years of service, shall receive a retirement allowance at the rate of $2\frac{1}{2}$ per cent of said final compensation for each year of service with which he is credited. Before the first payment of a retirement allowance is made, a member retired under this subsection or subsection (C), may elect to receive the actuarial equivalent of his allowance, partly in an allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the Board of Supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

(C) Any member of the fire department, who becomes incapacitated for performance of his duty by reason of any bodily injury received in, or illness caused by the performance of his duty, shall be retired, and shall receive a retirement allowance. If at the time of retirement, he is qualified as to age and service for retirement under subsection (B), the allowance shall be equal to the retirement allowance which he would receive if retired under subsection (B). If retirement occurs prior to qualification for service retirement, the allowance shall be not less than 75% or more than 90% of the final compen-

sation of said member, as defined in subsection (A) hereof, the exact percentage to depend on the degree of disability as determined by the retirement board, at the time of retirement, and from time to time thereafter, but for a member who is totally disabled for the performance of any duties in or out of the service of the city and county, the allowance shall be 90% of said final compensation. Said allowance as fixed by the retirement board shall continue until the date upon which said member would have qualified for service retirement, had he rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he rendered service as assumed.

Any member of the fire department who becomes incapacitated for performance of his duty, by reason of a cause not included under the provisions of the immediately preceding paragraph, and who shall have completed at least ten years of service in the aggregate, computed as provided in subsection (H) hereof, shall be retired upon an allowance of one and one-half per cent of the final compensation of said member, as defined in subsection (A) hereof, for each year of service, provided that said allowance shall not be less than twenty-five per cent of said final compensation. The question of retiring a member under this subsection may be brought before the retirement board on said board's own motion, by recommendation of the fire commission, or by said member or his guardian. If his disability, for which he is retired under this subsection, regardless of cause, shall cease, his retirement allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(D) If a member of the fire department shall die before or after retirement as a result of an injury received in, or illness caused by the performance of his duty, a monthly allowance shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he lived and rendered service as assumed. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years.

Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this subsection to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

(E) That portion of any allowance payable because of the death or retirement of any member of said department which is provided by contributions of the city and county, shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits, other than medical benefits, payable to or on account of such person, under the workmen's compensation insurance and safety law of the State of California and because of the injury or illness resulting in said death or retirement.

(F) If a member of the fire department shall die, before retirement, from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under subsection (D) preceding, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, the sum of five hundred dollars shall be paid to his estate or designated beneficiary in the manner and subject to the conditions prescribed by the board of supervisors for the payment of a similar benefit upon the death of other retired members.

(G) Should any member of the department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he shall again become a member of the department, he shall redeposit in the retirement fund, the amount refunded to him. Contributions, with interest, which are credited because of service rendered in any other office or department and which will not be counted under subsection (H), to any person who becomes a member of the retirement system under this section, shall be refunded to him forthwith. Should a member of the fire department become an employee of any other office or department, a portion of his contributions with credited interest equal to the contributions which would have accumulated to his credit if he had been employed in said other office or department at the rate of compensation received by him in the fire department, shall remain credited to his account, and he shall receive credit for service to the extent of said accumulated contributions, and the balance of his contributions with credited interest shall be refunded to him forthwith.

(H) The following time shall be included in the computation of the service to be credited to a member of the department for the purpose of determining whether such member qualifies for retirement:

(1) Time during and for which said member is entitled to receive com-

pensation because of services as a member of the fire or police department;

(2) Time during which said member served prior to the effective date hereof, and received compensation in any other status requisite for membership in the retirement system, and solely for the purpose of determining qualification for retirement under subsection (C) for disability not resulting from injury received in, or illness caused by performance of duty, time during which said member served, after the effective date hereof, and received compensation in any other status requisite for membership in the retirement system;

(3) Time during which said member, while absent from a status included in paragraphs (1) or (2) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in section 161 of the charter, during any war in which the United States was or shall be engaged or during other national emergency.

(I) All payments provided under this section shall be made from funds derived from the following sources, plus interest earned on said funds;

(1) The rate of contribution of each member under this section shall be based on his age taken to the next lower complete quarter year, at the date he became a member under section 165 or 171, as a member of the fire department, as defined in this section, in the case of persons who are members under these sections, and his age taken to the next lower completed year, when he entered the fire department, or on his age at the date he becomes a member under this section, in the case of persons who become members on or after the effective date of this amendment. The age of entrance into the fire department shall be determined by deducting the member's service as a member of the fire and police departments, prior to the effective date hereof from his age on said date, taken to the next lower complete quarter year. The normal rate of contribution of each such member, to be effective from the effective date of membership under this section, shall be such as, on the average for such member, will provide, assuming service without interruption, under subsection (B) of this section, one-third of that portion of the service retirement allowance to which he would be entitled, upon first qualifying as to age and service, for retirement under that subsection, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date.

(2) There shall be deducted from each salary payment made to a member under this section, a sum determined by applying the member's rate of contribution to such salary payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in subsection (F) and (G) of this section.

(3) Contributions based on time included in paragraphs (1), (2) and (3) of subsection (H), and deducted prior to the effective date hereof, from

compensation of persons who become members under this section, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(4) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(5) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this subsection (I), to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), subsection (I), shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total salaries paid during said year, to persons who are members under this section. Said percentage shall be the ratio of the value at the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system as provided by the board of supervisors, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contribution, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective member after the date stated in the sentence next preceding, to the value at said dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system.

(6) To promote the stability of the retirement system through a joint participation in the results of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

(J) Upon the completion of the years of service set forth in subsection (B) of this section as requisite to retirement, a member shall be entitled to

retire at any time thereafter in accordance with the provisions of said subsection (B), and nothing shall deprive said member of said right.

(K) No person retired under this section, for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Should any such retired person, except persons retired because of disability incurred in the performance of duty, engage in a gainful occupation prior to attaining the age of sixty-two, the retirement board shall reduce that part of his monthly pension or retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed his compensation at the time of his retirement.

(L) Any section or part of any section in this charter, insofar as it should conflict with this section 171.1, or with any part thereof, shall be superseded by the contents of said section 171.1. In the event that any word, phrase, clause or subsection of this section shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

This amendment shall take effect on the first day of July, 1947.

Discussion.

Mr. McClatchy, Chairman of the Pension Committee for the San Francisco Fire Department, in discussing the foregoing proposed charter amendment, consideration of which had been, earlier in the day's proceedings, temporarily postponed, stated that he was not representing any minority group, but he was representing more than 600 active men of the fire fighting forces. Consideration of this amendment was postponed for the definite purpose of getting a raise of pay for men in the Fire and Police departments. His group was now asking submission of the foregoing amendment because it affects every fireman. If small minority groups are to be taken in and supported, he believed the majority groups of the Fire and Police departments should be given the same privilege.

Supervisor Colman announced that the cost would be another \$1,000,000 or a total of about \$11,000,000.

Mr. Callaghan urged submission of the foregoing amendment.

Thereupon, the foregoing proposed charter amendment was *Ordered Submitted* by the following vote:

CHARTER AMENDMENT No. 1

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending section 151.3 relating to the basis of standardization of compensations of certain employees.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 5, 1946, a proposal to amend the charter of said city and county by amending section 151.3 thereof relating to the basis of standardization of compensations of certain employees, which shall read as follows:

NOTE—*Italics* indicates amendments; **blackface** in brackets [] indicates deletions.

BASIS OF STANDARDIZATION OF COMPENSATIONS OF CERTAIN EMPLOYEES

Section 151.3. Notwithstanding any of the provisions of section 151 or any other provisions of this charter, whenever any groups or crafts establish a rate of pay for such groups or crafts through collective bargaining agreements with employers employing such groups or crafts, and such rate is recognized and paid throughout the industry and the establishments employing such groups or crafts in San Francisco, and the civil service commission shall certify that such rate is generally prevailing for such groups or crafts in private employment in San Francisco pursuant to collective bargaining agreements, the board of supervisors shall have the power and it shall be its duty to fix such rate of pay as the compensations for such groups and crafts engaged in the city and county service. [The rate of pay so fixed by the board of supervisors shall be effective at the beginning of the next succeeding fiscal year providing the civil service commission has so certified such rate of pay to the board of supervisors on or prior to the first day of April preceding.] *The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided, that the civil service commission shall review all such agreements as of July 1st of each year and certify to the board of supervisors on or before the second Monday of July any modifications in rates of pay established thereunder for such crafts or groups as herein provided. The board of supervisors shall thereupon revise the rates of pay for such crafts or groups accordingly and the said revised rates of pay so fixed shall be effective from July 1st of the fiscal year in which the said revisions are determined.*

Should the budget estimates for the several departments be filed with the controller or transmitted to the mayor before [said] any such report of said civil service commission is received by the board of supervisors, the head of each department affected by [said] such report may amend its budget estimate to comply with the provisions of [said] such report. [of said civil service commission so as to make the same effective as of the first day of July of the following fiscal year. No report made by the civil service commission as in this section provided, subsequent to the first day of April of any fiscal year or any action of the board of supervisors based on such report, shall be effective until the beginning of the second succeeding fiscal year.]

Notwithstanding the provisions of section 151 or any other provisions of this charter the wages of platform employees and bus operators of the municipal railway shall be determined and fixed, annually, as follows:

(A) *On or before the second Monday of July of each year the civil service commission shall certify to the board of supervisors the two highest wage schedules*

in effect on July 1st of that year for platform employees and bus operators of other street railway systems in the State of California;

(B) The board of supervisors shall thereupon fix wage schedules for platform employees and bus operators of the municipal railway which shall be the average of the two highest wage schedules so certified by the civil service commission; provided, if the average of the two highest wage schedules shall be less than the rates of pay fixed for such service in the salary standardization ordinance adopted by the board of supervisors on March 18, 1946, the board of supervisors shall fix wage schedules for such service which shall be the same as the rates fixed for such service in the said ordinance;

(C) When, in addition to their usual duties, such employees are assigned duties of instructors of platform employees or bus operators they shall receive twenty (20c) cents per hour above the rates of pay fixed for platform employees and bus operators as herein provided;

(D) The rates of pay so fixed for platform employees and bus operators as herein provided shall be effective from July 1st of the fiscal year in which such rates of pay are certified by the civil service commission;

(E) Platform employees and bus operators shall be paid one and one-half times the rate of pay fixed as herein provided for all work performed on six days specified as holidays by ordinance of the board of supervisors for such employees.

Within thirty days after the ratification of this amendment, the board of supervisors shall fix wage schedules for the fiscal year 1946-1947 for the crafts and groups subject to the provisions of this section and which wage schedules shall be effective commencing July 1, 1946.

Not later than the 25th day of July in each year the board of supervisors shall have power and it shall be its duty, subject to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

Notwithstanding any other provision of this charter, not later than thirty days after the effective date of this amendment, the board of supervisors shall have power and it shall be its duty, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance for the fiscal year 1946-1947 to include the provisions necessary for paying from July 1, 1946, the rates of compensation fixed by the board of supervisors as in this section provided for the fiscal year 1946-1947 out of such funds as the controller certifies are available.

The Board of Supervisors hereby orders submitted to the qualified electors of the City and County of San Francisco, at an election to be held therein November 5, 1946, an ordinance amending the initiative ordinance adopted at an election held in said City and County November 8, 1932, entitled "Providing for the Collection and Disposition of Refuse in the City and County of San Francisco; Providing for the Licensing of Refuse Collectors by the Director of Public Health; Fixing the Maximum Rates or Charges for the Collection of Refuse by Licensed Refuse Collectors From Homes, Apartment Houses, Stores, etc.; Dividing City and County of San Francisco Into Collection Routes; Providing Penalties for the Violation of the Provisions of This Ordinance," by amending Sections 2, 3, 6, 10, 11 and 16 of said ordinance, as follows:

Bill No. 4259, Ordinance No. (Series of 1939), as follows:

Initiative ordinance amending the initiative ordinance adopted by the electors on November 8, 1932, entitled "Providing for the Collection and Disposition of Refuse in the City and County of San Francisco; Providing for the Licensing of Refuse Collectors by the Director of Public Health; Fixing the Maximum Rates or Charges for the Collection of Refuse by Licensed Refuse Collectors From Homes, Apartment Houses, Stores, etc.; Dividing City and County of San Francisco Into Collection Routes; Providing Penalties for the Violation of the Provisions of This Ordinance," by amending Sections 2, 3, 6, 10, 11 and 16 thereof.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 2 of the initiative ordinance of November 8, 1932, entitled as recited above, is amended to read as follows:

Section 2. It shall be unlawful for any person, firm or corporation to dispose of refuse as defined in this ordinance except as herein provided, save that the provisions of this ordinance shall not include refuse which may be incinerated by an owner of a building for himself or for his tenants on the premises where produced; provided, however, that such incineration shall be subject to inspection and control by the Director of Public Health and the Fire Department. Failure of any householder producing refuse to subscribe to and pay for refuse collection, unless such householder is a tenant for whom refuse collection service is provided by his landlord, shall be prima facie evidence that such householder is disposing of refuse in violation of this ordinance.

Section 2. Section 3 of said ordinance is amended to read as follows:

Section 3. Refuse consisting of waste or discarded food, animal and vegetable matter, discarded containers of food, animal and vegetable matter and ashes shall be collected and placed in suitable metal cans of thirty gallons or less capacity by the producer or landlord who by reason of contract or lease with an occupant is obligated to care for such refuse, for collection by a refuse collector to be disposed

of as herein provided. Waste paper and boxes and other refuse materials not subject to putrefaction, or decay, and cuttings from trees, lawns and gardens may be placed in any suitable container and delivered by the producer or landlord, who by reason of contract or lease with the occupant is obligated to care for such refuse and deliver same to a refuse collector, to be disposed of as herein provided; provided, however, that it shall be optional with the producer or landlord to deliver waste paper or other refuse having a commercial value to a refuse collector, and the producer or landlord may dispose of the same in any manner he may see fit. Any charge made by a refuse collector for removal from residences, flats or apartments of waste material not placed in metal cans shall not exceed rates fixed herein for collection and disposal of equivalent volumes of refuse. Refuse which under the provisions hereof must be deposited in a metal can of suitable capacity shall be removed daily from the place where the same is created.

Section 3. Section 6 of said ordinance is amended to read as follows:

BENEFITS FOR DEPENDENTS OF THOSE KILLED IN LINE OF DUTY AND RETIREMENT PAY FOR CORPORALS, POLICE DEPARTMENT

PROPOSED CHARTER AMENDMENT NO.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the charter of said city and county by adding Section 168.3 thereto, relating to the members of the Fire and Police Departments, the Salvage Corps and pilots, marine engineers and marine firemen of fireboats, and Section 166.1, prescribing salary base, for retirement purposes, of former rank of corporal of police.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county, at an election to be held therein on the 5th day of November, 1946, a proposal to amend the charter of said city and county by adding thereto new sections to be designated as Section 168.3 and 166.1 as follows:

SEC. 168.3. If a member of the fire or police departments, as defined in the charter for the purposes of the retirement system, or a member of the salvage corps in the fire department, or any person employed by the city and county to perform duties now performed under the titles of pilot of fireboats, marine engineer of fireboats, or marine fireman of fireboats, all of whom are hereafter designated as members, shall die before or after retirement as a result of an injury received in, or illness caused by the performance of his duty, a monthly allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowance shall not be less than one-half of the average monthly compensation earnable by said member during the three years immediately preceding death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in

the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the average monthly compensation he would have received during the three years immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than one-half of such average monthly compensation. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this sub-section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

Benefits provided under this section shall be in lieu of all benefits payable under other sections of the charter upon death of such member resulting from an injury received in, or illness caused by the performance of duty, except the five hundred dollar benefit payable upon death after retirement.

Contributions to provide the allowance under this section shall be made to the San Francisco City and County Employees' Retirement System by the city and county. CHARTER AMENDMENT No.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the charter of said city and county by adding thereto section No. 168.2 relating to allowances to widows of police officers deceased after the effective date of such section.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county, at an election to be held therein November 5, 1946, a proposal to amend the charter of said city and county by adding thereto a new section to be designated section 168.2, as follows:

Section 168.2. Upon the death after retirement of a member of the police department, as defined in the charter for purposes of the retirement system, or if death occurs before retirement and after qualification for service retirement, and if an allowance is not payable to his surviving wife under any other section of the charter, regardless of whether such allowance is subject to adjustment under the workmen's compensation laws of California, a monthly allowance, beginning on the date next following the date of death, shall be paid to his surviving wife, throughout her life, or until her remarriage. If the member, at the time of death, was qualified for service retirement, but was not retired, the allowance payable shall be equal to the monthly retirement allowance which the member would have received if he had retired for service on the day of death, and if he had retired prior to death, the allowance payable shall be equal to the retirement allowance of the member. If an allowance be payable under this section, no benefit otherwise provided at death before retirement, shall be paid.

Upon the death of any person, retired prior to the effective date of this section, as a member of the police department, as defined in the charter for purposes of the retirement system, and in receipt of a retirement allowance on the effective date hereof, and provided that an allowance is not payable to his surviving wife under any other section of the charter, regardless of whether such allowance is subject to adjustment under the workmen's compensation laws of California, his retirement allowance shall be continued to his surviving wife throughout her life or until her remarriage.

No allowance shall be paid under this section to a surviving wife unless she was married to the decedent at least one year prior to the date of his retirement, or one year prior to death if death occurs prior to retirement.

This section shall be effective on the first day of the month next following its ratification by the legislature of the State of California.

On motion by Supervisor Colman, the foregoing was *re-referred to committee*.

The following recommendation of Public Utilities Committee was taken up:

Present: Supervisors Meyer, MacPhee.

Recommending Favorable Consideration by State Railroad Commission and Interstate Commerce Commission of Pending Petitions for Certificates of Public Convenience and Necessity in Connection With Motor Bus Transportation, Including Transcontinental to and From San Francisco.

Proposal No. 6063, Resolution No. . . . (Series of 1939), as follows:

Whereas, applications for certificates of public convenience and necessity have been made to the Railroad Commission of this State and to the Interstate Commerce Commission in connection with motor bus transportation services to and from the City and County of San Francisco, and

Whereas, during the present period of reconversion from war conditions such transportation services are congested by unusual

traffic demands and are subject to possible improvement by additional service to the traveling public; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco recommends to the Railroad Commission of the State of California and to the Interstate Commerce Commission the favorable consideration by said Commissions of present pending petitions for certificates of public convenience and necessity in connection with motor bus transportation, including transcontinental, to and from San Francisco, if in the opinion of said Commissions, such petitions are made by those capable and qualified to furnish, continue and provide such motor bus transportation as will relieve present congestion to and from San Francisco and will improve and augment such present service to the traveling public.

Discussion.

Supervisor MacPhee explained the foregoing proposal, stating that it was intended to take the place of both other resolutions, one for the American Bus Lines and the other for the Pony Express. It was the unanimous opinion of the Public Utilities Committee that additional transportation facilities should be encouraged. This resolution asks for favorable consideration of any proposals that provide additional facilities or relief.

Senator Quinn of Eureka, representing the American Bus Lines, reported that his clients were asking for a permit to operate on Highway 101, from Yuma to Portland, Oregon. The Pony Express people have made application, also, to come to San Francisco. However, he was not discussing that application at all. More transportation is needed between San Francisco and Portland. At the present time there is only one line operating along Highway 101; that is the Greyhound Line. The granting of a permit to the Pony Express would be of no benefit to the people on Highway 101, north of San Francisco. The resolution, as presented, he held, was all right as far as it went. However, he would like to have the American Bus Lines named. That would make it a better and stronger resolution. He would like to see the original resolution adopted.

Thereupon, Supervisor Gallagher stated that he thought the original resolution should be adopted. He had no objection to the Pony Express resolution. In fact, the Board should consider both resolutions.

Supervisor Christopher felt that it would be better to present legislation containing the names of both companies. The Board should listen to the proponents and the opponents of both firms, and at the conclusion of its hearing, should consider a resolution containing the names of both companies.

Thereupon, Supervisor Gallagher announced that if there were no objections to either the Pony Express or to the American Bus Lines, he would be willing to withdraw his resolution and to adopt Supervisor Christopher's suggestion.

Supervisor Colman suggested that in the Railroad Commission, each action was a separate one, and that the Board should adopt separate resolutions. He would be glad to second Supervisor Gallagher's resolution and in return he would expect that the Board give the same treatment to each company.

Mr. John, representing the San Francisco Labor Council, reported that the Labor Council was in agreement with Senator Quinn. However, as to the Pony Express matter, the Council would like to have that re-referred to committee.

Mr. James Burns, representing the Pony Express lines, agreed that separate resolutions, one for each company, should be adopted. However, his company had filed application months prior to the filing of the American Bus Lines application. He was not aware of any labor

differences. His company has no labor difficulties in San Francisco, because it does not operate in San Francisco at the present time. He urged the Board to take action without delay, and not to re-refer his application to committee. He was more or less in favor of the adoption of a resolution for each company.

His Honor, the Mayor, in reply to questioning by Supervisor Christopher, stated that he thought the entire matter was of interest to San Francisco. In a broad way, he continued, he believed in as many services as possible, whether by bus, railway or air. He had no brief for the American Bus Lines or for the Pony Express, but it was apparent that San Francisco needs more service by bus, both up and down the coast. Competition, he believed, was a good thing. He believed it would be for the best interest of San Francisco to advocate the passage of both resolutions.

Mr. John repeated his request to have the matter of the Pony Express referred back to committee. He did not desire to discuss the wage conditions of the people involved at the present time. He could see no reason for not referring the matter back to committee for further examination.

Supervisor Christopher did not believe the Board of Supervisors should engage in controversy where these two bus lines were trying to obtain franchises. He believed the proposal on the Board's calendar very ably handled the situation. The passage of that proposal would not jeopardize either company.

Thereupon, Supervisor Gallagher presented the following:

Approving Application of American Buslines, Inc., and Petitioning the Railroad Commission and the Interstate Commerce Commission to Grant Said Applications for Certificates of Public Convenience and Necessity to Operate Motor Bus Transportation Service.

Proposal No. 5998, Resolution No. 5871 (Series of 1939), as follows:

Whereas, the American Buslines, Inc., has made application to the Railroad Commission of the State of California, the Oregon Public Utilities Commissioner and the Interstate Commerce Commission, for certificates of public convenience and necessity to operate motor bus transportation services as follows:

APPLICATION OF AMERICAN BUSLINES, INC.

1. An application with the California Railroad Commission to operate within California between Fort Yuma, California and the California-Oregon State Line via El Centro, San Diego, Los Angeles, Santa Barbara, Santa Maria, San Luis Obispo, Salinas, San Jose, San Francisco, Santa Rosa, Ukiah, Eureka, Crescent City and intermediate points along U. S. Highways 80, 101, 101 Alternate and adjacent highways.

2. An application with the Oregon Public Utilities Commissioner to operate within Oregon between the California-Oregon State Line and Portland, Oregon, via Gold Beach, Coquille, Coos Bay, Reedsport, Florence, Waldport, Newport, Taft, Valley Junction and McMinnville, along U. S. Highway 101, Oregon State Highway 18 and U. S. Highway 99-W.

3. An application with the Interstate Commerce Commission to operate between these points and all intermediate points in Oregon and California and all points on its trans-continental system; and

Whereas, the City and County of San Francisco has been hampered in its growth during the past by inadequate transportation to and from the City; and

Whereas, representatives of the American Buslines, Inc., the Southern Pacific Railroad, the Pony Express Stages and the Greyhound Lines have appeared before the Committee on Public Utilities at its regular meeting held at 4 o'clock p. m. August 29, 1946, and presented arguments in favor of and against such applications after due notice of meeting; and

Whereas, the Board of Supervisors of the City and County believes that transportation facilities to and from San Francisco should be developed to the utmost, especially during the current period of great traffic demands; and

Whereas, the granting of the applications of the American Buslines, Inc., by the Railroad Commission and the Interstate Commerce Commission would produce an immediate increase in the facilities for travel in and out of San Francisco; and

Whereas, the City and County of San Francisco is part of the Redwood Empire and is located midway on Highway 101 between Los Angeles and the California-Oregon line, and which highway is now only served by one transportation system carrying passengers without competition, and that people desiring to travel up and down Highway 101, either North or South, from the City and County of San Francisco are now dependent entirely upon one bus transportation system, and the Board of Supervisors believes it to be in the best interest of the City and County of San Francisco and the Bay Area that said application be granted; and

Whereas, the application of the American Buslines, Inc., extend the entire route of Highway 101 from Fort Yuma, California, to the California-Oregon line on said Highway 101 will serve this city both North and South; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby approve in principle, the application of the American Buslines, Inc., for certificates of public convenience and necessity to operate motor bus transportation service and does respectfully petition the Railroad Commission of the State of California and the Interstate Commerce Commission to grant said applications.

Discussion.

Supervisor MacPhee believed that the best interest of San Francisco would be served by the resolution as it appeared on the Board Calendar. He would vote against the proposal presented by Supervisor Gallagher, not because he was opposed to the American Buslines coming to San Francisco, for he was not. The proposal on the Calendar was, he thought, a good proposal; it did not take sides.

Supervisor Lewis declared that the proposal on the Calendar was absolutely meaningless. The American Buslines, Inc., want a resolution to be presented to the Railroad Commission as evidence in their case. The matter on the Calendar would not be evidence.

Mr. Dion Holm, on being requested to give his opinion in the matter, stated that he thought it would be more profitable to pass on each application. He was rather inclined to the view that the proposal on the Calendar was somewhat too general to create much of an impression in the minds of the Railroad Commission.

Mrs. Edna Calhan addressed the Board briefly, urging adoption of the resolution as presented by Supervisor Gallagher.

Supervisor Christopher announced that he would vote for the American Buslines. However, he had only one concern. He did not want to be placed in a predicament of favoring one line against another.

Mr. Russell A. Powell announced that the Central Council of Civic Clubs had taken the stand that the applications of the two companies would be heard as two separate cases, and the Council had passed

resolutions separately. The Labor Council cannot make a contract with the bus lines until those lines are in operation.

Supervisor Mead disagreed with Mr. Powell's last statement. That was not necessarily so, he held. Negotiations for contracts can begin pending the beginning of operations. However, he did not think the Board of Supervisors was justified in holding up consideration because of a contemplated labor dispute.

Thereupon, Supervisor MacPhee moved that Proposal 6063 be tabled. Motion seconded by Supervisor Christopher.

The roll was called and Proposal 6063 was *tabled* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Whereupon, Proposal 5998 was again taken up and *Adopted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Thereupon, Supervisor MacPhee moved adoption of a similar proposal in behalf of the Pony Express.

Supervisor Mead thought there should be given time for further hearing on the Pony Express application. He had fully made up his mind to go along with both proposals. He had not expected any objections from any responsible organizations. However, the Labor Council has asked for a reasonable length of time for consideration, and he could not refuse to grant them that time.

Supervisor Christopher stated that he did not know the nature of any labor dispute, or how long it would take to be settled. He felt the Board should not reject this resolution for the Pony Express because of a temporary labor dispute which he felt could be amicably settled within a short time.

After further short discussion, Supervisor Mead announced that with the understanding that the matter would be back from committee by the time of the next Board meeting, he would move reference to committee.

Mr. James Burns stated that his company has a contract with the Brotherhood of Railway Trainmen. There is no labor dispute pending.

Supervisor Mead requested that under the circumstances, since charges have been made and denied, that the Board hear from Mr. John again, and he would so move. Supervisor John J. Sullivan seconded the motion.

Mr. John announced that the dispute had just been called to his attention. He was not prepared at the time to make any further statement. He did not think the matter should be discussed publicly at the present meeting. That was why he had asked for the privilege of appearing before committee.

Supervisor Meyer announced that he would be out of the city during the week. However, he would go along with whatever the other members of the committee decided.

After further brief discussion, the roll was called and the motion to re-refer to committee was *carried* by the following vote:

Ayes: Supervisors Christopher, Lewis, McMurray, Mead, Meyer, John J. Sullivan—6.

Noes: Supervisors Colman, Gallagher, MacPhee, Mancuso, J. Joseph Sullivan—5.

Supervisor Mead moved that the matter be made a Special Order of Business for Monday, September 30, 1946, at 3:00 p. m.

No objection, and so ordered.

Consideration Postponed.

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Inspection of the Marine Depot at Islais Creek.

Supervisor Mead requested a poll of the Board to ascertain how many members of the Board would accept an invitation extended by Brigadier-General A. Cressy, of the U.S.M.C., to inspect the Marine Depot at Islais Creek. He urged all members who could possibly do so, to make the inspection trip.

All members agreed to make the trip with the exception of Supervisor Meyer, who would be out of the city.

Declaration of Policy.

Supervisor Christopher presented the following declaration of policy concerning the Farmers' Market, which, he reported, had been revised to meet objections of everyone concerned, and moved submission of same to the voters:

Shall \$100,000 be spent from tax funds by the City and County to finance a permanent Farmers' Market on a new site, estimated to be repaid in 20 years?

Discussion.

Supervisor Mead, in discussing the foregoing Declaration of Policy, stated that he did not think he was entirely satisfied with the language thereof. He thought the language might have a tendency to mislead the people. The amount would not necessarily be \$100,000. The declaration should be in a little plainer language.

Supervisor MacPhee declared that this was a very simple matter that required no argument at all. Four members of the Board could take it down to the Registrar of Voters as it is; it was not necessary for the Board to vote on it.

The Chair announced that Supervisor Christopher has submitted the declaration to the Board and has asked for a vote on submission. If he does not get six votes, he can go ahead and get four signatures.

Supervisor Colman regretted that Supervisor Christopher had taken the step he had. It put members of the Board in a peculiar position. If, for instance, he voted "No" it would be interpreted that he was not in favor of a Farmers' Market at all, which would not be right. He was very much in favor of it. Thereupon, Supervisor Colman moved, as an amendment, that the matter be denied submission. No second.

Supervisor Mead declared that he thought the members would appreciate the fact that they have been talked into a very embarrassing position.

Thereupon, Supervisor Colman moved that the matter be referred to the Public Health and Welfare Department. Motion seconded by Supervisor MacPhee.

The roll was called and the motion to refer to committee *failed* by the following vote:

Ayes: Supervisors Colman, Lewis, MacPhee, Mead—4.

Noes: Supervisors Christopher, Gallagher, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—7.

Supervisor Lewis raised a point of order. Sometime ago, he stated, the Board of Supervisors adopted a resolution providing for a declaration of policy to be submitted to the voters, and said declaration of policy was set forth in the resolution. This is an attempt to bring in a second declaration of policy after the matter has already been voted on. The declaration has to go on the ballot in accordance with the resolution adopted by the Board of Supervisors.

The Chair ruled the point of order not well taken. The Board has no declaration of policy. The resolution referred to merely called upon the City Attorney, the Chief Administrative Officer and the Registrar of Voters to prepare the necessary legislation on the question of policy to be submitted to the people. This is the matter that came out of that request.

Thereupon, Supervisor Lewis called for the resolution to which he had referred.

Supervisor Mancuso suggested that even if Supervisor Lewis were correct, the entire resolution could not have been submitted. The resolution contained about 500 words.

Thereupon, the Clerk read Resolution 5704, to which Supervisor Lewis had referred.

Supervisor Lewis, following the reading of the resolution, declared the resolution was self explanatory. The resolution incorporated certain language in no uncertain terms, which was to be set forth in the legislation to be prepared. This language, he understood, was not prepared by the City Attorney, nor did it follow the language passed by the Board of Supervisors.

Again the Chair ruled the point of order was not well taken.

Thereupon, Supervisor Lewis appealed from the decision of the Chair.

Supervisor Colman, at the request of the Chair, put the appeal. The question was, he stated: "Shall the decision of the Chair be the decision of the Board? A vote 'Aye' sustains the Chair. A vote 'No' overrules the Chair. Mr. Lewis may have the floor."

Thereupon, Supervisor Lewis read the following pertinent portion of Resolution No. 5704 (Series of 1939), and pointed out that the declaration of policy as presented by Supervisor Christopher did not set forth in detail that which the Board had demanded it contain. Unless the Board rescinds its action in adopting Resolution No. 5704, this declaration of policy is not proper.

Resolved, In order to determine the wishes of the people with respect to financing the cost of a new and permanent Farmers' Market, this Board of Supervisors does hereby go on record as being in favor of submitting a declaration of policy to the electorate at the November 1946 election, setting forth in detail the following:

1. Location of the proposed site.
2. Cost of proposed site.
3. Cost of appurtenances necessary for the operation of the Market.
4. Probable amount of revenue that may be expected to accrue, based on past experiences of the Market.

5. Probable length of time over which amortization of the amount advanced by the city may be expected to run, based on past revenues and costs.

6. Any other information that may be pertinent to the subject.

Further Resolved, That the City Attorney and the Registrar of Voters be and are hereby requested, respectively, to prepare such a declaration of policy as is outlined herein and to take such procedural steps as are necessary for the submission of such policy at the General Election to be held in November, 1946.

Supervisor Gallagher, in explanation of his ruling, declared it was impossible to set forth in detail, as demand by Resolution No. 5704, any declaration within the limit of thirty words, as required for declarations of policies. For example, the location for the proposed Farmers' Market cannot be stated in thirty words. The Chief Administrative Officer has stated that any member of the Board could receive the information as to the site, but he did not think it advisable to divulge the location at this time, because of the great likelihood of increase in the price of the property if such information were generally known. Simply because the Board has adopted Resolution No. 5704, all the detail written therein does not have to appear in the declaration of policy. No one knows the cost of appurtenances necessary for the operation of the Market, so nothing can be placed in the declaration of policy covering that point. As to the probable amount of revenue that may be expected to accrue, and the probable length of time for amortization of the amount advanced by the City, that is in the declaration. There is a limit of thirty words for a declaration of policy, which prevents too much language.

The declaration of policy was prepared by the City Attorney.

Thereupon, the roll was called and the Chair was *sustained* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Noes: Supervisors Lewis, Mead—2.

Thereupon, Supervisor Christopher moved submission of declaration of policy as read by the Clerk.

Supervisor Mead announced that he was forced to vote for submission, although the entire matter would never make sense to him. The City and County is spending \$62,000 to purchase a parcel of land, and is telling the people that \$100,000 will be paid back. Assuming that is done, the City and County of San Francisco has a piece of property worth at least \$62,000.

The roll was then called and the declaration of policy, as presented by Supervisor Christopher, was *Ordered Submitted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Action Rescinded.

Supervisor Lewis moved that the Board rescind its action, whereby it had ordered submitted to the voters a proposed amendment to Section 24 of the Charter. Motion seconded by Supervisor Mancuso.

Supervisor Lewis, in explanation of his reason for the motion to rescind, declared that the Board had approved submission of the amendment in order that a sales tax might be passed at some future time. If action should be rescinded he intended to propose an amendment that would permit the enactment of sales tax legislation.

Mr. Lloyd Taylor stated that he thought the proposed amendment would satisfy those who look into the future for some form of sales tax.

Thereupon, the roll was called and action *rescinded* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Thereupon, Supervisor Mancuso moved that Section 24 of the Charter be amended by inserting in the last paragraph thereof, after the words "city and county," the following language: "except a retail sales tax imposed for the privilege of selling tangible personal property at retail, or," making that paragraph read as follows:

No license tax shall be imposed on any seller or manufacturer of goods, wares or merchandise operating at a fixed place of business in the city and county, except a retail sales tax imposed for the privilege of selling tangible personal property at retail, or except such as require permits or licenses in accordance with or under authority of any local health, sanitary or other ordinance under the police power.

After explanation by the Controller and by Mr. Peddicord, of the City Attorney's office, of the necessity or the advisability of such amendment, the motion to amend was seconded by Supervisor Colman.

Thereupon, the roll was called and the proposed amendment was *approved* by the following vote:

Ayes: Supervisors Colman, Lewis, MacPhee, Mancuso, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Noes: Supervisors Christopher, Gallagher, McMurray—3.

Ordered Submitted.

CHARTER AMENDMENT No. 5

PERMITS AND INSPECTIONS

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by amending section 24 thereof, "Permits and Inspections."

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at the general election to be held on November 5, 1946, a proposal to amend the Charter of said City and County by amending section 24 thereof, "Permits and Inspections," so that the section shall read as follows:

NOTE—*Italics* indicates amendments; **blackface** in brackets [] indicates deletions.

PERMITS AND INSPECTIONS

Section 24. The board of supervisors shall regulate, by ordinance, the issuance and revocation of licenses and permits for the use of, obstruction of or encroachment on public streets and places, exclusive of the granting of franchises governed by other provisions of this charter; and for the operation of businesses or privileges which affect the health, fire-prevention, fire-fighting, crime, policing, welfare or zoning conditions of or in the city and county, and for such other matters as the board of supervisors may deem advisable.

Such ordinance shall fix the fees or licenses to be charged, which shall not be less than the cost to the city and county of regulation and inspection provided, that in so far as the regulation and inspection of foodstuffs or articles of food for human consumption are concerned, the fees or license to be charged for such regulation and inspection shall be as determined by the board of supervisors, but the same shall not exceed the cost of said regulation and inspection. Said ordinance shall also specify which department shall make the necessary investigations and inspections and issue or deny and may revoke the permits and licenses therefor. The chief of police in the performance of police duties shall have power to examine at any time the books and premises of pawnbrokers, peddlers, junk and second-hand dealers, auctioneers and other businesses designated by the board of supervisors, and the tax collector shall have power to examine the books of any business for which a license is issued and a fee charged on the basis of the receipts of such business, and for these purposes such officials shall have the power of inquiry, investigation and subpoena, as provided by this charter.

Permits and licenses shall be issued by the departments as designated by ordinance, only after formal application for such permit or license. No such permit or license that is dependent on or affected by the zoning, set-back or other ordinances of the city and county administered by the city planning commission shall be issued except on the prior approval of the city planning commission. If any application for a permit or license is denied by the department authorized to issue same, the applicant may appeal to the board of permit appeals.

No license tax shall be imposed on any seller or manufacturer of goods, ware or merchandise operating at a fixed place of business in the city and county, *except a retail sales tax imposed for the privilege of selling tangible personal property at retail*, or except such as require permits or licenses in accordance with or under authority of any local health, sanitary or other ordinance under the police power.

Whereupon on motion by Supervisor Mancuso the proposed amendment to Section 24 of the Charter, reading as above, was *Ordered Submitted* by the following vote:

Ordered Submitted by the following vote:

Ayes: Supervisors Colman, Lewis, MacPhee, Mancuso, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Noes: Supervisors Christopher, Gallagher, McMurray—3.

Action Rescinded.

Supervisor MacPhee announced that the Veteran Police Officers Association desired to press for submission the amendment adding Section 168.2 to the Charter, heretofore re-referred to Judiciary Committee.

Supervisor Gallagher also requested that amendment adding Section 166.1 to the Charter be included with the charter amendment referred to by Supervisor MacPhee.

Supervisor Colman, in discussing the two foregoing proposed amendments, stated that he desired to correct a statement heretofore made by him. The submission of the two foregoing amendments would add another \$700,000 to the already heavy burden of the taxpayer, making a total of \$11,700,000, which would bring the tax rate to about \$7. He thought the Board was acting in a way that was unfriendly to the interests of the great majority of the uniformed

forces of San Francisco. This was his sincere belief. It was not too late to go back to the original two amendments and cut out all the rest, and he thought that was the only thing to do. The Board should rescind its action in ordering additional amendments submitted and go back to the two amendments. At the next city election, these amendments can again be submitted, when everybody can have a much fairer break in winning their battle with the voters.

Thereupon, Supervisor Colman moved that the Board rescind its action whereby it had ordered submitted the fire prevention amendment. Motion seconded by Supervisor Christopher.

Supervisor Mancuso moved as a substitute motion that the Board adjourn.

The Chair moved the substitute motion out of order.

Thereupon, Supervisor Mancuso, seconded by Supervisor McMurray, moved that the motion by Supervisor Colman be tabled.

Subsequently, however, with the consent of his second, Supervisor Mancuso withdrew his motion temporarily.

After brief arguments by members of the Fire and Police departments, and representatives of other employee groups, Supervisor Lewis announced that he would change his vote.

Mr. Rockwell, a retired member of the Fire Department, representing the personnel of the Fire Prevention Bureau, opposed rescinding action.

Supervisor Colman urged Mr. Rockwell to agree to postponement of the request of personnel of the Fire Prevention Bureau until the next election. It was a case of 26 men vs. 2,700 men, he stated.

Thereupon, the roll was called and the action whereby amendment to Section 38 of the Charter, Fire Prevention Bureau, had been ordered submitted, was *rescinded* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, J. Joseph Sullivan, John J. Sullivan—6.

Noes: Supervisors MacPhee, Mancuso, McMurray, Mead, Meyer—5.

Action Rescinded.

Supervisor Colman moved that the action whereby the Board had ordered submitted proposed charter amendment adding Section 171.1 to the Charter. Motion seconded by Supervisor Christopher.

Motion *carried* and action *rescinded* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor McMurray—1.

Amendment Proposed.

Thereupon, Supervisor Mancuso moved that the Board rescind its action in ordering submitted charter amendment for the Police and Fire departments, for the purpose of amending said proposed amendment to provide that members of the uniformed forces of the Fire Prevention Bureau shall receive additional pay. Motion seconded by Supervisor McMurray.

Motion *failed* by the following vote:

Ayes: Supervisors MacPhee, Mancuso, McMurray, Mead, Meyer—5.

Noes: Supervisors Christopher, Colman, Gallagher, Lewis, J. Joseph Sullivan, John J. Sullivan—6.

ADJOURNMENT.

Thereupon, Supervisor Colman, seconded by Supervisor Christopher, moved that the Board adjourn.

Motion *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, J. Joseph Sullivan, John J. Sullivan—7.

Noes: Supervisors Mancuso, McMurray, Mead, Meyer—4.

Whereupon, at the hour of 1:40 a. m. Tuesday, September 24, 1946, pursuant to the foregoing motion, the Board of Supervisors adjourned.

JOHN R. McGRATH, Acting Clerk.

Approved by the Board of Supervisors November 12, 1946.

I, John R. McGrath, Acting Clerk of the Board of Supervisors of the City and County of San Francisco, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date hereon stated and approved as recited.

Discussion.

Mr. Sylvester J. McAtee, attorney, representing opponents of the foregoing bill, explained the reasons for the opposition.

Supervisor Christopher stated that inasmuch as there were some members of the Board of Supervisors who were entirely ignorant of the circumstances surrounding the entire matter, that it should be re-referred to Streets Committee for further hearing, and he would so move. Motion seconded by Supervisor McMurray.

Thereupon, Supervisor Mancuso moved as a substitute motion that the matter remain on the Calendar for the period of six months. Motion failed for want of a second.

Supervisor Lewis held that the matter should be considered as a part of a coordinated plan for the improvement of San Francisco's transportation, parking and pedestrian problem, and not as an isolated matter.

After further brief discussion, Supervisor Colman, seconded by Supervisor Mancuso, moved as a substitute motion that the matter remain on the Calendar for the period of two weeks, and be set as a special order of business for Monday, October 14, 1946, at 3:00 p. m.

Discussion.

Supervisor Mancuso reported that the Finance Committee had recommended the foregoing item because it had been told it had no choice in the matter. The Committee recommendation did not necessarily mean that he, personally, was in favor of the matter.

After considerable discussion as to the right to waive the statute of limitations, Supervisor Colman stated that the majority of the Board did not want the City and County to evade paying her just debts by hiding behind the statute of limitations. The courts have decided that Mr. Eckart has a just claim against the City and County. That claim should be paid.

Supervisor MacPhee pointed out that the discussion was not to the question, which was the new compensation retroactive to July 1, 1946. However, he thought Supervisor Colman's point of view was wrong. He believed the legislative body should protect the taxpayers with every means at its disposal. The protection was in not waiving the statute of limitations.

Thereupon, the roll was called and the foregoing bill was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan—8.

Discussion.

After explanation by the Chief Administrative Officer of the foregoing matter, Supervisor Mancuso stated that it appeared to him that there was not a question of clear responsibility. That was the reason for the recommendation for a compromise.

Supervisor Colman said that the way juries have been acting recently, it seemed to him that \$500 was a very reasonable compromise.

Supervisor MacPhee requested that the matter be re-referred to committee.

Supervisor Lewis felt it to be a mistake to handle such matters in the way that the Board had been handling them. He believed money would be saved to the taxpayers, if in such cases the recommendation of the City Attorney were accepted. The matter should be settled. He was opposed to postponement.

Mr. Leipsic, of the City Attorney's office, addressed the Board briefly, reporting the facts in the case and stating why the proposed compromise was recommended.

Thereupon, the roll was called, and the foregoing bill was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan—8.

Absent: Supervisors Mead, Meyer, John J. Sullivan—3.

Approved by the Public Utilities Commission.

Approved by the Mayor.

Discussion.

Mr. Nelson Eckart, at the request of Supervisor Mancuso, explained the urgency of the situation, and the reason for the requested appro-

priation of \$250,000. San Francisco is obligated to furnish water not only to San Francisco itself, but to neighboring communities. 115,000,000 gallons of water per day is now being used; that is more than our present capacity to bring water into the peninsula.

After further brief remarks, the roll was called and the foregoing bill was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan—8.

Absent: Supervisors Mead, Meyer, John J. Sullivan—3.

Written notice of such revocation shall be forwarded by the Chief of Police to the Tax Collector.

The Chief of Police is hereby authorized to adopt, promulgate and enforce such rules and regulations, consistent with the provisions of this section, as he may deem necessary to govern the conduct or operations of photographers or solicitors, as herein defined.

(i) **Permit and License Not Exemption From Any Other Provisions of Code.** The issuance of a permit or license under the provisions of this section shall not exempt the permittee or licensee from any other provisions of the San Francisco Municipal Code or any ordinance of the City and County of San Francisco requiring a permit or license or otherwise regulating the taking, or soliciting the taking, of photographs.

SPECIAL ORDER—2:00 P. M.**Commission Overruled.****Hearing of Appeal From Decision of City Planning Commission.**

Hearing of appeal from decision of City Planning Commission in denying application to rezone property located on the northwesterly corner of Nineteenth Avenue and Santiago Street from Second Residential District to Commercial District.

Discussion.

Mr. Anthony J. Wiechers, attorney, appeared before the Board on behalf of appellant, Dr. Eastman, presented written argument in support of the application of his client to rezone property at the northwesterly corner of Nineteenth Avenue and Santiago Street.

Mr. Elwood Gill, representing the City Planning Commission, stated to the Board the reasons prompting the decision of the City Planning Commission to deny the application to rezone.

Colonel Skeggs, of the State Department of Public Works, opposed the rezoning. The route should be reserved for through traffic and to accommodate traffic in that part of the city, and should be protected for such purpose.

Mr. Ralph Wadsworth, City Engineer, also opposed rezoning.

Supervisor Christopher favored overruling the City Planning Commission.

Supervisor Colman believed that the City Planning Commission had well demonstrated its point and its decision should be upheld by the Board of Supervisors. He would vote to sustain the City Planning Commission.

City Planning Commission Overruled.

Thereupon, the Clerk presented the following:

Disapproving Action of the City Planning Commission by Its Resolution No. 3129, Dated August 8, 1946, Denying Application to Rezone Property Located on the Northwesterly Corner of Nineteenth Avenue and Santiago Street From Second Residential District to Commercial District.

Proposal No. 6123, Resolution No. 5897 (Series of 1939), as follows:

Resolved, That the action of the City Planning Commission by its Resolution No. 3129, dated August 8, 1946, denying application to rezone property located on the northwesterly corner of Nineteenth Avenue and Santiago Street, from Second Residential District to Commercial District, is hereby disapproved.

Adopted by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray, Mead, Meyer, John J. Sullivan—8.

Noes: Supervisors Colman, J. Joseph Sullivan—2.

Absent: Supervisor MacPhee—1.

SPECIAL ORDER—2:00 P. M.**Commission Sustained.****Hearing of Appeal From Decision of City Planning Commission.**

Hearing of appeal from decision of City Planning Commission in denying application to rezone property located on the west line of Broderick Street and the south line of Union Street from Second Residential District to First Residential District.

September 30, 1946—Consideration continued until Monday, October 7, 1946.

Discussion.

Mr. Eustace Cullinan represented appellant. He outlined at length the reasons for the appeal. Out of 118 property owners affected, he stated, 95 have signed the petition to overrule the decision of the City Planning Commission; three are opposed to the rezoning; the rest of the property owners are not available at the present time.

Mr. Charles Christian, Mrs. Laurie, Mrs. Mott, Mrs. Beals, Mr. Haywood and Mr. Jerone, all interested property owners or residents, opposed the rezoning and urged that the City Planning Commission be not sustained.

Mr. Walsh, Mrs. Eleanor Gray and Mrs. Hull requested the Board not to overrule the Commission.

Supervisor Colman pointed out that in this case application for rezoning was made by neighbors of the owners of property affected, and not by the owners themselves. The property has been Second Residential for some 25 years, and should remain so. As Second Residential property there are certain rights which the owners would lose, if the property were rezoned. He could not be a party to taking away those rights. He would vote to sustain the Commission.

Supervisor McMurray also stated he would vote to sustain the City Planning Commission.

Supervisor Lewis announced himself in favor of the rezoning.

Commission Sustained.

Thereupon, the Clerk presented the following:

Disapproving Decision of the City Planning Commission in Denying Application to Rezone Property Located on the West Line of Broderick and the South Line of Union Street From Second Residential District to First Residential District.

Proposal No. 6124, Resolution No. . . . (Series of 1939), as follows:

Resolved, That the decision of the City Planning Commission by its Resolution No. 3128, dated August 8, 1946, denying application to rezone property located on the west line of Broderick Street and the south line of Union Street from Second Residential District to First Residential District, is hereby disapproved.

Refused Adoption by the following vote:

Ayes: Supervisors Gallagher, Lewis, J. Joseph Sullivan, John J. Sullivan—4.

Noes: Supervisors Christopher, Colman, Mancuso, McMurray, Mead, Meyer—6.

Absent: Supervisor MacPhee—1.

September 3, 1946—*Consideration continued until Monday, September 16, 1946.*

September 30, 1946—*Consideration postponed until Monday, October 7, 1946.*

Discussion.

After brief discussion on the question of reconstruction of tracks on Market Street, the Chair reported on previous action of the Board on the foregoing item. Sometime ago, he stated, the foregoing appropriation was a part of a total appropriation of \$1,500,000. At the time of that consideration, the question was divided, but through inadvertency, it was stated that the matter was considered *seriatim*. Subsequently, the City Attorney ruled that the Board could not consider the matter *seriatim*. Four separate ordinances were presented to simplify the matter. Three ordinances have been passed and the bill now under consideration is the fourth one.

Supervisor Mead moved to amend the foregoing bill by deleting the \$750,000 and inserting in lieu thereof the amount of \$340,000.

Replacement of inner tracks on Market Street \$410,000

Discussion.

Mr. James Turner, in reply to questioning by Supervisor Lewis, announced that the Public Utilities Commission could maintain the tracks instead of replacing them. That has been done for several years. Large sums of money have already been spent on that track, and during the next two years the Commission will spend more than \$410,000 to maintain it. The \$410,000 requested is to cover the worst sections of the track. The program is very definite and has been mentioned many times to the Board. The Commission is following the Newton plan. It is intended to use the inner tracks for street cars; that is, for the K, L, M and N lines, high volume, long distance lines. The inner tracks will be used for many years. The only thing to stop their use will be a subway. It is intended to remove the outer tracks as soon as buses can be put on the secondary lines. The official master plan, about which Supervisor Lewis had spoken, approves the Newton plan.

Thereupon, the roll was called and the foregoing item was *approved by the following vote:*

Ayes: Supervisors Christopher, Colman, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Noes: Supervisors Lewis, Mead—2.

Bill No. 4348, Ordinance No. 4075 (Series of 1939), as follows:

Appropriating the sum of \$800 from the Emergency Reserve Fund to provide additional funds for the rental of four private automobiles for four outside building inspectors in the Bureau of Building Inspection, Department of Public Works, for the period September to December, 1946, both months inclusive; an emergency ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The sum of \$800 is hereby appropriated out of the Emergency Reserve Fund, to the credit of Appropriation No. 633.203.39, to provide funds for the rental of four private automobiles for outside building inspectors in the Bureau of Building Inspection, Department of Public Works, for the period September to December, 1946, both months inclusive.

This ordinance is passed as an emergency measure, and the Board of Supervisors does hereby declare by the vote by which this ordi-

nance is passed that an actual emergency exists which necessitates these funds being provided from the Emergency Reserve Fund and this ordinance being made effective forthwith, the nature of the emergency being: An appropriation of \$400 was provided by the 1946-1947 Budget and Appropriation Ordinance for auto rental for four private automobiles pending the arrival of four new automobiles purchased for the use of outside building inspectors in the Bureau of Building Inspection, Department of Public Works. The Purchaser of Supplies advises that the new automobiles will not be delivered before January 1, 1947. It is necessary for the uninterrupted operation of the Bureau of Building Inspection that funds be made available for auto rentals for these outside building inspectors for the above-mentioned period.

Appropriating \$15,000 From Surplus in General Fund Compensation Reserve for Employment of Temporary Personnel in Office of Registrar of voters in Connection With General Election to be Held November 5, 1946; an Emergency Ordinance.

Bill No. 4350, Ordinance No. 4076 (Series of 1939), as follows:

Appropriating the sum of \$15,000 out of the surplus existing in the General Fund Compensation Reserve, Appropriation No. 660.199.00, to provide additional funds for the employment of temporary personnel in the office of Registrar of Voters in connection with General Election to be held November 5, 1946; an emergency ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The sum of \$15,000 is hereby appropriated out of the surplus existing in the General Fund Compensation Reserve, Appropriation No. 660.199.00, to the credit of Appropriation No. 629.120.00, to provide additional funds for the employment of temporary personnel in the Office of the Registrar of Voters in connection with General Election to be held November 5, 1946. These additional funds are made necessary due to increased registration of voters, large number of propositions on the ballot and that the amount appropriated by the 1946-1947 Budget and Appropriation Ordinance for temporary salaries in the Office of the Registrar of Voters did not take into consideration the 15 per cent salary increase granted clerical workers.

Section 2. This ordinance is passed as an emergency measure, and the Board of Supervisors does hereby declare by the vote by which this ordinance is passed that an actual emergency exists which necessitates this ordinance being passed forthwith, the nature of the emergency being: It is immediately necessary in order to comply with time limitations established by law and for the uninterrupted operation of the Office of Registrar of Voters that funds be made available for the employment of additional temporary personnel required in conducting the General Election to be held November 5, 1946.

Allotment of Funds—Board of Supervisors.

Supervisor Mancuso moved that, in accordance with the provisions of the Annual Appropriation Ordinance and the Charter, the Board of Supervisors hereby approves the request to the Controller for the allotment of \$2,000 from the unallotted balance of Appropriation No. 601.298.00, Legislative Expense—Board of Supervisors.

No objection, and motion carried.

The following recommendations of Finance Committee, Supervisor Mancuso dissenting, were taken up:

Present: Supervisors Mancuso, Lewis, Mead.

Waiving Statute of Limitations in Connection With Action Filed by Dion R. Holm, Attorney for the San Francisco Water Department, to Determine His Right to Additional Salary.

Proposal No. 6053, Resolution No. 5898 (Series of 1939), as follows:

Waiving statute of limitations in connection with action filed by Dion R. Holm, attorney for the San Francisco Water Department, to determine his right to additional salary.

Whereas, Dion R. Holm did on the 13th day of September, 1946, file an action against the City and County of San Francisco for the recovery of certain moneys claimed to be due him as and for salary in Superior Court proceeding No. 357476; and

Whereas, there is some question with regard to whether the statute of limitations applies; and

Whereas, the Public Utilities Commission did on the 16th day of September, 1946, adopt its Resolution No. 7685, requesting this board to pass a resolution waiving the statute of limitations in the case of Holm v. the City and County above described, which suit is based on facts similar to those in the recent suit instituted by Nelson A. Eckart, General Manager and Chief Engineer of the San Francisco Water Department, in which action the statute of limitations was waived by Resolution No. 4979 (Series of 1939), of this board; now, therefore, as a matter of fairness and justice, it is hereby

Resolved, That the City and County of San Francisco does hereby waive the statute of limitations in the action of Holm v. City and County, and the City Attorney of the City and County of San Francisco is hereby directed and instructed not to plead the statute of limitations in said action.

Discussion.

Supervisor Mancuso objected to the foregoing proposal, stating that he felt that waiving the statute of limitations in a case like this

was making a gift of public funds, which the Supervisors had no right to do.

Supervisor Colman held that the question to determine was whether the people of San Francisco wanted to hide behind a technicality and deprive a man of money that is due him. He did not think so.

Supervisor Christopher agreed with Supervisor Colman. However, he felt that the question should be decided in court, by outside counsel.

Supervisor Mancuso also believed the case should be tried by outside counsel. He did not think it right for the City Attorney's office to defend an action of this sort.

Thereupon, the roll was called and the foregoing proposal was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Opinion From the City Attorney.

The Clerk presented and read an opinion from the City Attorney, stating that in the absence of any definition by the Board of Supervisors in the City Planning Code of the term "laundry" he did not believe it to be within his province to attempt a comprehensive definition of the term "laundry" to describe all possible situations which might be covered by the term. The City Attorney advised further that the Board of Supervisors had the power to adopt a reasonable definition of the term "laundry" to cover any operations intended to be permitted or restricted.

Discussion.

Thereupon, Supervisor Colman declared there was nothing he could do but accept the opinion of the City Attorney. He thought it was good zoning, as proposed by the legislation before the Board.

Mr. Allison Scoffield, representing the Chinese Hand Laundry Association, urged passage.

Mr. Matthew Dooley stated that after hearing the opinion of the City Attorney, and in view of the nature of the legislation, his people had no objections to it.

Thereupon, the roll was called and the foregoing bill was *Passed for Second Reading* by the following vote:

Proposal No. 6120, Resolution No. 5915 (Series of 1939), as follows:

Whereas, San Francisco is known throughout the world as the birthplace of the United Nations, organized here only last year; and

Whereas, visitors to our city are interested in seeing the buildings where the United Nations organization was created, and would be interested in viewing mementoes of that historic occasion; and

Discussion.

Supervisor MacPhee, in discussing the foregoing proposal, stated that he had no objection to the proposal. The land purchase was for the upper portion of the Market Street-Portola Drive project, against which there was no opposition. However, there was opposition against the lower portion of the project. He believed the people affected should receive an explanation of the project. Possibly, if that were done, there might not be any opposition.

The Chief Administrative Officer, referring to the lower portion of the project, stated that could not be intelligently discussed at the present time. He thought the matter should be set for special hearing, either in committee, or in the Board.

Thereupon, Supervisor MacPhee, seconded by Supervisor Christopher, moved that a hearing on the lower portion of the Market Street-Portola Drive project be set for Monday, October 28, 1946, at 3:00 p. m., and that the Board ask the Chief Administrative Officer to have his engineers present to explain the project.

No objection, and so ordered.

Thereupon, the roll was called and the foregoing proposal was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

Consideration Continued.

The following recommendation of Public Utilities Committee was taken up:

Present: Supervisors Joseph J. Sullivan, MacPhee.

Declaring Official Policy of the City and County of San Francisco Relating to Market Street Transportation.

Proposal No. 6103, Resolution No. . . . (Series of 1939), as follows:

Whereas, no official plan for the disposition of the intolerable four-car track system on Market Street has been adopted or approved by the Board of Supervisors or the Mayor of the City and County of San Francisco; and

Whereas, appropriation of funds for temporary or permanent improvements should be based on an approved and official over-all plan to insure maximum protection of public funds and full understanding of public policy; now, therefore, be it

Resolved, That this Board of Supervisors does by the adoption of this resolution, and the Mayor does by his approval affixed hereto, declare that the official policy of the City and County of San Francisco relating to Market Street shall be as follows:

1. Immediate elimination of the two outer tracks on Market Street, streetcar operation thereon to be replaced by bus service.
2. Continuation of the two center tracks for streetcar service pending a study of the possibility of completely eliminating all car tracks on Market Street.

3. Commencement at once by the City Planning Commission, in cooperation with the Chief Administrative Officer and the Manager of Utilities, of (a) a comprehensive study of the feasibility of installing a system of underpasses under Market Street, and (b) the coordination of all other plans to alleviate congestion and improve mass transit service.

Discussion.

Supervisor MacPhee, in explaining the foregoing proposal, stated that it was pointed out by the Manager of Utilities that paragraphs 1 and 2 of the "Resolve" were part of the Newton Report. Paragraph 3 was the part requiring consideration by the Board. It was felt that paragraph 3 would provide for a comprehensive study. It was important, Supervisor MacPhee continued, that the Board establish a policy with respect to Market Street. The San Francisco C.I.O. Council has asked that the Board of Supervisors re-refer this proposal to committee for a further study, stating that no public hearing was held. A public hearing was held. The Market Street Association was represented at that hearing. The Manager of Utilities, the Chief Administrative Officer and others were present.

Supervisor Lewis stated that he was definitely in favor of the type of legislation proposed, but he felt it was a mistake to outline by resolution, certain improvements that should be made in an over-all plan, and particularly to pick out an isolated improvement, although it might be a most important improvement such as Market Street. He was in agreement with the second "whereas" of the proposal. The "Resolve," however, did not cover the over-all plan as discussed in the "whereas," but it deals only with Market Street. There is conflict, Supervisor Lewis stated, between the Master Plan and the Newton Plan. He did not agree that there was an unquestioned policy on Market Street because of the conflict between those two plans. He was opposed, and would continue to be opposed to the expenditure of funds for any improvements which he thought were a part of any unrelated plan. Departments and commissions should present an over-all plan for submission. He would vote against the foregoing proposal at this time.

Thereupon, Supervisor Christopher moved for re-reference to committee with instructions to report the matter back at the Board's next meeting. Motion seconded by Supervisor Lewis.

Supervisor MacPhee opposed the motion, stating that he thought the matter had had all the study necessary.

Supervisor Lewis then proposed that the proposal remain on the Calendar of the Board.

The Manager of Utilities stated that he had no objection to the proposal.

Mr. McRobbie, representing the San Francisco C.I.O. Council, declared there were many interested parties who were not at any meetings held on this particular plan. He thought the matter should be sent back to committee for further study. He requested that San Francisco C.I.O. Council, Local 250, Transportation Workers be notified if the matter should be returned to committee.

Thereupon, the roll was called and the motion to re-refer to committee *failed* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, John J. Sullivan—5.

Noes: Supervisors MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan—5.

Absent: Supervisor Mead—1.

After further brief discussion, Supervisor Colman, seconded by Supervisor Lewis, moved that the proposal remain on the Calendar for a period of two weeks.

Supervisor MacPhee announced that he would not oppose a two weeks' postponement. However, he urged that whatever policy was established, it would be established by as large a majority as possible.

Thereupon, Supervisor Colman added to his motion, that further consideration be made a special order of business at 2:30 p. m. on Monday, October 28, 1946. Amendment accepted by Supervisor Lewis.

The roll was then called and the motion *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Mead—1.

Passed for Second Reading.

The following recommendation of Police Committee was taken up:

Regulating and Licensing the Taking of Photographs of Persons in Public Places.

Bill No. 3730, Ordinance No. . . . (Series of 1939), as follows:

An ordinance amending Article 2, Part III, of the San Francisco Municipal Code, by adding thereto a new section numbered 124, providing procedure for regulating and licensing the taking of photographs of persons in a public place or any place open to the public for any purpose, except as an established photographic studio, and providing license taxes therefor.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Article 2, Part III, of the San Francisco Municipal Code, is hereby amended by adding thereto a new section numbered 124, to read as follows:

SEC. 124. Photographers—Public Places. (a) Definitions.

As used in this section, the following words shall have the following respective meanings:

"Photographer" shall mean every person, firm or corporation engaged in the business of taking photographs of human beings in a public place or any place open to the public for any purpose, except as an established photographic studio, upon an agreement or understanding that money or other lawful consideration will be paid for the said taking.

"Solicitor" shall mean every person acting as servant, agent or employee of a photographer, as defined herein, who solicits the taking or actually takes photographs of human beings in a public place or any place open to the public for any purpose, except as an established photographic studio, upon an agreement or understanding that money or other lawful consideration will be paid for the said taking.

The aforesaid definitions shall not include a "Street Photographer" as defined in Section 130 of this Article, nor photographers employed by newspapers or other similar publications while engaged in the scope of their employment.

(b) **Permit Required.** It shall be unlawful for any person, firm or corporation to engage in or carry on, or to maintain or conduct, or cause to be engaged in, carried on, maintained or conducted, the business of photographer or to act as a solicitor without having first secured a permit so

to do from the Chief of Police and a license therefor from the Tax Collector.

(c) **Application for Permit.** Every person requiring a permit as provided for in this section shall make written application to the Chief of Police for such a permit on forms provided by the Police Department. Said application shall be accompanied by fingerprints of the applicant, shall contain all information deemed relevant by the Chief of Police, and for a permit as photographer, shall contain in addition thereto the name, business or occupation, and resident address of each person financially interested in such business. For a permit as solicitor, such application shall be first authorized in writing by the photographer engaging, employing or hiring such person.

(d) **Investigation—Issuance or Denial of Permit—Expiration Date.** Upon receipt of said application the Chief of Police shall conduct such investigation as he may deem proper as to the character and morals of the applicant and the character of the business to be conducted. The Chief of Police may deny said application when, in his opinion, good cause exists therefor. If the Chief of Police approves the granting of said permit, he may issue a permit to said applicant, which permit shall be serially numbered and shall expire on the last day of the calendar quarter year in which issued.

(e) **Permit Forwarded to Tax Collector.** When any permit is issued under the provisions of this section, the Chief of Police shall cause said permit to be forwarded to the office of the Tax Collector for delivery to the permittee upon the payment of the license tax hereinafter set forth.

(f) **License Tax.** Every holder of a permit as herein provided shall pay to the Tax Collector a license tax as follows:

Twenty-five (\$25.00) Dollars per quarter for each Photographer license, and

Five (\$5.00) Dollars per quarter for each Solicitor license employed.

License taxes paid under the provisions of this section shall not be prorated or refunded.

The licensee shall issue to each solicitor employed a badge of such wording, design and material as the Chief of Police shall authorize. Said badge shall be worn on the person by the solicitor for whom it was issued, in a conspicuous place for the public to see, at all times when said person is engaged in taking such photographs or soliciting the taking of same. It shall be unlawful for any other person to wear or otherwise display said badge.

(g) **Renewal of Permit.** Renewal of the permit shall be in accordance with the provisions set forth in Section 23 of Article 1, Part III, of this Code.

(h) **Revocation of Permit—Rules and Regulations.** The Chief of Police may revoke any permit issued hereunder when the permittee is violating, or attempting to violate, any law of the State of California, any ordinance of the City and County of San Francisco, any provision of this section, or the rules and regulations issued by the Chief of Police governing the conduct or operations of the permittee. Written notice of such revocation shall be forwarded by the Chief of Police to the Tax Collector.

The Chief of Police is hereby authorized to adopt, promulgate and enforce such rules and regulations, consistent with the provisions of this section, as he may deem necessary to

govern the conduct or operations of photographers or solicitors, as herein defined.

(i) **Permit and License Not Exemption From Any Other Provisions of Code.** The issuance of a permit or license under the provisions of this section shall not exempt the permittee or licensee from any other provisions of the San Francisco Municipal Code or any ordinance of the City and County of San Francisco requiring a permit or license or otherwise regulating the taking, or soliciting the taking, of photographs.

Approved as to form by the City Attorney.

Sept. 30, 1946—*Consideration continued until October 14, 1946.*

Discussion.

Mr. Walter Duane, attorney, in discussing the foregoing bill, stated that his clients had no objection to regulation of itinerant solicitors for photographs. They did object to regular employees, working in a regularly established place of business, being singled out from other employees in restaurants or night clubs for regulation.

Deputy Chief of Police Riordan agreed with the interpretation placed upon the bill by Supervisor Lewis, that both employer and employee must get permits, make applications and be fingerprinted.

Supervisor McMurray reported to the Board that the proposed legislation was proposed at the request of the Chief of Police.

Thereupon, Supervisor Mancuso moved that the words in subsection (b) of Section 124, "or to act as a solicitor" be deleted. Motion seconded by Supervisor Lewis.

Deputy Chief Riordan told the Board that if those words were deleted, the Police Department did not want the ordinance. He agreed that the need for the proposed regulation was not so pressing as it was a couple of years ago. However, the need did exist. It was the practice of the Police Department to require finger prints of every application for a permit of any kind. Finger printing was one method of ascertaining an applicant's past history. A good man or woman need never fear finger printing; in fact, they should be proud of their finger prints.

Thereupon, the roll was called and the motion was *defeated* by the following vote:

Ayes: Supervisors Lewis, Mancuso—2.

Noes: Supervisors Christopher, Colman, Gallagher, MacPhee, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Absent: Supervisor Mead—1.

Mr. Dave Nathanson, who has girls working in various hotels and other places, opposed the finger printing of his employees. He had no objection to being fingerprinted himself. His girls, though, were very high class, and they would not subject themselves to finger printing.

Thereupon, the roll was called and the foregoing bill was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

No: Supervisor Lewis—1.

Absent: Supervisor Mead—1.

Adopted.

The following recommendations of his Honor the Mayor were taken up:

Leave of Absence—Curtis E. Warren, Superintendent of Schools.

Proposal No. 6129, Resolution No. . . . (Series of 1939), as follows:

Resolved, That in accordance with Section 363 of the Education Code, Curtis E. Warren, Superintendent of Schools, be and he is hereby granted a leave of absence for the period commencing October 14 to 23, 1946, for the purpose of attending a meeting of Superintendents of Schools in Cincinnati, Ohio.

Adopted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Mead—1.

Action Rescinded.

Subsequently during the proceedings, it was noted that in the foregoing proposal, the words "with permission to leave the State," had been omitted.

Following the advice of Mr. Dion R. Holm, Assistant City Attorney, Supervisor Colman, seconded by Supervisor Meyer, moved that the Board rescind its action, whereby Proposal No. 6129 had been adopted.

No objection, and action rescinded.

Thereupon, upon the suggestion by Mr. Holm that the proposal granting permission to the Superintendent of Schools be rewritten in language similar to the proposal immediately following.

Thereupon, Supervisor Colman presented the following proposal, as a substitute for the proposal appearing on the Calendar, and moved adoption thereof. Motion seconded by Supervisor Lewis.

Proposed Lot Size Legislation.

Supervisor Colman presented, for reference to committee, draft of a proposed ordinance regulating the subdivision of land and the use of lots for dwelling purposes.

Referred to Public Buildings, Lands and City Planning Committee.

Underpass at San Francisco Airport.

Supervisor Christopher presented:

Proposal No. 6140, Resolution No. . . . (Series of 1939), as follows:

Whereas, with the enlargement of the San Francisco Airport and the increasing number of airplanes arriving at and leaving the Airport, the traffic situation has been aggravated due to the lack of means for ingress and egress; and

Whereas, although this condition will be corrected when the Bayshore Freeway is constructed, at the present time the lives of the employees and passengers are being endangered by the hazardous condition that exists; and

Whereas, a good solution to this problem would be the construction of an underpass at the entrance to the San Francisco Airport; now, therefore, be it

Resolved, That the Board of Supervisors does hereby memorialize the State Department of Public Works to give serious consideration to the immediate construction of an underpass at the San Francisco Airport to provide an accessible means of ingress and egress for those people who desire to use the Airport; and be it

Further Resolved, That a copy of this resolution be forwarded to the Director of the State Department of Public Works, the Assemblymen from San Francisco and the Legislative Representative of the City and County of San Francisco.

Referred to Streets Committee.

Underground Garages.

Supervisor Christopher presented:

Proposal No. 6141, Resolution No. . . . (Series of 1939), as follows:

Whereas, the traffic situation in San Francisco is in a most deplor-

able state and unless remedial steps are forthcoming, conditions will prove unbearable; and

Whereas, the Public Buildings, Lands and City Planning Committee of the Board of Supervisors has held hearings on the question of constructing underground garages; and

Whereas, at said hearings it was stated as the policy of the committee that private capital would be preferred for such construction and public funds reverted to only if private capital failed to show interest for such projects; and

Whereas, the Park Commission has been asked to study the practicability of such construction under several pieces of park property, notably under the Civic Center, St. Mary's Square, Portsmouth Square and Huntington Park; and

Whereas, it has come to the attention of this Board that the Park Commission has called for bids for the construction of an underground garage under St. Mary's Square and that but one bid was received; and

Whereas, such apathy on the part of private capital is certainly not conducive to the alleviation of the presently snarled traffic picture; now, therefore, be it

Resolved, That this Board of Supervisors does respectfully request the Park Department, the Department of Public Works, the Public Utilities Commission, the Controller and such other departments as are interested in the subject-matter, to study the advisability and feasibility of constructing underground garages and to devise ways and means of financing such projects.

Referred to Public Buildings, Lands and City Planning Committee.

In Memoriam—General Joseph W. Stilwell.

Supervisor Christopher presented:

Proposal No. 6142, Resolution No. 5934 (Series of 1939), as follows:

Whereas, the heart of the nation has been saddened by the untimely death of one of its greatest military leaders, General Joseph W. Stilwell, commanding general of the Sixth Army; and

Whereas, "Uncle Joe," as he was affectionately called by his fellow soldiers, though great in victory was even greater in defeat, when, in the Burma campaign, with a "rag-tag, bob-tailed outfit" he fought a retreating and delaying battle against a crack Japanese army, thereby giving the Allies vital time for the defense of Australia; and

Whereas, little can be added to the paeans of praise and the accolades heaped by all the nations of the world on General Joseph W. Stilwell, who contributed in incalculable measure to the victories of the Allied Forces against the Japanese; and

Whereas, the memory of General Joseph W. Stilwell will ever be enshrined in the hearts and minds of men throughout the world who cherish liberty and its defenders; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, noting with profound sorrow the passing of General Joseph W. Stilwell, does declare that when its meeting is adjourned this day, it is out of respect to the beloved memory of General Joseph W. Stilwell; and be it

Further Resolved, That the Clerk be and he is hereby directed to forward a suitable engrossed copy of this resolution to the family of the late General Joseph W. Stilwell.

Unanimously adopted by rising vote.

Congratulating Various Agencies for Efforts in Making the American Legion Convention a Success.

Supervisor MacPhee presented:

Proposal No. 6143, Resolution No. 5935 (Series of 1939), as follows:

Whereas, the Board of Supervisors of the City and County of San Francisco did, on August 5, 1946, adopt a resolution congratulating the police officers of the San Francisco Police Department for the splendid services rendered by them during the National Convention of the Ancient Arabic Order of Nobles of the Mystic Shrine; and

Whereas, since the adoption of said resolution the National Convention of the American Legion was held in San Francisco, which convention brought within our gates thousands of delegates and visitors; and

Whereas, the Police Department was again called upon to cancel days off and extend its hours of duty so that our visiting guests may be afforded every facility to enjoy themselves in our hospitable city; and

Whereas, United States Army and Navy authorities did specially assign members of their respective forces to work with the Police Department; and

Whereas, the National Convention Bureau Committee of the American Legion, under the chairmanship of Edward J. Sharkey, did also organize a Service Law and Order Committee, composed of war veterans, to assist visiting delegates and otherwise afford said delegates every facility in making their stay pleasant; and

Whereas, such courteous and efficient supervision of a great national convention by the Police Department, the Army, the Navy, and the American Legion does enhance the reputation of San Francisco and does definitely insure its place as a leading convention city; now, therefore, be it

Resolved, That the Board of Supervisors hereby tenders its sincere congratulations to the men of the units hereinbefore mentioned and said Board of Supervisors directs its Clerk to transmit a copy of this resolution to the Police Commission, to the Secretary of War, to the Secretary of the Navy, and to Mr. Edward J. Sharkey, chairman of the National Convention Bureau Committee of the American Legion.

Adopted by the following vote:

Ayes: Supervisors Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Absent: Supervisors Christopher, Mead—2.

Condemning Mock Trial and Unjust Conviction of Archbishop Stepinac in Yugoslavia.

Supervisor Mancuso presented:

Proposal No. 6144, Resolution No. . . . (Series of 1939), as follows:

Whereas, the great majority of people in this war-weary world are shocked and alarmed, so soon after their glorious fight for the preservation of freedom and democracy, to contemplate the threat to nullification of their sacrifices and efforts through such tyrannical and oppressive measures as have recently been invoked by the Yugoslavian Government (which, itself, in the immediate past, was allied with the forces consolidated against the destroyers of human rights), particularly in connection with the persecution of Archbishop Stepinac, instigated upon the flimsiest of pretexts, and by a government which did not even exist at the time of the alleged infractions; and

Whereas, the principal charges which resulted in the "conviction" of Archbishop Stepinac and his sentence to sixteen years at hard labor consist in the allegations that Archbishop Stepinac was responsible for and guilty of "enforced conversions," which, to say the least, is a contradiction in terms, and that he, the Archbishop, had collaborated with various agencies, the activities of which, presumably, were inimical to the present government; and

Whereas, complete and authoritative refutation of the first charge is made by His Holiness Pope Pius XII, titular head of the Roman Catholic Church; and

Whereas, the second of the charges referred to is best answered in the words of Archbishop Stepinac, when addressing himself to Marshal Tito, he said: "Tell me, who was my authority in 1941? Was it the Simovic government who put in a king illegally against the Constitution? Was it the treacherous London exiled government? Was my authority Mihailovich who wasn't known at that time? Or was this government my authority, which didn't even exist then?" Addressing himself further to Marshal Tito, Archbishop Stepinac continued: "From May 8, 1945, you were my authority and not before that. From that day on you had the right to ask me for my behaviour and I can go, with a clear conscience, to the other world"; and

Whereas, the actions of Marshal Tito and the Yugoslavian government are unfair, undemocratic and inimical to those principles which the Nations of this World stand pledged to defend and foster; now, therefore, be it

Resolved, That this Board of Supervisors of the City and County of San Francisco, with other agencies, public and private, throughout the United States and the World, joins in condemning the mock trial and unjust conviction of Archbishop Stepinac and, through President Truman, to urge the intervention of the State Department for the release from unjust servitude and the complete vindication of Archbishop Stepinac; and be it

Further Resolved, That copies of this resolution be transmitted to His Excellency, the President of the United States, to Honorable James F. Byrnes, Secretary of State, to Senators Downey and Knowland and to Congressmen Welch and Havenner, with the request that they invoke their efforts for the accomplishment of the purposes of this resolution.

Referred to County, State and National Affairs Committee.

In Memoriam—John E. Foley.

Supervisor McMurray presented:

Proposal No. 6145, Resolution No. 5936 (Series of 1939), as follows:

Whereas, the Almighty has summoned to eternal rest John E. Foley, assistant vice-president of the Bank of America; and

Whereas, in addition to his long and honorable service with the Bank of America, John E. Foley played an active and prominent role in San Francisco's fraternal movements; and

Whereas, the thousands who were privileged to know and love John E. Foley will join his grieving family in deeply mourning the passing of one whose sterling qualities endeared him to all; now, therefore, be it

Resolved, That this Board of Supervisors, noting with a deep sense of loss the passing of John E. Foley, does adjourn its meeting this day out of respect to his memory; and be it

Further Resolved, That the Clerk of the Board be and he is hereby directed to forward to the late Mr. Foley's bereaved widow, Mrs. Augusta C. Foley, and to his daughters, Marjorie C. Foley and Barbara Foley, suitably engrossed copies of this resolution as an expres-

sion of the heartfelt sympathy and condolence extended by the members of the Board of Supervisors.

Unanimously adopted by rising vote.

Gentlemen:

I hereby am requesting a leave of absence with permission to leave the State for thirty days from October 25, 1946, for the purpose of going to New York in connection with the San Francisco Bay Area's bid for the permanent headquarters of the United Nations.

It is not likely that I will be gone such a great length of time, but I feel it to be practical to ask for this leave in the event that my present estimates are wrong. This request is of course in line with Resolution No. 5838, passed by your Honorable Board on September

Discussion.

Mr. Sylvester McAtee, representing groups of opponents to the widening of Post Street, requested postponement for six months, inasmuch as the post-war planning recommendation for the handling of over-all traffic and transportation in San Francisco had never come to the Board in such manner to enable the Board to act on it. This problem should be taken up as a part of the larger plan that will

ultimately have to be adopted. The original advocates of the measure have raised no objection to the requested continuance.

Mr. George Skaller did not object to the requested postponement.

Thereupon, Supervisor Christopher, seconded by Supervisor Lewis, moved that further consideration be postponed for six months.

Supervisor Mead objected to further postponement. The matter has been postponed since 1938, he declared. It was not part of the post-war plan, but it was a pre-war program that should have been completed before the war. In his opinion, the request for this additional postponement was not justified.

Supervisor Colman urged that postponement be granted. The question with which the Board is concerned is not past postponements, but whether the widening of Post Street is necessary now, or whether it could wait for another six months. He believed the merchants did not want the Post Street widening at all, and at the end of the six months' postponement would ask for another postponement. The Police Department reports now that they have solved their problem and, therefore, the widening of Post Street is not necessary for that particular purpose. It is, therefore, unwise for the City to go to the expense of widening Post Street at this time, and it is not fair to compel the property owners to go to that unnecessary expense. In view of these conditions, he could see no harm in agreeing to the requested postponement, and he would so vote.

Mr. Skaller again addressed the Board, stating that the Civic League of Improvement Clubs had not changed its position, but believed today, as it had believed before, that the Post Street bottleneck must be broken. The agreement to the requested postponement was made only in the spirit of fairness to the opponents.

Thereupon, the roll was called and the motion to postpone for six months was *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan—8.

No: Supervisor Mead—1.

Absent: Supervisors Meyer, John J. Sullivan—2.

Statement by Mr. George Skaller on Charter Amendments.

Immediately following the foregoing action, Mr. George Skaller asked permission, which was granted, to make a statement concerning the stand by the Civic League of Improvement Clubs, on two proposed charter amendments.

Mr. Skaller announced that because of the past attitude of the voters, not only in San Francisco, but in other political subdivisions of the State, of refusing to approve necessary and just salary increases for their elected officials, the Civic League of Improvement Clubs had endorsed Charter Amendment No. 9, allowing the State Legislature to fix the salaries of the Supervisors.

Mr. Skaller also called attention to a statement printed in the San Francisco News, Friday, October 18, 1946, quoting the Mayor as saying he was opposed to a minimum fine of 2.00 for certain violations of the Traffic Code. He desired to call to the Mayor's attention the incorrectness of the article, purporting to quote the Mayor.

UNFINISHED BUSINESS.

**Exempting Position of Actuarial Statistician, Retirement System,
From Residence Requirements of the Charter.**

Proposal No. 6149, Resolution No. 5945 (Series of 1939), as follows:

Resolved, That pursuant to the provisions of Section 7 of the Charter of the City and County of San Francisco, upon the recommendation of the Retirement Board and the Mayor, and with the approval of the Civil Service Commission, the position of Actuarial Statistician in the Retirement System be and it is hereby declared exempt from the residence requirements of said Section 7 of the Charter.

Recommended by the Retirement Board.

Recommended by the Mayor.

Discussion.

Mr. Harry Albert, representing the Civil Service Commission, reported on the necessity for waiving residential requirements, as recommended by the Civil Service Commission. He read the requirements heretofore set up in the "scope" circular.

Supervisor McMurray suggested that someone in San Francisco might have acquired the necessary knowledge and ability to fill the position, without having a college degree, which was one of the necessary qualifications set up by the Civil Service Commission.

Supervisor Colman urged adoption of the resolution to waive charter residential requirements. He believed that the best man available should be secured to fill the position, regardless of his residence.

Supervisor Mead opposed adoption of the proposed resolution.

Mr. Ralph Nelson advised the Board that it was imperative that someone be found to fill the necessary position. He did not believe that the qualifications could be lowered. Nor did he agree with the thought expressed by Supervisor McMurray that someone, not a college graduate, but with knowledge gained only through experience, could satisfactorily fill the position.

Thereupon, the roll was called and the foregoing proposal was *Adopted* by the following vote:

Ayes: Supervisors Colman, Gallagher, Lewis, MacPhee, Mancuso, J. Joseph Sullivan, John J. Sullivan—7.

Noes: Supervisors Christopher, McMurray, Mead—3.

No such subdivision shall be approved which does not comply with the provisions of this section.

(b) New Subdivisions—Lot Coverage. No dwelling shall be constructed upon a lot in a new subdivision for which a map has been approved in accordance with the provisions of this section, which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 25 feet in depth. The provision of open spaces between dwellings on adjacent lots is optional, but where such side yards are provided, the distance between dwellings shall be not less than 6 feet.

(c) Resubdivision. Except as provided in Subdivisions (d) and (e) hereof, in any area previously subdivided no lot or land unit shall be established and indicated upon a map or maps filed for record which has an area less than 2500 square feet, or a width less than 25 feet, and no building shall be constructed upon any such lot which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(d) Corner Lots—First Residential Districts. In any area previously subdivided in a First Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, can be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 70 feet; provided, however, that where the City Planning Commission finds that existing conditions do not permit the establishment of the minimum depth of 70 feet such areas can be resubdivided into lots having a street frontage of not less than 25 feet and a depth not less than 57.5 feet. No building shall be constructed upon any such lot which will cover more than 75 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(e) Corner Lots—Second Residential Districts. In any area previously subdivided in a Second Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, may be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 57.6 feet. No building shall be constructed upon any such lot which provides an open rear yard of a depth less than set forth in the table given in Section 15682 of Article II, Chapter 7 of the California State Housing Act.

(f) Lots Now of Record Excepted. Wherever a map showing subdivided lots is of record in the office of the Recorder or the office of the Assessor at the time of the enactment of this section, any lot as shown having dimensions less than those required by this section may, nevertheless, be used as the site for a dwelling, provided that the requirements as to coverage and rear yards of Subdivision (d) shall apply thereto.

(g) Variances. The City Planning Commission may, upon application, grant variances from any of the provisions of this section, after public notice and hearings, if it is of the opinion that special circumstances exist in the particular case, and that unnecessary

hardship would result from the strict interpretation and enforcement of such provision. The procedure governing such applications, and the granting or denial of such variances, shall be the same as that prescribed by ordinance for zoning changes.

Section 2. Section 100 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, is hereby amended to read as follows:

SEC. 100. Building Permits. Building permits for the erection or alteration of any building or structure, shall be issued by the Central Permit Bureau only after approval by the Bureau of Building Inspection, the Division of Fire Prevention and Investigation and the City Planning Commission and shall not be issued contrary to the provisions of Sections 1 to 14, inclusive, of Article 1 or *Section 99* of Article 4 of this Chapter.

Each application for a building permit hereafter filed with the Central Permit Bureau shall be accompanied by a statement as to the use of the building to be constructed or altered on blanks to be furnished by the Central Permit Bureau. On each application there shall be shown an accurate block plan of the location of the building on the lot drawn to a scale of sixteen (16) feet to one (1) inch.

Section 3. Sections 101 and 102 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, are hereby amended to read as follows:

SEC. 101. Interpretation—Purpose. In interpreting and applying the provisions of Sections 1 to 14, inclusive, of Article 1 of this Chapter and *Sections 99* and 100 of this Article, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by Sections 1 to 14, inclusive, of Article 1 of this Chapter and *Sections 99* and 100 of this Article to repeal, abrogate, annul or in any way to impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to the law relating to the use of buildings or premises; nor is it intended by Sections 1 to 14, inclusive, of Article 1, of this Chapter and *Sections 99* and 100 of this Article to interfere with or abrogate or annul any easement, covenant or other agreements between parties; provided, however, that where Sections 1 to 14, inclusive, of Article 1, of this Chapter and *Sections 99* and 100 of this Article imposes a greater restriction upon the use of buildings or premises than is imposed or required by such existing provisions of law or ordinance or by such rules, regulations or permits or by such easements, covenants or agreements, the provisions of Sections 1 to 14, inclusive, of Article 1, of this Chapter and *Sections 99* and 100 of this Article shall control.

SEC. 102. Enforcement. It shall be the duty of the Department of Public Works, Department of Public Health, Police Department, Fire Department and Department of Electricity to enforce the provisions of Sections 1 to 14, inclusive, of Article 1, of this Chapter and *Sections 99* and 100 of this Article.

The following recommendation of the County, State and National Affairs Committee was taken up:

Condemning Conviction of Archbishop Stepinac in Yugoslavia, and Urging His Release and Vindication.

Proposal No. 6144, Resolution No. 5954 (Series of 1939), as follows:

Whereas, the great majority of people in this war-weary world are shocked and alarmed, so soon after their glorious fight for the preservation of freedom and democracy, to contemplate the threat to nullification of their sacrifices and efforts through such tyrannical and oppressive measures as have recently been invoked by the Yugoslavian Government (which, itself, in the immediate past, was allied with the forces consolidated against the destroyers of human rights), particularly in connection with the persecution of Archbishop Stepinac, instigated upon the flimsiest of pretexts, and by a government which did not even exist at the time of the alleged infractions; and

Whereas, the principal charges which resulted in the "conviction" of Archbishop Stepinac and his sentence to sixteen years at hard labor consist in the allegations that Archbishop Stepinac was responsible for and guilty of "enforced conversions," which, to say the least, is a contradiction in terms, and that he, the Archbishop, had collaborated with various agencies, the activities of which, presumably, were inimical to the present government; and

Whereas, complete and authoritative refutation of the first charge is made by His Holiness Pope Pius XII, titular head of the Roman Catholic Church; and

Whereas, the second of the charges referred to is best answered in the words of Archbishop Stepinac, when addressing himself to Marshal Tito, he said: "Tell me, who was my authority in 1941? Was it the Simovic government who put in a king illegally against the Constitution? Was it the treacherous London exiled government? Was my authority Mihailovich who wasn't known at that time? Or was this government my authority, which didn't even exist then?" Addressing himself further to Marshal Tito, Archbishop Stepinac continued: "From May 8, 1945, you were my authority and not before that. From that day on you had the right to ask me for my behaviour and I can go, with a clear conscience, to the other world"; and

Whereas, the actions of Marshal Tito and the Yugoslavian government are unfair, undemocratic and inimical to those principles which

the Nations of this World stand pledged to defend and foster; now, therefore, be it

Resolved, That this Board of Supervisors of the City and County of San Francisco, with other agencies, public and private, throughout the United States and the World, joins in condemning the mock trial and unjust conviction of Archbishop Stepinac and, through President Truman, urges the intervention of the State Department for the release from unjust servitude and the complete vindication of Archbishop Stepinac; and be it

Further Resolved, That copies of this resolution be transmitted to His Excellency, the President of the United States, to Honorable James F. Byrnes, Secretary of State, to Senators Downey and Knowland and to Congressmen Welch and Havenner, with the request that they invoke their efforts for the accomplishment of the purposes of this resolution.

Discussion.

Mr. J. F. Marias, on being granted the privilege of the floor, read and presented a written statement of the reasons prompting him, and the members of the Serra Club of San Francisco, of which he was president, to endorse the foregoing proposal and to urge its adoption by the Board.

Supervisor Lewis stated that he would like to see the foregoing proposal re-referred to committee; he was not familiar with it.

Supervisor Colman questioned the Board's right to act on such a proposal. He agreed with the sentiments expressed, but he believed that the matter should be handled by the United States State Department. For that reason he would vote "No."

Supervisor Mead felt that the Board as a whole, or the members of the Board individually had the right to express an opinion regardless of whom it pleases or displeases.

Supervisor MacPhee expressed his views, saying that he was in sympathy with the contents of the resolution, but he felt it was a matter that the Board of Supervisors, as a group, could not legislate on. If he thought that legislation by the Board of Supervisors would grant this priest his freedom he would be present night and day to accomplish that purpose. Personally, he was glad to express his opinion, as he had done in the past. He would vote "No" on the proposal, not because he was opposed to it, but because he was opposed to the principle of the Board considering such matters.

Thereupon, the roll was called and the foregoing proposal was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray, Mead, J. Joseph Sullivan—7.

Noes: Supervisors Colman, MacPhee—2.

Absent: Supervisors Meyer, John J. Sullivan—2.

Authorizing Sale and Transfer of Dormitory Buildings in the Civic Center Plaza.

Supervisor MacPhee presented:

Proposal No. 6164, Resolution No. . . . (Series of 1939), as follows:

Whereas, by Resolution No. 5507 (Series of 1939), Dormitories G, H, and K in the Civic Center Plaza were declared surplus, and by Resolution No. 5707 (Series of 1939), Dormitories A, B, C, D and J were declared surplus; and

Whereas, the Chief Probation Officer has requested the transfer of Dormitories A and K in said Civic Center Plaza to be moved to the Log Cabin Ranch School for utilization as a single men's dormitory and as building space for shop courses; now, therefore, be it

Resolved, In accordance with the recommendation of the Chief Administrative Officer that Dormitories A and K be transferred to the Juvenile Court Department and that the Director of Property be and he is hereby authorized and directed to sell at public auction dormitory buildings located in the Civic Center Plaza and known as B, C, D, G, H, and J. Requesting Issuance of Postage Stamp to Commemorate the Centennial of the Discovery of Gold in California.

Supervisor Christopher presented:

Proposal No. 6165, Resolution No. . . . (Series of 1939), as follows:

Whereas, January 24, 1948, will be the centennial of the discovery of gold in California by James Wilson Marshall; and

Whereas, it was the discovery of gold that was the primary cause of the exodus of people from the East to California, thus making California eligible to become a State in the Union; and

Whereas, such a monumental event should, on the 100th anniversary, be commemorated, not only by the people of the State of California but by the citizenry of the United States; and

Whereas, one fitting and proper memorial of this occasion would be the issuance of an appropriate postage stamp; now, therefore, be it

Resolved, That this Board of Supervisors does hereby memorialize Robert Hannegan, Postmaster General, to give consideration to the issuance of an appropriate postage stamp, in January, 1948, to commemorate the centennial of the discovery of gold in California; and be it

Further Resolved, That a copy of this resolution be forwarded to Robert Hannegan, Postmaster General, and to the members of the California delegation in Congress.

Referred to County, State and National Affairs Committee.

Requesting Postmaster General to Issue Postage Stamp to Commemorate the Centennial of California's Admission Into the Union.

Supervisor Christopher presented:

Proposal No. 6166, Resolution No. . . . (Series of 1939), as follows:

Whereas, on September 9, 1950, California will celebrate the centennial of its Admission to the Union; and

Whereas, this auspicious occasion should receive recognition and acclaim throughout the United States; and

Whereas, a means of commemorating this memorable date would be by the issuance of a special postage stamp; now, therefore, be it

Resolved, That this Board of Supervisors does hereby memorialize Robert Hannegan, Postmaster General, to give consideration to the issuance of a special postage stamp, sometime in 1950, within reasonable time to appropriately commemorate the centennial of California's Admission to the Union, September 9, 1950; and be it

Further Resolved, That a copy of this resolution be forwarded to Robert Hannegan, Postmaster General, and to Senator William F.

Knowland, Senator Sheridan Downey, Representative Richard J. Welch and Representative Franck R. Havenner.

Referred to County, State and National Affairs Committee.

Petitioning Congress to Issue 50-cent Coins Commemorating California's Gold Rush Centennial.

Supervisor Christopher presented:

Proposal No. 6167, Resolution No. . . . (Series of 1939), as follows:

Whereas, during 1949, California will celebrate its Gold Rush centennial; and

Whereas, it was during California's Great Gold Rush in 1849 that the influx of thousands of settlers and prospectors, most of whom came through the Port of San Francisco, started California's rapid growth and caused its early admittance to the Union; and

Whereas, the year 1949 will mark a glorious page in the history of colorful California, which should be commemorated by appropriate action by the Congress of the United States; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, in regular meeting assembled, does hereby petition the Congress of the United States to adopt the necessary legislation authorizing the proper department of the Government of the United States to coin and issue special 50-cent coins bearing an imprint and inscription which will appropriately commemorate the centennial of California's Gold Rush; and be it

Further Resolved, That Honorable W. F. Knowland and Sheridan Downey, United States Senators from California, be and they are hereby respectfully requested to prepare and introduce the legislation necessary to accomplish the purposes of this resolution.

Referred to County, State and National Affairs Committee.

Mayor to Appoint Citizens' Committee for Unveiling of Plaque Commemorating the Blessing of San Francisco-Oakland Bay Bridge by Pope Pius XII.

Supervisor Gallagher presented:

Proposal No. 6168, Resolution No. 5959 (Series of 1939), as follows:

Whereas, on October 28, 1936, San Francisco was signally honored by a visit from his eminence Eugene Cardinal Pacelli, now Pope Pius; and

Whereas, one of the outstanding events of his visit was his blessing of the San Francisco-Oakland Bay Bridge on October 28, 1936; and

Whereas, on Sunday, October 27, 1946, a plaque in commemoration of that event will be unveiled on the bridge; now, therefore, be it

Resolved, That the Mayor be requested to appoint a Citizens' Committee to represent the City and County of San Francisco at the unveiling ceremonies; said Committee to number among its members, his Honor the Mayor, the Chief Administrative Officer, the President of the Board of Supervisors, former Mayor Angelo J. Rossi and his Honor, the Mayor of Oakland.

Adopted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

Requesting Mayor to Establish an Organization for Formulation of an Over-all Plan of Transportation and Traffic.

Supervisor Lewis presented:

Proposal No. 6169, Resolution No. . . . (Series of 1939), as follows:

Whereas, San Francisco has a problem of providing as soon as possible:

1. Adequate and safe facilities for the pedestrian within the business district;
2. A modern transit service from all outlying areas of the City;
3. Adequate suburban transit facilities, including satisfactory terminals coordinating with local transit and vehicular facilities;
4. Safe and convenient access to the business district for motor vehicles;
5. Provision for off-street parking;
6. Provision for merchandise deliveries; and

Whereas, over the past years many plans and surveys have been prepared at considerable expense and presented to city officials, departments and commissions concerning the above transportation and traffic problems; and

Whereas, the outstanding need in San Francisco is an analysis of all existing data, plans and possibilities relating to traffic and transportation and the consideration of all practical methods of improving transportation facilities and the determination of the most practical solution and of the manner in which the over-all plan may be financed and to include all of these complex matters in one comprehensive analysis; and

Whereas, it is imperative that these problems be given simultaneous consideration rather than proceeding on a program of isolated and unrelated improvements; and

Whereas, the various departments and commissions of the City and County of San Francisco have given to them under the Charter exclusive jurisdiction of the particular transportation and traffic matters within their respective control; and

Whereas, because of lack of time and adequate funds, the analysis of transportation facilities of the Master Plan did not consider the many details essential to a complete solution of the problem and the time allotted did not permit complete analysis of all data, comparisons of various plans and discussions of details; and

Whereas, the Master Plan admits that it does not definitely recommend a comprehensive plan of facilities as evidenced by the following language of the plan:

"The Planning Commission is not prepared to recommend definitely a comprehensive plan of facilities essential to the continued development of the Central Business District. In the above, it has been indicated that the problem is complex. It is certain that the solution depends on providing safe and rapid transit services and, at the same time, on providing convenient access to the district, for those who, for any reason, prefer to use their private automobiles. A complete investigation of all alternates is required to establish what can be accomplished by the various plans and the cost of each";

And Whereas, there is a conflict between the Newton Plan and the Master Plan, as evidenced by the following language of the Master Plan:

"The Newton Plan for the improvement of transportation facilities proposed the removal of the two outside car tracks

from Market Street and the addition of a lane of trolley coaches along each curbing.

"Before it is adopted, *even as a temporary expedient*, this proposal should receive complete analysis. It may be questioned if the plan affords an improvement over existing conditions. It would force street car passengers to cross two vehicular lanes. It fails to provide additional vehicular capacities during peak hours. Driving between a lane of buses or a lane of street cars would probably add to vehicular accidents."

And Whereas, the Master Plan recommends a complete investigation of the Market Street problem by the following language from the Plan:

"The Planning Commission . . . endorses generally the proposal of the Citizens' Post War Committee for a complete investigation of the Market Street problem."

And whereas, there is an immediate need for all city departments to work together with responsible citizens of the City and County of San Francisco as a unit to consider the over-all plan of traffic and transportation; and

Whereas, no substantial capital expenditures should be made in the future for any isolated improvement on a major scale for transportation or traffic until a definite decision for an over-all plan be made; and

Whereas, the most satisfactory plan will be one developed by the combined efforts of the various city departments and commissions of San Francisco that are charged with the responsibility of the improvement and policy of traffic and transportation; and

Whereas, the Citizens' Post War Committee has recommended that the City Planning Commission and the City Departments involved proceed to cooperate in making a final study and in said report state, as follows:

"The problem will not be solved alone by such individual projects as (1) extensions of streets across Market Street, (2) overhead or underground cross streets, (3) development of parallel or other relief streets, (4) surface improvements on Market Street, or (5) traffic control devices on Market Street. . . ."

"With these thoughts in mind all plans for the removal of tracks and resurfacing of Market Street should be thoroughly scrutinized and evaluated so that they will fit into the ultimate program. No other related street improvements should be pursued unless they are calculated to synchronize with the ultimate development. . . ."

"The City has already made a number of studies at considerable cost for the solution of the problem presented by Market Street. This Committee does not recommend just another study, which might be done possibly for \$300,000. It does recommend a final study, together with the development of engineering and working plans, and for that reason has allocated \$3,000,000 for the purpose. It further recommends that the City Planning Commission and other City Departments involved be directed to proceed to cooperate in the immediate solution of this problem. Furthermore, we recommend that as soon as a report is made acceptable to the City officials, the Board of Supervisors take steps to finance and complete the project."

Now, therefore, be it

Resolved, That the Mayor establish an organization for the formulation of an over-all plan of transportation and traffic with its

estimated costs and method for financing the same and that public or private hearings be held at the discretion of the organization so formed; and be it

Further Resolved, That said organization be composed of the Mayor, three members of the Board of Supervisors, the Chief Administrative Officer, the Chief of Police, the Public Utilities Commission, the Planning Commission, the Park Commission, the Police Commission, the Controller, the Director of Public Works, the Director of Public Utilities, the City Engineer and seven (7) citizens of the City and County of San Francisco. The Board of Supervisors shall select the names of the three members who shall be members of said committee. That said organization shall name its own chairman and formulate its own plans of procedure; and be it

Further Resolved, That the plan so adopted by the said organization shall be offered to the citizens of the City and County of San Francisco as soon as possible, to be financed by the type of bond issue determined by said organization and such submission to the general public will be made at the election immediately following the last hearing date of the organization; and be it

Further Resolved, That the organization shall meet at least once a week until its business has been completed. The name of the organization so created shall be known as the Coordinating Council for the Transportation and Traffic for the City and County of San Francisco.

Referred to Public Utilities and Judiciary Committee.

Elevated Highway and Central Parking Loop Project.

Supervisor MacPhee presented:

Proposal No. 6170, Resolution No. 5955 (Series of 1939), as follows:

Whereas, the City and County of San Francisco is in urgent need of additional facilities for the off-street parking of automobiles, the present shortage of which seriously threatens the economic stability of the central business district; and

Whereas, preliminary studies indicate that there may be considerable merit in the proposal for a series of privately constructed garages directly connected to an elevated highway loop joining the Bay Bridge and the proposed Bayshore Freeway and passing through the middle of a series of blocks between Mission and Howard Streets; now, therefore, be it

Resolved, That the City Planning Commission be, and it is hereby, requested to continue its studies of this proposal, with special reference to the general location and arrangement of the related public and private facilities involved, the relation of the proposal to the master plan, and its probable effects upon traffic congestion and upon the economic development and well-being of the City and County, and to report upon these matters to this Board of Supervisors; and be it

Further Resolved, That the Board of Public Works be, and is hereby requested through the Chief Administrative Officer, Thomas A. Brooks, to cooperate with the Planning Commission in the study of this proposal, and, particularly, to make preliminary estimates of the costs and probable revenues involved, sufficient to indicate whether such a project is economically feasible, and to report upon these matters to this Board of Supervisors.

Adopted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Meyer—1.

In Memoriam—Charles J. Janigian.

Supervisor MacPhee presented:

Proposal No. 6171, Resolution No. 5956 (Series of 1939), as follows:

Whereas, this Board of Supervisors has learned with deep regret of the passing of Mr. Charles J. Janigian, active and highly respected member of the San Francisco legal fraternity; and

Whereas, the many who were privileged to know and love Charles J. Janigian will join his grieving family in deeply mourning the passing of one whose sterling qualities endeared him to all; now, therefore, be it

Resolved, That this Board of Supervisors, noting with a sense of keen loss the passing of Charles J. Janigian, does adjourn its meeting this day out of respect to his memory; and be it

Further Resolved, That the Clerk of the Board be and he is hereby directed to tender a suitably engrossed copy of this resolution to Mr. and Mrs. Jasper Janigian, parents of the departed, as an expression of the profound sorrow felt by the members of the Board of Supervisors at the untimely passing of Charles J. Janigian.

Unanimously adopted by rising vote.

Permanent Headquarters for the United Nations.

Supervisor MacPhee called attention to the renewed efforts to attempt to have the San Francisco bay area selected as the permanent headquarters of the United Nations, and suggested that the Board of Supervisors should be represented at the coming session in New York at which that question of permanent headquarters will be considered.

Supervisor Lewis joined with Supervisor MacPhee with his thought that the Board of Supervisors should be represented at said meeting.

Thereupon, after brief discussion, Supervisor MacPhee, seconded by Supervisor Mead, moved that the President of the Board, together with another member of the Board whom the President might designate, be authorized to represent the Board of Supervisors at the coming session of the United Nations in New York.

Supervisor Christopher agreed that Supervisor Gallagher would make a fine representative of the Board of Supervisors. He felt, though, since there must be cooperation between the Mayor and any representatives of the Board, the Mayor should be permitted to appoint those Supervisors whose aid he desired. He did not believe two representatives were necessary; Supervisor Gallagher would be sufficient.

Supervisor Gallagher disagreed with Supervisor Christopher. He believed two members of the Board should go to New York, subject, of course, to the approval by the Mayor. If the Mayor does not desire any one, that would be all right, too.

Supervisors Mead, Lewis and Colman expressed themselves in favor of sending two representatives to the session of the United Nations.

Supervisor Gallagher stated that the authorization should be in the form of a motion. The Mayor, if he did not approve, would, of course, veto that resolution.

Thereupon, Supervisor MacPhee presented the following:

Resolved, That the President of the Board of Supervisors and one member of the Board of Supervisors to be appointed by the President of the Board, shall represent the City and County of San Francisco at the United Nations Conference in New York City.

Thereupon, the roll was called, as follows:

Ayes: Supervisors Colman, Gallagher, Lewis, MacPhee, Mead, J. Joseph Sullivan, John J. Sullivan—7.

Noes: Supervisors Christopher, Mancuso—2.

Absent: Supervisors McMurray, Meyer—2.

The Chair ruled that inasmuch as a resolution requires unanimous consent for adoption on the day of its introduction and without reference to committee, the foregoing resolution had been *refused adoption*.

Supervisor Mead declared that if the Board could not agree on such a matter among themselves, he doubted very much if it would be successful in bringing the United Nations to San Francisco.

Subsequently during the proceedings, the following was presented by Supervisor MacPhee:

Appointment of President of the Board and One Member of the Board to Be Appointed by the President, to Represent San Francisco at United Nations Conference in New York City.

Proposal No. 6172, Resolution No. 5937 (Series of 1939), as follows:

Resolved, That the President of the Board of Supervisors and one member of the Board of Supervisors, appointed by the President of the Board, shall represent the City and County of San Francisco at the United Nations Conference in New York City.

Adopted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, Mead, J. Joseph Sullivan, John J. Sullivan—9.

Absent: Supervisors McMurray, Meyer—2.

Congratulating the Examiner and the Hearst Newspapers for Continued Conduct of the Annual Hearst Newspapers National American History Awards and Urging All San Francisco Senior High School Students to Participate.

Supervisor John J. Sullivan presented:

Proposal No. 6173, Resolution No. 5957 (Series of 1939), as follows:

Whereas, the San Francisco Examiner has announced the Fourth Annual Hearst Newspapers National American History Awards; and

Whereas, the encouragement of the study of American history is a genuine service to America in indoctrinating its youth in the lessons and traditions of our forebears; now, therefore, be it

Resolved, That the San Francisco Board of Supervisors extends its congratulations to the Examiner and the Hearst newspapers for continued conduct of this patriotic and educational enterprise; and be it

SPECIAL ORDER—2:30 P. M.

The following recommendation of Public Utilities Committee was taken up:

Declaring Official Policy of the City and County of San Francisco Relating to Market Street Transportation.

Proposal No. 6103, Resolution No. 5960 (Series of 1939), as follows:

Whereas, no official plan for the disposition of the intolerable four-car track system on Market Street has been adopted or approved by the Board of Supervisors or the Mayor of the City and County of San Francisco; and

Whereas, appropriation of funds for temporary or permanent improvements should be based on an approved and official over-all plan to insure maximum protection of public funds and full understanding of public policy; now, therefore, be it

Resolved, That this Board of Supervisors does by the adoption of this resolution, and the Mayor does by his approval affixed hereto, declare that the official policy of the City and County of San Francisco relating to Market Street shall be as follows:

1. Immediate elimination of the two outer tracks on Market Street, streetcar operation thereon to be replaced by bus service.
2. Continuation of the two center tracks for streetcar service pending a study of the possibility of completely eliminating all car tracks on Market Street.
3. Commencement at once by the City Planning Commission, in cooperation with the Chief Administrative Officer and the Manager of Utilities, of (a) a comprehensive study of the feasibility of installing a system of underpasses under Market Street, and (b) the coordination of all other plans to alleviate congestion and improve mass transit service.

On motion by Supervisor Colman, seconded by Supervisor Lewis, *consideration was postponed until Monday, October 28, 1946, and made a special order of business at 2:30 P. M.*

Discussion.

The Clerk informed the Board of the desire of Supervisor Lewis that consideration of the above matter be postponed until such time as his proposal, along similar lines, now in the Judiciary and Public Utilities Committee, can be considered by the Board at the same time.

Whereupon Supervisor Colman moved, seconded by Supervisor Mancuso, that consideration of Proposal No. 6103 be postponed for two weeks.

Against Postponement.

Supervisor Mead informed the Board that he objected to any postponement of the consideration of this matter, because of its utmost importance and further that in the past, occasion had arisen when consideration was given to more than one proposal along similar lines, nothing was accomplished.

Mr. James H. Turner, Manager of Utilities, informed the Board that he had appeared before the committee and had recommended several changes in the wording of the proposal and that he definitely recommended the adoption of the proposal.

Roll Call on Postponement.

Whereupon the roll was called on postponement of the consideration of Proposal No. 6103 for two weeks and the motion was *defeated* by the following vote:

Ayes: Supervisor Mancuso—1.

Noes: Supervisors Christopher, Colman, MacPhee, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Absent: Supervisors Gallagher, Lewis—2.

Hearing of Interested Parties.

Mr. Henry Steingart, representing the C.I.O., stated that the purpose of the resolution would be to hasten some very necessary changes on Market Street, particularly the elimination of the two outer tracks. Mr. Steingart suggested that the Public Utilities Commission take the public into its confidence, that it divulge to the public its plans for improving the transportation system and to tell the people what buses are available.

Mr. Andrew J. Gallagher, representing the Southern Promotion Association, informed the Board that he had been, while serving as Supervisor, opposed to the construction of four tracks on Market Street; that such an arrangement had resulted in many deaths and injuries.

Speaking on the subject of underpasses, Mr. Gallagher stated that the City years ago had plans and specifications for an experimental

underpass in the vicinity of Market, New Montgomery and Post, but that the only one constructed was one located at the intersection of Bayshore and Third Streets, which proved very unpopular due to the number of nuisances committed.

Mr. Gallagher concluded that he believed that the construction of an underpass at Market and New Montgomery would prove a successful experiment in relieving traffic congestion and would find favor with the people.

Supervisor Christopher stated that he is for the proposal; however, the City has many plans on hand, dating back to the McClintock Report and that nothing has come of them, although many thousands of dollars had been spent in their preparation, and expressed the sincere hope that something would come of the proposal under consideration.

Amendment.

Supervisor Mancuso moved that subdivision 3 be amended by deleting therefrom the words "the feasibility of installing a system of underpasses under." Motion seconded by Supervisor Colman.

After some discussion, Supervisor Mancuso withdrew his motion, none of the members of the Board objecting.

Adopted.

Whereupon the roll was called and Proposal No. 6103 was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

Absent: Supervisors Gallagher, Lewis—2.

SPECIAL ORDER—3:00 P. M.

Chief Administrative Officer to explain the lower portion of the Market Street-Portola Drive Project.

Report from the Streets Committee.

The Clerk read a report from the Streets Committee, wherein it was stated that at the meeting of the Streets Committee on Wednesday, August 21, 1946, the Committee considered communications from the Eureka Valley Promotion Association, Central Council of Civic Clubs, and the Parkside District Improvement Club, protesting the extension of the Portola Drive-Market Street Freeway from Clipper Street Extension to Seventeenth and Market Streets and proposing that the construction of a vehicular tunnel through Twin Peaks be substituted for said freeway. In view of the fact that the people representing the above-mentioned associations did not have with them any plans or specifications available, showing the location and the cost of the tunnel and further, that the Department of Public Works was not prepared at the time to present facts and figures on the freeway, it was the Committee's recommendation that both sides present their case to the Board of Supervisors, bringing with them all available and pertinent data on the subject.

Discussion.

The Chair called upon the Chief Administrative Officer for comment on the present status of the freeway and Mr. Brooks said that he welcomed the opportunity to outline what the Department of Public Works has attempted to do up to the present time; that the project was approved by the Mayor's Post-war Planning Committee and by the City Planning Commission; that a tunnel has been considered, along with a low level and high level road; that the Engineer-

ing Department was here today to explain what has been done to date and that the Department was perfectly willing to change its mind in event that facts and figures demonstrate the feasibility and practicability of so doing.

Whereupon the Chief Administrative Officer called upon Mr. Ralph G. Wadsworth, City Engineer, to explain to the Board and to the attending assemblage the status of the project to date. Mr. Wadsworth gave a very comprehensive talk and answered questions of the several Supervisors and representatives of the improvement clubs concerned.

It developed that the entire cost of the freeway from Seventeenth and Castro to St. Francis Circle would amount to approximately \$6,500,000, including the cost of the land, and that the cost of the section from Ord Street to O'Shaughnessy Boulevard would amount to approximately \$4,467,000. In both cases, the purchase price includes the necessary rights of way. Estimated on the basis of annual cost to the City, including interest on the investment, depreciation, operating and maintenance costs and loss of tax revenue, this would amount to around \$316,000 per year.

Opposition to the Freeway.

Supervisor Christopher expressed opposition to the project, contending that the City should unsnarl the traffic condition that exists from Twin Peaks down to Second and Market.

Supervisor Mead stated that it was his opinion that the construction of the tunnel would be the answer to the traffic congestion that now engulfs the area affected.

City Engineer Wadsworth informed the Board that his department has been studying the tunnel idea and that if a tunnel were constructed in lieu of the freeway, that such a project would be approximately 5000 feet long with a 700-foot viaduct, and costing around \$18,000,000. However, engineering surveys have shown that a tunnel, approximately 3700 feet long, with two separate tubes, would cost in the neighborhood of \$13,000,000, and that about 85 homes would have to be removed to make way for the tunnel project. If the freeway project were to be built, the loss to the City in taxes would amount to \$32,770 per year and if the tunnel project were constructed, the loss to the City would amount to \$25,400 per year.

Statements in Favor of the Tunnel.

Mrs. Ruth Pownell, president of the Eureka Valley Promotion Association, was accorded the privilege of calling upon certain organizations' representatives for a brief talk on the advantages of constructing a tunnel. Those who were privileged to speak were:

Mr. Russell Powell, representing the Central Council of Civic Clubs; Mr. Carroll Newburgh, representing the Parkside District Improvement Club; Mrs. Mary E. Svistgaard, secretary of the Eureka Valley Promotion Association; Assemblyman Edward Gaffney; Mrs. Anne Scanlon, and J. Spagna, chairman of the Traffic Committee for the Eureka Valley Promotion Association.

Closing Remarks by Chief Administrative Officer.

The Chief Administrative Officer, Hon. Thomas A. Brooks, assured the members of the Board and the assemblage that his department would continue study on the proposed projects and that when all the plans involved were completed, they will be presented to the Board for its consideration.

UNFINISHED BUSINESS.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Article 4, Chapter II, Part II, of the San Francisco Municipal Code is hereby amended by adding a new section to be known as Section 99, reading as follows:

SEC. 99. (a) New Subdivisions—Lot Areas. In all areas hereafter subdivided, where a subdivision map is to be filed for approval, all lot lines shall be shown on said map, and such lots shall conform in dimension to the neighborhood pattern as determined by the City Planning Commission, but no such lot shall have a width less than 33 feet. No such subdivision shall be approved which does not comply with the provisions of this section.

(b) New Subdivisions—Lot Coverage. No dwelling shall be constructed upon a lot in a new subdivision for which a map has been approved in accordance with the provisions of this section, which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 25 feet in depth. The provision of open spaces between dwellings on adjacent lots is optional, but where such side yards are provided, the distance between dwellings shall be not less than 6 feet.

(c) Resubdivision. Except as provided in Subdivisions (d) and (e) hereof, in any area previously subdivided no lot or land unit shall be established and indicated upon a map or maps filed for record which has an area less than 2500 square feet, or a width less than 25 feet, and no building shall be constructed upon any such lot which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(d) Corner Lots—First Residential Districts. In any area previously subdivided in a First Residential District, the area lying within 100 feet of the corner of a block, measured along each street from

such corner, can be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 70 feet; provided, however, that where the City Planning Commission finds that existing conditions do not permit the establishment of the minimum depth of 70 feet such areas can be resubdivided into lots having a street frontage of not less than 25 feet and a depth not less than 57.5 feet. No building shall be constructed upon any such lot which will cover more than 75 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(e) **Corner Lots—Second Residential Districts.** In any area previously subdivided in a Second Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, may be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 57.6 feet. No building shall be constructed upon any such lot which provides an open rear yard of a depth less than set forth in the table given in Section 15682 of Article II, Chapter 7 of the California State Housing Act.

(f) **Lots Now of Record Excepted.** Wherever a map showing subdivided lots is of record in the office of the Recorder or the office of the Assessor at the time of the enactment of this section, any lot as shown having dimensions less than those required by this section may, nevertheless, be used as the site for a dwelling, provided that the requirements as to coverage and rear yards of Subdivision (d) shall apply thereto.

(g) **Variances.** The City Planning Commission may, upon application, grant variances from any of the provisions of this section, after public notice and hearings, if it is of the opinion that special circumstances exist in the particular case, and that unnecessary hardship would result from the strict interpretation and enforcement of such provision. The procedure governing such applications, and the granting or denial of such variances, shall be the same as that prescribed by ordinance for zoning changes.

Section 2. Section 100 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, is hereby amended to read as follows:

On each application there shall be shown an accurate block plan of the location of the building on the lot drawn to a scale of sixteen (16) feet to one (1) inch.

Proposal No. 6189, Resolution No. (Series of 1939), as follows:

Whereas, the members of the Bufano Sculpture Committee of the American Legion Frederick G. Bunch Post No. 116 have met at the City corporation yards adjoining Laguna Honda Home in the City of San Francisco; and

Whereas, the statuary and work in progress of Beniamino Bufano stored at these yards has already been subjected to vicious vandalism; and

Resolved, That the remains of Beniamino Bufano's completed and uncompleted works be found and the condition ascertained; that steps be taken immediately by this Board of Supervisors to safeguard such of Bufano's works as still remain and to fix responsibility for maintaining such safeguards; that action be taken to determine the responsibility for failure to safeguard Bufano's works; that inquiry into the vandalism of these works be instituted and facts developed to make prosecution of the vandals possible; that the Board of Supervisors of the City and County of San Francisco take immediate steps to have a city agency, in cooperation with Bufano, act at once to save all salvageable molds and uncompleted works in stone; and that investigation be made to ascertain the person or persons responsible for the removal of Bufano's works from the City Hall basement to the corporation yards.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Requesting the Board of Education to Investigate Feasibility of Constructing a Senior High School in Bernal Heights District.

Supervisor Christopher presented:

Proposal No. 6187, Resolution No. . . . (Series of 1939), as follows:

Whereas, that district south and east of Mission Street, comprising Visitation Valley, Hunters Point, Bay View, Potrero Hills and others has had unprecedented growth during the war and post-war years, due to housing projects, its topography and desirability for industrial sites; and

Whereas, the many thousands of children of high school age are compelled to travel on congested street cars for long distances to attend Mission and Balboa High schools, which schools are already crowded in excess of their capacities; and

Whereas, the building of a senior high school in that territory stated would alleviate, to some extent, the hazardous traffic congestion by eliminating high school students' travel to and from school, and would concurrently afford redress to a district which now contains the largest child per family population in San Francisco; and

Whereas, the City owns over 21½ acres of land upon the summit of the beautiful Bernal Heights, surrounded by Mission Street on the west, Bayshore Boulevard on the east, and Army Street, making an ideal location for a senior high school; now, therefore, be it

Resolved, That the Board of Supervisors respectfully suggest to the Board of Education that they investigate said site and prepare costs and other data to have same immediately available, and that they be asked to instigate, at the earliest possible date, a program for the building of said senior high school.

Referred to the Education, Parks and Recreation Committee.

The Clerk was instructed to transmit copy of the above proposal to the Board of Education.

Requesting the Public Utilities Commission to Give Consideration to the Feasibility of Issuing School Tickets to Those Students Attending School in San Francisco Who Are Over 18 Years of Age.

Supervisor Christopher presented:

Proposal No. 6188, Resolution No. . . . (Series of 1939), as follows:

Whereas, with the termination of the war, many of our ex-service-men are returning to high school to continue their education; and

Whereas, due to the fact that these students are over 18 years of age they are not permitted to use school tickets while going to and from school; and

Whereas, it is unfair to these students to compel them to purchase tokens at 3 for 25 cents while other scholars are permitted to purchase school tickets at 16 rides for 50 cents; and

Whereas, it is within the power of the Public Utilities Commission to permit the issuance of school tickets to those persons over 18 years of age who are attending school in San Francisco; now, therefore, be it

Resolved, That this Board of Supervisors does hereby respectfully petition the Public Utilities Commission to give consideration to the feasibility of the issuance of school tickets to those students who, although over 18 years of age, are attending school in San Francisco.

Referred to the Public Utilities Committee.

The Clerk was instructed to transmit copy of the above proposal to the Public Utilities Commission.

Statement by Supervisor Christopher on Prevention of Street Car Accidents.

Supervisor Christopher, speaking on the vital matter of attempting to devise ways and means of curbing the increase in street car accidents, informed the Board that it was his understanding that a Mr. Joseph Hanlon, chairman of the Safety Committee of the old Market Street Railway, for many years had an enviable record of keeping the accident rate on that line at a very low level, and this information should be transmitted to the Public Utilities Commission as a possible aid in checking the mounting toll of street car accidents on the Municipal line, along with certain correspondence pertaining to the subject matter.

No objection and so ordered.

Meetings of Committees.

Supervisor Meyer called a meeting of the Streets Committee for Wednesday, October 30, 1946, at 4:00 p. m.

Supervisor Sullivan called a meeting of the Education, Parks and Recreation Committee for Friday, November 1, 1946, at 3:00 p. m.

Settlement of Maritime Strike.

During the day's proceedings, and immediately following first Roll Call, Supervisor John J. Sullivan requested that there be taken up, out of order, the following recommendation of the County, State and National Affairs Committee.

No objection, and so ordered.

Proposal No. 6213, Resolution No. . . . (Series of 1939), as follows:

Whereas, an agreement has been reached between East and Gulf Coast ship operators and the Marine Engineers Beneficial Association, ending the maritime strike on those coasts and returning all men involved to work in the maritime industry; and

Whereas, the acceptance of that agreement by the members of the Pacific American Shipowners Association and the Marine Engineers

on the West Coast would immediately settle the strike between those parties and return the men involved to work; and

Whereas, a tentative agreement has been reached between the Waterfront Employers Association of the Pacific Coast and the International Longshoremen's and Warehousemen's Union, and on the only remaining issue the ILWU has offered, upon the signing of the tentative agreement between the Waterfront Employers Association and the ILWU to return to work immediately and further negotiate, or mediate, or arbitrate any remaining issues, which would immediately end this strike; now, therefore, be it

Resolved, That this Board of Supervisors go on record as requesting the Waterfront Employers Association and the Pacific American Shipowners Association to settle the maritime strike by accepting the contract agreed upon between the East and Gulf Coast Operators and the Marine Engineers, which has been put in effect on all Maritime Commission ships on the East and Gulf Coasts, and which the Maritime Commission states may be put into effect on the West Coast; and be it

Further Resolved, That they immediately sign a tentative agreement reached by the International Longshoremen's and Warehousemen's Union and the Waterfront Employers Association in order to settle the strike; and be it

Further Resolved, That in the interests of public welfare and to keep the Port of San Francisco operating, that the remaining issues be immediately referred to further negotiations, mediations or arbitrations, thereby settling the present maritime strike.

Discussion.

Mr. Germain Balkey, president, Longshoremen's Union; Mr. Walter Stitch, chairman of Marine Engineers' Strike Committee; and Mr. Paul Schnur, representing the C.I.O. and speaking on behalf of the striking unions, all urged adoption of the foregoing proposal.

Captain May, of the Masters, Mates and Pilots of America, affiliated with the American Federation of Labor; Mr. John O'Connell, and Mr. Flannigan, also of the American Federation of Labor, opposed the adoption of the proposal.

Supervisor Mead announced that he would have no objection to asking all parties to the strike to get together and settle their differences. However, the proposal as presented asks the West Coast to accept conditions on the East Coast. He could not vote for such a proposal.

Supervisor Colman declared that he could not see how the Board of Supervisors could come to an intelligent, constructive and fair decision on such a question without hearing from all parties interested in the matter. It is not a function of the Board to make a recommendation in such matter. He was convinced that the passage of the proposal would not help at all. He would vote against adoption.

Supervisor Mancuso announced that all representative groups were notified of the committee hearing on this matter. He urged adoption.

Supervisor Christopher read to the Board a portion of a letter received from the Mayor of New York City, reporting the creation of a Division of Labor Relations in that city, and expressed the view that New York City has taken cognizance of the fact that strikes are the concern of communities. Had the American Federation of Labor been present at the committee hearing, he would vote for the adoption of the proposal; however, he felt they and other opponents should be given another opportunity.

Thereupon, Supervisor Christopher moved that the entire matter be re-referred to committee for the purpose of again inviting all

parties to express their views, and that the matter be on the Calendar for the next meeting of the Board. Motion seconded by Supervisor McMurray.

After further brief argument, the roll was called and the motion to re-refer to committee *failed* by the following vote:

Ayes: Supervisors Christopher, McMurray—2.

Noes: Supervisors Colman, MacPhee, Mancuso, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—7.

Absent: Supervisors Gallagher, Lewis—2.

Thereupon, the roll was again called and the foregoing proposal was *Refused Adoption* by the following vote:

Ayes: Supervisors Mancuso, McMurray, Meyer, John J. Sullivan—4.

Noes: Supervisors Christopher, Colman, MacPhee, Mead, J. Joseph Sullivan—5.

Absent: Supervisors Gallagher, Lewis—2.

SPECIAL ORDER—2:30 P. M.

Declaration of Intention to Close Charlestown Place, Confirmed.

Hearing on Closing of Charlestown Place.

Continued from October 28, 1946.

Consideration.

A Mr. Harband, property owner, who had heretofore objected to the proposed closing of Charlestown Place, addressed the Board, saying that he had withdrawn his objection, but he desired the record to state that he would oppose a subsequent closing, if such should be proposed. He would oppose the creation of an alley 25 feet by 37 feet 6 inches.

Thereupon, no objections having been made, the declaration of intention to close Charlestown Place was *confirmed* and the Clerk was directed so to notify the Director of Public Works.

SPECIAL ORDER—3:00 P. M.

Hearing of Objections to Correction of Clerical Errors in 1946-1947 Assessment Roll, Pursuant to Resolution No. 5971 (Series of 1939).

Hearing before the Board of Supervisors of all persons objecting to correction of clerical errors in 1946-1947 Assessment Roll as recommended by the Assessor in accordance with the provisions of Sections 4831, 4832, 4834 and 4836 of the Revenue and Taxation Code of the State of California.

Discussion.

Mr. Lewis Hendrick, property owner, stated that the correction of assessment on his property would increase the amount of taxes by \$173. He did not object to the increased assessment, for he agreed that it was correct, but he desired, if possible, the increased assessment would not be made effective during the current year. He had purchased the property believing that the assessment was correct.

Mr. Walter Allen, from the Assessor's Office, reported that the statement made by Mr. Hendrick was correct, but that the Assessor had no alternative but to correct the assessment when the error was discovered.

After further brief discussion by Supervisor Colman, who pointed out that it was evident that the Board of Supervisors had no right not to authorize the correction of an error, Mr. Hendrick withdrew his objection.

The Clerk reported that the Assessor had requested permission to withdraw from the list of clerical errors, property designated as Block 3758, Lot 4.

No objection, and so ordered.

The Clerk reported, also, that a request had been made to postpone for one week, consideration of Block 3605, Lot 5.

No objection, and so ordered.

Thereupon, the following proposal was presented:

Authorizing Correction of Clerical Errors in 1946-1947 Assessment Roll.

Proposal No. 6211, Resolution No. 5992 (Series of 1939), as follows:

Bill No. 4335, Ordinance No. . . . (Series of 1939), as follows:

Amending Section 336, Article 10, Chapter IV (Fire Code), Part II, of the San Francisco Municipal Code, pertaining to services permitted by gasoline supply stations, by providing that such stations may make certain minor repairs, adjustments or replacements to motor vehicles and providing that equipment shall be properly housed.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 336, Article 10, Chapter IV (Fire Code), Part II of the San Francisco Municipal Code, is hereby amended to read as follows:

The sale of lubricating oils, greases, tires, batteries and other accessories, the cleaning, oiling and greasing of automobiles, the minor servicing and adjusting of brakes and electrical equipment, and the adjusting of fan belt tension, the removal and installation of lamp globes, the focusing of head lamps by adjustment only, cleaning and adjusting of spark plugs, installation of new spark plugs, removal and installation of oil filter or filtering element, installation of new wind shield wiper blades, removal and cleaning of air filters, removal and installation of radiator hose without removal of radiator or water pump, removal and installation of battery or battery cables, replenishing brake fluid in brake supply tank, cleaning and adjusting distributor points, adjusting of carburetor, installation of new fan belts, increasing or decreasing generator charging rate by adjustment, and miscellaneous minor servicing and adjusting, and the servicing and repairing of tires and batteries shall be permitted upon any premises primarily used as a gasoline supply station, but no repairs or reconditioning of the chassis, motors, engines, bodies, or fenders of automobiles, motor vehicles, motor boats, launches or other motor-propelled vessels, shall be permitted thereon. Amendments.

Supervisor Christopher called attention to minor desirable emendments to the foregoing legislation, as follows:

Insert in the fourth line of the title, between the words "certain" and "repairs," the word "minor."

Add to the title, the following words, "as provided herein."

Delete the word "general" in the 17th line of Section 336.

No objection, and the foregoing amendments approved.

Supervisors Mead and Colman requested the definition of the term "minor" in the phrase "minor repairs."

Supervisor Christopher explained that "minor repairs" were those specifically set forth in the bill. All repairs not specifically set forth were prohibited.

Mr. Walker Peddicord advised the Board that the amendments to the title were not necessary; they would not actually appear in the Code. Section 336, only, would be inserted in the Code. He called special attention to the phrase "as provided herein," which, he stated, should not appear in the bill.

Thereupon, upon suggestion by the Chair, action of the Board was rescinded, insofar as approval of the phrase "as provided herein" was concerned.

Thereupon, the roll was called and the foregoing bill, as amended and reading as above, was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

No: Supervisor Mead—1.

Resolved, In accordance with the recommendation of the Public Utilities Commission and the Director of Property, that application is hereby made to the War Assets Administration, Real Property Division, San Francisco, California, requesting that the following described Federal owned real property situated in the City and County of San Francisco, State of California, be held for disposal to the City and County of San Francisco, a municipal corporation, as a priority holder:

**Recommending and Urging Daily Reading of the Bible, Particularly
Between Thanksgiving and Christmas.**

Supervisor MacPhee presented:

Proposal No. 6212, Resolution No. 5995 (Series of 1939), as follows:

Whereas, appropriately, the period between Thanksgiving and Christmas has been designated by the ecclesiastical and by agencies of many of the recognized religious denominations, as a particular time during which it is urged that there be universal resort to and meditation upon the Holy Bible; and

Whereas, initiated by the American Bible Society and the National Sponsoring Committee, plans have been perfected, pursuant to which it is hoped more thoroughly to cement the spiritual ties among and between vast numbers of our civilian and military population at home and abroad, through the expedient of simultaneous concentration upon the precepts and tenets ordained by the Supreme Being as revealed in several passages selected from the Scriptures and suggested for especial consideration by authorities in various creeds; and

Whereas, it is proper and desirable that the people of the City and County of San Francisco should join with their fellow-men throughout this nation and the world in this inspiring endeavor; now, therefore, be it

Resolved, That the people of the City and County of San Francisco be and are hereby respectfully urged to participate in the plan for daily reading of and reflection upon the Holy Bible, especially between Thanksgiving and Christmas and devoutly to petition God for solace and comfort to the bereaved and wounded, for a lasting peace and for tranquillity and true progress in the affairs, spiritual and otherwise, of the nation and the world; and be it

Further Resolved, That his Honor the Mayor be and is hereby respectfully requested to appoint a committee of citizens whose function and duty it shall be to assist in the dissemination of information relative to this worthy endeavor and to encourage participation of San Francisco citizens therein in accordance with the schedule of daily readings prepared by the sponsoring organizations.

Supervisor Christopher commented on a recent news story reporting a Municipal Railway deficit. It was unfortunate that such story should appear just before the election. He did not believe the conditions were fully explained.

November 4, 1946—*Continued to November 7, 1946.*

Discussion.

The Clerk presented and read an opinion from the City Attorney, in which he advised that the two-thirds vote required to overrule a decision of the City Planning Commission meant a two-thirds vote of the entire membership of the Board, or eight votes.

Thereupon, Supervisor Mancuso questioned the City Attorney as to the status of the current hearing.

Mr. Walker Peddicord, Assistant City Attorney, read and explained Section 117 of the Charter, after which he advised that the current hearing must be decided without further postponements, otherwise the Board would lose jurisdiction, and the decision of the City Planning Commission would stand.

Mr. Peddicord, in reply to further questioning by Supervisor Christopher, reiterated his advice that there could be no further postponement of consideration.

Thereupon, Mr. Carl Gellert, president of Atlas Realty Company, appellant, addressed the Board, setting forth the purpose for which the property was to be used, if the requested rezoning were granted.

Mr. Milton W. Morris, of the Associated Home Builders of San Francisco, also urged the requested rezoning be approved.

Mr. Gill, representing the City Planning Commission, explained the reasons which prompted that commission to deny the rezoning.

Mr. Vensano, Director of Public Works; Col. Skeggs, representing the State Highway Commission, and Mr. Spencer, of the California State Automobile Association, opposed the rezoning and stated at length the reasons for their opposition.

Supervisor J. Joseph Sullivan, former member of the City Planning Commission, and Mr. Michel Weill, president of that Commission, also explained the Commission's views with regard to rezoning, and the reasons that prompted the denial.

Supervisor Colman opposed the rezoning.

Refused Adoption.

Disapproving Action of the City Planning Commission by Its Resolution No. 3145 Dated September 5, 1946, Denying Application to Rezone Property Located on Easterly Line of Nineteenth Avenue, Distant Thereon 82 Feet Southerly From Southerly Line of Rivera Street, From Second Residential District to Commercial District.

Thereupon, the following proposal was taken up:

Proposal No. 6219, Resolution No. . . . (Series of 1939), as follows:

Resolved, That the action of the City Planning Commission by its Resolution No. 3145, dated September 5, 1946, denying application to rezone property located on the easterly line of Nineteenth Avenue, distant thereon 82 feet southerly from the southerly line of Rivera Street, from Second Residential District to Commercial District, is hereby disapproved.

Refused Adoption by the following vote:

Ayes: Supervisors Christopher, Mancuso, McMurray, Mead, John J. Sullivan—5.

Noes: Supervisors Colman, MacPhee, Meyer, J. Joseph Sullivan—4.

Absent: Supervisors Gallagher, Lewis—2.

Before the result of the foregoing vote had been announced, Supervisor Mead changed his vote from "Aye" to "No" and moved for reconsideration on Monday, November 18, 1946. Motion seconded by Supervisor John J. Sullivan.

The vote then stood:

Ayes: Supervisors Christopher, Mancuso, McMurray, John J. Sullivan—4.

Noes: Supervisors Colman, MacPhee, Mead, Meyer, J. Joseph Sullivan—5.

Absent: Supervisors Gallagher, Lewis—2.

Point of Order.

Supervisor Colman raised a point of order, stating that on advice the Board must decide the matter without further delay.

The Chair ruled the point of order not well taken. A Supervisor has the right to move for reconsideration. The court will ultimately have to decide on the point, and it would be well to have that ultimate decision.

Supervisor Christopher held that reconsideration must be had at the next meeting of the Board, and requested a ruling on that point.

Mr. Peddicord advised the Board that in his opinion there could be no further delay. When there is a limited time in which the Board has power to act, it has no power later either to consider or to reconsider a matter. The rules of the Board state that reconsideration cannot be had before the next meeting of the Board.

Supervisor Mancuso disagreed with the ruling of the City Attorney. He held that the hearing did not start until November 7, the current meeting. Monday, November 18th, would be the eleventh day from the beginning of the hearing. Since, however, the tenth day would be Sunday, the Board would have the right to act on the next day.

Supervisor Mancuso then announced that he was seconding the motion to reconsider due to the fact that there was not a full membership of the Board present and accordingly the applicant had not had a hearing before the full membership of the Board as required by the provisions of the charter.

Resolved, That his Honor the Mayor be and he is hereby respectfully requested to proclaim the week of November 17 to November 23, 1946, inclusive, as "Traffic Safety Week."

Requesting City Planning Commission to Consider Sub-classification of Present Zoning Classifications in Order to Relax Restrictions in Certain Instances.

Supervisor Christopher presented:

Proposal No. 6220, Resolution No. . . . (Series of 1939), as follows:

Whereas, the zoning classifications of the City and County of San Francisco, namely, First Residential, Second Residential, Commercial, Light Industrial and Unrestricted, appear to be inadequate for the purpose of properly segregating the respective classifications of structures; and

Whereas, oftentimes a structure, office or business establishment now classified as Commercial can well be placed in a Second Residential Zone, provided same conforms to acceptable architectural standards; now, therefore, be it

Resolved, That the City Planning Commission be respectfully requested to consider the sub-classification of said present zoning classifications into sub-class A, B, and C, in order to permit in certain cases at the discretion of the City Planning Commission, the building of structures, or conduct of a business, which although it is not in accord with present zoning, nevertheless, if granted, will not jeopardize or lessen the current values, and will have the effect of placing in certain cases, commercial enterprises in Second Residential zones where the building of said structure, or conduct of said business will not conflict seriously with current surroundings, provided the architectural design of the zone is maintained.

Referred to Public Buildings, Lands and City Planning Committee.

SPECIAL ORDER—3:00 P. M.

Consideration Continued.

Hearing of appeal by Fink and Keystone, from action of City Planning Commission in denying application to rezone property on Twin Peaks from First Residential District to Commercial District.

Discussion.

The Clerk presented and read an opinion from the City Attorney, advising as to Mr. Fink's right in filing an appeal from the decision of the City Planning Commission, and outlining the procedure necessary in filing an appeal.

Mr. Fink stated that he had not secured signatures of the owners of property affected by the requested rezoning. Conferences have shown, he stated, that that was impossible. He suggested that the matter be continued for a further period and set for a date certain. He desired to make a further showing before the Board. Mr. Fink held that the City Attorney had not given a complete opinion; he had not touched on the phase of the matter in which he was interested. He then requested the Board to ask for a further opinion from the City Attorney as to the right of the Board to rezone property which the City Planning Commission has refused to rezone. By the Board's rezoning, no signatures are required.

Thereupon, Supervisor MacPhee, seconded by Supervisor Mancuso, moved that an opinion, along the lines suggested by Mr. Fink, be requested from the City Attorney, and that further consideration of the matter be postponed for one week, or until Monday, November 18, 1946.

Motion carried by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, Mancuso, McMurray, Meyer, J. Joseph Sullivan, John J. Sullivan—9.

No: Supervisor Mead—1.

Absent: Supervisor Lewis—1.

SPECIAL ORDER—3:00 P. M.

Consideration Continued.

Recommendation of Finance Committee.

Authorizing Correction of Clerical Error in 1946-1947 Assessment Roll.

Proposal No. 6215, Resolution No. . . . (Series of 1939), as follows:

Resolved, That pursuant to the recommendation of the Assessor, in accordance with the provisions of Sections 4831, 4832, 4834 and 4836 of the Revenue and Taxation Code of the State of California, with the written consent of the City Attorney, and after hearing set by Resolution No. 5971 (Series of 1939), which hearing was regularly continued by the Board of Supervisors to 2 p. m. of November 12, 1946, at which the assessee affected by the correction recommended, was given an opportunity to be heard thereon and to present objection thereto, after being given five days' notice of such hearing, and after consideration thereof, the Board of Supervisors does hereby consent to, authorize and direct the correction by the Controller, of the clerical error in the 1946-1947 Assessment Roll of the City and County of San Francisco, so that the entry therein to be corrected shall read as follows:

Volume 23, Block 3605, Lot 6, Total \$920, Land \$570, Improvements \$350.

Approved as to form by the City Attorney.

Note: Consideration of the foregoing listed property was continued from Monday, November 4, 1946.

Discussion.

Supervisor Mead stated that he understood the same assessed valuation had been placed on the property under consideration for about twenty years, and he would like to know the reason for the sudden change.

Mr. Walter Allen reported that the increase in taxes would be about \$11. The assessment on the improvements had been increased from \$150 to \$350 to put the property in line with comparable homes.

Mr. Del Carlo stated that he was not acting as legal representative of the owner of the premises, but was merely appearing for him, as an old friend, at his request. The owner was unable to appear before the Board. However, the owner could be present at the next meeting, and it might be well if the matter could be continued for one week.

Thereupon, Supervisor Mead, seconded by Supervisor Meyer, moved that further consideration be postponed until Monday, November 18, 1946.

No objection, and motion carried.

Regulating Subdivision of Land and Use of Lots for Dwelling Purposes.

Bill No. 4375, Ordinance No. . . . (Series of 1939), as follows:

An ordinance amending Article 4, Chapter II, Part II, of the San Francisco Municipal Code, by adding Section 99 thereto, relating to the subdivision of land and the use of lots for dwelling purposes; by amending Section 100, of Article 4, Chapter II, Part II, relating to building permits and by amending Sections 101 and 102 of Article 4, Chapter II, Part II, to include reference to Section 99 as added by this ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Article 4, Chapter II, Part II, of the San Francisco Municipal Code is hereby amended by adding a new section to be known as Section 99, reading as follows:

SEC. 99. (a) New Subdivisions—Lot Areas. In all areas hereafter subdivided, where a subdivision map is to be filed for approval, all lot lines shall be shown on said map, and such lots shall conform in dimension to the neighborhood pattern as determined by the City Planning Commission. Where a neighborhood pattern does not exist, lots shall have a width of not less than 33 feet. No subdivision shall be approved which does not comply with the provisions of this section.

(b) New Subdivisions—Lot Coverage. No dwelling shall be constructed upon a lot in a new subdivision for which a map has been approved in accordance with the provisions of this section, which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 25 feet in depth. The provision of open spaces between dwellings on adjacent lots is optional, but where such side yards are provided, the distance between dwellings shall be not less than 6 feet.

(c) Resubdivision. Except as provided in Subdivisions (d) and (e) hereof, in any area previously subdivided no lot or land unit shall be established and indicated upon a map or maps filed for record which has an area less than 2500 square feet, or a width less than 25 feet, and no building shall be constructed upon any such lot which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(d) Corner Lots—First Residential Districts. In any area previously subdivided in a First Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, can be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 70 feet; provided, however, that where the City Planning Commission finds that existing conditions do not permit the establishment of the minimum depth of 70 feet such areas can be resubdivided into lots having a street frontage of not less than 25 feet and a depth not less than 57.5 feet. No building shall be constructed upon any such lot which will cover more than 75 per

cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(e) **Corner Lots—Second Residential Districts.** In any area previously subdivided in a Second Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, may be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 57.6 feet. No building shall be constructed upon any such lot which provides an open rear yard of a depth less than set forth in the table given in Section 15682 of Article II, Chapter 7 of the California State Housing Act.

(f) **Lots Now of Record Excepted.** Wherever a map showing subdivided lots is of record in the office of the Recorder or the office of the Assessor at the time of the enactment of this section, any lot as shown having dimensions less than those required by this section may, nevertheless, be used as the site for a dwelling, provided that the requirements as to coverage and rear yards of Subdivision (d) shall apply thereto.

(g) **Variances.** The City Planning Commission may, upon application, grant variances from any of the provisions of this section, after public notice and hearings, if it is of the opinion that special circumstances exist in the particular case, and that unnecessary hardship would result from the strict interpretation and enforcement of such provision. The procedure governing such applications, and the granting or denial of such variances, shall be the same as that prescribed by ordinance for zoning changes.

Section 2. Section 100 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, is hereby amended to read as follows:

SEC. 100. Building Permits. Building permits for the erection or alteration of any building or structure, shall be issued by the Central Permit Bureau only after approval by the Bureau of Building Inspection, the Division of Fire Prevention and Investigation and the City Planning Commission and shall not be issued contrary to the provisions of Sections 1 to 14, inclusive, of Article 1 or *Section 99* of Article 4 of this Chapter.

Each application for a building permit hereafter filed with the Central Permit Bureau shall be accompanied by a statement as to the use of the building to be constructed or altered on blanks to be furnished by the Central Permit Bureau. On each application there shall be shown an accurate block plan of the location of the building on the lot drawn to a scale of sixteen (16) feet to one (1) inch.

Section 3. Sections 101 and 102 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, are hereby amended to read as follows:

SEC. 101. Interpretation—Purpose. In interpreting and applying the provisions of Sections 1 to 14, inclusive, of Article 1 of this Chapter and *Sections 99 and 100* of this Article, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by Sections 1 to 14, inclusive, of Article 1 of this Chapter and *Sections 99 and 100* of this Article to repeal, abrogate, annul or in any way to impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to the law relating to the use of buildings or premises; nor is it intended by Sections 1 to 14, inclusive, of Article 1, of this Chapter and *Sections 99 and 100* of this Article to interfere with or abrogate or annul any easement, covenant or other agreements between parties; provided, however, that where Sections 1 to 14, inclusive, of Article 1, of this Chapter and *Sections 99 and 100* of this Article imposes a greater restriction upon the use of buildings or premises than is imposed or required by such existing provisions of law or ordinance or by such

rules, regulations or permits or by such easements, covenants or agreements, the provisions of Sections 1 to 14, inclusive, of Article 1, of this Chapter and Sections 99 and 100 of this Article shall control.

SEC. 102. Enforcement. It shall be the duty of the Department of Public Works, Department of Public Health, Police Department, Fire Department and Department of Electricity to enforce the provisions of Sections 1 to 14, inclusive, of Article 1, of this Chapter and Sections 99 and 100 of this Article.

Where a neighborhood pattern does not exist, lots shall have a width of not less than 33 feet. No subdivision shall be approved which does not comply with the provisions of this ordinance.

Requesting Conveyance of Property of the United States Government, on Which the Palace of Fine Arts Is Situated, to the City and County of San Francisco.

Proposal No. 6216, Resolution No. . . . (Series of 1939), as follows:

Whereas, pursuant to the provisions of an Act of Congress approved March 3, 1925 (45 Stats. 1129), the Acting Secretary of War executed a deed on the 3d day of June, 1927, granting and conveying to the City and County of San Francisco 9.93 acres of land, more or less, which formerly comprised a portion of the military reservation of The Presidio of San Francisco on which the Palace of Fine Arts is located, said grant reserving to the United States the right to take exclusive

possession of said land and all improvements thereon, without the payment of any compensation therefor, in the event of war or any other great national emergency, in consideration of which grant the City and County of San Francisco granted to the War Department the right to construct, maintain and operate a spur track between Fort Mason and The Presidio of San Francisco; and

Whereas, under date of February 19, 1941, the Acting Secretary of War gave notice to the City and County of San Francisco that "in view of the present emergency the above referred to property is required for governmental purposes, and pursuant to the provisions of the above referred to act of Congress and deed of conveyance, you are notified that the United States of America through the Commanding General, San Francisco Port of Embarkation, Fort Mason, California, hereby takes exclusive possession of said land and all improvements thereon for the period of said emergency"; and

Whereas, under date of August 8, 1941, the Acting Secretary of War notified the City and County of San Francisco that only the Palace of Fine Arts Building was required for military purposes, and accordingly, subject to all the provisions and conditions of said Act of Congress and deed, the United States of America relinquished the land, exclusive of that occupied by the Palace of Fine Arts, and exclusive of said Palace, which was repossessed by virtue of said letter dated February 19, 1941; and

Whereas, the United States of America has continued and is continuing to hold, occupy and use said Palace of Fine Arts and the land occupied thereby; and

Whereas, since the Palace of Fine Arts was acquired by the City and County of San Francisco, said City and County has spent \$595,-622.50 on improvements and restoration with materials similar to the original construction; and

Whereas, it is estimated that reconstruction of said Palace of Fine Arts by the use of concrete or some other permanent form of construction would cost in the neighborhood of \$600,000; and

Whereas, the existence of the reservation of the right to re-entry in said grant, which in effect restricts the right to free, unobstructed and continuous possession of said property, is highly inimical to the best interests of the City and County of San Francisco as it precludes the execution of plans for the restoration, rehabilitation and use of said property, and militates against a sound municipal policy of expending public funds for such purposes as will result in continuing, uninterrupted benefit to the citizens of the City and County; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby respectfully petition and urge the Congress of the United States to take such action as will effectuate conveyance to the City and County by the United States of America, of said 9.93 acres of land mentioned hereinabove, free of any condition or reservation so that said City and County will have a fee simple absolute title thereto, said unconditional grant to be executed and take effect as soon as practicable subsequent to the time the United States of America relinquishes its possession of the premises; and, be it

Further Resolved, That copies of this resolution be forwarded immediately to Senators Downey and Knowland, and to Congressmen Welch and Haverener, with the earnest request of this Board of Supervisors that they exert their best efforts in obtaining favorable action to the end that the request herein contained be granted.

On motion by Supervisor Mancuso, seconded by Supervisor Meyer, the foregoing proposal was re-referred to Finance Committee.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Settlement of Maritime Strike.

Supervisor Mancuso presented:

Proposal No. 6230, Resolution No. . . . (Series of 1939), as follows:

Whereas, an agreement has been reached between the east and Gulf Coast ship operators and the Marine Engineers Beneficial Association, accepted by the U. S. Maritime Commission, which ended the maritime strike on those coasts and returned all men involved to work in the maritime industry; and

Whereas, the acceptance of an agreement, which contains comparable conditions already established in the industry, by the members of the Pacific American Shipowners Association and the Marine Engineers on the West Coast would immediately settle the strike between those parties and return the men involved to work; and

Whereas, a tentative agreement has been reached between the Waterfront Employers Association of the Pacific Coast and the International Longshoremen's and Warehousemen's Union, and the signing of this agreement would immediately return all the men to work and end the strike; now, therefore, be it

Resolved, That this Board of Supervisors go on record as requesting the Waterfront Employers Association and the Pacific American Shipowners Association to settle the maritime strike by accepting a **contract which would establish parity on a national basis in the industry, and which conditions have been already accepted by at least 75 per cent of the operators in the industry and has been put into effect on all Government owned ships by the Maritime Commission; and be it**

Further Resolved, That they immediately sign a tentative agreement reached by the International Longshoremen's and Warehousemen's Union and the Waterfront Employers Association in order to settle the strike; and be it

Further Resolved, That in the interest of public welfare and to keep the port of San Francisco operating, that the remaining issues be immediately referred to further negotiations, mediations or arbitrations, thereby settling the present maritime strike.

Discussion.

Supervisor Mancuso, after presenting the foregoing proposal, announced that because of changes in the strike situation, it had been requested that the Board again consider matter and attempt to obtain a settlement thereof.

Thereupon, Supervisor Mancuso moved that the Board rescind its action taken on November 4, 1946, whereby it had refused adoption to a previous proposal dealing with the same matter. Motion seconded by Supervisor Christopher.

Supervisor Colman objected to rescinding action, stating that there was no need for such action. His views were the same, and he did not care to vote to rescind action.

Supervisor Mancuso, in reply to inquiry by Supervisor Mead, as to notification of interested parties, stated that an attempt had been made to notify Mr. Flannigan and Mr. O'Connell and request them to be present at the Board meeting.

The Clerk stated, in reply to questioning by Supervisor MacPhee, that as far as he knew the shipowners had not been notified that the matter was again to be before the Board.

The Chair suggested that consideration be postponed until representatives of the American Federation of Labor could arrive for the hearing.

Supervisor MacPhee held that as far as he was concerned, the foregoing proposal was a new matter, and should be referred to committee.

Supervisor MacPhee, with the consent of his second, withdrew his motion temporarily.

Subsequently during the proceedings, Supervisor Mancuso renewed his motion that the Board rescind action previously taken whereby it had refused to adopt, at the meeting of November 4, 1946, a previous proposal dealing with the same matter. If the Board should rescind its previous action, he intended to offer amendments thereto. Motion again seconded by Supervisor Christopher.

Supervisor Colman again expressed his objections to rescinding the action previously taken.

Supervisor MacPhee again stated that the proposal presented was an entirely different one, and as such, it should be heard in committee. He was opposed to the motion to rescind action.

Supervisor Mead reported that representatives of the American Federation of Labor were unable to appear before the Board on such notice. However, their position was the same as on November 4, 1946.

Thereupon, the roll was called and the motion to rescind action failed by the following vote:

Ayes: Supervisors Christopher, Mancuso, McMurray, Meyer, John J. Sullivan—5.

Noes: Supervisors Colman, Gallagher, MacPhee, Mead, J. Joseph Sullivan—5.

Absent: Supervisor Lewis—1.

Subsequently during the proceedings, Supervisor Mancuso again presented the same proposal.

Mr. Balkey, who had urged adoption of a similiar proposal on November 4, 1946, again addressed the Board and urged adoption of the proposal just presented.

Supervisor Mancuso moved for suspension of the rules for the purpose of immediate consideration of the proposal.

Supervisor Mead declared that he could not be guided by statements of certain people on a matter of such importance. He wanted to know just what labor was giving away, if anything. He wanted a better understanding of the situation. He did not want to vote against straightening out the matter, but there were limits as to how far the Board should go in the matter.

Supervisor Christopher announced that he was in agreement with the views expressed by Supervisor Mead at the previous meeting. Now, there has been a substantial difference made in the resolution. He urged adoption thereof.

Supervisor Mead stated that he could not vote for the proposal, as presented. However, if the first "Resolve" were deleted, he would vote for it.

Supervisor Colman pointed out that the subject matter concerned three parties: the C.I.O., the A.F.L., and the operators. Only one group was present. The matter should go back to committee for a full and complete hearing.

Supervisor Mead announced that he would not oppose suspension of the rules. However, he was opposed to the proposal itself.

Thereupon, the roll was called and the motion to suspend the rules failed by the following vote:

Ayes: Supervisors Christopher, Mancuso, McMurray, Mead, Meyer, John J. Sullivan—6.

Noes: Supervisors Colman, Gallagher, MacPhee, J. Joseph Sullivan—4.

Absent: Supervisor Lewis—1.

Thereupon, the Chair *referred the proposal to the County, State and National Affairs Committee.*

In the absence of the chairman of the County, State and National Affairs Committee, Supervisor Lewis, a meeting of the committee was set for Monday, November 18, 1946, at 1:00 p. m.

Request for Opinion From City Attorney.

Supervisor Mancuso, seconded by Supervisor Colman, moved that an opinion be requested from the City Attorney as to the right of the Board to adopt a resolution on the day of its presentation without the unanimous consent of the Board.

No objection, and so ordered.

Whereas, the United States Navy Department has offered to the City and County of San Francisco the battle flag of the cruiser U.S.S. San Francisco as a memorial to the gallantry of that ship and her crew in the battle of the Solomon Islands; and

Whereas, San Francisco will be officially represented in November, 1946, with a display of two registered Holstein bulls by the students of Log Cabin Ranch; now, therefore, be it

Endorsing Campaign to Raise Funds for the Archbishop Hanna Center for Boys.

Supervisor MacPhee presented:

Proposal No. 6229, Resolution No. 6009 (Series of 1939), as follows:

Whereas, the late Most Reverend Edward J. Hanna, who for twenty years was the Roman Catholic Archbishop of San Francisco, left behind him the memory and heritage of a notable career devoted not only to the spiritual welfare of this City but also to the ardent and able furtherance of the interests of San Francisco's youth; and

Whereas, the work to which Archbishop Hanna made such valuable contribution, and for which he will ever be enshrined in the hearts of San Franciscans regardless of race or creed, has been and is continuing to be carried on faithfully and energetically by civic groups whose humanitarian objectives merit the enthusiastic support of the entire community; and

Whereas, the need for facilities which will adequately provide care for underprivileged children is constantly with us and is heightened at the present time by a situation under which more homeless, neglected and unwanted children reside in California than at any time in the past; and

Whereas, the Campaign Committee of the Archbishop Hanna Center for Boys is currently broadcasting an appeal to the generosity of San Franciscans for contributions to its building fund, for the purpose of carrying on its charitable, selfless and civic-minded program looking to the assistance of youngsters who through no fault of their own find themselves without the advantages enjoyed by the average child; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, recognizing the importance and urgency of the appeal being made by the Campaign Committee of the Archbishop Hanna Center for Boys for contributions to its building fund, does hereby wholeheartedly and unreservedly endorse the campaign being prosecuted in furtherance thereof, and does hereby earnestly urge and solicit all citizens of San Francisco to give their generous support thereto.

Judiciary Committee to Make Recommendations Concerning New Charter.

Supervisors Christopher and McMurray presented:

Proposal No. 6226, Resolution No. . . . (Series of 1939), as follows:

Whereas, although a new Charter for the City and County of San Francisco was adopted in 1931, which Charter was presumed and intended to reconcile conflicts, clarify ambiguities and provide for the operation of governmental functions on a progressive and efficient basis; and

Whereas, since the ratification of that Charter in 1931, there have been submitted to the electorate 135 proposed amendments thereto, 90 of which have been ratified by the electorate; and

Whereas, despite the numerous amendments made thereto the provisions of the Charter are in many respects ambiguous and confusing and are found unavailable to cope with changed times, philosophies and modern methods of government; and

Whereas, there appears a necessity for a new Charter, concise in its terms, free from conflicts and ambiguities and modern in the philosophy of government which it prescribes; and

Whereas, Section 8 of the Constitution provides alternate methods for framing a proposed Charter—either by the election of freeholders, or by the legislative body or its authorized agent; now, therefore, be it

Resolved, That the Board of Supervisors hereby expresses as its considered opinion that there is necessity for a new Charter and

does hereby direct its Judiciary Committee to consider the matter and, within thirty days, to report to this Board its recommendation as to which method should be pursued to effect its preparation for submission to the electorate.

Referred to Judiciary Committee.

Absent: Supervisors Gallagher, Lewis.

Discussion.

Supervisor Mead informed the Board that he was asking for reconsideration because of the fact that there were a number of enterprises on Nineteenth Avenue, some non-conforming use and others by reason of the Board's sanction; that the applicant in question desired to construct a modern and beautiful office building to cost in the neighborhood of one hundred thousand dollars and to provide off-street parking as well, and which certainly would not create a traffic hazard on Nineteenth Avenue. Furthermore, the applicant, the Atlas Realty Company, represented by Carl Gellert, was a responsible firm and worthy of every possible consideration by the Board.

Point of Order.

Supervisor J. Joseph Sullivan rose to a point of order, informing the Board that he believed the Board had no jurisdiction over the matter due to lapse of time as specified in Section 117 of the Charter. Whereupon the Chair ruled that his point of order was not well taken.

Discussion.

Supervisor Christopher stated that the City Planning Commission had approved the construction of a garage in the area under consideration and certainly the building of a modern office building should merit the serious attention of the Board.

Supervisor Colman requested permission of the Chair to interrogate Mr. Dion Holm of the City Attorney's office with respect to the legality of the pending proceedings, to which the Chair assented.

Point of Order.

Supervisor McMurray rose to a point of order, inquiring if it was necessary to ask the City Attorney's office for an opinion on a matter of reconsideration pending before the Board. Whereupon the Chair ruled that the point of order was not well taken.

Discussion.

Supervisor Colman asked Mr. Dion Holm of the City Attorney's office if the Board still had jurisdiction over a matter wherein the Board had sustained the ruling of the City Planning Commission in denying application to rezone property located on the easterly line of Nineteenth Avenue distant thereon 82 feet southerly from the southerly line of Rivera Street from Second Residential District to Commercial District, and further, in view of the fact that the time limit specified in Section 117 of the Charter had elapsed.

Point of Order.

Supervisor McMurray rose to a point of order, stating that he believed that the City Attorney's opinion should not be forthcoming until after the matter of reconsideration had been settled.

Whereupon the Chair ruled the point of order not well taken.

City Attorney's Opinion.

Mr. Dion Holm informed the Board that it was his understanding that the appeal from the decision of the City Planning Commission had been perfected within the 30-day period and then a date was set for a hearing. Hearing was had on the matter and the Board voted five to four, thus upholding the City Planning Commission. Mr. Holm continued with the statement that Section 117 of the Charter provided that the Board's action on the appeal must be completed within the time limits prescribed and proceeded to read Section 117 of the Charter wherein the Board's action must be completed within ten days of the date set for hearing the appeal, after which the Board had no further jurisdiction in the matter.

Supervisor Mead stated that during his tenure in office as a Supervisor, he had seen instances during budget deliberations where, owing to the insufficiency of time within which to complete the budget, the clock was automatically stopped, thus permitting the budget studies to be completed, and saw no reason why the same principle could not be applied in this rezoning matter; that regardless of the opinion as expressed by Mr. Holm, he was going to ask the Board to adopt the motion to reconsider and then ask that the Board override the City Planning Commission, so that the Atlas Realty Company could take the matter into court for adjudication.

Supervisor Colman explained that he was voting against reconsideration for the reason that the applicant had been given every

possible consideration; that he would be the last person to take any right away from the applicant; that the applicant had been granted a week's postponement; after which it was pointed out that since two of the members of the Board were absent, a further extension of three days was allowed and then the hearing was had, at which time the City Planning Commission was sustained by a vote of five to four, and whether or not the two absentee members were present and voted against the Commission the result would have been the same because there were four votes sustaining the City Planning Commission.

Roll Call on Reconsideration.

Whereupon the roll was called on Supervisor Mead's motion for reconsideration and it *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, John J. Sullivan—8.

Noes: Supervisors Colman, J. Joseph Sullivan—2.

Absent: Supervisor Meyer—1.

Discussion on Proposal No. 6219.

Supervisor Mead reiterated the fact that the Atlas Realty Company intended to construct a modern and beautiful office building on the site proposed to be rezoned and to provide for off-street parking; that regardless of the statements made by Col. Skeggs, Engineer for the State of California; Mr. H. C. Vensano, Director of the Department of Public Works, and by the City Planning Commission, such a rezoning would not interfere with the flow of traffic. Mr. Mead continued, by stating that the Hallawell Seed Company occupied a prominent spot on Nineteenth Avenue and that traffic was certainly not being interrupted there. He claimed that the members of the Board were fearful of a bugaboo that didn't exist, and concluded by saying that the organization in question which intended to spend in the neighborhood of one hundred thousand dollars should be encouraged to do so and that the members of the Board should vote to override the City Planning Commission.

Privilege of the Floor.

Supervisor Mancuso asked the privilege of the floor for Mr. Carl Gellert, representing the Atlas Realty Company, the applicant in the zoning matter under discussion. There was no objection.

Mr. Gellert pointed out that the heavy traffic congestion occurred in the morning and in the evening and that his office would be open 9 to 5 with Saturday and Sunday closing; that if his firm constructed residences on the site in question there would be from 22 to 44 automobiles and if apartment houses were constructed there would be at least one hundred machines, considerably more than those that would be involved if the office building were permitted to be constructed.

Mr. Elwood Gill, zoning examiner for the City Planning Commission, stated that the Commission, in denying this application, was attempting to curb grouping in commercial areas.

Supervisor Mancuso stated that because the City Attorney had given an opinion, this was no reason why the Board should not reconsider the matter before it, and the matter should have a court test. The Board should vote to override the City Planning Commission and have the courts decide the matter. Mr. Mancuso continued by stating that he felt the Courts would uphold the Board's action in overriding the City Planning Commission because of the fact there were but nine members present when the matter was first heard.

Supervisor MacPhee stated that the City Planning Commission exceeded its authority when it granted the permit for the construc-

tion of the garage near the site under discussion and that the Commission should grant the application now being considered by the Board.

Mr. Kent, Acting Director of Planning, while agreeing with the suggestion made that the zoning ordinance should be amended, stated that if the application in question is granted, a dangerous precedent would be established, calling attention to remarks made at a previous meeting of the Board on this matter by Mr. Vensano, Director of the Department of Public Works, and Col. Skeggs, Engineer for the State of California, relative to the traffic hazard on Nineteenth Avenue.

Supervisor Mead, in closing, stated that while he agreed with Supervisor Colman's statement that the Board must look out for one of San Francisco's needs, the necessity of more homes, the Board must also consider the needs of the employers who employ people; that the City Attorney can render an opinion in any manner he so desires and that while he does not question the sincerity of the City Attorney, still the pending matter was of such importance that the City Planning Commission should be overruled and the matter given a court test and in that way determine once and for all just exactly what the limitations of the Board of Supervisors were in matters of this kind as well as the limitations of the City Planning Commission.

Roll Call on Proposal 6219.

Whereupon the roll was called and Proposal No. 6219 was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, John J. Sullivan—8.

Noes: Supervisors Colman, J. Joseph Sullivan—2.

SPECIAL ORDER—3:00 P. M.

Hearing of appeal by Fink and Keystone, from action of City Planning Commission in denying application to rezone property on Twin Peaks from First Residential to Commercial District.

November 12, 1946—Consideration continued to November 18, 1946.

The Clerk read an opinion from the City Attorney's office in which it was stated that since the appellants did not obtain the necessary 20 per cent of the signatures of the property owners in the affected area, there was no appeal before the Board; and further, with reference to Mr. Fink's second method "a straight-out request to the Board of Supervisors to rezone the property," the City Attorney pointed out that neither the Charter nor any ordinance provided a procedure whereby a property owner may apply for a zoning or rezoning of property other than by application to the City Planning Commission as outlined in the first paragraph of Section 117 of the Charter.

Mr. Fink, one of the appellants, informed the Board that he was not a property owner but a lessee of City-owned property and that in his opinion he does have the right of appeal to the Board.

Tabled.

Supervisor MacPhee moved, seconded by Supervisor J. Joseph Sullivan, that the matter be tabled.

Whereupon the roll was called and the appeal of Fink and Keystone from the decision of the City Planning Commission was *ordered tabled* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, J. Joseph Sullivan, John J. Sullivan—8.

Absent: Supervisors McMurray, Mead, Meyer—3.

Supervisor MacPhee presented:

Requesting the War Assets Administration to Reclassify 39.82 Acres of Surplus Industrial Federal Owned Land in San Mateo County, California, to Airport Usage, and That Title Thereto Be Transferred to the City and County of San Francisco for Expansion of the San Francisco Airport.

Proposal No. 6238, Resolution No. 6017 (Series of 1939), as follows:

Resolved, In accordance with the recommendation of the Public Utilities Commission and the Director of Property, that application is hereby made, to the War Assets Administration, requesting and urging that the following described property, situated in the County of San Mateo, State of California, and adjacent to the northerly boundary of the San Francisco Airport, which property is owned by the United States of America, and presently declared surplus (Industrial) by the War Assets Administration, be reclassified surplus (Airport); and that title thereto be transferred to the City and County of San Francisco, a municipal corporation, to enable the proper expansion and development program of the San Francisco Airport now under construction:

Portion of Tide Land Lots 27, 29, 30 and 31, and of Belle Air Island, in Section 27, Township 3 South, Range 5 West, M. D. B. & M., in San Mateo County, California, more particularly described as, BEGINNING at a point which bears north 70 feet and east 1815.96 feet from the corner common to Sections 27, 28, 33 and 34 in said Township, said point of beginning being the most westerly corner of Parcel 4 described in that certain Judgment had in the District Court of the United States in and for the Northern District of California, Southern Division, recorded December 8, 1942, in Book 1043 of Official Records of San Mateo County at page 454; thence along the boundaries of said Parcel 4, south 25° 27' 30" east, parallel with and distant 14.5 feet northeasterly from the northeasterly line of the original Bayshore Highway, 22.15 feet; east 864.83 feet; and north 20 feet to a point in the southerly line of Parcel 1 described in said Judgment; thence along the southerly line of Parcels 1 and 5 described in said Judgment, east 1708.24 feet; thence along the southeasterly line of said Parcel 5, north 4° 30' east, 367.33 feet and north 20° 15' east to a point in the north line of said Tide Land Lot 31, which line is 1320 feet north of the south line of said Section 27; thence west, along the north line of said Tide Land Lots 31 and 30, crossing Belle Air Island, and along the north line of said Tide Land Lot 27, to a point in the southwesterly line of Parcel 2 described in said Judgment; thence south 25° 27' 30" east, along said southwesterly line, to the point of beginning. Containing an area of 39.82 acres.

In connection with this application, the Board of Supervisors hereby requests and declares:

1. That the United States of America donate said land to the City and County of San Francisco, to be used for Municipal airport purposes.

2. That said City and County is extremely desirous, and is in urgent need of said real property for an essential and vital public purpose, to-wit: For Municipal airport purposes. Said property is adjacent to the northerly boundary of the San Francisco Airport and is of vital necessity for the proper expansion and development program of the San Francisco Airport now under course of construction. Said property, if acquired by said municipality and when utilized for said purpose, will greatly facilitate the operation of the San Francisco Airport in that it is at a convenient and efficient location and the area requested will enlarge the airport so that aircraft of the largest known construction may take off and land at said airport.

3. That the existing San Francisco Airport was leased by the City and County of San Francisco to the United States of America during World War II, at a rental of \$1.00 per year, and was of vital strategic importance in the prosecution of the war. That in the event of future national emergencies, a larger San Francisco Airport will be of greater military value.

Approved by the Airport Manager.

Recommended by the Manager of Utilities.

Recommended by the Assistant Director of Property.

Approved as to form by the City Attorney.

Supervisor MacPhee asked the privilege of the floor for Mr. B. M. Doolin, Superintendent of the San Francisco Airport. There was no objection to this request.

Mr. Doolin stated that the public Utilities Commission was desirous of acquiring title to a piece of land 39.82 acres in size, located north of the present airport boundary and which was formerly part of the Bel-Air shipyards during the war; that it was intended to ask the War Assets Administration to reclassify this parcel of land so that title may be transferred to the City and County of San Francisco. Such

an act would mean a saving to the City of approximately \$250,000 if said land had to be purchased.

Mr. Doolin continued, stating that there was a provision in the federal law whereby such lands could be transferred without cost if it was to be used for airport purposes and he expressed the conviction that there would be no trouble in having the title transferred without cost to the City.

Whereupon, the roll was called and Proposal 6238 was *adopted* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Meyer—1.

ISSUE: \$8,500,000, consisting of 8,500 bonds of the denomination of \$1,000 each numbered C1 to C8500 inclusive, all dated December 15, 1946, and designated "Series C". Said Airport Bonds—1945, Series C, are part of an issue of \$20,000,000 aggregate principal amount authorized at an election held in said City and County of San Francisco on November 6, 1945, whereof \$5,000,000 principal amount, designated Series A, and \$2,000,000 principal amount, designated Series B, are now issued and outstanding.

The remaining bonds of said authorized issue may be sold hereafter when and as determined by the Board of Supervisors.

INTEREST RATE: Maximum six (6) per cent per annum, payable semi-annually, June 15th and December 15th, in each year. Bidders must specify the rate or rates of interest which the issue of bonds hereby offered for sale shall bear. Bidders will be permitted to bid different rates of interest and to split rates irrespective of the maturities of said bonds. The interest rate stated in the bid must be in a multiple of one-quarter of one per cent per annum, payable semi-annually.

MATURITIES: Series C bonds mature serially in consecutive numerical order, from lower to higher, on December 15 in each of the years 1948 to 1956, both inclusive, without option of prior payment, as follows:

\$ 250,000 in each of the years 1948 and 1949
500,000 in each of the years 1950-1951 and 1952
1,000,000 in the year 1953

2,000,000 in the year 1956

PAYMENT: Both principal and interest of said bonds are payable in lawful money of the United States of America, at the office of the Treasurer of the City and County of San Francisco or, at holder's option, at the Fiscal Agency of said City and County of San Francisco, in the City and State of New York.

PURPOSE OF ISSUE: Authorized by more than two-thirds vote of the electors voting at an election on November 6, 1945, for the acquisition, construction and completion of the San Francisco Airport in San Mateo County.

SECURITY: Said bonds are general obligations of the City and County of San Francisco, and the Board of Supervisors thereof has power and is obligated to levy ad valorem taxes for the payment of said bonds and the interest thereon upon all property within said City and County of San Francisco subject to taxation by said City and County (except certain intangible personal property, which is taxable at limited rates) without limitation of rate or amount.

TAX EXEMPT STATUS: In the event that prior to the delivery of the bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any Federal Income Tax Laws, either by the terms of such laws or by ruling of a Federal Income Tax authority or official which is followed by the Bureau of Internal Revenue, or by decision of any federal court, the successful bidder may, at his option, prior to the tender of said bonds by the City and County, be relieved of his obligation under the contract to purchase the bonds and in such case the deposit accompanying his bid will be returned.

LEGAL OPINION: The legal opinion of Messrs. Orrick, Dahlouist, Neff, Brown & Herrington, approving the validity of said bonds will be furnished to the successful bidder without charge.

Bids must be made on official bid forms supplied by the Clerk of the Board of Supervisors. All bids must be unconditional; for all, but not less than all, of the bonds; and for not less than their par value and accrued interest thereon. Each bid, together with bidder's check, must be inclosed in a sealed envelope addressed to the Clerk of the Board of Supervisors of the City and County of San Francisco, and endorsed, "Proposal for City and County of San Francisco Airport Bonds—1945, Series C." With each bid must be submitted a certified check or cashier's check for \$10,000, drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the order of the Treasurer of the City and County of San Francisco, to secure the City and County from any loss resulting from the failure of the bidder to comply with the terms of his bid. In addition bidders are requested (but not required) to supply an estimate of the total net interest cost to the City and County on the basis of their respective bids, which shall be considered as informative only and not binding on either the bidder or the City and County. Checks of the unsuccessful bidders will be returned upon the award of the bonds. No interest will be paid upon the deposit made by any successful bidder.

The bonds will be awarded to the highest and best bidder, considering the interest rate or rates specified and the premium offered, if any. The highest bid will be determined by deducting the amount of the premium bid (if any) from the total amount of interest which the City and County would be required to pay from January 15, 1947, to the respective maturity dates of such bonds at the coupon rate or rates specified in the bid, and the award will be made on the basis of the lowest net interest cost to the City and County. The lowest net interest cost shall be computed between the dates aforesaid according to standard bond interest tables. The purchaser must pay accrued interest from the date of the bonds to the date of delivery. The City and County of San Francisco reserves the right, in its discretion, to reject any and all bids and to waive any irregularity or informality in any bid.

The Board of Supervisors will take action awarding the bonds or rejecting all bids not later than 4:00 P. M. (P. S. T.) on December 16, 1946. Delivery of said bonds will be made to the successful

bidder at the office of the Treasurer of said City and County, in San Francisco, California, as soon as practicable. The successful bidder shall have the right, at his option, to cancel the contract of purchase if the City and County shall fail to tender the bonds for delivery on or before February 15, 1947, and in such event the successful bidder shall be entitled to the return of the deposit accompanying his bid. The cost of printing the bonds will be borne by the City and County of San Francisco.

Information relative to the financial condition of the City and County of San Francisco will be furnished to any bidder upon request.

There is no controversy or litigation pending or threatened concerning the validity of the above issue, the corporate existence of the City and County, or the title of the officers to their respective offices.

Dated: November 20, 1946.

Land in Assessor's Block 19 to the City and County of San Francisco
for Municipal Railway Purposes.**

Proposal No. 6209, Resolution No. . . . (Series of 1939), as follows:

Resolved, In accordance with the recommendation of the Public Utilities Commission and the Director of Property, that application is hereby made to the War Assets Administration, Real Property Division, San Francisco, California, requesting that the following described Federal owned real property situated in the City and County of San Francisco, State of California, be held for disposal to the City and County of San Francisco, a municipal corporation, as a priority holder:

All of Block 19 as per the current Block Books of the City and County of San Francisco and which is designated on the plot plan of the War Assets Administration's schedule as North Beach Block 11, bounded on the north by Beach Street, on the east by Stockton Street, on the south by North Point Street and on the west by Powell Street; size 412' 6" x 275', containing 2.6 acres.

In connection with this application, the Board of Supervisors hereby declares and states:

1. That the applicant is willing to pay the sum of \$113,500 for said land.

2. That said City and County is extremely desirous, and is in urgent need of said real property for an essential and vital public purpose, to wit: for Municipal Railway purposes. Said property is of vital necessity to said Municipal Railway system for use as a storage area, repair shop, garage and dispatch location for buses operated by said Municipal Railway

system. Said property, if used by said municipality, and when utilized for said purposes, will greatly facilitate the operation of said buses in that it is at a convenient and efficient location, is not in a residential area and therefore its use for such purposes will not be objected to by surrounding property owners as would be the case were said facilities to be placed at a residential neighborhood. Said property is at present unimproved and consequently affords adequate and economical opportunity for development for said purposes.

3. That the applicant will require approximately 120 days from date hereof to obtain and authorize the required funds.

Recommended by the Director of Property.

Section 12. Any ordinance inconsistent with any of the terms and provisions of this ordinance is hereby repealed, provided, however, that such repeal shall be only to the extent of such inconsistency, and in all other respects this ordinance shall be cumulative of other ordinances regulating and governing the subject matter covered by this ordinance.

Commending John C. Neubauer, Executive Director of the San Francisco Boys' Club for the Past Thirty-one Years, for His Achievement in Building That Organization.

Supervisor Christopher presented:

Proposal No. 6240, Resolution No. 6019 (Series of 1939), as follows:

Whereas, John C. Neubauer, executive director of the San Francisco Boys' Club for the past thirty-one years, has signified his intention of resigning from said post effective January 31, 1947; and

Whereas, Mr. Neubauer's singular achievement in building the San Francisco Boys' Club, commencing with his association with it in 1915, from a group comprising fifty-eight members with meager assets of \$600, to a wide-flung and nationally recognized organization serving 2500 boys each year at its two local branches and at its Camp Marwedel in Mendocino County, is one of not only immeas-

urable value to the community, but one which represents the highest personal tribute to Mr. Neubauer's genius in the field of youth welfare; and

Whereas, in addition to faithfully and ably discharging his various demanding duties locally, involving not only direction of the Boys' Club but service as war emergency chairman for all Pacific Coast camps, chairman of San Francisco's disaster relief program, and general chairman of the Community Chest drive, Mr. Neubauer has found time in which to gain national recognition through his activities as national campaign chairman and member of the board of Boys' Clubs of America, and finance chairman of the National Conference of Social Work; and

Whereas, the retirement of Mr. Neubauer will result in a distinct detriment to the civic life of San Francisco, representing as it does the loss of one whose energies, personality and farsighted firm purpose have furnished a burning spark to the character-building work of the City's youth welfare program; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, in grateful recognition of his outstanding career of public service, takes this opportunity on the occasion of his well-merited retirement to express to John C. Neubauer its sincere commendation and heartiest congratulations; and be it

Further Resolved, That the Clerk of the Board be and he is hereby directed to have prepared and presented to Mr. John C. Neubauer a suitably engrossed copy of this resolution as a token of the high esteem and regard in which he is held by all the citizens of San Francisco, with the Board's expressed wish that he may enjoy many years of happiness and success in the pursuits which he may follow.

Adopted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, J. Joseph Sullivan—7.

Absent: Supervisors McMurray, Mead, Meyer, John J. Sullivan—4.

Doctors' Liability Insurance.

Supervisor Christopher called the Board's attention to the fact that the doctors employed by the City were paying their own liability insurance premiums, a situation which should not obtain. Supervisor Christopher told the Board members that he had the verbal assurance of Mr. T. A. Brooks, Chief Administrative Officer, that a remedy was forthcoming. However, he suggested that legislation be enacted in order to insure the proper relief for these doctors.

No Board action taken.

Supervisor Christopher presented Bill No. 4426, providing revised provisions for establishment and maintenance of public laundries and washhouses.

Referred to Public Buildings, Lands and City Planning Committee.

Statement of Supervisor Lewis Regarding Trip East and on Portola Pageant in San Francisco.

Supervisor Lewis thanked the members of the Board for their kindness in permitting him to make the trip East with Supervisor Gallagher in an endeavor to prevail upon the UNO to establish their permanent headquarters in San Francisco.

Supervisor Lewis called attention to the fact that the Board had adopted a resolution some time in August and which was duly approved by the Mayor, requesting his Honor to appoint a Citizens' Committee for the purpose of putting on the Portola Pageant in San Francisco, but that nothing had been done in the matter. Mr. Lewis

expressed the fear that if a committee is not appointed soon San Francisco would be left out of the Centennial Program.

Mayor Lapham, in replying to the statement made by Supervisor Lewis, stated that such a Portola Pageant should properly have the support of those business men who would benefit by such a pageant. The Mayor said that before he left for the East he had a talk with one of the leading men in the retail industry, with a view of obtaining the sentiment of the downtown business area, which area would primarily benefit from such a pageant. The Mayor concluded by saying that he would try to reach the interested parties again.

Statement by the Mayor on Trip East.

Mayor Lapham rendered a detailed report on his trip East, stating that when he arrived in New York he was not at all certain that the site matter would be brought up, but thanks to the United States delegation, Flushing Meadows, New York, and the San Francisco Bay area were included for consideration as possible sites. Subsequent action included other areas in the United States.

Mayor Lapham continued, stating that a committee of fifteen delegates were scheduled to arrive in the Bay area next Sunday afternoon or evening, bringing with them a technical staff of engineers, architects and planners, together with interpreters and secretariat. The Mayor expressed appreciation of the fine work done by Belford Brown of the Haas Committee, and that he, the Mayor, was now trying to determine just how that committee intended to proceed.

The Mayor concluded by saying that the visiting committee will be shown the Crystal Lakes area, extended all courtesies possible and given whatever assistance that might be necessary to help them arrive at a solution of the problem, that of choosing a suitable site for the UNO.

Postponement of Consideration of Request of James Wilson of Street Railway Union, Local 1380, That Board Hold Hearing With Respect to Certain Existing Inequalities.

Supervisor MacPhee stated that it was the desire of Carmen's Local 1380, A. F. L., that the Finance Committee meeting on adjustments necessitated by passage of Charter Amendment No. 1 be held on December 4th instead of on November 27th.

The Clerk was instructed to write to the interested parties and inform them that Supervisor Mancuso had to attend a meeting of the State Chamber of Commerce on December 4th and to invite them to get in touch with Supervisor Mancuso as to the date on which he will hold the meeting.

No objection and so ordered.

Expressing Best Wishes to Samuel H. Holton for His Speedy Recovery.

Supervisor MacPhee informed the Board that Samuel H. Holton, an attache of the Clerk's office for many years, was ill and requested that the Board extend its sincere wishes to him for his speedy recovery.

Street Car Tickets.

Supervisor MacPhee informed the Board that the Judiciary Committee at its meeting on Wednesday would consider the advisability of requesting the Public Utilities Commission to sell tickets to school children at reduced rates.

New Building Code.

Supervisor MacPhee told the Board members that the new Building Code would probably be ready for the Board's consideration in about three weeks; that the committee worked diligently on this most im-

portant piece of legislation and that there remained but two or three issues yet to be settled.

Master Plan for the City and County of San Francisco.

Supervisor MacPhee asked that the Master Plan be brought before the Board two weeks hence for consideration, and placed on the official Board calendar.

No objection and so ordered.

Progress Report on Urban Redevelopment.

Supervisor MacPhee requested that a progress report on the Urban Redevelopment Plan be forthcoming.

Supervisor Colman, Chairman of the Public Buildings, Lands and City Planning Committee, rendered a progress report, stating that the committee was awaiting word from the City Planning Commission in reply to a query concerning which portion of the City, not to exceed twenty square blocks, it deemed to be the number one spot for urban redevelopment.

Matter referred to County, State and National Affairs Committee.

SPECIAL ORDER—2:30 P. M.

The following recommendation of Finance Committee was taken up:

Present: Supervisors Mancuso, Mead.

Requesting That War Assets Administration Dispose of Certain Land in Assessor's Block 19 to the City and County of San Francisco for Municipal Railway Purposes.

Proposal No. 6209, Resolution No. 6022 (Series of 1939), as follows:

Resolved, In accordance with the recommendation of the Public Utilities Commission and the Director of Property, that application is hereby made to the War Assets Administration, Real Property Division, San Francisco, California, requesting that the following described Federal owned real property situated in the City and County of San Francisco, State of California, be held for disposal to the City and County of San Francisco, a municipal corporation, as a priority holder:

All of Block 19 as per the current Block Books of the City and County of San Francisco and which is designated on the plot plan of the War Assets Administration's schedule as North Beach Block 11, bounded on the north by Beach Street, on the east by Stockton Street, on the south by North Point Street and on the west by Powell Street; size 412' 6" x 275', containing 2.6 acres.

In connection with this application, the Board of Supervisors hereby declares and states:

1. That the applicant is willing to pay the sum of \$113,500 for said land.

2. That said City and County is extremely desirous, and is in urgent need of said real property for an essential and vital public purpose, to wit: for Municipal Railway purposes. Said property is of vital necessity to said Municipal Railway system for use as a storage area, repair shop, garage and dispatch location for buses operated by said Municipal Railway system. Said property, if used by said municipality, and when utilized for said purposes, will greatly facilitate the operation of said buses in that it is at a convenient and efficient location, is not in a residential area and therefore its use for such purposes will not be objected to by surrounding property owners as would be the case were said facilities to be placed in a residential neighborhood. Said property is at present unimproved and consequently affords adequate

and economical opportunity for development for said purposes.

3. That the applicant will require approximately 120 days from date hereof to obtain and authorize the required funds.

Recommended by the Director of Property.

Recommended by the Manager of Utilities.

Approved as to form by the City Attorney.

November 12, 1946—Consideration continued until Monday, November 18, 1946.

November 18, 1946—Consideration continued until Monday, November 25, 1946.

Privilege of the Floor.

The Chair extended the privilege of the floor to Mr. G. L. Fox, manager of the industrial department of the San Francisco Chamber of Commerce, who informed the members of the Board that the Chamber was greatly concerned with respect to the area's possible use for industrial purposes; that the Federal Government has declared the area as surplus property and referred it to the War Assets Administration for disposal; that there was a definite trend to absorb potential industrial sites for municipal governmental purposes; that the City had some time ago acquired area near the present site in question for a sewage disposal plant and had acquired another area of 12¼ acres for another sewage disposal plant.

Discussion.

Supervisor Lewis stated that the people on Fisherman's Wharf were greatly desirous of having the tracks removed and that the existing condition was injurious to their business; that the County, State and National Affairs Committee had conducted a hearing some months ago at which property owners and other interested parties on Fisherman's Wharf appeared and at which meeting a proposal was considered requesting the City Attorney, the Chief Administrative Officer and the Director of Public Works to take such action as would render necessary and proper accessibility to Fisherman's Wharf, and that the matter, according to his understanding, was in the hands of the War Surplus Administration.

Supervisor Lewis continued, stating that it was his understanding that the Chamber of Commerce was opposed to the idea of having the tracks removed and wanted to know the Chamber's attitude on this phase of the matter.

Mr. Fox, in reply to Mr. Lewis' query, stated that there were 12¼ acres now occupied by tracks and that the Federal Government was going to remove the tracks located on Beach and North Point Streets, however, that there were certain tracks on North Point and Jefferson Streets which were being operated and will continue to be operated.

Mr. Fox continued by stating that at the present time Powell, Taylor, Jones and Mason are closed and that it is the hope of the Chamber that plans may be worked out to reopen at least Taylor Street as a means of access across the area and thus serve Fisherman's Wharf.

Supervisor MacPhee informed the Board that the Public Utilities Commission had a tough job trying to find lands for its accommodations and that the Board would make a mistake by not adopting the resolution now before the Board.

Mr. James H. Turner, Manager of Utilities, informed the Board that the Commission needed land and of necessity had to go in the industrial areas so as not to disturb a populated neighborhood; that

the Public Utilities Commission had encountered all sorts of difficulties with residents and that the Commission was now in controversy with the residents and property owners on Ocean Avenue and Phelan Avenue with regard to the construction of a bus garage and did not know whether the City would be successful.

Mr. Fox asked the Board that in the future, when matters affecting industrial sites are considered, the Chamber be given the opportunity of looking into the matter.

Whereupon, the roll was called and Proposal No. 6209 was *adopted* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray, Mead, Meyers, J. Joseph Sullivan, John J. Sullivan—9.

Absent: Supervisors Colman, MacPhee—2.

The following recommendation of Public Buildings, Lands and City Planning Committee, heretofore Passed for Second Reading, was taken up:

Regulating Subdivision of Land and Use of Lots for Dwelling Purposes.

Bill No. 4375, Ordinance No. 4162 (Series of 1939), as follows:

An ordinance amending Article 4, Chapter II, Part II, of the San Francisco Municipal Code, by adding Section 99 thereto, relating to the subdivision of land and the use of lots for dwelling purposes; by amending Section 100, of Article 4, Chapter II, Part II, relating to building permits and by amending Sections 101 and 102 of Article 4, Chapter II, Part II, to include reference to Section 99 as added by this ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Article 4, Chapter II, Part II, of the San Francisco Municipal Code is hereby amended by adding a new section to be known as Section 99, reading as follows:

SEC. 99. (a) New Subdivisions—Lot Areas. In all areas hereafter subdivided, where a subdivision map is to be filed for approval, all lot lines shall be shown on said map, and such lots shall conform in dimension to the neighborhood pattern as determined by the City Planning Commission. Where a neighborhood pattern does not exist, lots shall have a width of not less than 33 feet. No subdivision shall be approved which does not comply with the provisions of this section.

(b) New Subdivisions—Lot Coverage. No dwelling shall be constructed upon a lot in a new subdivision for which a map has been approved in accordance with the provisions of this section, which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 25 feet in depth. The provision of open spaces between dwellings on adjacent lots is optional, but where such side yards are provided, the distance between dwellings shall be not less than 6 feet.

(c) Resubdivision. Except as provided in Subdivisions (d) and (e) hereof, in any area previously subdivided no lot or land unit shall be established and indicated upon a map or maps filed for record which has an area less than 2500 square feet, or a width less than 25 feet, and no building shall be constructed upon any such lot which will cover more than 65 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(d) Corner Lots—First Residential Districts. In any area previously subdivided in a First Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, can be resubdivided into lots having a minimum width of 25 feet and a minimum depth of 70 feet; provided, however, that where the City Planning Commission finds that existing conditions do not permit the establishment of the minimum depth of 70 feet such areas can be resubdivided into lots having a street frontage of not less than 25 feet and a depth not less than 57.5 feet. No building shall be constructed upon any such lot which will cover more than 75 per cent of the lot area, or which provides for an open rear yard less than 15 feet in depth.

(e) Corner Lots—Second Residential Districts. In any area previously subdivided in a Second Residential District, the area lying within 100 feet of the corner of a block, measured along each street from such corner, may be resubdivided into lots having a minimum

width of 25 feet and a minimum depth of 57.6 feet. No building shall be constructed upon any such lot which provides an open rear yard of a depth less than set forth in the table given in Section 15682 of Article II, Chapter 7 of the California State Housing Act.

(f) **Lots Now of Record Excepted.** Wherever a map showing subdivided lots is of record in the office of the Recorder or the office of the Assessor at the time of the enactment of this section, any lot as shown having dimensions less than those required by this section may, nevertheless, be used as the site for a dwelling, provided that the requirements as to coverage and rear yards of Subdivision (d) shall apply thereto.

(g) **Variances.** The City Planning Commission may, upon application, grant variances from any of the provisions of this section, after public notice and hearings, if it is of the opinion that special circumstances exist in the particular case, and that unnecessary hardship would result from the strict interpretation and enforcement of such provision. The procedure governing such applications, and the granting or denial of such variances, shall be the same as that prescribed by ordinance for zoning changes.

Section 2. Section 100 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, is hereby amended to read as follows:

SEC. 100. Building Permits. Building permits for the erection or alteration of any building or structure, shall be issued by the Central Permit Bureau only after approval by the Bureau of Building Inspection, the Division of Fire Prevention and Investigation and the City Planning Commission and shall not be issued contrary to the provisions of Sections 1 to 14, inclusive, of Article 1 or Section 99 of Article 4 of this Chapter.

Each application for a building permit hereafter filed with the Central Permit Bureau shall be accompanied by a statement as to the use of the building to be constructed or altered on blanks to be furnished by the Central Permit Bureau. On each application there shall be shown an accurate block plan of the location of the building on the lot drawn to a scale of sixteen (16) feet to one (1) inch.

Section 3. Sections 101 and 102 of Article 4, Chapter II, Part II, of the San Francisco Municipal Code, are hereby amended to read as follows:

SEC. 101. Interpretation—Purpose. In interpreting and applying the provisions of Sections 1 to 14, inclusive, of Article 1 of this Chapter and Sections 99 and 100 of this Article, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by Sections 1 to 14, inclusive, of Article 1 of this Chapter and Sections 99 and 100 of this Article to repeal, abrogate, annul or in any way to impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to the law relating to the use of buildings or premises; nor is it intended by Sections 1 to 14, inclusive, of Article 1, of this Chapter and Sections 99 and 100 of this Article to interfere with or abrogate or annul any easement, covenant or other agreements between parties; provided, however, that where Sections 1 to 14, inclusive, of Article 1, of this Chapter and Sections 99 and 100 of this Article imposes a greater restriction upon the use of buildings or premises than is imposed or required by such existing provisions of law or ordinance or by such rules, regulations or permits or by such easements, covenants or agreements, the provisions of Sections 1 to 14, inclusive, of Article 1, of this Chapter and Sections 99 and 100 of this Article shall control.

SEC. 102. Enforcement. It shall be the duty of the Department of Public Works, Department of Public Health, Police Department, Fire Department and Department of Electricity to enforce the pro-

visions of Sections 1 to 14, inclusive, of Article 1, of this Chapter and Sections 99 and 100 of this Article.

Discussion.

Mr. Eneas Kane, Public Service Director in the Mayor's office, informed the Board that it had passed, some months ago, a resolution authorizing the Mayor to negotiate with the San Francisco Housing Authority for the purpose of acquiring some two thousand temporarily converted housing units for veterans and their families; that negotiations were carried out by the Mayor and ultimately an agency agreement was entered into between the City and County of San Francisco and the Housing Authority, whereby the Housing Authority made application to the United States Federal Agency and was allowed to act as administrative agent for the City and County of San Francisco in the handling of the applications and selection of tenants and in the management of the entire project, which was believed to comprise 2000 units; and that the latest development was that the Federal Public Housing Agency could not make available to this area the entire 2000 units, but did make available some 1263 units.

Mr. Kane continued by saying that the proposal before the Board would enable the Mayor to enter into negotiations with the San Francisco Housing Authority for the purpose of providing additional housing units; that the financing for the original 2000 units and the allotment of 1263 units was done on a City, State and federal basis; that the federal agency now has informed the City that they have no funds with which to complete the agreement and that the City and state will have to take care of the financing; that the cost of converting the dormitories at Hunter's Point will be some \$33,000; that it will be necessary for the City to appropriate \$36,000 as its share on a 90-10 basis arrangement with the state and the state would provide a sum in excess of \$300,000.

Mr. Kane concluded by stating that the effect of the proposals before the Board—namely, Proposal 6234 and Proposal 6255—was merely one of exploration and determination.

Supervisor MacPhee asserted that while he had no objection to public housing, he believed that private enterprise was the logical agency to construct the 2000 units in question and the only reason private capital was not doing so was due to lack of material.

The Mayor stated to the members of the Board that the measure before it was merely exploratory and while he did not like the idea of temporary housing, the fact remained that such construction was a necessity in view of existing conditions.

Whereupon, the roll was called and Proposal No. 6234 was *adopted* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan—9.

No: Supervisor John J. Sullivan—1.

Discussion.

The Clerk read copy of a resolution adopted by the Public Utilities Commission, wherein that honorable body retained the services of Attorney-at-Law Marshall Leahy to defend the City's interests in the suit entitled: *Holm v. City and County of San Francisco*, pending in Superior Court; that the total amount to be expended in defending the City's interest was not to exceed \$2,500.

Supervisor Lewis objected to the retention of Mr. Leahy on the grounds that he felt that an outside attorney should have been employed, not one who a short time ago was employed in the District Attorney's office; that an attorney who has had no connection whatever with the City would not cause criticism, which might occur in the present case.

Supervisor Christopher stated that he was inclined to agree with Supervisor Lewis' views, that an outside attorney should have been obtained and that there were many attorneys who would have been glad to handle the case.

Supervisor Mancuso stated that he knew of at least half a dozen attorneys who would have been happy to take the case and not charge the City over a thousand dollars.

Supervisor MacPhee stated that the Board erred in adopting the practice of waiving the statute of limitations and in giving passage to the legislation under consideration they would be opening the door for future requests of City employees for the privilege of such waiving.

Whereupon, the roll was called and Bill No. 4430 was *passed for second reading* by the following vote:

Ayes: Supervisors MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—7.

Noes: Supervisors Christopher, Gallagher, Lewis—3.

Bill No. 4435, Ordinance No. . . . (Series of 1939), as follows:

Authorizing agreement with Kraft Foods Company regarding construction of a concrete enclosure around the City's sewer west of Newhall Street.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. In accordance with the recommendation of the Department of Public Works, the Mayor and the Clerk of the Board of Supervisors on behalf of the City and County of San Francisco, a municipal corporation, are hereby authorized and directed to execute a written agreement with Kraft Foods Company in substantially the following form:

"This agreement, made as of the . . . day of . . . , 1946, by and between Kraft Foods Company, a Delaware corporation, hereinafter for convenience called 'Kraft,' and the City and County of San Francisco, a municipal corporation, hereinafter for convenience called 'City,' witnesseth:

"Whereas, Kraft is the owner of a certain parcel of real property located in the City and County of San Francisco, State of California, and more particularly described as follows:

"Beginning at the point of intersection of the present northwesterly line of Newhall Street and the northeasterly line of Empire Lane; running thence northeasterly along said line of Newhall Street 298.135 feet; thence at a right angle northwesterly 404.16 feet; thence northwesterly on the arc of a curve to the right, tangent to the preceding course, with a radius of 295.34 feet, a distance of 72.16 feet to the northwesterly boundary line of the property now or formerly belonging to the Estate of Frank H. Gardiner, deceased; thence south 15° 25' 16" west along the last mentioned boundary line 7.06 feet to an angle point therein; thence continuing along

said northwesterly boundary line south 15° 26' 09" west 106.514 feet to an angle point therein; thence continuing along said northwesterly boundary line south 15° 23' 19" west 106.546 feet to the northeasterly line of Egbert Avenue; thence southeasterly along said line of Egbert Avenue 262.262 feet to its intersection with the northeasterly line of Empire Lane; thence southeasterly along said line of Empire Lane 224.918 feet to the point of beginning.

"Containing 130,635 square feet, more or less; and

"Whereas, the City is the owner of a subsurface easement for a 5' 9" diameter concrete sewer, the center line of which is located along the center line of Donner Avenue produced, which sewer passes through said real estate; and

"Whereas, Kraft desires further to improve its said real property by the construction thereon of a factory building for the processing of food, which building will be located over the sewer, but cannot safely proceed with said construction and the substantial investment involved unless it is assured that the City will perform its duty of keeping the sewer in repair and exercise its right of access for that purpose in such a manner as will not damage the proposed building or interfere with the operations to be conducted therein; and

"Whereas, the City is unwilling to permit the construction of said building in any manner which will not permit a reasonable means of access to the sewer for the purpose of inspecting it and making repairs thereto; and

"Whereas, the City, through the Department of Public Works, and Kraft have collaborated in the preparation of the plan for that part of said building that is adjacent to the sewer, which in the opinion of each of the parties hereto will permit reasonable use by Kraft of its property and reasonable access to the sewer by the City, which plan provides for the construction by Kraft of a concrete enclosure of the sewer so designed and located as to seal the sewer off from the building and to leave sufficient free space between the concrete enclosure and the sewer to permit the City to inspect and repair the sewer without damaging the building and to enter from outside the building for such purpose; and

"Whereas, the parties desire formally to approve said plan and to clarify and make more definite their rights in the enjoyment of their respective properties.

"Now, therefore, in consideration of the mutual covenants herein contained, it is agreed as follows:

"1. The plan for the construction of that part of said building which is adjacent to the sewer, does permit reasonable enjoyment by Kraft of its property and reasonable access to the sewer by the City for the purpose of inspecting or repairing the sewer, and is hereby approved.

"2. Kraft shall construct that part of said building which is adjacent to the sewer, in accordance with said plan.

"3. If in the construction of the building the existing concrete sewer should be broken or damaged, the same shall be repaired promptly by the City, and the cost of such repairs shall be paid to the City by Kraft upon demand.

"4. At or before the time when the sewer is uncovered in the construction of said building, the City shall (a) at its own expense, make any repairs to the sewer which are necessary to place it in a safe and sanitary condition, and (b) at Kraft's expense, seal up the manhole located in the proposed building site and place a manhole in Newhall Street.

"5. In making any inspection of or repairs to the sewer after construction of the building is commenced or completed, the City shall not, without permission of Kraft or its successors, permit its em-

ployees or anyone engaged in making such inspection or repairs to enter the sewer or the enclosure thereof through the building, but access to the sewer for said purposes shall be had from the outside of the building only, through the sewer or the said concrete enclosure of the same.

"6. Any repairs to the sewer made by the City, or for or on its behalf, after construction of said building is commenced or is completed, shall be done in such manner as will not injure or damage the proposed building or any part thereof, including its foundations and the said concrete enclosure of the sewer. Provided, however, that the City may remove the passageway or passageways over the sewer through the enclosure during any major repairs of the sewer; provided further, that during such repairs it shall keep the openings to the adjacent basement properly sealed to prevent the passage of odors or dust, and upon completion of the work restore the passageways to their original condition, all at the expense of the City.

"7. The provisions hereof relating to repairs also shall be construed to cover replacements to the extent the City has the right to make replacements under its existing easement.

"8. Any right which the City may have under its said easement, which is inconsistent with any of the foregoing provisions, is no longer required for public use and is hereby released and quitclaimed to Kraft."

"In witness whereof, the parties hereto have caused this instrument to be duly executed the day and year first above written."

SPECIAL ORDER—2:30 P. M.

Supervisor Christopher, in the meeting of the Board of Supervisors on Monday, November 25th, moved, seconded by Supervisor Mead, that a representative of the Public Utilities Commission appear before the Board on Monday, December 2, 1946, at 2:30 p. m., and inform the Board what action is being contemplated with respect to the rehabilitation of the Municipal Railway.

Discussion.

Supervisor Christopher stated that it was not his intention of asking Mr. Turner to come before the Board with the view of embarrassing him but it had been his experience to ask certain departments for information and he did not obtain the data desired; that he was

very anxious to find out just where the City was going in so far as transportation was concerned; that since his request of last week that a representative of the Public Utilities Commission appear before the Board, he has heard that the Commission was contemplating a bond issue for rehabilitation but questioned that this information was sufficient. What was desired was information as to just what the Public Utilities Commission contemplated doing with respect to reconstructing the dilapidated railway. Was the Commission following the Newton Plan, the Master Plan or the Public Utilities Plan or any of the many plans that had been formulated in the past? Would like to hear from Mr. Turner just what is contemplated by the proposed bond issue and when was it to be issued.

Supervisor Christopher summed up his statement with the remark that he did not desire to embarrass Mr. Turner but would like to know just where the City stood on the matter of transportation.

Privilege of the Floor.

The privilege of the floor was extended to Mr. Turner, Manager of Public Utilities, who informed the Board that the report carried by the papers regarding the proposed bond issue was correct; that a proposed bond issue of some \$20,000,000 was contemplated being submitted to the electors at the May election; that the recent election approving pay raises for railway personnel took a considerable amount of money that was previously allocated to the improvement of the transportation system. Some sums of money were still available but in order to do a good job of modernization a bond issue was necessary.

Supervisor Christopher stated that he did not consider the proposed bond issue as the only prime consideration; that following the Newton Plan was not the proper solution of the City's transportation ills; that it was conceived at a time when the City was guessing at her future population; it simply meant changing from old cars to new cars. In following the Newton Plan he believed that the City was making a great mistake; that while a bond issue is being proposed, still there hasn't been any major program for the rehabilitation of the street car system. If the City intended to spend 20 or 25 million dollars, he would like to see a clear and concise program of how we are going to spend it.

Supervisor Lewis told the Board that he supported everything said by Supervisor Christopher and that this matter was a most important one. He felt that the Board had a direct responsibility to the people and that the responsibility did not pertain only to the inconsequential things but to the big things as well. That the Board had not run away from this problem because, unfortunately, the Charter provided that the Board was not permitted to outline any decisions with respect to policy to the Public Utilities Commission; that tomorrow afternoon the Public Utilities and Judiciary Committee would meet to consider a proposal calling for the adoption of all overall transportation plan for San Francisco.

Supervisor Lewis further called the Board's attention to the fact that the Public Utilities Commission had turned its back completely on the Master Plan when the Commission proposed to put a line of buses on the outside and street cars on the inside on Market Street, notwithstanding the Master Plan's contention that such a procedure would increase traffic hazards; that before the Board approved any bond issues, it should know where the City was going with respect to transportation, off-street parking, subways, etc.

Mr. Turner stated that when he mentioned the Newton Plan, he meant a modified form of the plan; that the Newton Plan was predicated on population trends; that the modified Newton Plan fitted the modern thinking of all transit operators in the United States, that

street cars, electric trolley coaches and gasoline coaches are definite segments of the plan, thus providing the best possible service at reasonable cost; however, the plan would be revised to meet situations as they appeared.

Mr. Turner concluded his statement by saying that the data for the bond issue was being assembled and would be submitted to the Board when compiled and that discussion of the bond issue at this time, with its many ramifications, would not be timely.

Supervisor Lewis then told Mr. Turner that the Master Plan contemplated construction of subways in different parts of the City and that eventually there would not be a single car or car track on Market Street.

Mr. Turner, in reply, stated that it was not up to the Board of Supervisors or to the Public Utilities Commission to decide the need for subways and that the Commission had a day-to-day problem of transporting the people as quickly and as efficiently as possible and Market Street must be used.

Supervisor Lewis asked Mr. Turner if the Public Utilities Commission had any solution of the Market Street problem, to which Mr. Turner replied that a recommendation would be discussed that afternoon and it involved the modernization of the mass transportation system and the keeping of two tracks on Market Street.

Supervisor Lewis asked Mr. Turner if he thought the people should not be given an opportunity to vote on the question of subways to which Mr. Turner replied that he believed the matter could be submitted to the people at an election.

Supervisor Lewis asked Mr. Turner if consideration was being given to routing street cars one way on Geary and Sutter Streets, to which Mr. Turner replied that the matter was being given very detailed study.

President of the Board Dan Gallagher asked Mr. Turner if underpasses were considered being constructed on Market Street and on Third Street, to which Mr. Turner replied that the question of underpasses was under consideration.

Supervisor Mancuso asked Mr. Turner if he proposed to set up a Transportation Commission to study the existing problems to which Mr. Turner replied that he did not propose to.

Supervisor Mancuso stated that the Public Utilities Commission should have requested a bond issue and then if the funds derived from such bond issue were insufficient, an increase in fare should have been asked. Further, the Commission should have set up a Transportation System.

Privilege of the Floor.

Supervisor MacPhee moved the privilege of the floor to Mr. Carroll Newburgh. There were no objections.

Mr. Newburgh informed the Board that the Central Council of Civic Clubs years ago had pointed out to the Board members and to the Public Utilities Commission of the difficult task, if the Market Street Railway were purchased, of keeping it going.

Mr. Newburgh directed a query to Mr. Turner if at any time the Public Utilities Commission had been approached by any group with the intention of having the transportation system run by private enterprise, to which Mr. Turner replied that there had been no offers made.

President of the Board Gallagher asked Mr. Turner if an increase in car fare was being contemplated, to which Mr. Turner replied that he would not recommend a fare increase and that he believed the

limit had been reached in so far as the fare increases were concerned and that if they were increased, the railway would lose riders, who in turn would use their cars, thus adding to the traffic congestion.

At this point Mr. Turner was excused.

Consideration of Master Plan for the City and County of San Francisco.

Supervisor MacPhee, in the meeting of the Board of Supervisors on Monday, November 18, 1946, requested that the Master Plan for the City and County of San Francisco be withdrawn from committee and considered by the Board at its meeting on Monday, December 2, 1946.

No objection and so ordered.

Discussion.

Supervisor MacPhee stated that he had asked that the matter of the Master Plan be brought before the Board for the purpose of taking action on it.

Supervisor Colman, Chairman of the Public Buildings, Lands and City Planning Committee, stated that there were many things in the Master Plan that may never be used and therefore not a proper guide. He made mention of the Citizens' Master Plan, which had a great deal of merit. Supervisor Colman continued by stating that Mr. Kent, Acting Director of Planning, informed him that the City Planning Commission was engaged in further study and would, within a reasonable time, have some recommendation that will come before the Board with respect to changes or amendments to the Master Plan.

Privilege of the Floor.

The privilege of the floor was accorded Mr. Kent, Acting Director of Planning, who informed the Board that in his opinion as well as in the opinion of the City Planning Commission, the Board should not adopt the Master Plan; that the concept of the Master Plan was merely to serve as a guide. From the Master Plan specific sections such as those dealing with streets, traffic and the like will come before the Board and will become proper measure for its consideration, and that this procedure was being followed throughout the United States.

Supervisor Lewis said that efforts were being made to duck the Master Plan; that he remembered originally when they intended to bring in the Master Plan before the Board for its approval; then the City Planning Commission came in and said it was not necessary for the Board to adopt it; that the City Planning Commission had the power alone to adopt the Master Plan and that they had adopted it; that the Board could not consider urban redevelopment until such a plan was adopted and according to the records the Master Plan was now the officially adopted plan of the City and County of San Francisco.

Supervisor Lewis continued by stating that he had read the three volumes and could answer questions reasonably intelligently and hoped and trusted that the Board would do everything in its power to carry out the program on urban redevelopment.

Supervisor MacPhee stated that he was wondering if the Board could adopt some sort of policy with reference to the Master Plan; that if it was the business of the Board to determine policy, let the Board do so; if the plan was not submitted to the Board for policy, why was it submitted at all? If the Board wanted a city with a policy indicating just where it wanted to travel, the Board should adopt the Master Plan.

Mr. Kent, Acting Director of Planning, stated that the Master Plan was adopted by the City Planning Commission last December and is

composed of three documents. An effort is being made to consider the overall needs of the City. One section of the Master Plan has to do with transportation. The final official Transportation Master Plan which will come before the Board for approval and adoption was now being developed.

Privilege of the Floor.

The privilege of the floor was accorded Mrs. Mary Qvistgaard, secretary of the Eureka Valley Promotion Association. She informed the Board that her organization had been giving study to the Master Plan and Urban Redevelopment and that it was opposed to the proposed Market Street Freeway.

Supervisor Lewis informed the members of the Board that under the Charter the City Planning Commission had the exclusive right to make, prepare and adopt the Master Plan and that under the Urban Redevelopment Act the City Planning Commission did adopt the Master Plan and that under the circumstances, there was nothing for the Board to do.

Tabled.

Whereupon Supervisor Christopher moved that the matter of consideration of the Master Plan be tabled, seconded by Supervisor Colman.

The roll was then called:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, McMurray, J. Joseph Sullivan—6.

Noes: Supervisors MacPhee, Mancuso, Mead, Meyer, John J. Sullivan—5.

Before the vote on the foregoing roll call was announced, Supervisor Lewis changed his vote from "Aye" to "No" and gave notice that he would move for reconsideration at the next meeting of the Board.

Motion to Reconsider Overruled.

Whereupon the Chair informed Supervisor Lewis that his motion was not in order because he was not voting with the prevailing side.

Motion to Rescind.

Supervisor Mancuso moved, seconded by Supervisor MacPhee, that the previous action taken by the Board in tabling the Master Plan matter, be rescinded.

Supervisor Lewis informed the Board that he did not desire to see the urban redevelopment section of the Master Plan tabled.

Supervisor Colman assured Supervisor Lewis that his committee would follow through on the urban redevelopment section of the Master Plan.

Motion to Rescind Withdrawn.

Supervisor Mancuso stated that with the consent of his second he would withdraw the motion to rescind. *No objection and so ordered.*

In concluding the discussion on this subject, Supervisor MacPhee asserted that the Board should adopt some procedure with respect to the Master Plan; that the Board should either adopt it, amend it or reject it.

UNFINISHED BUSINESS.

Petitioning the Congress to Convey to the City and County of San Francisco Fee Simple Title to Land Now Occupied by Palace of Fine Arts.

Proposal No. 6216, Resolution No. 6040 (Series of 1939), as follows:

Whereas, pursuant to the provisions of an Act of Congress approved March 3, 1925 (45 Stat. 1129), the Acting Secretary of War executed a deed on the 3rd day of June, 1927, granting and conveying to the City and County of San Francisco 9.93 acres of land, more or less, which formerly comprised a portion of the military reservation of The Presidio of San Francisco on which the Palace of Fine Arts is located, said grant reserving to the United States the right to take exclusive possession of said land and all improvements thereon, without the payment of any compensation therefor, in the event of war or any other great national emergency, in consideration of which grant the City and County of San Francisco granted to the War Department the right to construct, maintain and operate a spur track between Fort Mason and The Presidio of San Francisco; and

Whereas, under date of February 19, 1941, the Acting Secretary of War gave notice to the City and County of San Francisco that "in view of the present emergency the above referred to property is required for governmental purposes, and pursuant to the provisions of the above referred to act of Congress and deed of conveyance, you are notified that the United States of America through the Commanding General, San Francisco Port of Embarkation, Fort Mason, California, hereby takes exclusive possession of said land and all improvements thereon for the period of said emergency"; and

Whereas, under date of August 8, 1941, the Acting Secretary of War notified the City and County of San Francisco that only the Palace of Fine Arts Building was required for military purposes, and accordingly, subject to all the provisions and conditions of said Act of Congress and deed, the United States of America relinquished the land, exclusive of that occupied by the Palace of Fine Arts, and exclusive of said Palace, which was repossessed by virtue of said letter dated February 19, 1941; and

Whereas, the United States of America has continued and is continuing to hold, occupy and use said Palace of Fine Arts and the land occupied thereby; and

Whereas, since the Palace of Fine Arts was acquired by the City and County of San Francisco, said City and County has spent \$595,622.50 on improvements and restoration with materials similar to the original construction; and

Whereas, it is estimated that reconstruction of said Palace of Fine Arts by the use of concrete or some other permanent form of construction would cost in the neighborhood of \$600,000; and

Whereas, the existence of the reservation of the right of re-entry in said grant, which in effect restricts the right to free, unobstructed and continuous possession of said property, is highly inimical to the best interests of the City and County of San Francisco as it precludes the execution of plans for the restoration, rehabilitation and use of said property, and militates against a sound municipal policy of expending public funds for such purposes as will result in continuing, uninterrupted benefit to the citizens of the City and County; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby respectfully petition and urge the Congress of the United States to take such action as will effectuate conveyance to the City and County by the United States of America, of said 9.93 acres of land mentioned hereinabove, free of any condition or reservation so that said City and County will have a fee simple absolute title thereto, said unconditional grant to be executed and take effect as soon as practicable subsequent to the time the United States of America relinquishes its possession of the premises; and, be it

Further Resolved, That copies of this resolution be forwarded immediately to Senators Downey and Knowland, and to Congressmen Welch and Havenner, with the earnest request of this Board of Supervisors that they exert their best efforts in obtaining favorable action to the end that the request herein contained be granted.

Proposal No. 6267, Resolution No. 6045 (Series of 1939), as follows:

Whereas, proof has been made to the Board of Supervisors that Siegfried Giesmar was the owner of the aforesaid Spring Valley Bonds Numbers 34453 to 34455 inclusive, and that on the 1st day of January, 1946, there became due on said bonds the sum of \$67.50 as evidenced by coupons attached thereto, and that after the said 1st day of January, 1946, said Siegfried Giesmar detached said coupons from said bonds and deposited the same with the Miami Beach First National Bank at Miami Beach, Florida, for collection, the face value of said coupons being the sum of \$22.50 each; the said Miami Beach First National Bank after receiving said coupons forwarded the same to the National City Bank of New York, the fiscal agent of the City and County of San Francisco in New York, but said coupons were never received by said National City Bank of New York, and that said coupons have been lost, stolen or destroyed, and cannot now be found; and said coupons cannot now be delivered to the Treasurer of the City and County of San Francisco, and a stop-payment has been placed with the Treasurer against the payment of said coupons, and the Board of Supervisors of the City and County of San Francisco does now declare that said coupons have been lost or destroyed within the meaning of the Act of the Legislature of the State of California, entitled:

"An Act to Provide for the Issuance of Duplicate of Bonds, Warrants and Other Evidences of Indebtedness of Counties

and Municipalities and other Corporations as Set Forth in Chapter 824, Statutes of 1923";

Whereas, in view of the small amount due on said coupons, it would be uneconomical to have coupons issued in lieu thereof; now, therefore, be it

Resolved, By the Board of Supervisors of the City and County of San Francisco, that the Controller of said City and County is hereby authorized and directed to draw his warrant for the payment of said coupons in the amount of \$67.50 in favor of the Miami Beach First National Bank of Miami Beach, Florida, upon consideration that said Miami Beach First National Bank deliver to said Controller a satisfactory guarantee indemnifying the City and County of San Francisco and all officers thereof against any loss or damage of any kind or character arising out of any subsequent presentation, demand or payment of said coupons.

Discussion.

Supervisor Mead stated that he did not want the portion having to do with the construction of a museum on Corona Heights incorporated in the proposal now under consideration but that it should be treated as a separate proposal.

Supervisor Mancuso stated that he did not consider the proposed site as the proper location because of being far from the center of population and from schools.

Supervisor Mead replied to Mr. Mancuso's statement by saying that while he appreciated the economy-mindedness of the Supervisor, it should not be at the expense of the children of San Francisco.

Privilege of the Floor.

The privilege of the floor was accorded to Miss Josephine D. Randall, Superintendent of the Recreation Department, who told the Board members that the Recreation Department considered purchasing the site in 1936 and actually purchased it in 1940; that the plans for the site were approved and now the Commission was asking that it be allowed to borrow money from the Federal Government; that the site was an ideal one and available to all forms of transportation and that playgrounds were located nearby.

Supervisor MacPhee suggested to Miss Randall that a proposal covering the Corona Heights Museum be referred to Finance Committee.

Supervisor Lewis informed the Board that the Finance Committee was not the place to consider policy, but dollars and cents, and asked the President of the Board that the rules of the Board be adhered to and that no matter be sent to the Finance Committee until policy has been determined.

Point of Order.

Supervisor Lewis rose to a point of order, stating that the matter of the museum was not a proper one for the Board to consider at this time.

The Chair ruled that the point of order was well taken.

Whereupon the roll was called and Proposal No. 6274 was *Adopted* by the following vote:

Ayes: Supervisors Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Christopher—1.

Mr. Thomas A. Brooks, Chief Administrative Officer, informed the members of the Board that the Mayor had been pressing him for more room for Administrative Assistant and that it was intended to house the City Planning Commission, the Art Commission and the Board of Permit Appeals in the Hospitality House.

Supervisor Lewis called the Board's attention to the fact that the proposed housing of the aforementioned City departments was on the site of the proposed new Courts Building, to which Mr. Brooks replied that the construction of the new Courts Building would not take place for several years and that there was much congestion in the City Hall at the present time that had to be taken care of.

President of the Board Dan Gallagher asked the Chief Administrative Officer for his consideration of the Board's request for a room in order to have ready accessibility to the Board's stored records, and Mr. Brooks stated that he would give the request his consideration.

Said premises are required by the Recreation Department.

The form of lease shall be approved by the City Attorney.

Recommended by the Recreation Department.

Approved by the Director of Property.

Approved as to form by the City Attorney.

Discussion.

Supervisor Mead indicated to the Board that it was his understanding that the location referred to in Proposal No. 6246 was not the best that could be secured.

Privilege of the Floor.

The privilege of the floor was extended to Miss Josephine D. Randall, Superintendent of the Recreation Department, who stated that the location was the best that the department had been able to get and that it was centrally located.

Supervisor Mancuso stated that the site was a poor place for children to go and that it was his understanding that there were school facilities available which the Recreation Department had not made an attempt to procure. Mr. Mancuso continued by stating that it

was his further understanding that there was a considerable duplication of activities and the fact that labor unions and other groups use the facilities at 1625 Market Street certainly was not conducive to the best interests of the children and could not understand how Miss Randall could have selected such a location.

Miss Randall again reiterated that the site in question was the ideal one and centrally located; that she had tried to obtain use of the Hospitality House and the facilities of the High School of Commerce but to no avail. That the proposed site would be used for orchestration for children 12 years of age and up.

Supervisor Colman stated that he heard much praise for the Recreation Department and had occasion to witness exhibitions of music sponsored by the Recreation Department and that he was compelled to trust the judgment of that department in the selection of the proper site.

Motion to Refer Defeated.

Supervisor Lewis moved, seconded by Supervisor McMurray, that Proposal No. 6246 be referred to the Education, Parks and Recreation Committee. The roll was called and the motion to refer *failed* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray—4.

Noes: Supervisors Colman, Mancuso, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—6.

Absent: Supervisor MacPhee—1.

Discussion Continued.

Supervisor McMurray stated that the location proposed was a very bad one, that he did not propose to sit as a member of the Board of Supervisors and vote for passage of legislation such as this; that it didn't make sense and that it was a waste of the people's money.

Supervisor Lewis asserted that he had attended the concerts in the Sigmund Stern Grove and found them excellent; however, he could not understand the indifference existing between City departments; that the greater part of the budget was for the educational system; that the Recreation Commission was getting away from its main function, that of promoting activities for children, and that he was for an overall plan whereby money could be expended wisely in carrying out a recreational program for San Francisco.

Supervisor Sullivan expressed the opinion that the proposed site was for business and should not be used for orchestral or symphony work.

Consideration Postponed Two Weeks.

Whereupon Supervisor Mancuso moved, seconded by Supervisor McMurray, that consideration of Proposal No. 6246 be postponed for two weeks and that the Clerk ascertain from the Director of Property and the Board of Education if sites under their particular jurisdiction could be made available to take care of the proposed needs of the Recreation Department.

No objection and so ordered.

Consideration Postponed.

The following, from Finance Committee without recommendation, was taken up:

Present: Supervisors Mancuso, Lewis, Mead.

(Supervisor Lewis voting "No.")

Supervisor Lewis asked that the individual members of the City Planning Commission as well as other members of other commissions interested be requested to be present at the meeting of the Board of Supervisors two weeks from today.

Consideration of Communication from Francis McCarty, Attorney for Hospital and Institutional Workers Union, Local 250, A. F. L.

The Clerk read a communication from Francis McCarty, attorney for the Hospital and Institutional Workers Union, Local 250, A. F. L., requesting that the City and County of San Francisco create self-insurance to protect officers and employees in the Department of Public Health.

Discussion.

Supervisor Christopher stated that this matter had been originally presented by him some time ago and referred to the Finance Committee and that he was assured by Mr. Thomas A. Brooks, Chief Administrative Officer, that the matter would be taken care of pending enactment of the necessary legislation.

Supervisor Mancuso stated that the matter had been referred to the City Attorney's office for preparation of legislation and he had been informed that legislation could not legally be had on the subject.

Mr. Thomas A. Brooks, Chief Administrative Officer, informed the Board that the subject-matter was brought up due to the can-

cellation of the insurance policy for the Director of Public Health and that for the Acting Superintendent of the San Francisco Hospital, Dr. T. E. Albers; that the carrier was of the opinion that only Drs. Geiger and Albers were covered by the policy, whereas it was subsequently developed that the policy covered all the employees under the jurisdiction of Drs. Geiger and Albers, and accordingly withdrew the policy. Mr. Brooks continued by saying that there was only one source from which the City could purchase insurance and that from a company in London; that he had been in touch with the agent of the company last Friday and was given the assurance that all information was forwarded to London and would receive a reply by the end of this week as to just what the carrier will charge for the issuance of such a policy.

Supervisor Christopher added that if the Charter does not permit of such legislation then a means must be found of doing it legally; that the men involved are quite apprehensive and their apprehension is well taken, and would recommend that measures be taken to self-insure themselves if the London carrier did not see fit to insure the parties involved.

The communication from Francis McCarty, attorney, was referred to the *Public Health and Welfare Committee*.

Consideration of Communication from the Carmen's Union, Division 1380, A. F. L., Requesting Discussion of Charter Amendment Adopted by the People Relating to Municipal Railway Employees.

The Clerk read letter from the Carmen's Union, Division 1380, A. F. L., requesting discussion of the application of the Charter amendment approved at the November election affecting Municipal Railway employees.

Discussion.

Supervisor Mancuso told the members that the Board had referred this matter to the Finance Committee some time ago and the matter was discussed last Friday, but no quorum was present, and that in all fairness he believed that the Board should hear the matter; that several parties had made special trips for this meeting and that as a matter of courtesy this matter should be heard by the Board today.

Supervisor MacPhee stated that he agreed with the views expressed by Supervisor Mancuso; that Supervisor Mancuso attempted to hold a meeting but was unable to do so; that while this matter was not a proper one for the Board to consider at this time, still in deference to the gentlemen who came to San Francisco for the express purpose of making their presentation, they should be heard and then the matter should be referred to the Finance Committee, where other interested citizens could be heard and a recommendation brought into the Board.

President of the Board Dan Gallagher agreed that the plan outlined by Supervisor MacPhee was the proper procedure.

Privilege of the Floor.

The privilege of the floor was moved by Supervisor Mancuso for Mr. E. L. Oliver, representing the international as well as the local union covering street, electric railway and motor coach employees.

Mr. Oliver informed the Board members that it was most important that the problem of labor relations on the Municipal Railway be solved at the earliest possible moment; that many problems existed such as grievances, the necessity of arriving at proper rates for auxiliary services, such as accident reporting, travel time and the like; that there were two problems confronting the City and the unions in an endeavor to arrive at an amicable solution with the

minimum of friction: one, whether or not the Charter permitted any adjustments of wage schedules other than the basic hourly wage, and two, if permitted under the Charter, how is the City and the employees going to determine the type of adjustments to be made in the future; that the Charter provides for adjustments in compensations and if the City had authority to make payments for auxiliary services up to now, it followed that the City had authority to correct and modify them and, in addition, make payments for other services not specifically paid for; that the two highest rates in the State of California should be used as a basis for adjustment and that this policy was very important with respect to uniformity.

Mr. Oliver continued by saying that the Civil Service Commission, in analyzing this problem, will have to take into consideration payment for auxiliary services and that specific procedure be set up to apply to these services rendered by employees; that the Civil Service Commission hold a hearing, preferably in January, at which time pertinent data relative to payments being made for auxiliary services by other railway companies in the State of California would be submitted to the Commission. That steps be taken to eliminate the danger of unrest that exists on the Municipal Railway; that much study should be given the problems of assignment of work, basis for compensation, schedules of operation, problems of safety and sanitation, matters of discipline, problems arising out of the handling of grievances, all these being prolific sources of unrest. The City should take advantage of the experience of industry within the last half century in that the problems of labor relations are very important; that the union in this matter has been serving for more than 53 years and has been following the policy of meeting all problems by arbitration.

Mr. Oliver concluded by asserting that in considering the various phases of the labor relations problem the City should ask: "Is grievance machinery desirable? Is such machinery possible under City or State law?" We do feel that the principle is sound and that it can be done under the City Charter. What the union wants to do is to meet the City more than half-way in the adjustment of problems that exist with respect to payment for auxiliary services and in the handling of grievances. If the Board does refer this matter to the Civil Service Commission, Mr. Oliver asked that he or the union be given enough time to prepare factual data for submission to that body.

Reference to Committee.

Supervisor Mancuso stated that, after listening to Mr. Oliver, he was of the opinion the matter should be considered by the Civil Service Commission and the Public Utilities Commission.

Supervisor Lewis registered an objection to the matter being referred to the Finance Committee by reason of the rules which state that matters of policy, not determined, should not go to the Finance Committee.

The Chair referred the matter to the Finance Committee.

Re Medical Examinations for Appointment to Police and Fire Departments.

Communication from the Veterans of Foreign Wars, the American Legion, the Disabled American Veterans, the Rehabilitation Counselor of the American Legion, the San Francisco Firefighters Post No. 97 of the American Legion, Charles H. Nelson, and Francis Scott, protesting disqualifications for medical reasons in connection with examinations for appointment to Police and Fire Departments.

The Clerk read a resolution submitted by the Veterans of Foreign Wars, the American Legion and the Disabled American Veterans

requesting the Board of Supervisors to appoint a committee whose purpose it is to appear before the meeting of the Civil Service Commission at its December 11th meeting for the purpose of determining in their own minds the justice of protests filed with the Civil Service Commission regarding a number of rejections due to physical and medical reasons.

Privilege of the Floor—Discussion.

Supervisor John J. Sullivan moved the privilege of the floor for Mr. M. C. Hermann, representing the Veterans of Foreign Wars.

No objection and so ordered.

Mr. Hermann urged that the Board adopt the resolution and appoint a committee for the purpose of attending the meeting to be held by the Civil Service Commission on Wednesday, December 11, 1946, and determining, if possible, if injustice has been done to the several applicants for the Police and Fire Departments in connection with their physical rejection.

Supervisor Colman asked for a statement by the Civil Service Commission's representative, and Otto Sues of the Commission's staff informed the Board members that the Civil Service Commission had set up definite conditions in the scope circulars for the examinations; that the protests on the medical examination had not as yet been heard by the Commission but would undoubtedly be heard at the coming Wednesday meeting; and that it has been the practice of the Civil Service Commission to accept the statements of the medical examiners and if the Board feels that any good can come of their attending the meeting of the Commission, the Commission would be glad to have them.

Supervisor MacPhee pointed out that if the Board decided to refer the matter to the Judiciary Committee, he, as one member, would be glad to attend the meeting, but that he would object to the suspension of the rules for the purpose of considering the resolution.

Suspension of the Rules.

Supervisor John J. Sullivan moved the suspension of the rules for the purpose of considering the resolution. Motion seconded by Supervisor Lewis.

Motion Lost.

Supervisor Colman moved that the "whereases" in the resolution be stricken.

Motion lost for want of a second.

At this point Otto Sues, representing the Civil Service Commission, interposed, stating that the physical examinations were continuing and that it would take at least two weeks to finish the job, and that there may be further protests.

Suspension of the Rules Carried.

The roll was thereupon called on Supervisor John J. Sullivan's motion to suspend the rules and it *carried* by the following vote:

Ayes—Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Motion to Amend.

Supervisor Christopher moved as an amendment that "it be the consensus of opinion that no list be adopted until report has been made by the Civil Service Commission to the full Board"

Motion seconded by Supervisor John J. Sullivan.

At this point the President of the Board told the Board members that should the Board adopt the resolution it would have to go to the Mayor for his signature and before the Mayor could sign it, the meeting of the Civil Service Commission would be over, and suggested that the proper way to handle this matter should be by motion to the effect "that the President appoint a committee to attend the hearing before the Civil Service Commission and attempt to decide in their own minds, etc."

Whereupon, Supervisor John J. Sullivan, acting upon the suggestion of the President, moved accordingly. Motion seconded by Supervisor Lewis.

Supervisor John J. Sullivan thereupon withdrew the resolution that had heretofore been before the Board and the Chair ruled that Supervisor John J. Sullivan's motion was now properly before the Board.

Motion Amended.

Supervisor Christopher moved as an amendment, seconded by Supervisor John J. Sullivan, that "it be the sense of this Board that the Civil Service Commission be respectfully requested not to adopt the lists until a full report has been made to this Board."

Supervisor Colman informed the Board that he would vote against the amendment on the ground that it had the effect of telling the Commission what or what not to do.

Roll Call on Amendment.

Whereupon, the roll was called and the motion to amend *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—8.

Noes: Supervisors Colman, MacPhee, Mancuso—3.

Roll Call on Motion as Amended.

The entire motion now read:

"That the President of the Board of Supervisors appoint a committee of Supervisors to attend the Civil Service Commission meeting of December 11th to observe and report to the Board in connection with those protests registered against the action of the Commission rejecting certain applicants in medical examinations prerequisite to eligibility on lists for appointment to the Fire and Police Departments, and that it be the sense of this Board that the Civil Service Commission be respectfully requested not to adopt the lists until a full report has been made to this Board."

The roll was called on the motion as amended and it *carried* by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

Appointment of Committee.

The President of the Board, Dan Gallagher, appointed the members of the Judiciary Committee, composed of Supervisors MacPhee, Lewis and Mancuso as well as Supervisors John J. Sullivan and J. Joseph Sullivan as the committee to attend the meeting of the Civil Service Commission on Wednesday, December 11, 1946.

Communication From Acting Mayor Hon. Chester R. MacPhee, Urging Appropriation for Repair of Boiler at the Glen Park Fieldhouse.

The Clerk read a communication from the Acting Mayor, Hon. Chester R. MacPhee, urging that appropriation of \$1,140 be passed

by the Board for the replacement of a boiler at the Glen Park Fieldhouse

Discussion.

Supervisor Lewis stated that it was his opinion that the matter was an emergency and should be considered at this time.

Supervisor Mancuso, Chairman of the Finance Committee, took exception, saying that he did not consider the request an emergency as construed by the Charter.

Supervisor MacPhee stated that the matter was submitted by Mayor Lapham before he went East and due to the fact that he was not acquainted with the circumstances he took it upon himself to make an investigation of the Glen Park Fieldhouse. He found that the boiler had been condemned by the insurance company and accordingly no heat was available. The boiler had been disassembled and as a result parts were strewn all over the place. The temperature at 10 a. m. was found to be 46 degrees and that no one should be expected to use the premises under those conditions. Miss Josephine D. Randall, Superintendent of the Recreation Department, had informed him that she would be compelled to close the premises unless heat were made available.

Supervisor Mead stated that while he respected the economy-mindedness of Supervisor Mancuso, he certainly did not at the expense of the people, and whether anybody agreed with him or not, it was his belief that the existing condition constituted an emergency and one that should be promptly remedied.

Point of Order.

Supervisor Mancuso rose to a point of order, stating that the matter was not before the Board at the present time.

The Chair ruled that the point of order was well taken.

Supervisor MacPhee stated that if Supervisors Mead and Lewis signed the proposal, it could then be considered by the Board.

The Chair *referred the matter to the Finance Committee.*

UNFINISHED BUSINESS.

Finally Passed.

The following from Finance Committee, heretofore passed for second reading, were taken up:

Present: Supervisor Mancuso.

Bill No. 4435, Ordinance No. 4190 (Series of 1939), as follows:

Authorizing agreement with Kraft Foods Company regarding construction of a concrete enclosure around the City's sewer west of Newhall Street.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. In accordance with the recommendation of the Department of Public Works, the Mayor and the Clerk of the Board of Supervisors on behalf of the City and County of San Francisco, a municipal corporation, are hereby authorized and directed to execute a written agreement with Kraft Foods Company in substantially the following form:

"This agreement, made as of the day of, 1946, by and between Kraft Foods Company, a Delaware corporation, hereinafter for convenience called 'Kraft,' and the City and County of San Francisco, a municipal corporation, hereinafter for convenience called 'City,' witnesseth:

"Whereas, Kraft is the owner of a certain parcel of real property located in the City and County of San Francisco, State of California, and more particularly described as follows:

"Beginning at the point of intersection of the present northwesterly line of Newhall Street and the northeasterly line of

Empire Lane; running thence northeasterly along said line of Newhall Street 298.135 feet; thence at a right angle northwesterly 404.16 feet; thence northwesterly on the arc of a curve to the right, tangent to the preceding course, with a radius of 295.34 feet, a distance of 72.16 feet to the northwesterly boundary line of the property now or formerly belonging to the Estate of Frank H. Gardiner, deceased; thence south $15^{\circ} 25' 16''$ west along the last mentioned boundary line 7.06 feet to an angle point therein; thence continuing along said northwesterly boundary line south $15^{\circ} 26' 09''$ west 106.514 feet to an angle point therein; thence continuing along said northwesterly boundary line south $15^{\circ} 23' 19''$ west 106.546 feet to the northeasterly line of Egbert Avenue; thence southeasterly along said line of Egbert Avenue 262.262 feet to its intersection with the northeasterly line of Empire Lane; thence southeasterly along said line of Empire Lane 224.918 feet to the point of beginning.

"Containing 130,635 square feet, more or less; and

"Whereas, the City is the owner of a subsurface easement for a 5' 9" diameter concrete sewer, the center line of which is located along the center line of Donner Avenue produced, which sewer passes through said real estate; and

"Whereas, Kraft desires further to improve its said real property by the construction thereon of a factory building for the processing of food, which building will be located over the sewer, but cannot safely proceed with said construction and the substantial investment involved unless it is assured that the City will perform its duty of keeping the sewer in repair and exercise its right of access for that purpose in such a manner as will not damage the proposed building or interfere with the operations to be conducted therein; and

"Whereas, the City is unwilling to permit the construction of said building in any manner which will not permit a reasonable means of access to the sewer for the purpose of inspecting it and making repairs thereto; and

"Whereas, the City, through the Department of Public Works, and Kraft have collaborated in the preparation of the plan for that part of said building that is adjacent to the sewer, which in the opinion of each of the parties hereto will permit reasonable use by Kraft of its property and reasonable access to the sewer by the City, which plan provides for the construction by Kraft of a concrete enclosure of the sewer so designed and located as to seal the sewer off from the building and to leave sufficient free space between the concrete enclosure and the sewer to permit the City to inspect and repair the sewer without damaging the building and to enter from outside the building for such purpose; and

"Whereas, the parties desire formally to approve said plan and to clarify and make more definite their rights in the enjoyment of their respective properties.

"Now, therefore, in consideration of the mutual covenants herein contained, it is agreed as follows:

"1. The plan for the construction of that part of said building which is adjacent to the sewer, does permit reasonable enjoyment by Kraft of its property and reasonable access to the sewer by the City for the purpose of inspecting or repairing the sewer, and is hereby approved.

"2. Kraft shall construct that part of said building which is adjacent to the sewer, in accordance with said plan.

"3. If in the construction of the building the existing concrete sewer should be broken or damaged, the same shall be repaired promptly by the City, and the cost of such repairs shall be paid to the City by Kraft upon demand.

"4. At or before the time when the sewer is uncovered in the construction of said building, the City shall (a) at its own expense, make any repairs to the sewer which are necessary to place it in a safe and sanitary condition, and (b) at Kraft's expense, seal up the manhole located in the proposed building site and place a manhole in Newhall Street.

"5. In making any inspection of or repairs to the sewer after construction of the building is commenced or completed, the City shall not, without permission of Kraft or its successors, permit its employees or anyone engaged in making such inspection or repairs to enter the sewer or the enclosure thereof through the building, but access to the sewer for said purposes shall be had from the outside of the building only, through the sewer or the said concrete enclosure of the same.

"6. Any repairs to the sewer made by the City, or for or on its behalf, after construction of said building is commenced or is completed, shall be done in such manner as will not injure or damage the proposed building or any part thereof, including its foundations and the said concrete enclosure of the sewer. Provided, however, that the City may remove the passageway or passageways over the sewer through the enclosure during any major repairs of the sewer; provided further, that during such repairs it shall keep the openings to the adjacent basement properly sealed to prevent the passage of odors or dust, and upon completion of the work restore the passageways to their original condition, all at the expense of the City.

"7. The provisions hereof relating to repairs also shall be construed to cover replacements to the extent the City has the right to make replacements under its existing easement.

"8. Any right which the City may have under its said easement, which is inconsistent with any of the foregoing provisions, is no longer required for public use and is hereby released and quitclaimed to Kraft."

"In witness whereof, the parties hereto have caused this instrument to be duly executed the day and year first above written."

The following recommendations of County, State and National Affairs Committee were taken up:

Present: Supervisors Lewis, Mancuso, Meyer, Sullivan.

Supervisor Mancuso voting "No."

MOTION

That the Board of Supervisors agrees that the Controller together with the Legislative Representative, should be vested with power to sit with committees at the State Legislature on Public Education and Highways and enter into agreements with those committees as far as financial matters are concerned affecting the City and County of San Francisco.

President of the Board Gallagher moved, seconded by Supervisor McMurray, that consideration of the foregoing be continued to December 9, 1946. *No objection and so ordered.*

Consideration continued to December 9, 1946.

Discussion.

President of the Board, Dan Gallagher, stated that if the Board did not adopt the motion, it would be a waste of time for our legislative representative to present plans; that it is the intent of the motion that Mr. Ross and Mr. Cleary work out the fine points of the proposed legislation and then so apprise the representatives in the State Legislature.

Supervisor Mancuso asked the City Attorney's representative, Mr. Walker Peddicord, if any agreement that either Mr. Cleary or Mr. Ross would enter into with any committee at Sacramento concerning finances, would be binding upon the City and County of San Francisco under the authority delegated by the motion now before the Board.

Mr. Peddicord informed the Board that the Board could not delegate authority to enter into contract; that matters to be considered before the committees were of a legislative nature and therefore could not be delegated in this instance.

Supervisor MacPhee asserted that his understanding of the matter was that Mr. Ross would be requested to go to these meetings, sit down with the committee and give them the benefit of his counsel and to sit down with Mr. Cleary and attend all of the meetings wherever possible, and give us the result of his findings so that the Board may reach a decision in the matter.

Supervisor Meyer termed the motion a good one, stating that Mr. Ross' services would prove invaluable in matters where monies are apportioned by the Legislature to the counties.

Substitute Motion.

Supervisor Lewis moved as a substitute motion "That the Controller of the City and County of San Francisco is hereby vested with power to confer with the legislative representatives of San Francisco and to advise them as to legislation concerning financial matters that the City and County of San Francisco desires the legislators to present, provided there is not enough time for the Board of Supervisors to give such advice." Motion seconded by Supervisor Colman.

Amendment to Substitute Motion.

Supervisor Mead moved as an amendment to the substitute motion "That the Controller be requested to advise and cooperate with the legislative representative of the City and County of San Francisco and with the San Francisco delegation to the Legislature in appearances before the Committee on Public Education and Highways on such matters as affect the finances of the City and County of San Francisco."

Supervisor Lewis stated that he had no objection to Mr. Mead's suggested amendment.

Supervisor Lewis stated that the original purpose of this motion was because of the fact that the Board could not meet quickly enough to be able to guide the Board's representatives. It was not enough for Mr. Ross to confer with the committees; the Controller wanted the power to make decisions so in the motion power to make decisions was given by the Board to Mr. Ross as to matters of policy and finances affecting the City and County of San Francisco, provided there wasn't enough time for this Board to meet to give advice.

Thereupon Supervisor Lewis, with the consent of his second, moved deletion of the following: "provided there is not enough time for the Board of Supervisors to give such advice," as contained in the substitute motion offered by him.

Discussion.

Supervisor Mead inquired if the daily patient-day rate of \$9.33 for the San Francisco Hospital wasn't nearly the rate charged by private hospitals.

Chief Administrative Officer, Mr. Thomas A. Brooks, informed Supervisor Mead that the rate of \$9.33 not only provided for the room but the doctor's services as well.

Whereupon the roll was called and Proposal No. 6282 was *Adopted* by the following vote:

Appropriating the Sum of \$7,400 Out of the Emergency Reserve Fund to Provide Funds for the Hire of Trucks for the Bureau of Street Cleaning and the Bureau of Sewer Repair of the Department of Public Works; an Emergency Ordinance.

Section 1. The sum of \$7,400 is hereby appropriated out of the Emergency Reserve Fund, to the credit of the following appropriations of the Department of Public Works for the purposes recited:

Appropriation

Explanation.

Mr. Thomas A. Brooks, Chief Administrative Officer: "This has to do with truck rates that are established by the Public Utilities Commission of the State of California, formerly known as the Railroad Commission. Subsequent to the time the department filed its budget, the Public Utilities Commission of the State of California increased the truck rates and this money is necessary to maintain uninterrupted service in the department."

The following, from the Joint Public Utilities and Judiciary Committee without recommendation, was taken up:

Present: Supervisors J. Joseph Sullivan, Lewis, MacPhee, Meyer.

Requesting Mayor to Establish the Coordinating Council for the Transportation and Traffic for the City and County of San Francisco, for the Formulation of an Over-All Plan of Transportation and Traffic With Its Estimated Costs and Method for Financing the Same.

Proposal No. 6169, Resolution: No. . . . (Series of 1939), as follows

Whereas, San Francisco has a problem of providing as soon as possible:

1. Adequate and safe facilities for the pedestrian within the business district;
2. A modern transit service from all outlying areas of the City;
3. Adequate suburban transit facilities, including satisfactory terminals coordinating with local transit and vehicular facilities;
4. Safe and convenient access to the business district for motor vehicles;
5. Provision for off-street parking;
6. Provision for merchandise deliveries; and

Whereas, over the past years many plans and surveys have been prepared at considerable expense and presented to city officials, departments and commissions concerning the above transportation and traffic problems; and

Whereas, the outstanding need in San Francisco is an analysis of all existing data, plans and possibilities relating to traffic and transportation and the consideration of all practical methods of improving transportation facilities and the determination of the most practical solution and of the manner in which the over-all plan may be financed and to include all of these complex matters in one comprehensive analysis; and

Whereas, it is imperative that these problems be given simultaneous consideration rather than proceeding on a program of isolated and unrelated improvements; and

Whereas, the various departments and commissions of the City and County of San Francisco have given to them under the Charter exclusive jurisdiction of the particular transportation and traffic matters within their respective control; and

Whereas, because of lack of time and adequate funds, the analysis of transportation facilities of the Master Plan did not consider the many details essential to a complete solution of the problem and the time allotted did not permit complete analysis of all data, comparisons of various plans and discussions of details; and

Whereas, the Master Plan admits that it does not definitely recommend a comprehensive plan of facilities as evidenced by the following language of the plan:

"The Planning Commission is not prepared to recommend definitely a comprehensive plan of facilities essential to the continued development of the Central Business District. In the above, it has been indicated that the problem is complex. It is certain that the solution depends on providing safe and rapid transit services and, at the same time, on providing convenient access to the district, for those who, for any reason, prefer to use their private automobiles. A complete investigation of all alternates is required to establish what can be accomplished by the various plans and the cost of each";

And Whereas, there is a conflict between the Newton Plan and the Master Plan, as evidenced by the following language of the Master Plan:

"The Newton Plan for the improvement of transportation facilities proposed the removal of the two outside car tracks from Market Street and the addition of a lane of trolley coaches along each curbing.

"Before it is adopted, *even as a temporary expedient*, this proposal should receive complete analysis. It may be questioned if the plan affords an improvement over existing conditions. It would force street car passengers to cross two vehicular lanes. It fails to provide additional vehicular capacities during peak hours. Driving between a lane of buses or a lane of street cars would probably add to vehicular accidents."

And Whereas, the Master Plan recommends a complete investigation of the Market Street problem by the following language from the Plan:

"The Planning Commission . . . endorses generally the proposal of the Citizens' Post War Committee for a complete investigation of the Market Street problem."

And whereas, there is an immediate need for all city departments to work together with responsible citizens of the City and County of San Francisco as a unit to consider the over-all plan of traffic and transportation; and

Whereas, no substantial capital expenditures should be made in the future for any isolated improvement on a major scale for transportation or traffic until a definite decision for an over-all plan be made; and

Whereas, the most satisfactory plan will be one developed by the combined efforts of the various city departments and commissions of San Francisco that are charged with the responsibility of the improvement and policy of traffic and transportation; and

Whereas, the Citizens' Post War Committee has recommended that the City Planning Commission and the City Departments involved proceed to cooperate in making a final study and in said report state, as follows:

"The problem will not be solved alone by such individual projects as (1) extensions of streets across Market Street, (2) overhead or underground cross streets, (3) development

of parallel or other relief streets, (4) surface improvements on Market Street, or (5) traffic control devices on Market Street. . . ."

"With these thoughts in mind all plans for the removal of tracks and resurfacing of Market Street should be thoroughly scrutinized and evaluated so that they will fit into the ultimate program. No other related street improvements should be pursued unless they are calculated to synchronize with the ultimate development. . . ."

"The City has already made a number of studies at considerable cost for the solution of the problem presented by Market Street. This Committee does not recommend just another study, which might be done possibly for \$300,000. It does recommend a final study, together with the development of engineering and working plans, and for that reason has allocated \$3,000,000 for the purpose. It further recommends that the City Planning Commission and other City Departments involved be directed to proceed to cooperate in the immediate solution of this problem. Furthermore, we recommend that as soon as a report is made acceptable to the City officials, the Board of Supervisors take steps to finance and complete the project."

Now, therefore, be it

Resolved, That the Mayor establish an organization for the formulation of an over-all plan of transportation and traffic with its estimated costs and method for financing the same and that public or private hearings be held at the discretion of the organization so formed; and be it

Further Resolved, That said organization be composed of the Mayor, three members of the Board of Supervisors, the Chief Administrative Officer, the Chief of Police, the Public Utilities Commission, the Planning Commission, the Park Commission, the Police Commission, the Controller, the Director of Public Works, the Manager of Utilities, the City Engineer and seven (7) citizens of the City and County of San Francisco. The Board of Supervisors shall select the names of the three members who shall be members of said committee. That said organization shall name its own chairman and formulate its own plans of procedure; and be it

Further Resolved, That the plan so adopted by the said organization shall be offered to the citizens of the City and County of San Francisco as soon as possible, to be financed by the type of bond issue determined by said organization and such submission to the general public will be made at the election immediately following the last hearing date of the organization; and be it

Further Resolved, That the organization shall meet at least once a week until its business has been completed. The name of the organization so created shall be known as the Coordinating Council for the Transportation and Traffic for the City and County of San Francisco.

Setting of Special Order—December 23, 1946, 2:30 P. M., to Be Considered by Committee of the Whole.

Supervisor MacPhee moved, seconded by Supervisor Lewis, that consideration of the above, Proposal No. 6169, entitled: "Requesting Mayor to Establish the Coordinating Council for the Transportation and Traffic for the City and County of San Francisco, for the Formulation of an Over-all Plan of Transportation and Traffic With Its Estimated Costs and Method for Financing the Same," be postponed to December 23, 1946, 2:30 p. m., and considered by the Board sitting in Committee of the Whole.

No objection and so ordered.

Consideration Postponed.

The following, called from the Committee on County, State and National Affairs, was taken up:

In the meeting of the Board of Supervisors on Monday, December 2, 1946, Supervisor Christopher requested that Proposal No. 6222 be withdrawn from Committee and presented to the Board for its consideration on Monday, December 9, 1946.

Requesting His Honor the Mayor to Appoint a Citizens' Committee to Act as Mediation and Arbitration Board in Local Labor Disputes.

Proposal No. 6222, Resolution No. . . . (Series of 1939), as follows:

Whereas, the most crippling maritime strike in the history of our nation is in progress and has been in effect for a number of weeks, during which period no merchant ship has unloaded its cargo at any West Coast harbor, no merchant ship carrying a commercial cargo has sailed out of a West Coast port, vital imports needed for reconversion have been prevented from coming into the country, and shortages of needed materials have grown with each day; and

Whereas, past experience with such situations and conditions has conclusively demonstrated that the interests of all citizens of communities visited by such a strike must inevitably be adversely affected; and

Whereas, the interests and well-being of the community as a whole must at all times be considered paramount to the desires, aims and objectives of any minority group thereof; and

Whereas, in similar controversies, the American method of arbitration of disputes between employer and employee has been accepted as the only fair, sound and reasonable means of reaching a meeting of minds and an equitable settlement; now, therefore, be it

Resolved, That his Honor the Mayor be and he is hereby requested to appoint a citizens' committee to be composed of qualified representatives of the community, whose duty and purpose it shall be to act as a labor relations committee and a mediation and arbitration board, to the end that not only the current maritime strike, but also any other labor disputes and threatened or actual strikes and work-stoppages, which affect the welfare of the City and County of San Francisco, may be, by arbitration, quickly and equitably culminated.

Discussion.

Supervisor Christopher pointed out that since the Mayor was absent from the city, he believed it would be advisable to postpone consideration of the matter for two weeks.

Accordingly, Supervisor Christopher moved, seconded by Supervisor Mancuso, that consideration of Proposal No. 6222 be continued for a period of two weeks.

No objection and so ordered.

Consideration of Finance Committee Report on Bill No. 4450, Appropriating the Sum of \$1,140 Out of the Emergency Reserve Fund to Provide Funds in the Recreation Department for the Repair of Boiler at Glen Park Fieldhouse; An Emergency Ordinance.

Supervisors Lewis and Mead presented:

Bill No. 4450, Ordinance No. . . . (Series of 1939), as follows:

Appropriating the sum of \$1,140 out of the Emergency Reserve Fund to provide funds in the Recreation Department for the repair of boiler at Glen Park Fieldhouse; an emergency ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The sum of \$1,140 is hereby appropriated out of the Emergency Reserve Fund, to the credit of Appropriation No. 613.213.00, Repairs to Public Buildings, Recreation Department, to provide funds for the repair of boiler at Glen Park Fieldhouse.

Section 2. This ordinance is passed as an emergency ordinance, and the Board of Supervisors does hereby declare by the vote by

which this ordinance is passed that an actual emergency exists which necessitates these funds being provided from the Emergency Reserve Fund and this ordinance becoming effective forthwith, the nature of the emergency being: The repair of this boiler, which supplies steam heat and hot water for a large fieldhouse in use both day and night, is immediately necessary for the protection of life and property of the citizens of the City and County of San Francisco. This fieldhouse serves a large neighborhood community and the gymnasium is also used for boys and girls inter-playground activity. This expenditure could not be anticipated for budget purposes as the condition of the boiler was discovered on a periodic survey made by the insurance company which carries the boiler insurance. There are no other funds available for the purpose.

Recommended by the Superintendent of the Recreation Department.

Discussion.

Supervisor Lewis stated that the question of personalities should not enter into this matter. The question before the Board is whether or not this is an emergency. We have a letter before us from the Acting Mayor, Hon. Chester R. MacPhee, and also his statement that he went out to see the condition of the boiler and, without any attempt at personalities, I feel that this matter is an emergency, and I feel it incumbent to send the bill before the Board.

Supervisor Mancuso stated that he did not approve of the procedure, that he did not call a meeting and the only time a member may call a meeting is when the chairman of the committee is not present; that the matter is now in committee and that no hearing has been held on it.

Supervisor Mancuso continued by asserting that he intended to know all about the matter and that it could be considered at the next meeting of the committee when all of the facts can be made known; that this procedure was just an extra facility the taxpayers were paying for; that the two members had no right to call a committee meeting when the chairman is present and available and has not called a committee meeting.

President of the Board Dan Gallagher asked Miss Josephine D. Randall, Superintendent of the Recreation Department, when the boiler broke down.

Miss Randall stated the insurance adjusters made periodic inspections and on the last inspection trip, the adjusters instructed us to close the plant down.

Reference to Committee.

Supervisor MacPhee moved, seconded by Supervisor McMurray, that the matter be referred to Finance Committee.

Whereupon the roll was called and the matter above referred to was referred to Finance Committee by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor Meyer—1.

Adopted.

**Requesting Opinion From Attorney-General of the United States if,
Under Provisions of County Highway Act of 1945, San Francisco
Will Receive Benefits as Provided by Public Law 521.**

Supervisor Christopher presented:

Proposal No. 6302, Resolution No. 6067 (Series of 1939), as follows:

Whereas, under the provisions of Public Law 521, 78th Congress, there was made available for distribution to the States, to be expended upon secondary and feeder roads during the three-year period immediately following termination of the war, the sum of \$150,000,000, apportionment of which sum will make available to the State of California, for the purposes specified approximately the sum of \$15,000,000; and

Whereas, subdivision (b) of Section 3 of Public Law 521, 78th Congress, provides that there shall be made available the sum of \$150,000,000 for projects on the principal secondary and feeder roads, including farm-to-market roads, rural free delivery mail and public school bus routes, either outside of municipalities or inside of municipalities of less than five thousand population: provided that these funds shall be expended on a system of such roads selected by the State highway departments in cooperation with the county supervisors, county commissioners, or other appropriate local road officials and the Commissioner of Public Roads: provided further, that in any State having a population density of more than two hundred per square mile, as shown by the latest available Federal census, the said system may be selected by the State highway department with the approval of the Commissioner of Public Roads without regard to included municipal boundaries: provided further, that any of such funds for secondary and feeder roads which are apportioned to a State in which all public roads and highways are under the control and supervision of the State highway department may, if the State highway department and the Commissioner of Public Roads jointly agree that such funds are not needed for secondary and feeder roads, be expended for projects in such State on the Federal-aid highway system; and

Whereas, subdivision (c) of Section 3 of the Act referred to provides that there shall be made available the sum of \$125,000,000 for projects on the Federal-aid highway system in urban areas; and

Whereas, pursuant to the provisions of Public Law 521, there has been appropriated by the State of California, the sum of \$12,000,000 for expenditure upon roads within this State presumably in accordance with the conditions prescribed in Public Law 521; and

Whereas, Section 2 of the County Highway Aid Act of 1945 (State of California) provides in part as follows:

Section 2. As used in this Act, "county highway" means county highway as defined by Section 25 of the Streets and Highways Code, which is on the system of secondary and feeder roads as defined by the Federal-aid Highway Act of 1944.

Inasmuch as the funds available for construction of highways pursuant to the provisions of subdivision (b) of Section 3 of the Federal-aid Highway Act of 1944 may not be expended in any municipality of 5,000 or more population, "county" as used in this act does not include a city and county.

and

Whereas, it is contended that because of the provision immediately foregoing, there will not be apportioned to the City and County of San Francisco, by the State of California, that amount of money for road construction to which San Francisco is entitled and that the formula for distribution of the Federal-aid funds prescribed by the Legislature of the State of California does not accord with the intention or the letter of Public Act 521; now, therefore, be it

Resolved, That in order conclusively to resolve this question and to assure that the City and County of San Francisco shall receive full benefits under Public Law 521, 78th Congress, this Board of Supervisors does hereby address Congressman Richard J. Welch and does request that there be procured from the Attorney-General of the United States, an opinion indicating whether or not under the provisions of the County Highway Act of 1945, the City and County of San Francisco will receive all the benefits intended and prescribed by Public Act 521; and be it

Further Resolved, That a copy of this resolution be transmitted to Congressman Richard J. Welch.

Extending Greetings to American Farm Bureau Federation Now in Convention Assembled in San Francisco.

Supervisor Colman presented:

Proposal No. 6305, Resolution No. 6070 (Series of 1939), as follows:

Whereas, the American Farm Bureau Federation, one of the Nation's major farm organizations, is now holding its annual convention in San Francisco; and

Whereas, agriculture is recognized universally as the cornerstone of the Nation's economy; and

Whereas, California is the No. 1 agricultural state of the Nation, both in variety of production and value of product; and

Whereas, San Francisco, by its recognition of the importance of agriculture and cooperation with the farmer, has earned the title of "the city that serves agriculture"; now, therefore, be it

Resolved, By the Board of Supervisors of the City and County of San Francisco, that friendly greetings be and hereby are extended to the American Farm Bureau Federation, with the best wishes of San Francisco for a constructive and successful convention.

Memorializing the President of the United States to Release Land in the Presidio for Residential Purposes.

Supervisor Gallagher presented:

Proposal No. 6306, Resolution No. . . . (Series of 1939), as follows:

Whereas, San Francisco's physical location, which is for all practical purposes insular in nature, has had the effect of stringently lim-

iting the space available for construction of civilian housing facilities, the result of which has been the creation of a serious and ever-increasing housing shortage; and

Whereas, if San Francisco is to expand and continue to maintain its position, commercial and otherwise, which is vitally strategic to the welfare of the Nation, it is imperative that all such space within its confines as is not now devoted to some other necessary purpose and which is adaptable for the construction of dwelling places, be immediately made available for such purpose; and

Whereas, the Federal Government through its own experience is intimately familiar with the housing shortage which prevailed in San Francisco during World War II, and which is now more pronounced than ever, and with the deterrent effects which such inadequacy will produce in connection with any program of national effort; and

Whereas, The Presidio of San Francisco, long occupied and used by the United States Army, represents an ideal site, centrally located and of great natural beauty, for the development of a residential community which will provide ideal living accommodations for a great number of families and which will in large measure alleviate the housing shortage and seriously overcrowded conditions which now confront, and seriously menace the well-being of, the City and County of San Francisco; and

Whereas, the President of the United States, during the course of conducting preliminary negotiations for the selection of a permanent site for the United Nations organization, offered The Presidio to said organization for such purpose, and thereby in effect recognized and declared that The Presidio is no longer essential for military use; now, therefore, be it

Resolved, That this Board of Supervisors, cognizant of the value to and need by the Nation for the fullest development of San Francisco's natural facilities for use both in peace and in time of national emergency, and aware of the necessity for such additional space and housing facilities as will permit such development, does hereby memorialize the President of the United States and does respectfully urge the immediate institution of such procedure as is necessary to provide for the relinquishment, and transfer to private ownership, of all that land lying within the confines of The Presidio of San Francisco which is not necessary for military purposes; and, be it

Further Resolved, That copies of this resolution be immediately sent to His Excellency the President of the United States, to Senator Sheridan Downey, to Senator William F. Knowland, to Congressman Richard J. Welch, and to Congressman Franck R. Havenner.

Discussion on Underground Garages—Privilege of the Floor.

Supervisor MacPhee moved that the privilege of the floor be permitted for Mr. Leonard Mosias for the purpose of informing the Board whether anything can be done to provide off-street parking.

No objection and so ordered.

Mr. Leonard Mosias, an architect, pointed out to the Board the urgent necessity for the formulation of an overall traffic plan; that the proposed second bridge construction as well as the contemplated extension and widening of the Bay Shore Highway will result in a heavier volume of traffic entering San Francisco and that an overall plan should be adopted to provide additional parking facilities in San Francisco. He had contacted the City Planning Commission and they had told him that they did not wish to take any action until the Mayor had appointed an advisory board, composed of the heads of departments, such as the City Planning Commission, the Public Utilities Commission and the Department of Public Works. That

Board should be a unified board so that all ideas could be consolidated and a coordinated program adopted. If the City Planning Commission does not possess the type of men to perform this job, it should go out and get them. The City Planning Commission should make a comprehensive study along technical lines; problems of parking, for instance, below Mission and Third and up to Sixth or Seventh Streets. Then there is the problem of people coming in from the Marina and from Marin County. Mr. Mosias concluded his presentation by stating that it was his recommendation that action be taken to start the ball rolling.

**Report from the Judiciary, Legislative and Civil Service Committee,
Re Hearing of Protests of Certain Veterans Who Have Applied
for Positions in the Police and Fire Departments.**

Supervisor MacPhee, Chairman of the Judiciary Committee, explained that the members of the Committee had attended the meeting of the Civil Service Commission on Wednesday, December 11th and that only one side of the controversy had been heard, namely the protests submitted by the protestants.

Supervisor J. Joseph Sullivan pointed out that the Civil Service Commission contended the examinations were legally conducted and that certain cases of neurosis were to be reopened.

Supervisor Mead stated that it should be the Board's business to conduct a thorough examination in this matter; that as an example, a young man who had been employed on a limited tenure basis, was turned down for the reason that he was missing one tooth.

Privilege of the Floor.

Supervisor Mead moved the privilege of the floor for Mr. A. Long, representing the Fire Fighters Post of the American Legion, who stated that he was representing the rejectees of the Police and Fire Departments; that 90 per cent of the rejectees were veterans; that those who were rejected because of alleged high blood pressure should be reexamined because the excitement, tension and the long waiting period before they were actually examined, tended to increase the pressure, which otherwise would have been normal; that it was determined that 90 per cent of all neurotic cases could be cured in a period from 6 months to one year, and that the Secretary of the Civil Service Commission had stated that he, the medical examiner of the Civil Service Commission and the members thereof had decided that no protests would be allowed.

Mr. William L. Henderson, Personnel Director and Secretary of the Civil Service Commission emphatically denied that he issued any statement to the effect that the Commission would not consider protests, that those who desired to protest were told to do so in writing; that what he probably did say was that the Commission would be unwilling to overrule the findings of the medical examiners; that the Commission had reviewed all protests and had denied all with the exception of 11 cases which the medical board would review.

No action was taken by Board.

Appropriating the Sum of \$1,140 Out of the Emergency Reserve Fund to Provide Funds in the Recreation Department for the Repair of Boiler at Glen Park Fieldhouse; an Emergency Ordinance.

Bill No. 4450, Ordinance No. 4194 (Series of 1939), as follows:

Appropriating the sum of \$1,140 out of the Emergency Reserve Fund to provide funds in the Recreation Department for the repair of boiler at Glen Park Fieldhouse; an emergency ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The sum of \$1,140 is hereby appropriated out of the Emergency Reserve Fund, to the credit of Appropriation No. 613.213.00, Repairs to Public Buildings, Recreation Department, to provide funds for the repair of boiler at Glen Park Fieldhouse.

Section 2. This ordinance is passed as an emergency ordinance, and the Board of Supervisors does hereby declare by the vote by which this ordinance is passed that an actual emergency exists which necessitates these funds being provided from the Emergency Reserve Fund and this ordinance becoming effective forthwith, the nature of the emergency being: The repair of this boiler, which supplies steam heat and hot water for a large fieldhouse in use both day and night, is immediately necessary for the protection of life and property of the citizens of the City and County of San Francisco. This fieldhouse serves a large neighborhood community and the gymnasium is also used for boys and girls inter-playground activity. This expenditure could not be anticipated for budget purposes as the condition of the boiler was discovered on a periodic survey made by the insurance company which carries the boiler insurance. There are no other funds available for the purpose.

Approved by the Recreation Commission.

Approved as to form by the City Attorney.

Approved as to funds available by the Controller.

Discussion.

Supervisor Mancuso stated that in his opinion the purport of Bill No. 4450 did not constitute an emergency and therefore moved that the emergency clause contained therein be stricken.

Motion lost for want of a second.

The Clerk read an opinion from the City Attorney advising the Board in part: "that a bill providing an appropriation from the Emergency Reserve Fund is not required to be in the form of an emergency ordinance, that is, to contain a definition of the emergency for which the funds are appropriated, unless reference to committee and readings and votes at separate meetings are waived in accordance with the provisions of Section 13 of the Charter. If this is done, the bill must contain emergency provisions in accordance with that section; otherwise, it need not contain them. Whether the bill takes the usual course of committee action and two readings and votes of the Board at separate meetings or is passed without committee report and on first reading, it must receive on final passage 'the vote of three-fourths of the Board of Supervisors,' as required by section 79 of the Charter."

Statement of the Controller.

Mr. Harry D. Ross, Controller, was permitted the privilege of the floor to explain the use of the word "emergency" and stated that "there were two types of emergencies: the first dealing with the use of the money itself for an emergency as defined in Sections 16 and 25 of the Charter and which requires a three-fourths vote; and the second, the necessity of the measure taking effect immediately as outlined in Section 16 of the Charter and there must be a recitation of why you are doing it."

Whereupon the roll was called and Bill No. 4450 was *Finally Passed* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—10.

Whereas, the Planning Authority has the power to condemn land and submit bond issues to facilitate off street parking; and

ing and it would be beneficial for the City and County of San Francisco to appoint such a Planning Authority; now, therefore, be it

Resolved, That this Board of Supervisors does hereby respectfully request the Mayor to appoint a Planning Authority which shall conduct a survey to determine what lands, if any, should be condemned and whether or not a bond issue should be floated to insure proper and sufficient off street parking in San Francisco.

Section 1. The word "vehicle," as used herein, shall mean any device, in, upon, or by which any person or property is or may be propelled, moved, or drawn upon a highway, excepting a device moved by human power or used exclusively upon stationary rails or tracks.

The word "park," as used herein, shall mean the standing of a vehicle, except a licensed taxicab occupying a taxicab stand as authorized by the Chief of Police, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading of freight.

The words "parking meter," when used herein, shall mean any device which, when the recording dial thereof is set in motion, or immediately following the deposit of any coin, shall register the time that any vehicle is parked adjacent to said parking meter.

Section 2. The Police Commission of the City and County of San Francisco is hereby authorized to establish parking-meter zones, each of which zones shall be of sufficient size to permit the parking of one (1) vehicle only, on any street on which time limitations have heretofore been, or may hereafter be, provided by ordinance or resolution of the Board of Supervisors, and to place upon the sidewalk adjacent to said parking zone such device or devices as the said Commission shall deem proper which will, upon the deposit of a coin or coins, set the mechanical equipment of said device in motion, or permit the said mechanical equipment to be set in motion, so that the said device will accurately measure, in minutes, the period of time during which said vehicle may park in said parking-meter zone. Said parking meter shall be constructed and mechanically equipped so that the same will, upon the expiration of the period of time, commencing with the deposit of said coin or coins, and ending with the expiration of the period of time that the parking of a vehicle is, by resolution of the Board of Supervisors, permitted in said parking-meter zone as a result of said deposit of a coin or coins, display a flag, sign or signal which will indicate that the permitted time for the parking of said vehicle, has expired. The Board of Supervisors shall also indicate, by resolution, the period of time vehicles may be parked in the area or areas in which parking-meter zones may be established.

Section 3. No person shall park any vehicle in any parking-meter zone, as established under the authority of this ordinance, except as permitted by this ordinance, without immediately depositing in the parking meter adjacent to the said zone a coin or coins, lawful money of the United States, unless said parking meter indicates at the time such vehicle is parked that an unused portion remains of the period for which a coin or coins was or were previously deposited; nor shall any person permit any vehicle to remain parked in any parking-meter zone beyond the time permitted by ordinance or resolution for the parking of vehicles in the block in which said parking-meter zone is situated, or during any time when said parking meter indicates that no portion remains of the period for which the last previous coin or coins was or were deposited, except that a vehicle may be parked and remain parked in a parking-meter zone without the deposit of any coin in the parking meter adjacent thereto during hours when unlimited or unrestricted parking is permitted by ordinance in the block in which said zone is situated.

Section 4. The denomination of the coin or coins that shall be deposited in the parking meters, the parking time allowed following deposit of such coins, and the hours during which such deposits are required, shall be fixed from time to time by resolution of the Board of Supervisors for the area or areas in which parking meters are now or may hereafter be installed.

Section 6. Parking meters shall be installed, maintained and repaired by the Department of Electricity, except as provided in section 15 hereof.

Section 7. The Police Commission shall have full power and authority to allot and cause to be indicated by suitable lines or by other means of indication, the space within which any vehicle must be parked on any street or block on which parking meters are installed, as well as to select the particular part of the curb or sidewalk adjacent to the said parking-meter zone on which said parking meter shall be installed.

Section 10. The coins required to be deposited as provided herein are hereby levied as police regulation and inspection fees to cover the cost of inspection and regulation involved in the inspection, installation, operation, control and use of the parking spaces and parking meters described herein and involved in checking up and regulating the parking of vehicles in the parking-meter zones created hereby, as well as for the regulation of traffic.

Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than two dollars (\$2.00) nor more than five dollars (\$5.00), or by imprisonment in the county jail for a term not exceeding five (5) days, or by both such fine and imprisonment.

Section 12. If any section, sub-section, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, sub-section, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, sub-sections, sentences, clauses or phrases be declared unconstitutional.

Section 13. Any ordinance inconsistent with any of the terms and provisions of this ordinance is hereby repealed, provided, however, that such repeal shall be only to the extent of such inconsistency and in all other respects this ordinance shall be cumulative of other ordinances regulating and governing the subject matter covered by this ordinance.

Section 14. Coins deposited in parking meters shall be collected by the Tax Collector and deposited in the Treasury of the City and County of San Francisco.

Section 16. No parking meter shall be installed by said Police Department, or under its direction, unless the person, firm or corporation furnishing said parking meter shall agree to hold and save the city, its officers and employees harmless from all claims for damages of every kind and nature, arising from, or incident to, any claims or demand for any infringement of any patent or copyright covering or alleged to cover any parking meter installed under authority of this ordinance and refund and pay on demand to the city or to any of its officers or employees any and all amounts which the said city or any of its officers and employees may expend in defending or prosecuting any litigation incident to any alleged patent or copyright infringement on any of said meters so installed.

Section 17. The Controller shall provide the method for accounting for all moneys taken from said parking meters.

Section 18. The Board of Supervisors reserves the right to repeal or amend this ordinance at will, and no person, firm or corporation shall have or acquire any right to maintain on the streets of San Francisco any parking meter installed under authority of this ordinance beyond the effective period of this ordinance.

The following, from the Joint Public Utilities and Judiciary Committee, without recommendation, was taken up:

Present: Supervisors J. Joseph Sullivan, Lewis, MacPhee, Meyer.

Requesting Mayor to Establish the Coordinating Council for the Transportation and Traffic for the City and County of San Francisco, for the Formulation of an Over-All Plan of Transportation and Traffic With Its Estimated Costs and Method for Financing the Same.

Proposal No. 6169, Resolution: No. . . . (Series of 1939), as follows

Whereas, San Francisco has a problem of providing as soon as possible:

1. Adequate and safe facilities for the pedestrian within the business district;
2. A modern transit service from all outlying areas of the City;
3. Adequate suburban transit facilities, including satisfactory terminals coordinating with local transit and vehicular facilities;
4. Safe and convenient access to the business district for motor vehicles;
5. Provision for off-street parking;
6. Provision for merchandise deliveries; and

Whereas, over the past years many plans and surveys have been prepared at considerable expense and presented to city officials, departments and commissions concerning the above transportation and traffic problems; and

Whereas, the outstanding need in San Francisco is an analysis of all existing data, plans and possibilities relating to traffic and trans-

portation and the consideration of all practical methods of improving transportation facilities and the determination of the most practical solution and of the manner in which the over-all plan may be financed and to include all of these complex matters in one comprehensive analysis; and

Whereas, it is imperative that these problems be given simultaneous consideration rather than proceeding on a program of isolated and unrelated improvements; and

Whereas, the various departments and commissions of the City and County of San Francisco have given to them under the Charter exclusive jurisdiction of the particular transportation and traffic matters within their respective control; and

Whereas, because of lack of time and adequate funds, the analysis of transportation facilities of the Master Plan did not consider the many details essential to a complete solution of the problem and the time allotted did not permit complete analysis of all data, comparisons of various plans and discussions of details; and

Whereas, the Master Plan admits that it does not definitely recommend a comprehensive plan of facilities as evidenced by the following language of the plan:

"The Planning Commission is not prepared to recommend definitely a comprehensive plan of facilities essential to the continued development of the Central Business District. In the above, it has been indicated that the problem is complex. It is certain that the solution depends on providing safe and rapid transit services and, at the same time, on providing convenient access to the district, for those who, for any reason, prefer to use their private automobiles. A complete investigation of all alternates is required to establish what can be accomplished by the various plans and the cost of each";

And Whereas, there is a conflict between the Newton Plan and the Master Plan, as evidenced by the following language of the Master Plan:

"The Newton Plan for the improvement of transportation facilities proposed the removal of the two outside car tracks from Market Street and the addition of a lane of trolley coaches along each curbing.

"Before it is adopted, *even as a temporary expedient*, this proposal should receive complete analysis. It may be questioned if the plan affords an improvement over existing conditions. It would force street car passengers to cross two vehicular lanes. It fails to provide additional vehicular capacities during peak hours. Driving between a lane of buses or a lane of street cars would probably add to vehicular accidents."

And Whereas, the Master Plan recommends a complete investigation of the Market Street problem by the following language from the Plan:

"The Planning Commission . . . endorses generally the proposal of the Citizens' Post War Committee for a complete investigation of the Market Street problem."

And whereas, there is an immediate need for all city departments to work together with responsible citizens of the City and County of San Francisco as a unit to consider the over-all plan of traffic and transportation; and

Whereas, no substantial capital expenditures should be made in the future for any isolated improvement on a major scale for transportation or traffic until a definite decision for an over-all plan be made; and

Whereas, the most satisfactory plan will be one developed by the combined efforts of the various city departments and commissions of San Francisco that are charged with the responsibility of the improvement and policy of traffic and transportation; and

Whereas, the Citizens' Post War Committee has recommended that the City Planning Commission and the City Departments involved proceed to cooperate in making a final study and in said report state, as follows:

"The problem will not be solved alone by such individual projects as (1) extensions of streets across Market Street, (2) overhead or underground cross streets, (3) development of parallel or other relief streets, (4) surface improvements on Market Street, or (5) traffic control devices on Market Street. . . ."

"With these thoughts in mind all plans for the removal of tracks and resurfacing of Market Street should be thoroughly scrutinized and evaluated so that they will fit into the ultimate program. No other related street improvements should be pursued unless they are calculated to synchronize with the ultimate development. . . ."

"The City has already made a number of studies at considerable cost for the solution of the problem presented by Market Street. This Committee does not recommend just another study, which might be done possibly for \$300,000. It does recommend a final study, together with the development of engineering and working plans, and for that reason has allocated \$3,000,000 for the purpose. It further recommends that the City Planning Commission and other City Departments involved be directed to proceed to cooperate in the immediate solution of this problem. Furthermore, we recommend that as soon as a report is made acceptable to the City officials, the Board of Supervisors take steps to finance and complete the project."

Now, therefore, be it

Resolved, That the Mayor establish an organization for the formulation of an over-all plan of transportation and traffic with its estimated costs and method for financing the same and that public or private hearings be held at the discretion of the organization so formed; and be it

Further Resolved, That said organization be composed of the Mayor, three members of the Board of Supervisors, the Chief Administrative Officer, the Chief of Police, the Public Utilities Commission, the Planning Commission, the Park Commission, the Police Commission, the Controller, the Director of Public Works, the Manager of Utilities, the City Engineer and seven (7) citizens of the City and County of San Francisco. The Board of Supervisors shall select the names of the three members who shall be members of said committee. That said organization shall name its own chairman and formulate its own plans of procedure; and be it

Further Resolved, That the plan so adopted by the said organization shall be offered to the citizens of the City and County of San Francisco as soon as possible, to be financed by the type of bond issue determined by said organization and such submission to the general public will be made at the election immediately following the last hearing date of the organization; and be it

Further Resolved, That the organization shall meet at least once a week until its business has been completed. The name of the organization so created shall be known as the Coordinating Council for the Transportation and Traffic for the City and County of San Francisco.

December 9, 1946—Consideration continued to December 23, 1946.

Discussion.

Supervisor Lewis explained to the members of the Board the reason for his request that the Mayor establish a Coordinating Council for the purpose of formulating of an overall plan of traffic and transportation.

Supervisor Christopher stated that he was interested in getting people out of the downtown area in the shortest possible time.

Supervisor MacPhee asserted that he was in sympathy with the policy of Supervisor Lewis and that a lot of time had been put in on it and therefore deserving of a lot of credit. The San Francisco Junior Chamber of Commerce is also interested in this matter and had made many studies in conjunction with the City Planning Commission and in view of the communication from the Mayor's office to the Board, transmitting data in connection with report from the City Planning Commission entitled: "Planning for Planning—The Transportation Problem," the matter now under consideration should be returned to committee for the purpose of giving it further consideration and that the committee send in its recommendations to the Board.

Re-reference to Committee.

Accordingly, Supervisor MacPhee moved, seconded by Supervisor Meyer, that Proposal No. 6169 be re-referred to the Joint Committee on Public Utilities and Judiciary.

Supervisor Lewis asserted that the matter had been before the Board for a long time and that it was about time that definite action was taken on it.

Roll Call on Re-reference to Committee.

Whereupon the roll was called and Proposal No. 6169 was re-referred to the Joint Committee on Public Utilities and Judiciary, by the following vote:

Ayes: Supervisors Colman, MacPhee, Mancuso, Mead, Meyer, J. Joseph Sullivan—6.

Noes: Supervisors Christopher, Gallagher, Lewis, McMurray, John J. Sullivan—5.

Recommended by the Superintendent of the Recreation Department.

Approved by the Recreation Commission.

December 16, 1946.

Question on adoption:

Ayes: Supervisors MacPhee, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—5.

Noes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray—5.

Absent: Supervisor Colman—1.

Before the result of the foregoing roll call was announced, Supervisor Mead changed his vote from "Aye" to "No" and moved reconsideration at the next meeting of the Board. Supervisor Mead's motion was seconded by Supervisor J. Joseph Sullivan.

The vote then stood:

Ayes: Supervisors MacPhee, Meyer, J. Joseph Sullivan, John J. Sullivan—4.

Noes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray, Mead—6.

Absent: Supervisor Colman—1.

Motion on Reconsideration.

Supervisor Mead stated that he did not feel an explanation of the above matter should be indulged in at this time and expressed the hope that the Board members would see fit to adopt the motion to reconsider so that the Recreation Department could secure the \$24,000 loan from the Federal Government; furthermore, there is the assurance that in the event that the construction of the building failed to materialize, there was no obligation on the part of the city to repay the money.

Supervisors Lewis and Christopher expressed opposition to the motion to reconsider.

Whereupon the roll was called and the motion to reconsider *carried* by the following vote:

Ayes: Supervisors Colman, MacPhee, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—6.

Noes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray—5.

Discussion.

Supervisor MacPhee stated that it was the opinion of the Recreation Department that this project would serve all areas in San Francisco and would play an important part in combatting the effects of juvenile delinquency; that the Recreation Department hopes to float a bond issue to take care of all the recreational wants of the city and that no harm would ensue if the loan from the Federal Government were requested.

Privilege of the Floor.

Miss Randall, Superintendent of the Recreation Department, was accorded the privilege of the floor. She reiterated former statements that after much consideration, the Corona Heights site was selected because of its central location; that there would also be a neighborhood playground and that the location is very accessible to Market Street and to the other outlying districts. Furthermore, no other land in this vicinity was available.

Mr. Kittredge, who spoke on this matter at a previous meeting of the Board, was also accorded the privilege of the floor and expressed the hope that the loan would be requested from the Federal Government.

Mr. T. J. Kent, Jr., Acting Director of Planning for the City Planning Commission, stated that the Commission had studied the proposed project and it has its endorsement.

Mrs. Ruth Pownall, President of the Eureka Valley Promotion Association, expressed opposition to the project.

Supervisor McMurray reiterated his opposition, stating that any other location would have his blessing.

Whereupon the roll was called and Proposal No. 6299 *failed of adoption* by the following vote:

Ayes: Supervisors Colman, MacPhee, Mead, Meyer, J. Joseph Sullivan—5.

Noes: Supervisors Christopher, Gallagher, Lewis, Mancuso, McMurray, John J. Sullivan—6.

Requesting His Honor the Mayor to Appoint a Citizens' Committee to Act as Mediation and Arbitration Board in Local Labor Disputes.

Proposal No. 6222, Resolution No. . . . (Series of 1939), as follows:

Whereas, the most crippling maritime strike in the history of our nation is in progress and has been in effect for a number of weeks, during which period no merchant ship has unloaded its cargo at any West Coast harbor, no merchant ship carrying a commercial cargo has sailed out of a West Coast port, vital imports needed for reconversion have been prevented from coming into the country, and shortages of needed materials have grown with each day; and

Whereas, past experience with such situations and conditions has conclusively demonstrated that the interests of all citizens of communities visited by such a strike must inevitably be adversely affected; and

Whereas, the interests and well-being of the community as a whole must at all times be considered paramount to the desires, aims and objectives of any minority group thereof; and

Whereas, in similar controversies, the American method of arbitration of disputes between employer and employee has been accepted as the only fair, sound and reasonable means of reaching a meeting of minds and an equitable settlement; now, therefore, be it

Resolved, That his Honor the Mayor be and he is hereby requested to appoint a citizens' committee to be composed of qualified representatives of the community, whose duty and purpose it shall be to act as a labor relations committee and a mediation and arbitration board, to the end that not only the current maritime strike, but also any other labor disputes and threatened or actual strikes and work-stoppages, which affect the welfare of the City and County of San Francisco, may be, by arbitration, quickly and equitably culminated.

December 9, 1946—Consideration continued to December 23, 1946.

Supervisor Christopher moved, seconded by Supervisor McMurray, that Proposal No. 6222 be re-referred to the County, State and National Affairs Committee.

No objection and so ordered.

The following recommendation of County, State and National Affairs Committee, was taken up:

Present: Supervisors Lewis, McMurray, Meyer, Sullivan.

Memorializing the President of the United States to Relinquish Certain Land in Presidio Not Suitable for Military Purposes to Private Ownership to Meet Housing Needs.

Proposal No. 6306, Resolution No. 6097 (Series of 1939), as follows:

Whereas, San Francisco's physical location, which is for all practical purposes insular in nature, has had the effect of stringently limiting the space available for construction of civilian housing facilities, the result of which has been the creation of a serious and ever-increasing housing shortage; and

Whereas, if San Francisco is to expand and continue to maintain its position, commercial and otherwise, which is vitally strategic to the welfare of the Nation, it is imperative that all such space within its confines as is not now devoted to some other necessary purpose and which is adaptable for the construction of dwelling places, be immediately made available for such purpose; and

Whereas, the Federal Government through its own experience is intimately familiar with the housing shortage which prevailed in San Francisco during World War II, and which is now more pronounced than ever, and with the deterrent effects which such inadequacy will produce in connection with any program of national effort; and

Whereas, the Presidio of San Francisco, long occupied and used by the United States Army, represents an ideal site, centrally located and of great natural beauty, for the development of a residential community which will provide ideal living accommodations for a great number of families and which will in large measure alleviate the housing shortage and seriously overcrowded conditions which now confronts, and seriously menaces the well-being of, the City and County of San Francisco; and

Whereas, the President of the United States, during the course of conducting preliminary negotiations for the selection of a permanent site for the United Nations organization, offered the Presidio to said organization for such purpose, and thereby in effect recognized and declared that the Presidio is no longer essential for military use; now, therefore, be it

Resolved, That this Board of Supervisors, cognizant of the value to and need by the Nation for the fullest development of San Francisco's natural facilities for use both in peace and in time of national emergency, and aware of the necessity for such additional space and housing facilities as will permit such development, does hereby memorialize the President of the United States and does respectfully urge the immediate institution of such procedure as is necessary to provide for the relinquishment, and transfer to private ownership, of all that land lying within the confines of the Presidio of San Francisco which is not necessary for military purposes; and, be it

Further Resolved, That copies of this resolution be immediately sent to His Excellency the President of the United States, to Senator Sheridan Downey, to Senator William F. Knowland, to Congressman Richard J. Welch, and to Congressman Franck R. Havenner.

Adopted by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, Meyer, J. Joseph Sullivan, John J. Sullivan—11.

**Urging California's Delegation in Congress to Oppose H. R. 6201,
Known as the Roosevelt Memorial Redwood Forest Bill.**

Proposal No. 6331, Resolution No. . . . (Series of 1939), as follows:

Whereas, there is pending in Congress the Helen Gahagan Douglas Forest Bill, No. H. R. 6201, also known as the Roosevelt Memorial Redwood Forest Bill; and

Whereas, among other objects, this bill proposes to place under control of the Federal Government practically the whole of California's Coastal Redwood belt covering areas aggregating five hundred square miles, and provides for an appropriation by Congress in the amount of \$125,000,000 from an already overburdened Treasury to carry out the purposes of the act; and

Whereas, under the guise of creating a memorial, this bill is in fact, an attempt to nationalize the source of raw material of the Redwood Industry, thus rendering impracticable the continued operation of many existing mills and creating immeasurable economic loss and serious weakening of the local government; and

Whereas, there are sixty thousand acres of redwood lands in California now dedicated to park purposes; and

Whereas, the California Forest Practices Act guarantees the orderly, economical and scientific exploitation of the timber lands described in the bill through selective logging, fire prevention rules, inspections and preservation measures; now, therefore, be it

Resolved, That this Board of Supervisors cognizant of the harm that would inure to the several Counties of California affected by this bill, hereby expresses its opposition to the enactment of Bill No. H. R. 6201; and be it

Further Resolved, That copies of this resolution be forwarded to Senators Downey and Knowland and Congressmen Havenner and Welch, in order that they may lend their full support in opposing this bill; and be it

Further Resolved, That a copy of this resolution also be sent to the Board of Supervisors of Humboldt County, California.

Supervisor Christopher moved, seconded by Supervisor Colman, that the above matter be put over for a period of two weeks.

Supervisor McMurray moved, as a substitute, seconded by Supervisor Colman, that the matter be re-referred to Committee.

Whereupon the roll was called and Proposal No. 6331 was re-referred to the County, State and National Affairs Committee by the following vote:

Ayes: Supervisors Christopher, Colman, Gallagher, MacPhee, McMurray, J. Joseph Sullivan—6.

Noes: Supervisors Lewis, Mancuso, Mead, Meyer, John J. Sullivan—5.

The following, recommendations of Streets Committee, were taken up:

**Urging State Highway Commission to Widen, Improve and Expand
Route 101 and 101 Alternate to Four-Lane Highways.**

Proposal No. 6332, Resolution No. 6102 (Series of 1939), as follows:

Whereas, the highway traffic between the northern and southern

portions of California has been and continues to be increased by the rapid influx of population within the State and the increasing number of motor vehicles; and

Whereas, all sections of the State are vitally interested in and affected by the aforementioned transportation facilities; and

Whereas, the existing primary roads between the two sections of the State, and particularly U. S. No. 101 and 101 Alternate are today totally inadequate to care for existing traffic, not to mention potential increases in population; now, therefore, be it

Resolved, That this Board of Supervisors hereby goes on record urging the State Highway Commission to use every facility at its command to widen, improve and expand Route 101 and 101 Alternate to four-lane highways at the earliest possible opportunity; and be it

Further Resolved, That a copy of this resolution be forwarded to the San Francisco delegation in the Assembly and to the Legislative Representative of the City and County of San Francisco, with request that they energetically support this program.

The Clerk presented:

Bill No. 4486, Ordinance No. (Series of 1939), as follows:

Amending Article 3, Part I of the San Francisco Municipal Code, by amending Section 255, Sub-section C, Subdivisions (i) and (ii) thereof, relating to disability retirement benefits, increasing certain

benefits thereof and adding a new provision limiting the disability retirement allowance to the nearest service retirement allowance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Subdivisions (i) and (ii) of sub-section C of section 255, Article 3, Part I, of the San Francisco Municipal Code, relating to allowances at disability retirement, are hereby amended to read as follows:

SEC. 255. Allowances at Disability Retirement. Upon retirement for disability as provided in the next preceding Section 254 of this Article, a member who has qualified for retirement for service under the provisions of Section 252 of this Article, except the provisions of such section permitting retirement below the normal retirement age after thirty (30) years of continuous service, shall receive a service retirement allowance as provided in said Section 252 of this Article and shall be considered as a service retirement, except as provided in sub-section (b) of this section; otherwise said member

(a) If he be a member under Section 166 or 169 of the Charter, shall receive a retirement allowance as provided in such sections for members, at January 8, 1932, of the Police and Fire Departments, respectively, upon disability retirement as distinguished from service retirement and death. Such retirement allowance shall be provided by the accumulated contributions credited to the member's individual account and by the city's contributions on account of prior service, and on account of service as a member of the system, in proportions as determined by the Retirement Board;

(b) If he be a member under Section 168 or 171 of the Charter, and if his disability, in the opinion of the Retirement Board, is the result of bodily injury received in the performance of duty, shall receive

(1) an annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and

(2) a pension purchased by contributions of the City, which, together with the annuity provided by his accumulated normal contributions, shall make his total retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, equal to one-half ($\frac{1}{2}$) of his final compensation. If said member shall have been continuously incapacitated for the performance of any duties from the date of, and shall die as a result of said injury, while receiving said retirement allowance, then said retirement allowance shall be continued, after his death, to his surviving wife to whom said member was married prior to sustaining said injury, to continue as long as she shall live or until her remarriage; or if there be no widow, or if the widow die before any child of such deceased member shall have attained the age of sixteen (16) years then to his child or children under said age collectively, to continue until every child dies or attains said age. A member qualifying for continuation of a retirement allowance under this paragraph shall not be subject to the provisions of this section referring to service retirement.

(c) If he be a member under Section 168 or 171 of this Charter, and if his disability, in the opinion of the Retirement Board, is not the result of bodily injury received in the performance of duty, or if he be a member under any other charter provisions, he shall receive

(1) an annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and

(2) a pension purchased by the contributions of the City, which together with the annuity provided by his accumulated normal contributions shall make the retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, equal to

(i) **[one and one-fourth ($1\frac{1}{4}$)] one and one-half ($1\frac{1}{2}$)** per cent of his final compensation multiplied by the number of years of city-service credited to him, if such retirement allowance exceeds **[one-fourth ($\frac{1}{4}$)] one-third ($\frac{1}{3}$)** of his final compensation; otherwise,

(ii) **[one and one-fourth ($1\frac{1}{4}$)] one and one-half ($1\frac{1}{2}$)** per cent of his final compensation multiplied by the number of years of city-service which would be creditable to him were his city-service to continue until attainment by him of age of sixty-two (62), but such retirement allowance shall not exceed **[one-fourth ($\frac{1}{4}$)] one-third ($\frac{1}{3}$)** of such final compensation. In the calculation of a retirement allowance under this paragraph in the case of a member having credit for more than one (1) class of service, that is, service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the final compensation in each case being that for the respective class of service; provided that the final compensation upon which the minimum total retirement allowance is calculated in such case shall be based on the compensation earnable by the member in the classes of service rendered by him during the ten years immediately preceding his retirement.

In no event, however, shall the pension provided by the contributions of the city be more than sufficient to make the disability retirement allowance, exclusive of the annuity provided by accumulated additional contributions, exceed the service retirement allowance, exclusive of any annuity provided by accumulated additional contributions, receivable by the member, should he retire at the lowest age at which he would be eligible for service retirement.

Expressing Appreciation to Congressman Richard J. Welch for His Wire Commending the Board of Supervisors on Their Interest in a Second Bay Bridge Crossing.

Supervisor Lewis presented the following telegram from Congressman Richard J. Welch:

“Recalling the splendid cooperation of the San Francisco Board of Supervisors and the active part taken by the committee of which you are chairman I invite your attention to the article appearing in the San Francisco News of December twentieth with reference to a second bay crossing emanating from the State Department of Public Works which sets forth the type and location of such a crossing it desires stop This coming from Engineer Purcell's organization clearly indi-

cates a state of mind diametrically in opposition to the best interests the crossing will serve as declared by every interest representing San Francisco in testimony before the joint Army Board investigating this matter stop This and other uncalled for attempts to influence the government engineers should not be permitted to go unchallenged."

Supervisor Lewis moved that the Board send a telegram to Congressman Welch, thanking him for his alertness in keeping in touch with the situation in connection with the proposed second Bay crossing and for keeping the Board informed thereof, and also reiterating San Francisco's position in favor of a crossing between the present bridge and Hunters Point which will bring transcontinental trains into San Francisco; further, that copies of Congressman Welch's wire to Supervisor Lewis, and of the Board's reply, be forwarded to State Engineer, Charles Purcell for his information. Motion seconded by Supervisor Mancuso.

Urging Federal Government That OPA Rent Restrictions Be Eliminated in Multiple Family Units.

Superivsor MacPhee presented:

Proposal No. 6354, Resolution No. . . . (Series of 1939), as follows:

Whereas, housing for our citizens is still one of the most important problems facing our country today; and

Whereas, many veterans and other citizens would prefer to rent rather than buy a home at this time; and

Whereas, private capital should be encouraged to build additional rental units thereby providing additional housing and creating a possible chain of rental units; and

Whereas, construction of multiple family dwelling units are not now being undertaken by private capital due to OPA rental restrictions on new rental units; now, therefore, be it

Resolved, That this Board of Supervisors cognizant of the need for providing additional multiple family units does hereby respectfully urge and recommend to the President of the United States, the Senate and Congress and to the Federal agencies involved, that OPA rent restrictions be eliminated only on new multiple family units being built for tenant occupancy.

Whereas, the Mount Zion Hospital Appeal Committee is currently conducting a fund-raising drive for a projected Mount Zion Medical Center, and has announced that its campaign to obtain \$3,250,000 in contributions will be extended into January, 1947; and

Whereas, it is contemplated that among the many new and progressive facilities to be offered by the proposed Center there will be the Bay Region's first private unit for hospitalization of psychiatric patients which will be available to all San Francisco doctors, and the work of the free psychiatric clinic, now used by the Juvenile Court and certain State departments, will be expanded; and

Memorializing Federal, State and City Agencies to Take Steps Looking to Completion of Veterans' Housing Projects in San Francisco.

Supervisor MacPhee presented:

Proposal No. 6356, Resolution No. 6122 (Series of 1939), as follows:

Whereas, two hundred six veterans' emergency housing dwellings in the Crocker Amazon and Hunters Point projects have been purportedly completed and are now awaiting acceptance by the San Francisco Housing Authority; and

Whereas, the Federal Public Housing Authority has notified all parties to the contracts that though these units do not meet the minimum requirements of the existing contracts they are completed within the ability of the Federal government to furnish funds; and

Whereas, the San Francisco Housing Authority claims that to accept these dwellings in their present condition would increase maintenance costs, resulting in operating losses which can be obtained only by additional appropriations from the City and County of San Francisco and the State of California; now, therefore, be it

Resolved, That this Board of Supervisors does hereby request the Chief Administrative Officer to survey these purportedly completed dwellings and report on their condition as soon as possible to the end that this Board of Supervisors and the Mayor and the State of California be advised as to current livability, possible life of interior walls as they now exist, possible danger to structures because of lack of drainage and absence of skirting on a three-year occupancy potential; and be it further

Resolved, That the San Francisco Housing Authority is hereby requested to seek a revision of the operating budget for these structures which is a part of the original contract by reference, to the end that a sufficient amount be added to said operating budget as to make up anticipated deficit due to increased maintenance; and be it further

Resolved, That this Board memorialize the President of the United States and Congress to seek inclusion in any deficiency appropriation that may be forthcoming in the next session of Congress sufficient sums to complete these units and the remainder of our 1,202 housing unit program in conformity with standards in existence at the time of the original agreement on a retroactive basis; and be it further

Resolved, That copies of this resolution be forwarded to the President; to Senators Downey and Knowland and to Congressmen Havenner and Welch; and be it further

Resolved, That copies of this resolution be also forwarded to the Governor of the State of California, the State Director of Reconstruction and Reemployment Commission and the Director of Finance of the State of California with the urgent request that cognizance be taken and proper action be instituted to the end that the purposes of this resolution will be effected.
